

NURSING (MSN)

The Master of Science Nursing program with an emphasis in Leadership and Management is designed to prepare professional nurses for direct and indirect leadership roles in a wide variety of health care settings. By building upon the students' previous experience and advancing knowledge in relevant areas like care coordination, quality improvement, population health and more, the rigorous curriculum gives students the confidence to lead teams in today's complex and evolving health care system. The courses are required to be taken sequentially.
