

PUBLIC HEALTH MAJOR (BA TRADITIONAL)

This program involves learning the science of protecting the safety and improving the health of communities through education, policy making, and research for disease and injury prevention. Being a public health professional enables you to work around the world, address health problems of communities as a whole, and influence policies that affect the health of societies.

General Education Requirements

All degree seeking undergraduate students must complete the general education (<http://catalog.csp.edu/archive/2019-2020/undergraduate/academic-information/general-education-requirements>) requirements.
