UNIVERSITY INFORMATION

From the Office of the President

Dear Friends:

We are so pleased that you are interested in Concordia University, Saint Paul!

If you are a prospective student and are looking at our catalog for the first time, we hope you are planning to visit our campus to introduce yourself and tell us about your personal needs and aspirations for a college education. Even though we have not met you yet, we believe in you and your God-given potential. If you are already a Concordia University student we look forward to continuing with you on your journey of self-discovery and increasing knowledge and skills. We are committed to empowering you to take hold of your purpose for your life and career, as well as the unique opportunities to serve others, which will come your way in the decades ahead.

In the pages of this catalog, you can begin to get to know us, especially the outstanding undergraduate and graduate academic programs of our College of Humanities & Social Sciences, College of Business & Technology, College of Health & Science, and College of Education. I am very proud of our curriculum and the evidence of expertise and commitment to quality that it carries. I am confident that you would receive a superb education in the academic programs we offer at Concordia University, but even more I am confident you will find both a challenging and nurturing environment in which to study.

We remain committed to providing access to academic excellence at an affordable price. Concordia is recognized as one of the great values in higher education in all of Minnesota. We strive to offer an outstanding, student-centered learning environment where the Christian faith provides the context for intellectual inquiry and academic pursuits. Whether you are preparing for your first professional job, the next step on an already developing career, or further study in the graduate school of your choice, we are here to help. As a campus providing and requiring access to electronic technology, our students do research and communicate in ways that prepare them for future technological advances. In addition, we are located in one of the great metropolitan areas in the world, in the heart of a city where persons of virtually every race, creed, religion and color have converged to pursue personal goals and community progress.

On behalf of the faculty, staff, students and thousands of successful graduates of Concordia University, Saint Paul, I invite you to examine our programs, visit our campus and join us in the wonderful world of inquiry and learning.

Rev. Dr. Thomas K. Ries
University President

The Concordia University Board of Regents operates Concordia University as an institution of higher education.

All questions may be referred to the Office of Academic Affairs. Concordia University, Saint Paul, is registered with the Minnesota Office of Higher Education pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

Copyright 2016, Concordia University, Saint Paul

Logo

The Concordia University, Saint Paul logo is in the form of a window symbolizing Christian higher education as a window on life. Framed within the window, a cross emerges, which identifies Christ as the center of life. The asymmetrical window and cross reflect that life is not always logical or consistent, but Christ holds all things together. The four complementary colors represent harmony in diversity and harmony in Christ.

- Cross: The cross portrays our mission to educate students in the context of the Christian Gospel. The Good News of Jesus Christ forms the basis of life and education at Concordia.
- Quill: The quill is taken from our academic seal and represents our tradition and commitment to academic excellence and the love of learning.
- Individual: The individual represents our serving the individual student while encouraging their personal development and responsibility the education process. The outstretched arms imply reaching out to others, openness to community.
- Globe: The globe reminds us of our world community and Christ’s command to teach all nations. It also reflects our concern for enlightened care of God’s creation, which is part of our mission statement.

The Concordia Seal

The Concordia University seal was originally designed by Dr. Theodore Buenger for Concordia College in 1895. The Lamp of Learning symbolizes the light of the knowledge of God’s Word illuminating the minds of the students as well as the darkness of the world. The Crossed Quills symbolize the writings of the student and the writings of the great individuals throughout history form which the student learns. The Moccasin Flower symbolizes the State of Minnesota and the beauty of God’s creation. The inscription places learning in the context of the Christian Gospel. Dr. Buenger used the Latin language in keeping with the classical ideals characteristic of our school: In litteris proficiere vole, malo diligere Jesum. This may be translated, “I wish to be proficient in academics, but even more I wish to know Jesus.” It is based on Ephesians 3:19: “And to know the love of Christ that surpasses knowledge.”

Mission Statement

The mission of Concordia University, a university of the Lutheran Church–Missouri Synod, is to prepare students for thoughtful and informed living, for dedicated service to God and humanity, and for the enlightened care of God’s creation, all within the context of the Christian Gospel.

This mission is achieved when students pursue programs grounded in the liberal arts and focused on education for vocation in home, workplace, community, and congregation.

Therefore, the university pursues the following purposes:
• To relate human learning and experience to the Christian faith as this faith is confessed within its Lutheran heritage;
• To provide education within the context of a global perspective;
• To structure personalized and integrated learning experiences in which students share with faculty the responsibility for their own intellectual, physical, social, emotional, and spiritual growth;
• To offer a variety of experiences in and out of the classroom designed to assist students in acquiring greater self-understanding, in achieving a growing realization of their abilities and interests, and in investigating options for service in home, workplace, community, and congregation.

Vision Statement
The vision of Concordia University, Saint Paul is to be acknowledged as the leading Lutheran university offering exceptional opportunities for students from all backgrounds who seek relevant career preparation and a challenging academic experience coupled with the insights of Lutheran theology.

The Concordia Promise
Concordia University, St. Paul empowers you to discover and engage your purpose for life, career and service in a dynamic, multicultural, urban environment where Christ is honored, all are welcome, and Lutheran convictions inform intellectual inquiry and academic pursuits.

What does the Promise Statement Mean?
Concordia University, St. Paul empowers you to:

discover and engage your purpose for life, career, and service

• We believe that a purpose for living is greater than just a job, but is built upon a sense of calling that contributes to a deep level of personal fulfillment in all aspects of life.
• We affirm the notion of vocation, in which God calls and guides individuals throughout their lifetimes.
• We believe that one’s purpose necessarily includes a passion for lifelong learning beyond the attainment of an academic degree.
• We provide resources both within and outside the classroom to help students discover and begin to pursue their purpose.

in a dynamic, multicultural, urban environment

• We embrace our urban location, and celebrate the ever-changing, or dynamic, quality of our location, which has long been a place for new immigrants to become established in the United States.
• We rejoice that God has created human beings of all races and ethnicities in his image.
• We confess the brokenness that has often occurred among people because of race, creed, color, and ethnicity, and our part in it.
• We foster opportunities for all of us in this academic community to learn from and appreciate each other.

where Christ is honored, all are welcome,

• We honor Jesus as the Christ, whose atoning sacrifice on the cross allowed salvation to occur for all who believe and are baptized.
• We strive to live together in peace, love, and harmony as brothers and sisters in the human family.
• We love all our students regardless of age, race, color, disability, gender, familial status, sexual orientation, religion, national and ethnic origin.
• We conduct worship on our campus in the Christian context, shaped and informed by Lutheran traditions of music and the arts.
• We affirm the biblical teaching of God’s love for all people in Christ, even when we do not live out his perfect intent for any and every part of our lives.

and Lutheran convictions inform intellectual inquiry and academic pursuits.

• We affirm the central biblical teaching that God so loved the world that he gave his only-begotten son, that whoever believes in him shall not perish but have everlasting life.
• We affirm the Bible as the Word of God and the sole rule and norm of all doctrine.
• We affirm the biblical teaching that God’s creative intent is for sexuality to be expressed between one man and one woman in a marriage relationship.
• We aspire for all our students to learn from each other’s religious traditions.
• We regard the academic disciplines as good gifts for understanding how God’s creation works; as such, we pursue them, within the context of the Christian Gospel, through critical thought, lively discussion, and informed action.

Motto
In litteris proficere volo malo diligere Jesum
“I wish to be proficient in academics, but even more I wish to know Jesus.”

History of the University
Concordia University was founded in 1893 to provide a Christian learning environment for high school students preparing to enter the professional ministries of The Lutheran Church – Missouri Synod. In the ensuing decade, Concordia continued to grow, adding a fourth year of high school and by 1921 had added the freshman and sophomore college years. The
change made it possible for Concordia High School students to remain at their high school alma mater to complete their first two years of college work before transferring to a Concordia Senior College where they would finish their studies in the church professions or teaching.

Concordia College admitted its first class of female students in fall 1950 – much to the delight of the young men on campus and to the dismay of coeducational opponents who predicted a significant drop in academic achievement. Despite this new “distraction,” students continued to excel in their studies. Concordia College entered a decade of intense expansion and growth. The college began granting Associate in Arts degrees in 1951 and earned accreditation as a two-year college in 1959.

Concordia College expanded its curriculum in 1962 to include a four-year college degree and awarded its first Bachelor of Arts degrees two years later. By 1967, Concordia had earned accreditation for its four-year liberal arts program, which allowed the college to join the Minnesota Private College Council. At this time, Concordia High School officially separated itself from the college, moved to its suburban location and adopted its new name, Concordia Academy.

Concordia College responded to a growing need for minority teachers in the public schools by forming Metropolitan Teacher Education Program Selection (MTEPS), which enrolled African-American and other under-represented students in a program designed to supplement the curriculum with scholarship support, personal counseling, tutoring as needed, academic planning and similar services. The program was reformed in 1983 as the Southeast Asian Teacher (SEAT) Licensure Program, which serves Hmong and other minority populations in a similar fashion.

A major curricular development in 1985 changed the Minnesota education landscape with the formation of a pioneering program that allowed students to complete their B.A. degree in an accelerated, one course at a time, format. In 1990, an accelerated M.A. program was added.

As Concordia moved into the new millennium, the institution implemented a number of important changes that would reflect the changing needs of the students, the church and the community. Foremost among these was restructuring that enabled Concordia to become a university. In 1997, Concordia College became Concordia University, Saint Paul, and adopted the semester system. CSP became the first private university in Minnesota to compete at the NCAA Division II level, bidding farewell to the Concordia Comets nickname and introduced a new athletics identity, the Golden Bears.

Concordia University continues to grow to meet the needs of students, the church and the community, while at the same time holding steadfast its historical values and mission.

University Contact Information

This catalog is designed to provide information about Concordia University, its curriculum, its academic policies and procedures, and other matters of interest to students, faculty and staff. Further inquiries may be addressed to the appropriate office at Concordia. June 28, Sunday - July 5, Sunday  
Summer Break Week
July 6, Monday – August 21, Friday  
Summer Session #2

Accreditation and Enrollment

Accreditation
University
Concordia University, Saint Paul, is accredited by The Higher Learning Commission (HLC). The University has been accredited since 1959, with reaffirmation of accreditation in 2008. The next reaffirmation of accreditation is in 2018.

Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604-1413
(312) 263-0456 / (800) 621-7440
www.hlcommission.org

Concordia University is a member of the Council for Higher Education Administration (CHEA). A national advocate and institutional voice for self-regulation of academic quality through accreditation, CHEA is an association of 3,000 degree-granting colleges and universities and recognized 60 institutional and programmatic accrediting organizations.

To view Concordia’s current accreditation status, click here: CSP Accreditation Status.

The following programs hold specialized accreditations and approvals:

Family Science Programs
The National Council on Family Relations (NCFR) has approved Concordia’s undergraduate and graduate programs in Family Science as meeting the Standards and Criteria required for the Provisional Certified Family Life Educator (CFLE) designation. The NCFR provides certification for the profession of family life education. Thus, students who complete the undergraduate or graduate FLE programs are eligible for certification as a Family Life Educator (CFLE). The NCFR undergraduate re-accreditation was completed in 2014 and is in place through 2019. The graduate re-accreditation was completed in 2015 and is in place through 2020.

National Council on Family Relations
1201 West River Parkway, Suite 200
Minneapolis, MN 55454
(888) 781-9331
www.ncfr.org

Human Resource Management Programs
The Human Resource Management programs at the undergraduate and graduate levels, are aligned with the Society for Human Resource Management (SHRM). Both the undergraduate and graduate programs have been judged by the organization as satisfying the core content guidelines expected by the Society.

Society for Human Resource Management

• Undergraduate Traditional Programs (p. 12)

Adult Undergraduate Programs
Learning Concept
The goal of the adult undergraduate programs is to link learning directly to a student’s present or planned career activities — connecting coursework to life experience. This educational model is designed specifically with adults in mind.

• Prior collegiate and extra-collegiate learning derived from academic, personal, and professional experiences since high school may be evaluated for college credit.
• Past and present work experience will serve as a catalyst in the learning process. At the heart of the education model is a major project, which continues throughout the program, blends study and experiential learning.

Concordia University faculty are devoted to this educational model and fully respects students’ prior learning as worthwhile and valuable in the educational setting. Experienced in their respective fields, instructors come from Concordia University faculty ranks or are adjunct faculty who have proven expertise and enjoy working with adult students.

General Admission Information
Candidates for undergraduate admission to Concordia University, Saint Paul, must be graduates of a regionally accredited high school or home school or hold the GED certificate. Applicants must be persons of good moral character. Early application is encouraged.

Academic Requirement and Procedures
1. Submission of Undergraduate Application for Admission
2. Submission of official transcripts from all previously attended institutions indicating a minimum of 30 semester credits, transferable, from accredited colleges or universities, or a combination of transferable credits and extra collegiate learning experience equaling 30 semester credits
3. Verification of a cumulative grade point average (CGPA) of 2.0 or better.
4. Personal statement explaining what has led you to pursue your undergraduate degree and your long-term academic and professional goals (minimum of 300 words)

A partial list of additional requirements includes:
• BS in Pulmonary Science and Radiological Science Leadership: Students must have earned an associate’s degree in Respiratory Therapy (Pulmonary Science) or in Radiologic Technology (Radiologic Science Leadership) to be considered for admission.
• BS in Nursing: Program applicants must have a cumulative grade point average (CGPA) of 2.5 or better. Prior to registration for NUR courses, students must meet programmatic specific health and practice requirements as outlined in the Nursing Student Handbook.

Upon receipt of official transcripts, an academic advisor will review them and determine the number of transferable credits that have
Undergraduate Traditional Programs

been satisfied. When the above requirements have been met and the university’s Admissions Office has received and processed the completed application, the file will be reviewed for acceptance.

Application Contacts
Persons seeking undergraduate admission should direct all correspondence to:

Office of Undergraduate Admission
Concordia University, Saint Paul
1282 Concordia Avenue
Saint Paul, Minnesota 55104-5494

Students may also submit an on-line application at www.csp.edu.

Acceptance to Concordia University
All prospective students will be notified by email of the action taken on their application. Materials submitted should demonstrate that applicants satisfactorily meet admission criteria set by the faculty of Concordia University. Exceptions are considered by the Degree Completion and Graduate Admissions Committee. Appeals may be made to the Vice President for Academic Affairs.

Immunization Requirements for On Campus Students
Minnesota State Law (statute 135A.14) requires that on campus students must submit their immunization records to have on file at the university prior to attending their first semester. Students who do not submit these records will have a hold placed on their academic records until this requirement is met.

Concordia Admissions Department will inform students how to submit the immunization information. It may be done electronically or to the Admissions Department.

Required immunizations are:
1. Tdap (Tetanus-Diptheria-Pertussis) must be given less than 10 years ago.
2. MMR (Measles, Mumps, Rubella)

Recommended immunizations are for:
1. Hepatitis B series
2. Meningitis
3. Varicella (chicken pox)
4. Hepatitis A series
5. Human Papilloma Virus series
6. Annual Flu shot

Students living and studying in close contact are more susceptible to some illnesses/infections/diseases so please consider that when deciding on immunizations.

Please check with your health care provider about receiving these immunizations and submit this information along with the required immunization information.

Exemptions
Minnesota Law provides these exemptions from immunizations:

1. Conscientious Objection based on held beliefs. This exemption must be received prior to the students first term, signed by student (or parent/guardian) and notarized.
2. A Medical Exemption may be issued because of a contraindication to an immunization based on some medical condition. Medical exemptions must be signed by a licensed medical provider.

If there is an outbreak of the disease of objection, the student will need to be immunized at that time or excluded from classes until the outbreak is over.

Unable to Locate Dates of Immunizations
If a student cannot locate immunization records the options are:
1. Get the required immunizations again and submit the date/s.
2. Have a blood test (titer) to determine the immune status and submit the information.

Re-Admission of Former Students of Concordia University
1. Apply for re-admission through the Office of Undergraduate Admission. No application fee is required
2. Submit information concerning activities since last attending Concordia, and include appropriate letters of recommendation if required
3. Request official transcript of credits earned at other institution(s) be sent to the registrar

Advanced Placement Program
Concordia University will grant credit for most College Board Advanced Placement (AP) Examinations to students with a grade of three, four, or five. Students should have an official score report sent to Concordia University (code number 6114). Concordia University's AP credit policy is posted on www.csp.edu.

College-Level Examination Program
Concordia University will grant credit for most College-Level Examination Program (CLEP) results to students with a score of 50 or higher. Only those exams listed in the CLEP credit policy will be accepted. Students should have an official score report sent to Concordia University, Saint Paul – code number 6224. Information about the CLEP examinations can be found at www.collegeboard.com/student/testing/clep/about.html. The CLEP credit policy is posted on www.csp.edu.

Undergraduate Traditional Programs
General Admission Information
Candidates for undergraduate admission to Concordia University must be graduates of a regionally accredited high school or home school or hold the General Education Diploma (GED). Applicants must be persons of good moral character. First year students may apply for admission for fall
start terms. Transfer students may apply for admission for the fall, spring, or summer terms. Early application is encouraged. The priority deadline for fall admission is December 1 and the final deadline is August 1. The final deadline for spring transfer admission is December 1.

Academic Requirements and Procedures

Transcripts should demonstrate that candidates have successfully completed requirements in the following high school subjects: four years of English, two years of history/social sciences, two years each of mathematics and science, two years of fine arts, and one year of health/physical education. Applicants who have not had the college preparatory courses indicated above may be admitted upon examination of their academic records, provided they meet other admission criteria.

First-Year Students

1. Complete the Undergraduate Application for Admission. Applications are encouraged to be submitted via the undergraduate admission website www.csp.edu. The fall term deadline is August 1.
2. Request that an official transcript of the high school record to date be sent to Concordia University, and also a final official transcript after the senior year’s grades and graduation have been recorded. Passing General Education Development (GED) scores may be accepted in lieu of verification of graduation.
3. Complete the ACT or SAT and have an official Student Profile Report sent directly to the Concordia University Office of Undergraduate Admission. Arrangements for taking the ACT or SAT should be made through the high school counselor’s office.
4. First-time freshmen who graduated from high school three or more years before the application may submit a statement of educational objectives in lieu of item 3 above.

Transfer Students

1. Complete the application for admission. Applications are encouraged to be submitted via the undergraduate admission website, www.csp.edu. The fall term deadline is August 1 and winter term is December 1.
2. Submit official transcripts from each college or post-secondary school attended. If currently enrolled, submit a final transcript after completion of studies. If applicants have not completed one year (45 quarter credits or 20 semester credits) of college at an accredited institution, complete high school transcripts and the official ACT Student Profile Report must be submitted.

Transfer students should have maintained an overall grade point average of “C” or better in previous courses. Concordia University accepts an Associate of Arts degree or the Minnesota Transfer Curriculum in lieu of our general education requirements. Exceptions include the 8 credits of Religion and requirements within majors that include general education courses not previously completed.

Note: Admission to specific majors is required beyond general admission to the university. See the appropriate departmental major and/or the Office of Undergraduate Admission.

Application Contacts

Persons seeking undergraduate admission should direct all correspondence to:

Office of Undergraduate Admission
Concordia University, Saint Paul

1282 Concordia Avenue
St. Paul, Minnesota 55104-5494

Students may also submit an on-line application at www.csp.edu. Correspondence includes all matters and inquiries connected with admission, such as application forms, letters of recommendation, ACT scores, transcripts, and fees. Remittances should be made payable to Concordia University, Saint Paul and sent to the Office of Undergraduate Admission.

Acceptance to Concordia University

All prospective students will be notified by letter of the action taken on their application. Materials submitted should demonstrate that applicants satisfactorily meet admission criteria set by the faculty of Concordia University. Exceptions are considered by the Undergraduate Admissions Committee. Appeals may be made to the Vice President for Academic Affairs.

Immunization Requirements for Traditional Students

Minnesota State Law (statute 135A.14) requires that traditional students must submit their immunization records to have on file at the university prior to attending their first semester. Students who do not submit these records will have a hold placed on their academic records until this requirement is met.

Concordia Admissions Department will inform students how to submit the immunization information, either electronic or paper documentation.

Required immunizations:
1. Tdap (Tetanus-Diptheria-Pertussis) must be given less than 10 years ago.
2. MMR (Measles, Mumps, Rubella)

Recommended immunizations:
1. Hepatitis B series
2. Meningitis
3. Varicella (chicken pox)
4. Hepatitis A series
5. Human Papilloma Virus series
6. Annual Flu shot

Students living and studying in close contact are more susceptible to some illnesses/infections/diseases so please consider that when deciding on immunizations.

Exemptions

Minnesota Law provides these exemptions from immunizations:

1. Conscientious Objection based on held beliefs. This exemption must be received prior to the student’s first term, signed by the student (or parent/guardian) and notarized.
2. A Medical Exemption may be issued because of a contraindication to an immunization based on some medical condition. Medical exemptions must be signed by a licensed medical provider.

If there is an outbreak of the disease of objection, the student will need to be immunized at that time or excluded from classes until the outbreak is over.
Unable to Locate Dates of Immunizations
If a student cannot locate immunization records the options are:

1. Get the required immunizations again and submit the date/s.
2. Have a blood test (titer) to determine the immune status and submit the information.

Post-Baccalaureate Teacher Licensure
Persons possessing an undergraduate degree from an accredited institution may satisfy teaching licensure requirements in any of the licensure areas offered by Concordia University by completing the undergraduate requirements for the license or endorsement desired. Students have the option of attending as full-time students or as part-time students. Contact the Office of Undergraduate Admission (651) 641-8230 or Professor Rick Benson at (651) 641-8245 or benson@csp.edu for more information.

Southeast Asian Teacher Licensure Program (S.E.A.T.)
Concordia University offers a program leading to a degree and/or teacher licensure for students currently working in schools. The State of Minnesota provides some of the scholarship money for this program. Contact the Office of Undergraduate Admission (651) 641-8230 or Director of the SEAT program, Professor Sally Baas at (651) 603-6188 or baas@csp.edu for more information.

Visiting Students
Concordia University welcomes students on a temporary basis who have been regularly admitted to another regionally accredited post-secondary institution. This enrollment is generally offered to provide special courses at Concordia University that may not be available at the other institution, to meet a temporary special interest, or to provide coursework in the student’s present local environment.

In order to be admitted as a visiting student, a basic demographic information form must be completed by the previous college or university (where student was regularly admitted) as well as a form verifying the student’s admission and giving the institution’s approval for the student's registration plan.

Course requests are submitted to the registrar who acts as advisor to the student. If the student wishes to complete a program, regular admission procedures apply.

Re-Admission of Former Students of Concordia University
1. Apply for re-admission through the Office of Academic Advising. No application fee is required.
2. Submit information concerning activities since last attending Concordia University, send appropriate letters of recommendation if required, and include a statement of educational objectives.
3. Request official transcript of credits earned at other institution(s) to be sent to the Registrar.

International Students
1. Submit all material required of entering freshmen and/or transfers. This includes an English translation transcript of level of education. Any transcripts provided must be evaluated by an outside agency for American equivalents.

   2. Submit evidence of one or more of the following for Proof of English Proficiency
      a. Students from Global Language Institute (http://www.gli.edu) (GLI) Completion of Mastering Level
      b. Students from Atlanta English Institute (http://www.atlei.com) (AEI) Completion of Level Seven
      c. Students from Spring International Language Center (http://www.spring.edu/home.html) (SILC) Completion of Level Six
      d. Students from English Language School (http://www.els.com) (ELS) Completion of Level 109 AND IELTS test score of 5.5 or TOEFL iBT 65 or completion of Level 112
      e. TOEFL iBT 65 or 513 PBT
      f. IELTS overall band score of 5.5 or higher (International English Language Testing System)
      g. ACT/SAT score
      h. PTE result of 46 or higher

3. Demonstrated ability to meet the expenses of university fees, tuition, room and board, transportation and personal expenses. I-20 forms will be issued only after the application is accepted by the Office of Undergraduate Admission and the first semester is paid in full.
4. Submit health and immunization records as required by law.

International students are admitted for the fall and spring terms only.

Post-Secondary Enrollment Option Program (P.S.E.O.)
Minnesota High School juniors and seniors from public, private, and home schools may apply for admission to Concordia University's Post-Secondary Enrollment Options (PSEO) program during the spring before planned enrollment. A limited number of students are accepted on a space available basis. Students with a 3.25 unweighted grade point average (GPA) or higher are encouraged to apply. The application deadline is May 15.

Application procedures include submitting the following:
1. PSEO Application
2. Official High School Transcript
3. Personal Statement
4. Minnesota Postsecondary Enrollment Options Program Notice of Student Registration

Students admitted to the Concordia University PSEO program have the opportunity to take 100-200 level course. Upper-level courses are available only with the permission of the university’s PSEO Coordinator. Religion courses, independent studies, and summer courses are excluded. Additional fees may not be covered by the PSEO program (i.e. technology fees, private music lessons, etc.)

Academic Disqualification – PSEO students who receive a cumulative GPA of less than 2.00 will be academically disqualified and dismissed from the Concordia University PSEO program. Students may appeal their academic disqualification to the university’s PSEO Coordinator.

Advanced Placement Program
Concordia University will grant credit for most College Board Advanced Placement (AP) Examinations to students with a grade of three, four, or five. Students should have an official score report sent to Concordia.
University (code number 6114). Concordia University’s AP credit policy is posted on www.csp.edu.

College-Level Examination Program
Concordia University will grant credit for most College-Level Examination Program (CLEP) results to students with a score of 50 or higher. Only those exams listed in the CLEP credit policy will be accepted. Students should have an official score report sent to Concordia University, Saint Paul – code number 6224. Information about the CLEP examinations can be found at www.collegeboard.com/student/testing/clep/about.html (http://www.collegeboard.com/student/testing/clep/about.html). Concordia University’s CLEP credit policy is posted on www.csp.edu.

New Student Orientation
Both first-year students and transfer students are required to attend one Orientation session offered in April, June or August. Students begin to build relationships with other students, faculty, and staff. They receive pertinent academic information, meet with an academic advisor, and confirm class registration. Students also receive information about non-academic aspects of life at Concordia University relative to parking permits, voicemail, books, technology, and co-curricular activities, etc.

Fall Semester: All first-year students begin the CSP Seminar class on the first day of Welcome Weekend. Students are assigned to their CSP Seminar class by the Office of Academic Advising. During Welcome Weekend, they spend time with other new students, along with a Peer Advisor and Faculty Advisor. Transfer students and returning students are invited to attend Welcome Weekend activities prior to the beginning of classes. Welcome Weekend activities build a foundation for enhancing community and promoting academic growth in a Christian environment.

Spring Semester: Transfer students are required to attend Orientation in January.

Graduate Programs
General Information
Candidates for graduate admission to Concordia University, Saint Paul, must be graduates of an accredited university and hold a bachelor’s degree. Applicants must be persons of good moral character. Early application is encouraged to ensure priority consideration.

Academic Requirements and Procedures
1. Submission of Graduate Application for Admission
2. Submission of official transcripts from a regionally accredited college or university issuing the baccalaureate degree
3. Verification of an overall undergraduate
   a. G.P.A. of 3.0 on a 4.0 scale for graduate programs
   b. G.P.A of 3.25 on a 4.0 scale for doctoral programs
4. Statement of goals covering employment history and long-term academic and professional goals (1 to 2 pages, double-spaced)
5. Professional Resume

Additional requirements for specific programs may be required; please consult appropriate degree information.

A partial list of additional requirements includes:

- MA in Criminal Justice Leadership and MA in Early Childhood - Students must be currently working or volunteering in the program “field”

International Students
1. Submission of Graduate Application for Admission
2. Submission of official transcript from institution granting bachelor’s degree
3. Submission of official credit evaluation of degree(s) earned at any non-United States institution
   a. Evaluations must be from approved members of the National Association of Credential Evaluations Services
4. Verification of an overall undergraduate G.P.A. of 3.0 on a 4.0 scale
5. Statement of goals covering employment history and long-term academic and professional goals (1 to 2 pages, double-spaced)
6. Professional Resume
7. Certification of Finances indicating the financial source for the expense of attending Concordia University.
8. Proof of English Proficiency

Proof of English Proficiency
One of the following must be completed to meet English proficiency.

1. Completion of Level 112 at an English Language School (ELS) or Accelerated Level at Global Language Institute (GLI)
2. Completion of Level 6 at an approved English school
3. TOEFL- iBT score of 78 or TOEFL PBT score of 547
4. An equivalency of 80 or better on the Michigan Test
5. IELTS overall band score of 6 or higher (International English Language Testing System)
6. Completion of an undergraduate or graduate degree at an accredited college or university in the US, English-speaking Canada, the United Kingdom, Ireland, Australia, or New Zealand.
7. PTE result of 52 or higher
8. iTEP score of 3.7 or higher

Application Contacts
Persons seeking admission to graduate programs should direct all correspondence to:

Office of Graduate Admission
Concordia University, Saint Paul
1282 Concordia Avenue
St. Paul, Minnesota 55104-5494

Students can submit an on-line application at www.csp.edu. Correspondence includes all matters and inquiries connected with admission, such as application forms, letters of recommendation, transcripts and fees. Remittances should be made payable to Concordia University, Saint Paul and sent to the Office of Graduate Admission.

Acceptance to Concordia University
All prospective students will be notified by email of the action taken on their application. Materials submitted should demonstrate that applicants satisfactorily meet admission criteria set by the faculty of Concordia University. Exceptions are considered by the Adult
Undergraduate and Graduate Admissions Committee. Appeals may be made to the Vice President for Academic Affairs.

**Appeal of Policy and Procedure**

Students not approved for graduate admission may appeal the admission decision. Steps for appeal include:

1. All appeals must be initiated within 30 calendar days after the contested judgment was made. All appeals must be processed within 60 calendar days after the initial appeal was filed.
2. Students consult directly with the Director of Graduate Admission. The formal appeal process will be offered and explained in detail.
3. Students submit a formal written appeal to be reviewed by the Degree Completion and Graduate Admissions Committee.
4. Appeals are reviewed within two weeks of submission.
5. Communication of formal appeal provided in written letter to the graduate applicant.
6. Decisions of the Degree Completion and Graduate Admissions Committee may be made to the Vice President for Academic Affairs.

**Immunization Requirements for On-Campus Students**

Minnesota State Law (statute 135A.14) requires that students must submit their immunization records to have on file at the university prior to attending their first semester. Students who do not submit these records will have a hold placed on their academic records until this requirement is met.

Concordia Admissions Department will inform students how to submit the immunization information. It may be done electronically or to the Admissions Department.

Required immunizations are:

1. Tdap (Tetanus-Diptheria-Pertussis) must be given less than 10 years ago.
2. MMR (Measles, Mumps, Rubella)

Recommended immunizations are for:

1. Hepatitis B series
2. Meningitis
3. Varicella (chicken pox)
4. Hepatitis A series
5. Human Papilloma Virus series
6. Annual Flu shot

Students living and studying in close contact are more susceptible to some illnesses/infections/diseases so please consider that when deciding on immunizations.

Please check with your health care provider about receiving these immunizations and submit this information along with the required immunization information.

**Exemptions**

Minnesota Law provides these exemptions from immunizations:

1. Conscientious Objection based on held beliefs. This exemption must be received prior to the students' first term, signed by the student (or parent/guardian) and notarized.
2. A Medical Exemption may be issued because of a contraindication to an immunization based on some medical condition. Medical exemptions must be signed by a licensed medical provider.

If there is an outbreak of the disease of objection, the student will need to be immunized at that time or excluded from classes until the outbreak is over.

**Unable to Locate Dates of Immunizations**

If a student cannot locate immunization records the options are:

1. Get the required immunizations again and submit the date/s.
2. Have a blood test (titer) to determine the immune status and submit the information.

**Re-Admission of Former Students of Concordia University**

1. Apply for re-admission through the Office of Undergraduate Admission. No application fee is required.
2. Submit information concerning activities since last attending Concordia, send appropriate letters of recommendation if required, and include a statement of educational objectives.
3. Request official transcript of credits earned at other institution(s) be sent to the registrar.

**Degrees and Programs**

**Colleges and Schools**

- College of Humanities & Social Sciences
- College of Business & Technology
- College of Education
- College of Health & Sciences
- School of Continuing Studies
- School of Graduate Studies

**Academic Degrees**

- Associate of Arts (AA)
- Bachelor of Arts (BA)
- Bachelor of Fine Arts (BFA)
- Bachelor of Science (BS)
- Bachelor of Science in Nursing (BSN)
- Bachelor of Business Administration (BBA)

Diversity Initiatives

Diversity Affairs Office

The Diversity Affairs Office serves as an advocate and resource for students, and works collaboratively with staff and faculty to promote an inclusive, Christ-centered campus community. With support from inter- and intra-campus offices, organizations, and programs, the Diversity Affairs office provides:

- Vision and leadership for the university’s diversity efforts through creative programming, consultation and partnerships
- Supportive and sustaining relationships with students, colleagues and various public constituents
- Attention to needs, issues, and concerns impacting diversity throughout the campus
- Oversight of the university’s strategic diversity priorities;
- Coordination of activities that promote the identity of students of color
- Opportunities for celebration of the harmony in diversity on the campus and within the community

For inquiries relating to any diversity initiatives, please contact Dr. Cheryl Chatman, Executive Vice President and Dean of Diversity at chatman@csp.edu (chatman@csp.edu) or at (651) 603-6151; and Louisa Vang, Program Coordinator for Diversity Affairs at lvang@csp.edu or at (651) 641-8851.

Various academic, social and intercultural programs and activities are linked with the Diversity Affairs Office. Below are a few of the major initiatives and/or organizations that this office oversees annually.

- Building Opportunities for Leadership and Development (BOLD) Scholarship Program
- Coalition for Acceptance, Respect, and Equity (CARE) Committee
- United Minds of Joint Action (UMOJA)
- Concordia Hmong Unity Student Association (CHUSA)
- Concordia Sisterhood of Empowerment (CSE)
- Shades of Harmony Gospel Choir
- Diversity Conferences (Local/Regional)
- Community Outreach
  - Association of Black Women in Higher Education
  - ARTS US
  - Minnesota National Association of Diversity Officers in Higher Education

Building Opportunities for Leadership and Development (BOLD) Scholarship Program

The scholarship is designed to provide students with the academic support and financial assistance needed for them to be successful here at Concordia University, St. Paul. Through this scholarship we help to assist students in developing their leadership potential. The goal of the BOLD Scholarship is to insure that students have a healthy and meaningful transition into the college environment and that students successfully complete their college education here at Concordia University, St. Paul. Through the scholarship, students receive individual attention, positive interactions, ongoing support and wonderful opportunities to grow intellectually, spiritually and socially. Participants are expected to:

- Utilize resources at Concordia University to improve their academic performance
- Attend individual meetings to assess each participant’s needs and academic progress throughout each semester
- Attend on-and-off campus educational, cultural and social events planned or required by the program
- Encouraged to be involved in various organizations, social activities and other extracurricular activities

Shades of Harmony Gospel Choir

The choir is a volunteer chorus made up of students, faculty, and staff from varying races, cultures and backgrounds who are interested in learning about, experiencing, and singing music from diverse cultures. The group focuses on the African American Gospel Choir tradition, but also explores choral music of other cultures. The group performs occasionally in Concordia’s chapel service and/or an off-campus service performance. Non-music major/minors may use up to eight ensemble credits towards graduation.

For more information about Shades of Harmony Gospel Choir, please contact Andrew Griffin, the director and an alumna, at griffin@csp.edu.

C.A.R.E. Committee (Coalition for Acceptance, Respect, and Equity)

The C.A.R.E. committee is comprised of Concordia staff and faculty who began an organized effort to identify, engage and eliminate racism as it exists in its various forms at Concordia and beyond. The mission of the committee is to promote equality and peaceful coexistence through developing awareness of self and others, sharing knowledge, encouraging mutual understanding, and healing the historical and continuing trauma of injustice and inequity by acknowledging that racism, classism, ableism, homophobia, transphobia, and sexism still exist.

The committee aims to support a campus community where the dignity, value, and human potential of each member is equally honored and respected through the creation of a campus environment free from violence and discrimination. Annual events and efforts sponsored by C.A.R.E. for the campus and wider community include interactive dialogues, focus groups, panels, sensitivity and awareness training, written and verbal communications and exchanges, unity activities, support of community issues and actions, and presentations at local and national conferences. Student involvement on all levels of this work is essential and critical to this team. Collaboration with on- and off-campus groups, departments and organizations is central to the planning and execution of events led and supported by C.A.R.E.

United Minds of Joint Action (U.M.O.J.A)

United Minds of Joint Action (UMOJA) is an organization that provides students opportunities for leadership, mentoring, advocacy, outreach, internships, and culture-specific educational, social and recreational activities. Opportunities to serve as officers, committee chairs, artists, performers and ambassadors exist from the freshmen to senior years. The mission of UMOJA is to:

- Foster academic achievement and service
- Address issues and concerns affecting students from diverse backgrounds
- Promote an understanding and appreciation of cultural differences
- Foster academic achievement and service

Annual events hosted by UMOJA include:

- Black History Month
- Multicultural Night
- Cultural Awareness Events
- Can We Talk Sessions
- Open Mic
- Present at Diversity Leadership conferences

For more information about UMOJA, please contact the UMOJA’s advisors, Adrian Perryman, Assistant Director of Academic Advising at perryman@csp.edu; (651) 641-8843; and Charles Hines, Coordinator of Military Services in Admissions at hines@csp.edu; (651) 641-8758.

Concordia Hmong Unity Student Association (C.H.U.S.A)

Concordia has an active Hmong organization and support program, which provides advocacy, leadership experiences, internship opportunities and social connections. CHUSA’s mission is to promote Hmong culture, practices, and history through academic leadership workshops, events and collaborations. CHUSA offers students a channel to make meaningful connections with other students and the overall campus. CHUSA’s presence on campus is widely known and highly respected. The goals of the association attempts to:

- Promote awareness and understanding of the Hmong Culture
- Promote and support Hmong related initiatives, activities and events
- Promote and encourage communication, collaboration and unity within the university and throughout the Twin Cities community

CHUSA annual events include:

- Hmong Heritage Month
- The Secret War Simulation
- Hmong Awareness Night
- Hmong Professionals Panel
- Ua Tsaug Night (Thanksgiving Night)
For more information about CHUSA, please contact CHUSA’s advisors, Louisa Vang, Program Coordinator for Diversity Affairs at lvang@csp.edu; (651) 641-8851; and Brenda Vue, Admissions Counselor/PSEO Admissions Coordinator/Southeast Asian Student Recruiter at bvue@csp.edu; (651) 641-6275.

Concordia Sisterhood of Empowerment (C.S.E)
Concordia Sisterhood of Empowerment is an organization that encourages young women of Concordia to celebrate individual accomplishments, support each other in difficult times, and empower one another to become leaders in the community. CSE offers students a channel to build connections with other women on campus to support them along with having workshops/lectures to discuss about women's rights and society's view on women. The goals that CSE tries to strive:

- To promote self confidence in communication skills
- To promote optimal college and learning experience through activities, events, and collaboration with other clubs and organizations
- To promote participation in related initiatives that empower women

Events that CSE has hosted include:

- Can We Talk Sessions
- Professional Women Panel
- Title IV Awareness Session
- Holiday celebration activities

For more information about CSE, please contact CSE’s advisors, Louisa Vang, Program Coordinator for Diversity Affairs at lvang@csp.edu; (651) 641-8851; Kimberly Newton, Student Activities and Leadership Development Coordinator, at knewton@csp.edu; (651) 641-8757; and Caitlin Perszyk, Career Counselor and Employer Relations Specialist, at perszyk@csp.edu; (651) 603-6241.

People Encouraging Accepting Connection and Equity (P.E.A.C.E)
People Encouraging Accepting Connection and Equity is an organization that helps students find themselves outside of society's heteronormative standards, for their allies and friends, and for those who seek greater understanding and desire to foster a climate of mutual respect and open communication. PEACE provides both a metaphorical and physical safe space on our campus for fostering a greater sense of community and mutual respect. The goals that PEACE would like to accomplish are:

- To promote a safe space for students who find themselves outside of society's heteronormative standards
- To better educate those who may not understand the spectrums of gender and/or sexual orientation
- To break down stereotypes of gender and sexual orientation
- To promote an optimal university experience in and out of the classroom through activities, events, and collaboration with other clubs and organizations

For more information about PEACE, please contact PEACE’s advisors, Adrian Perryman, Assistant Director of Academic Advising at perryman@csp.edu; (651) 641-8843; Matt Ryan, Assistant Professor of English and Director for the MFA in Creative Writing Program at ryan@csp.edu; (651) 641-8267.

Financial Aid/Scholarships

Financial Aid
All students applying for financial aid must:

1. be accepted for admission and maintain good academic standing, and
2. complete the Free Application for Federal Student Aid (FAFSA).

The FAFSA will provide instructions on how to have your financial information sent to the university (Concordia University’s code is 002347). Students wishing to be considered for Financial Aid MUST complete the FAFSA on-line each calendar year after taxes for the prior, prior year have been filed (typically between October and April of each year). The FAFSA can be referenced at www.fafsa.gov (http://www.fafsa.ed.gov). The posted university deadline for priority of funding including (but not limited to) SEOG Grant, Perkins is May 1st.

Financial Aid for Church Vocations
Church Vocation Scholarships are available to those students enrolled in an undergraduate church work program in the College of Humanities & Social Sciences or the College of Education. To receive this scholarship, students must apply annually to their home church district and to their home congregation. Application documents are available online at: http://www.csp.edu/tuition-financial-aid/forms-worksheets/

Eligibility for Financial Aid
For consideration of Financial Aid from sources derived from the Free Application for Student Aid (FAFSA) students in Undergraduate Program(s) must be enrolled in at least six credits per semester, be in good standing related to other Stafford Loans borrowed prior (i.e., not in default), and be within lifetime usage limits as defined by the US Department of Higher Education (DOE). Students enrolled in 3 to 5.5 credits may qualify for Pell Grant or a Minnesota State Grant only. Unless otherwise stated, undergraduate traditional (non-Cohort) financial aid awards will be made for one academic year (fall and spring semesters). Application procedures must be completed each year financial aid is requested by completing the FAFSA and/or other required documents as determined by the DOE.

Financial Aid for Summer School
Financial aid eligibility for Summer Semester for Traditional Undergraduate Students may be limited. Students are encouraged to connect with the Student Financial Services Office to determine summer aid eligibility if applicable.

Financial Aid and Withdrawing/Dropping from Concordia University
If a learner has received Financial Aid and subsequently withdraws and/or drops from some or all courses at Concordia University, then the school or the student may be required to return all or some of the federal funds awarded to the student. If a student receives financial assistance from a grant, scholarship, or loan source outside of the family, all or some of an expected Refund Check may be returned to the grant, scholarship, and/or loan source from which the assistance was received. All students needing to Withdraw from the University must initiate an official Change of Status with the Registrar’s office.
Study Abroad

Students participating in study abroad opportunities approved by the university (listed in the academic catalog) are considered “in-residence.” Most academic and need-based financial aid applies toward study abroad. Exceptions include work-study, music performance, and athletic scholarships, all of which require students to be on campus.

Financial Aid Programs Available

Federal

Consult the United States Department of Education Student Guide to Financial Aid. The Student Guide is available through the financial aid office or the undergraduate admissions office. The Student Guide is also available through most high school counselors.

- Federal College Work Study Program (FCWS)
- Federal Stafford Student Loan(s)
- Federal Perkins Loan
- Federal Parent PLUS Loan
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (SEOG)
- TEACH Grant (Graduate Students in qualifying programs only)
- Federal PLUS Loan (Graduate Students only)

1 Undergraduate students only

State of Minnesota

- Minnesota State Grant
- Student Educational Loan Fund (SELF)
- Minnesota Childcare Grant
- Minnesota GI Grant
- Minnesota Work Study
- Minnesota Indian Scholarship

1 Undergraduate students only

Work Study

All full-time international students in F1 status are eligible to work on campus. See the Office of Financial Aid for an application.

Satisfactory Academic Progress for Financial Aid Policy (SAFAP)

Federal and state regulations require monitoring of credits for all students and will apply the following minimum cumulative standards of progress at the end of each semester after completion of six (6) attempted credits (see below). Students will be evaluated for SAFAP according to federal guidelines, including possible retroactive fund disbursements should disqualification be impending based on the standards indicated below.

Qualitative

Students are expected to meet or exceed a cumulative earned grade point average (GPA) of 2.00 for Undergraduate Studies and 3.00 for Graduate Professional Studies.

Quantitative

Students must complete a minimum cumulative of 67% of all attempted course work at CSP. Any course with a grade of withdraw (W), (F), incomplete (I), progress (PR), audit (AU) or No Credit (NC) shall be considered not completed. A course is counted as completed only once, regardless of how many times attempted, or the grade earned. Transfer credit(s) will be counted as attempted and completed, thus affecting a student’s cumulative completion rate.

Maximum Timeframe (MTF)

Students must complete their program within 150 percent of the credit hours required by their program of study. Students who have reached their maximum allowable credit hours will be suspended from receiving financial aid. Developmental or remedial hours are excluded from this calculation. The MTF calculation counts all attempted hours including repeated courses, program of study ineligible courses and courses transferred from other colleges, and grade(s) of withdraw (W), (F), incomplete (I), progress (PR), audit (AU) or No Credit (NC). MTF also includes hours taken under a previous major(s) and hours for which a student did not receive financial aid.

Additionally, failure to meet standards for financial aid purposes at CSP is defined as:

Maximum Time Frame

A student in excess of 150% of the published credit length of the program shall be immediately suspended from financial aid Title IV eligibility.

Financial Aid Warning

A student failing to meet the minimum cumulative qualitative or quantitative standards, or close to violating the Maximum Time Frame Standard of academic progress shall be placed on financial aid warning. A student on warning-status will remain eligible for financial aid for one term, but must remedy all SAP standards, or full financial aid suspension will be fully implemented.

Financial Aid Probation

A student failing to meet the minimum cumulative qualitative or quantitative standard of academic progress who is placed on Financial Aid Suspension may appeal for reinstatement based on extenuating circumstances. Learners with approved appeals may be placed on Academic Probation for one or more terms as determined by the SAP Academic Performance Committee.

Any student(s) on Academic Probation will be placed on an Academic Performance Plan (APP) that must be followed. Violation of an APP may lead to immediate Financial Aid Suspension reinstatement.

Continuation of Students on Financial Aid Probation Status

A student on probation who meets a term 2.0 GPA Undergraduate and/or 3.00 Graduate standard and the 67% earned percentage standard during the probationary term and has met all other terms set forth by the university for continuation of academic success as defined by the SAP Appeal Committee, may be permitted to retain enrollment and financial aid eligibility under a continued probation status, until such time as:

a. the student has met the cumulative standards and is therefore reinstated in good academic standing, or
b. the student fails to meet both the cumulative standards and the term standards, and is therefore suspended, or
c. it is determined it is not possible for the student to meet the cumulative standards within the maximum timeframe allowed, and is therefore suspended.

Suspension

A student on probation failing to meet the minimum cumulative qualitative or quantitative standard of academic progress during his/her next term of enrollment being immediately placed on suspension,
unless the student meets Continued Probation standards. A student on suspension will not be allowed to any financial aid funding related to Title IV, including Federal and State, if applicable.

Immediate Financial Aid Suspension
A student may be immediately suspended in the event of extraordinary circumstances, including (but not limited to) a student who was previously suspended, then reinstated and whose academic progress falls below minimum standards of progress, or a student whose higher education attendance pattern demonstrates the abuse of receiving financial aid.

Student Right to Appeal
Appeal Policy
Students suspended from financial aid may appeal their suspension if there were extenuating or unforeseen circumstances affecting their progress. All appeals must explain and document all terms in which progress was not met. Each appeal must also address how the circumstances that caused the suspension have/will be resolved. Students interested in appealing must submit an appeal form with all required documentation. Appeals will be thoroughly reviewed and reinstatement of financial aid will depend on the qualifying extenuating circumstances as outlined by CSP (see below) that directly contributed to deficient academic performance, as well as other probable factors. Appeals are evaluated on a term-by-term basis. Should a student’s appeal be approved, the student is required to sign an Appeal Contract for either one or multiple terms. Both options will require students to meet certain conditions each term of attendance, such as earning a specified GPA, maintaining a specified completion rate, and registering for a certain number of credit hours. To facilitate understanding, a copy of the contract will be provided to the student.

1. Probationary Appeal (for use for one term only)
Students who fall in this category are below the required 2.0 GPA (Undergraduate Students)/3.0 GPA (Graduate Students) and 67% completion rate. At the end of the appealed term these students must have at least a 2.0 GPA (Undergraduate Students)/3.0 GPA (Graduate Students), have completed 67% of their attempted classes, and not have exceeded their maximum allowable hours (MTF). If the learner fails to meet these requirements, they will be suspended and future appeals may not be approved. Financial Aid Probation contracts do not apply to students who have exceeded their maximum allowable hours (MTF). However, MTF suspensions and other appeals requiring more than one term to meet SAP or complete a program may be approved on an Academic Plan (see below).

2. Probation Appeal Plan with APP (for use for multiple terms)
An Academic Performance Plan (APP) is given to a student whose appeal has been approved for resolved extenuating circumstances but who will need more than one term to meet cumulative SAP standards. The APP Contract is similar to the Financial Aid Probation contract; however, it requires completing a required number of credits with a particular grade point average over more than one term. Should a student on an APP contract not meet the requirements in any given term, the student would automatically be suspended and future appeals may not be approved. Students on an APP contract who skip a term may also be suspended unless it is part of the APP Contract.

Qualifying Extenuating Circumstances
Students have the right to appeal Financial Aid Warning and/or Suspension in the case of extenuating circumstance(s) including, but not limited to:

- Death of an immediate family member. Immediate shall be defined as: child, spouse, biological parent or legal guardian.
- Serious Illness. Serious illness shall be defined as lasting longer than 20% of the term in duration or one that required hospitalization
- Other extenuating circumstance of relevant nature.

To appeal, send a letter of explanation as outlined above including supporting documentation (i.e. Obituary, letter(s) from health professionals, etc.) to:

Director of Financial Aid
Concordia University, Saint Paul
1282 Concordia Avenue
Saint Paul, MN 55014

The Official Financial Aid SAP Policy can be found online at: http://www.csp.edu/tuition-financial-aid/forms-worksheets/

Scholarships
Athletic Scholarships
Athletic scholarships are available in all sports offered at Concordia University. Students must be accepted to the traditional undergraduate program at the university and meet NCAA eligibility for scholarship consideration. The head coach in each respective sport selects the scholarship recipients and determines the scholarship. Scholarships are granted in one year periods only and are renewable under NCAA guidelines.

University Merit Scholarships
Renewable merit scholarships for new freshman are awarded based on high school academic achievement. The scholarships are awarded at the time of acceptance to Concordia University. The amounts of the merit scholarships range from $500 to $10,000. The scholarships are named Regents’ Scholarship, President’s Scholarship, University Scholarship, and Concordia Opportunity Grant. They are renewable for three additional years for students that maintain academic eligibility.

Lutheran Heritage Scholarship
The Lutheran Heritage Scholarship is available to new, full-time, first-year and transfer students from Lutheran Church – Missouri Synod (LCMS) congregations who meet regular admissions standards. This scholarship is renewable with the appropriate GPA.

University Church Vocation Scholarship
Scholarships up to $1,000 to undergraduate students who intend to serve The Lutheran Church-Missouri Synod in a full-time professional ministry after graduation. Students must enroll full-time in a church vocation program and apply to their home congregations and districts. The scholarship, as well as any assistance given by the student’s congregation and district, will be part of the financial aid package, reducing need-based loans and work-study. This is renewable with the appropriate GPA.

Church Assurance
New first-year and transfer students from LCMS congregations who are preparing for church professions may be eligible for a $10,625 assurance.
Thus, qualified students preparing for a church profession will be assured of receiving at least $10,625 of grants from all sources (not counting church and district grants). These are renewable with the appropriate GPA.

**Need-Based Grants**
These need-based grants are to students who demonstrate financial need.

**Synodical District Grants from the Lutheran Church - Missouri Synod (LCMS)**
District grants, scholarships, and/or loans are often available to church work students. Some LCMS districts, the Lutheran Laymen’s Leagues (LLL) of the districts, and the Lutheran Women’s Missionary Leagues (LWML) of the districts may offer financial assistance. Amounts, types, and criteria vary by synodical district.

**LCMS Forward in Remembrance Music Scholarship**
A program administered by the LCMS providing scholarships to church vocation students who excel in music.

**LCMS Forward in Remembrance Scholarship**
A program administered by the LCMS providing scholarships to church vocation students.

**LCMS Minority Scholarship**
A program administered directly by the LCMS providing scholarships to minority church vocation students.

**Scholarships – Endowed Funds**
Endowed scholarship funds are funds provided to support undergraduate students. The principle of the endowed fund is never used because only the generated interest is used for the designated purpose. Endowments are important to the university because they will provide annual income to Concordia University for years to come. The following endowed funds are currently available:

**AmeriCorps Alumni Scholarship**
AmeriCorps alumni admitted to Concordia University. St. Paul will be awarded a $5,000 scholarship. The scholarship can be applied toward tuition on any bachelor’s or master’s level program and will be distributed evenly across the student’s course of study. Students must maintain good academic standing including GPA requirements. Scholarship cannot be combined with other institutional discounts/scholarships, such as military, community college partnership(s) and employee discounts. Program participation will be evaluated on an annual basis. Requires annual submission of FAFSA. Not to exceed the cost of tuition less any other grant or scholarship aid.

**Concordia Colleague Advantage**
Employees and staff members of partnering institutions are eligible to receive a $2,000 tuition discount and priority admission status when they enroll in any accelerated undergraduate or graduate degree program at Concordia University, St. Paul. Students have the opportunity to learn on campus in a face-to-face setting or online.

**Concordia Partnership Advantage Scholarship**
The Concordia Partnership Advantage Scholarship is offered to the Degree Completion students that are employed by one of our partnering organizations. A $2,000 tuition discount is awarded to qualified students exclusively upon acceptance when they enroll in any undergraduate or graduate degree program.

**Transfer Advantage Scholarship**
The Transfer Advantage Scholarship is awarded to any transfer students who have completed the Minnesota Transfer Curriculum (MnTC) or an Associate of Arts degree from an accredited institution meet Concordia’s general education requirements. Concordia University also accepts individual goal areas completed within the MnTC. Eligible students are awarded $2,000 which is evenly dispersed over the length of program.

- David Aasved Scholarship – church work students
- Richard M. and Susan G. Arndt Scholarship – church work students; elementary teacher education program
- Athletic Scholarship Fund – students in athletic programs
- Leon Avenson Family Scholarship – church work students*
- Willi and Adeline Ballenthin Scholarship – church work students
- Bob Barnes Scholarship – physical education students
- Harry G. Barr Scholarship – Hoffmann Institute students
- John Barthel Scholarship – pre-ministerial students
- Harold and Lovine Bartz Scholarship – church work students
- Carl and Amanda Behm Scholarship – church work students; preference given to students from Minnesota North District of the LCMS
- Kenneth Behm Scholarship – church work students; preference given to students of Trinity Lutheran Church, Janesville, Minnesota
- Marvin and Luella Behm Scholarship – pre-ministerial students
- Larry and Judy Behnken Scholarship – pre-ministerial students
- Katharine Berwald Art Major/Studio Art Annual Scholarship
- Dr. W. Leroy and Marie L. Biesenthal Scholarship – pre-ministerial or Director of Christian Outreach students
- Earl D. and Helen Bohlen Family Scholarship – church work students
- Rev. Traugott P. and Ilse Bradtke Scholarship – pre-ministerial students; preference given to Christ Lutheran Church in Marshfield, WI or students from the North Wisconsin District of the LCMS
- Rev. Louis F. and Olga D. Brandes Scholarship – church work students
- Kerry (Schlichting) Brandvold DCE Scholarship – Director of Christian Education students
- Professor Friedrich and Ann Brauer Scholarship – church work students; music emphasis
- Bredehoft Family Scholarship – psychology students
- Rev. Paul F. Buck and Clara (Wacker) Buck Scholarship – pre-ministerial students; seniors
- Edwin H. Buegel, Edna L. Buegel and John E. Buegel Scholarship – church work students from Minnesota
- Lorraine and Vernon Buesing Scholarship – Director of Christian Outreach students
- Buetoew Scholarship – general; academic performance and/or financial need students
- Irwin J. Burkart Scholarship – general; financially needy students
- L.H.B. Scholarship – general
- Coach John Chiapuzio Scholarship – teacher education students; emphasis in Physical Education
- Church of the Holy Spirit Scholarship – church work teacher education students; junior or senior

*Leon Avenson, a former Concordia University trustee, endowed this scholarship in memory of his parents, Ada and Carl Avenson. It is awarded to students who have completed 12 credits of classroom coursework and one credit of practical experience in the ministry.
• Michael Colgrove Family Scholarship – church work students
• Colloquy Scholarship – church work financial need students
• Communication Scholarship – communication students; high academic standing and financial need
• Concordia Business and Economics Scholarship – business administration and/or accounting students; 3.0 GPA
• Concordia General Endowment – general; board designated/directed
• Concordia Guild Scholarship – church work students; female
• Concordia Scholarship - general
• Concordia Scholarship for Full-time Church Work Students – pre-ministerial or church work students
• Concordia Pre-Ministerial Scholarship – pre-ministerial students
• Erna and Robert Cordes Scholarship – church work students
• Ruth Prof Dannehl Scholarship – pre-ministerial and/or church work students
• Richard A. and Hilda Danowsky, Sr. Scholarship – pre-ministerial students; junior or senior
• Director of Christian Education Scholarship – Director of Christian Education students
• Rev. Professor William A. Dobberfuhl Scholarship – pre-ministerial students
• Kenneth Duerr Scholarship – church work students
• Earth Science Scholarship – earth science students; high cumulative GPA
• Pastor Henry F. and Marie C. Eggers Ministerial Scholarship – LCMS pre-ministerial students
• Paul W. Eggert Scholarship – church work students
• Emery and Almeda Eickhoff Scholarship – church work students
• Environmental Science Scholarship – environmental science students; high cumulative GPA
• Fred O. Erbe Memorial Scholarship – pre-ministerial or teacher education church work students; from specific parishes in Iowa
• Donald and Leone Erickson Scholarship – teacher education church work students; preference given to students of Trinity Lutheran Church of Lake Johanna, Arden Hills, MN
• Leonard C. Ewald-Norman Brandt Memorial Scholarship – church work students
• Forward in Remembrance Scholarship
• Michael Gangelhoff Scholarship – church work students
• Arnold W. and Sylvia A. Georg Scholarship – pre-ministerial students
• Edward and Clara Gesch Scholarship – church work students
• Omar E. and Verna R. Glessing Scholarship – church work students
• Lester A. Gottschalk Scholarship – teacher education church work students
• Mr. and Mrs. Herbert Grimm Scholarship – church work students; preference given to pre-ministerial students
• Leona M. Groth Scholarship –revolving scholarship; church work students and pre-med students
• Rev. Dr. Richard L. Guehna Scholarship – pre-ministerial students
• Alvina Haack Ministerial Scholarship – pre-ministerial students; German descent with high academic standards
• Julie Halbmaier Scholarship – Concordia School of Accelerated Learning students
• Halvorson/Sohre Memorial Scholarship – general; financial need and/or high academic students
• Mabel M. Harmel Memorial Scholarship – church work students
• William Randolph Hearst Scholarship – general; economically disadvantaged students of color
• Walter and Leone Helmkamp Scholarship – church work students
• Hispanic Outreach Scholarship – Hispanic students
• Otto and Sophia Holtz Scholarship – outdoor/environmental biology teacher education students
• Dr. Gerhardt W. Hyatt Memorial Scholarship – general; deserving students
• Mark and Gayle Janzen Scholarship – second career returning students; preferably over age 25 willing to speak the Gospel of Jesus Christ
• Lorraine and Michael Johnson Scholarship – female students; preference given to Director of Christian Education students
• Walfred and Julia Johnson Scholarship – church work students
• Kaden Family Scholarship – church work students
• Warren and Marilyn Kluckman Scholarship – church work students
• Otto F. and Gertrude B. Krause Scholarship – Director of Parish Music students
• Martin H. and Alma H. Kretzschmar Scholarship – pre-ministerial students
• William H.O. Kroll Scholarship – church work students
• Frieda W. Krueger Scholarship – church work students
• Elsie Kruse Scholarship – pre-ministerial students
• Theodore and Caroline Kuhn Scholarship – pre-ministerial students
• Edward A. Lange Writing Award – students excelling in writing
• Dr. Paul Lassanske Scholarship – church work students
• Kenneth O. and Kathleen D. Lenz Scholarship – church work students
• Rev. Dr. Martin W. and Lucille E. Lieske Scholarship – church work students
• Rev. Walter Luedtke Scholarship – pre-ministerial students
• Dr. Ernest A. Lussky Scholarship – church work students
• Dr. Martin Luther Scholarship – pre-ministerial and teacher education church work students
• Lutheran Brotherhood Scholarship for Lutheran Students – Lutheran students; financial need; Lutheran
• Charlotte Mack Scholarship – Director of Christian Outreach students
• Dr. and Mrs. Paul Martens Scholarship – church work students
• Harold Mattfeld Family Scholarship – church work students
• Dr. R. Brownell and Ann McGrew Scholarship – Hoffmann Institute
• Rev. Dr. August Mennicke Scholarship – church work students; music or psychology emphasis
• Dr. Gerhardt and Dr. Loma Meyer Scholarship – church work students; priority given to teacher education students
• Pastor Gerhard and Augusta Michael Scholarship – church work students
• Rev. Dr. Marvin and Melba Middendorf Scholarship – pre-ministerial students
• Thomas and Chris Milbarth Football Fund – Athletic students participating in football; minimum 2.5 GPA
• Rev. Fred and Frieda Miller Scholarship – pre-ministerial students
• Minority Student Scholarship – minority students
• William Moenkenmoeller Scholarship – general; deserving students
• Mr. and Mrs. B.A. Mosling Scholarship – pre-ministerial students; or church work students
• H.F.C. Mueller Scholarship – pre-ministerial male students and teacher education female students
• Dr. Luther Mueller Scholarship – church work students; priority given to teacher education students
• Theodore F. Neils, Sr. Scholarship – worthy students
• Paul and Diane Netsch Scholarship – pre-ministerial students
• Richard E. Norris Scholarship – band program students majoring in instrumental music education
• Marvin T. Nystrom Scholarship – U.S. citizens with financial need; minimum 3.0 GPA
• Dr. Stanley and Eleanor Oexemann Scholarship – U.S. citizens enrolled in Christian mission work; preference given to freshmen having graduated in the top 20%; continuing students must have a minimum 3.0 GPA
• Hoffmann Institute Scholarship – church work students interested in working in the area of outreach; two years' experience at Concordia University and or have been admitted to a professional program; spiritual maturity and significant contribution to Christian outreach.
• Mr. and Mrs. Theodore Olsen Scholarship – pre-ministerial or church work students
• William H. and Georgia B. Olson Scholarship – pre-ministerial students
• Jim, Nancy and Daniel Ondov (Because of Jesus) Scholarship – pre-ministerial or other church work above average students
• E. J. and Anna H. Otto Pre-Seminary Scholarship – church work students
• Outdoor/Environmental Biology Scholarship – elementary education students; concentration in outdoor/environmental biology; at least two quarters remaining, demonstrating academic excellence
• Frank and Elsie Papke Scholarship – pre-ministerial students
• Parents’ Appreciation Scholarship – church work students
• Jan Pavel Scholarship – pre-ministerial students
• Rachel Ann Pocrnich Scholarship – teacher education students; early childhood or elementary
• Esther Podewils Hoffmann Institute Scholarship Endowment – Hoffmann Institute students
• Richard D. and Joyce Peterson Peters Scholarship – church work students; preference given to minority students
• W.A. Poehler Alumnus Scholarship – church work students; high academic achievement; financial need
• Irene Reinking Scholarship – church work students
• Rev. Louis Rosin Scholarship – pre-ministerial students
• Henry and Lela Rossow Church Teacher Scholarship – church work teacher education students; male
• Henry and Lela Rossow Ministerial Scholarship – pre-ministerial students
• Pastor Kenneth and Lorraine Rousfs Scholarship – pre-ministerial American Indian students or pre-ministerial minority students
• Edward and Natalie Rudnick Scholarship – Hoffmann Institute students; merit based
• Rev. Palmer and Lois Ruschke Scholarship – female church work students or pre-ministerial
• James M. and M. Martha Ryan Scholarship – church work students
• Walter and Cora Scharf Scholarship – church work students
• Scheele-Mueller Pre-Seminary Scholarship – pre-ministerial students
• William T. and Alma H. Schluter Scholarship – general
• Victor and Harriet Schmidt Scholarship – church work students
• Fritz Schneider Scholarship – church work students
• Mr. and Mrs. Herman Scholl Scholarship – church work students
• Ray Schrader Family Scholarship – church work students
• Mr. and Mrs. Edward C. Schroeder Scholarship – general; financial need and academic leadership students
• Ted and Edna Schroeder Scholarship – general; financial need students
• Arthur J. Schuette Scholarship – church work students
• Leigh and Rose Schulze Church Work Scholarship – church work sophomore, junior or senior students
• Steven Schutte Scholarship – church work teacher education students
• Rev. Earl O. and Mrs. Ruth Schwerman Scholarship – pre-ministerial students
• Rev. Paul and Regina Seltz Scholarship – church work students
• Sohn Ministerial Scholarship – pre-ministerial students
• Rev. Harold Schweigert Endowment Fund – church work students; preference to students of Saint Peter's Evangelical Lutheran Church, Edina, MN
• Gary and Eileen Specketer Scholarship – pre-ministerial students
• John and Elsie Stach Scholarship – general; 3.0 overall GPA and 3.25 GPA religion classes
• Arthur Stanz Scholarship – pre-ministerial students
• Albert J. Stehr Scholarship – church work students
• Alfred and Ruth Steinberg Scholarship – church work students; Minnesota North District
• Mary Behrens Stelter Scholarship – pre-ministerial students
• Rev. Roger and Lois Stoehr Scholarship – pre-ministerial students
• Paul W. Stor Biology Scholarship – biology students; preference given for teaching or pastoral vocations
• Paul W. Stor Chemistry Scholarship – chemistry students; preference given for teaching or pastoral vocations
• Jim and Candi Storm Annual Scholarship – freshman students of color; arts related program
• Rachel Tegtmeier Scholarship – general; preference given to students working with mentally challenged individuals
• Esther S. Tiernan Pre-ministerial Scholarship – pre-ministerial students
• Dr. and Mrs. Leon Titus Band Scholarship – active band member students
• Carl and Wilhelmina Toensing Scholarship – church teacher and/or church music program students; seniors
• Carol Anne Trapp Scholarship – pre-ministerial students
• Thomas Trapp Pre-Ministerial Scholarship – pre-ministerial students
• Treichel Family Scholarship – minority; financial need students from Saint Paul, MN
• Linus Ulbricht Memorial Scholarship – general
• Martin and Loretta Vanseth Scholarship – church work students
• General John and Avis Vessey Scholarship – Hoffmann Institute students
• Kristin Aleta Vetter Memorial Scholarship – general; Lutheran Church of the Triune God students, Brooklyn Center
• Leroy Vogel Scholarship – pre-ministerial students
• Volkert Family Scholarship – church work students
Concordia University. is awarded to students according to criteria determined by the donor and specifically for scholarship purposes during the current year. The money Annual gift scholarships are those gifts to the university designated Scholarships – Annual Gifts

- Charles and Ellora Alliss Scholarship – general; full-time students
- Norma H. Stevens Scholarship – church work students
- Adolph Schmidt Scholarship – Director of Christian Outreach or church work students
- Hulda Suomi Scholarship – general; pre-ministerial students
- Randalin Powell Scholarship – Concordia School of Accelerated Learning students
- Donald L. Hohenstein Memorial Fund for Church Musician Awards – church work students; financial need
- Carmen P. Henschen Scholarship – general; financial need
- Fine Arts Scholarship – art, drama or music students; junior or senior
- Pre-Ministerial Greek Scholarship – pre-ministerial students
- Redeemer Lutheran Church, New Ulm, Minnesota Scholarship – church work students
- Adolph Schmidt Scholarship – Director of Christian Outreach or Director of Christian Education students
- Norma H. Stevens Scholarship – church work students
- Huulda Suomi Scholarship – general; freshman students experiencing challenges

Legal Notices

The Concordia University Board of Regents operates Concordia University as an institution of higher education.

All information in this Academic Catalog was current at the time of publication. However, the information in this catalog does not constitute a contract between Concordia University and the student. The material contained in this catalog is for information only. The university reserves the right to make changes in curricula, admissions policies and processes, tuition and financial aid, academic standards and guidelines, student services and any other regulations or policies set forth in this catalog without giving prior notice. All questions may be referred to the Office of Academic Affairs. Concordia University, Saint Paul, is registered with the Minnesota Office of Higher Education pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions of higher education.

Student Consumer Information

Concordia University fully complies with Public Law 101-542 The Student Right-to-Know and Campus Security Act, as amended by Public Law 102-26, the Higher Education Technical Amendments of 1991. Under these laws, retention and completion rates for entering students are kept by the associate dean of enrollment and are available to all current and prospective students. The Safety and Security office makes available to all students various policies and statements regarding campus security, including statistics on various types of crime that may have occurred. A copy of the campus Alcohol and Drug Policy can be found in the Student Policies Handbook.

Notice of Non-Discrimination

Concordia University does not discriminate for admission of students on the basis of race, color, creed, religion, national or ethnic origin, disability, sex, age, marital status, veteran or veteran disability status, or sexual orientation.

Any persons having inquiries concerning Concordia University’s compliance with the regulations implementing Title VI, Title VII, Title IX or Section 504 or Americans with Disabilities Act are directed to contact one of the following:

- Milissa Becker, Director of Human Resources
  Concordia University
  1282 Concordia Avenue
  Saint Paul, MN, 55104-5494
  (651) 641-8268 or becker@csp.edu

- Dr. Cheryl Chatman, Title IX Coordinator
  Concordia University
  1282 Concordia Avenue
  Saint Paul, MN, 55104-5494
  (651) 603-6151 or chatman@csp.edu

Persons may also contact the Assistant Secretary for Civil Rights, U.S. Department of Education, regarding the institution’s compliance with the regulations implementing Title VI, Title VII, Title IX Section 504, or Americans with Disabilities Act.
Family Educational Rights and Privacy Act - Confidentiality

Students enrolled at Concordia University, Saint Paul, are required to give certain information in order that the university may make reasonable judgments about them, provide services, and give informed advice regarding courses to be followed. Such personal data and information may become part of the student education record. Students may make the justifiable assumption that the university, as custodian of this data, will preserve the data's private nature. By requiring or requesting such information, Concordia University gives assurance that the information will be protected against improper disclosure.

Concordia University observes the following principles:

1. Appropriate Concordia University officials are held directly responsible and accountable for the careful protection of student education records against possible misuse.
2. Within Concordia University, student education records will be used only for appropriate research, educational, and Concordia University administrative functions. Access to those records is allowed only to those members of Concordia University community whose designated responsibilities reasonably require access or to persons to whom the student has given written permission for access.
3. Concordia University provides the student with the right to access, inspect and obtain copies of all information in student education records except a) financial information submitted by parents and b) confidential letters and recommendations collected under established policies of confidentiality or to which the student has waived in writing the right of inspection and review.
4. Concordia University gives students the right to request amendment of the contents of student education records, to have a hearing if the result of the request for amendment is unsatisfactory, and to include a statement in the record if the decision resulting from the hearing is unacceptable to the student.
5. Concordia University notifies students annually of their privacy rights, their right to file complaints concerning alleged failures of Concordia University to comply with their privacy rights, and where copies of the Concordia University policy and procedures on access to student records may be obtained.
6. The student education records of Concordia University vary in their nature and location. Steps taken to protect against improper disclosure are designed for the circumstance.

Student Education Records

Directory Information - Category I

The student's name, address, electronic (E-mail) address, home town, telephone number, dates of enrollment and enrollment status (full time, part time, not enrolled, withdrawn and date of withdrawal), major, minor, adviser, photo, college and class, academic awards and honors received (including dean's list recognition), curricular and co-curricular activities, and (in the event of the student's graduation) the degree(s) received/conferred (including dates), are matters of public record or directory information. Therefore, Concordia University officials and departments may provide this information, in answer to inquiries, without requiring authorization from the student. However, students may prohibit disclosure of directory information at any time during their enrollment. The entire student file may be marked confidential if the student completes a Student Information Suppression / Release Form. The form is available on the Student Portal. Records remain suppressed until a Student Information Suppression / Release Form is completed to release information.

Directory Information Category II (For Student Athletes Only)

Past and present participation in university sponsored athletics, physical factors (height, weight of athletes) and birth date are considered directory information for athletes only.

Other Student Educational Records

Student education records other than directory information include, but are not limited to: transcripts, test scores, college advising records, disciplinary files, financial aid information, housing records, and records of educational services that are provided to students. Such records are not disclosed to anyone except:

1. The student and others on written authorization by the student;
2. Persons within Concordia University who have a legitimate interest in the information for educational, administrative, or research purposes;
3. Other educational institutions in which the student seeks to enroll, provided the disclosure is limited to official copies of student transcripts or test scores from the appropriate Concordia University office;
4. Other organizations conducting educational research studies provided the studies are conducted in a manner that will not permit identification of students and the information will be destroyed when no longer needed for the purpose for which the study was conducted;
5. Persons in compliance with a court order or lawfully issued subpoena, provided that a reasonable attempt is made to notify the student in advance of compliance thereof;
6. Appropriate persons in connection with an emergency, provided the information is necessary to protect the health or safety of the student or other individuals;
7. Accrediting organizations and state or federal education authorities when the information is needed for auditing, evaluating, or enforcing legal requirements of educational programs, provided the accrediting organizations and authorities protect the data in a manner that will not permit the personal identification of students and personally identifiable information is destroyed when no longer needed;
8. Appropriate persons or agencies in connection with an application for or receipt of financial aid to determine eligibility, amount, or conditions of financial aid;
9. Parents of a dependent student as defined under the Internal Revenue Code. (Each time a parent requests access to records the parent must submit a current tax statement listing the dependent student.)

Other Student Records - Non-Academic

Concordia University maintains other records that contain information about students. Information in medical or psychological counseling records, including results of examinations by Concordia University personnel, is afforded greater protection. Concordia University obtains such information with a commitment as to its highly private nature. Such records should not be disclosed except

a. under direct written authorization by the student,
b. pursuant to a court order signed by a judge, or
c. as otherwise required by law.
Concordia University Security and Human Resources records contain information about students, but are not student education records and are not covered by this policy. University offices which are responsible for such records observe information release policies which protect the subjects of such records against improper disclosure and are consistent with applicable laws.

The Title IX implementing regulations at 34 C.R.F. 106.8(a) require that each recipient designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under Title IX. The coordinator’s responsibilities include investigating complaints communicated to the recipient alleging noncompliance with Title IX. Section 106.8(a) also requires the recipient to notify all students and employees of the name, address, and telephone number of the designated coordinator. Section 106.8(b) requires that each recipient adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints under Title IX.

To file a grievance regarding possible Title IX Compliance, grievance must be submitted in writing to Cheryl Chatman, Title IX Coordinator.

**NCAA Eligibility**

**Concordia University Athletics and NCAA Eligibility**

Intercollegiate athletics are considered an integral part of Concordia University’s educational experience. Concordia University is a member of the National Collegiate Athletic Association (NCAA) Division II and the Northern Sun Intercollegiate Conference (NSIC). The university agrees to abide by the rules and policies governing the association. Eligibility rules and regulations governing students’ participation in intercollegiate athletics are available through the Office of the Athletic Director.

The Director of Athletics supervises and directs the intercollegiate program of athletics. The Director of Athletics recommends the appointment of coaches for the various teams.

The Assistant Athletic Director for Compliance and the Faculty Athletic Representative are charged with the responsibility of ensuring that all participants in intercollegiate competition are eligible in accordance with the rules and regulations of the NCAA prior to their representing the institution in any manner. The Equity in Athletics Disclosure Report (EADA) can be found in the athletic department. The report can be requested from the Assistant Athletic Director for Compliance.

**Freshman NCAA Eligibility Requirements**

A student-athlete who enrolls in a Division II institution as a freshman shall meet the following academic requirements to be considered a qualifier and thus be eligible for financial aid, practice, competition and travel during the first academic year in residence.

**Qualifier**

A qualifier is defined as one who is a high-school graduate and who presented the following minimum academic qualifications:

A minimum grade point average of 2.20 (based on a maximum 4.00) in a successfully completed core curriculum of at least 16 academic courses.

1. The record of the above courses and course grades must be certified by the NCAA Eligibility Center using an official high-school transcript or official correspondence forwarded directly from the high school or upon a high-school transcript forwarded by an institution’s department of University Enrollment, Marketing and Enrollment, and

2. A minimum combined score on the SAT verbal and math sections or a combined score on the ACT that meets the NCAA sliding scale requirements. The required SAT or ACT score must be achieved under national testing conditions on a national testing date. By clicking here (https://www.ncaa.org/sites/default/files/2017_DII_Requirments_Fact_Sheet_20170103.pdf), you can view the sliding scale requirements.

**NCAA Progress Toward Degree Requirements**

The student-athlete must demonstrate continued academic achievement in subsequent years while participating in athletics.

The following requirements must be fulfilled on an annual basis in order for a student-athlete to maintain their NCAA Eligibility.

1. Student-athlete must pass 9 credits toward their major/minor/general education program each semester.
2. Student-athlete must pass 24 credits toward their major/minor/general education program between Fall, Spring and Summer (Please note: An athlete may only take 6 credits during the summer session that can count towards this requirement).
3. Student-athlete must have a minimum 2.00 cumulative GPA after Fall, Spring and Summer.

Please keep in mind if your major or minor require a certain grade in a course, Concordia University can only count those credits if you receive a grade that meets those requirements (If a grade of C or higher is required for your major/minor and you receive a D, this institution cannot count those credits).

NCAA legislation requires a student-athlete who is in their fifth semester or beyond to have declared a major with the Registrars office at Concordia University. This provision shall be applicable to the eligibility not only of a continuing student, but also of a transfer student from a four-year or two-year collegiate institution who is entering his or her third year of collegiate enrollment, even if the student has not yet completed an academic year in residence or utilized a season of eligibility in a sport at the certifying institution.

Students who have attended college previously are eligible to participate in intercollegiate athletics under other regulations. It is important that the prospective student-athlete determine, with the help of the Assistant Athletic Director for Compliance, which set of rules apply.

**Quick Facts about NCAA Eligibility**

1. A student must be enrolled, attending classes, and be a student in good standing, in a minimum of 12 credit hours at the time of participation. Courses below “100” in the number system and repeated courses do not count toward satisfying the “normal progress” rule.
2. All participants must be making normal progress toward a degree. This is defined as earning 24 semester credits in the previous two semesters before participating in the activity. A maximum of one repeat course per term previously passed with a grade of “D” (or the equivalent) may be counted toward satisfying the 12-hour current enrollment rule. Repeated courses previously passed with a grade of “C” or better cannot be applied to meet either the 12-hour enrollment rule or the 24-credit rule.
3. All athletes must maintain a cumulative grade point average of 2.00.
4. An athlete who is eligible during the regular sports season for a particular sport and who is eligible at the end of the regular sport season shall retain eligibility in the particular sport for participation in post season approved events.

5. A student must meet the standards of the athletic conference and associations of which the university is a member.

6. A student must meet the requirements listed under medical examination in order to be eligible.

7. All athletes must be covered by health and hospitalization insurance. Financial authority regarding participation rests with the Director of Athletics.

8. The Director of Athletics may refer hardship cases to the Assistant Athletic Director for Compliance. Medical hardship cases deal only with seasons or competition and must receive final approval by the Northern Sun Intercollegiate Conference staff.

9. The university does not provide special insurance coverage for athletes. Student-athletes assume the risks associated with competition and practice.

**Previous Catalogs**

Previous versions of the Concordia University Catalog are available as follows:

- 2010-2011 Academic Catalog (http://catalog.csp.edu/university-information/previous-catalogs/CSP-Academic-Catalog-2010-11.pdf)

---

**Student Services/Activities**

**Student Services**

**Academic Advising**

Academic Advisor -

Your Academic Advisor will assist in course selection and registration, academic and career planning, selecting major/minor, degree planning and connecting you with on-campus resources to ensure academic success. New students are assigned an academic advisor based on indicated interests or intended academic majors. Peer Advisors provide additional assistance to first-year students and incoming transfer students. For more information about academic advising, contact the Director of Advising at (651) 603-6271

Faculty Advisor -

Your Faculty Advisor assist students in understanding their major/minor, career outcomes and internships or experiential learning. The faculty advisor provide a mentor relationship with students to help them discover their strengths and how to best put them into practical experiences.

**Academic Advising Center -**

The Academic Advising Center, located in Meyer Hall, room 114, offers walk-in advising to all students. Information on adding and dropping courses, academic policies and procedures, General Education requirements, declaring a major, degree planning and academic appeals are available on our online job board. A career development course is also available: Career Strategies (SSS 225). For more information about Career Services, contact the Director of Career Services at (651) 603-6241.

**Career Services**

Career Services at Concordia University is committed to preparing individuals to make thoughtful and informed choices about their vocation, integrating career planning with academic and life experience, and teaching skills that contribute to successful career management. For those students unsure of a career direction, career advising is available to help in career planning and decision-making. Numerous resources are available to assist all students in preparing for the job, internship, or graduate school search. Part- and full-time job and internship listings are available on our online job board. A career development course is also available: Career Strategies (SSS 225). For more information about Career Services, contact the Director of Career Services at (651) 603-6241.

**Student Accessibility Services**

Concordia University is committed to providing an accessible education to qualified, currently enrolled students who have either temporary or longer-term disabilities. A student with a disability is one who has a condition (physical, emotional, cognitive, or acute medical) that significantly impacts their ability to perform daily functional activities. Student Accessibility Services can:

- help determine if you may have a disabling condition that impacts educational programs or services
- maintain confidential records pertaining to disability verification separate from an academic file
- determine reasonable accommodations for courses in cooperation with faculty/students
- provide referral for additional testing or supportive services (e.g., counseling, tutoring services)
- orientation for physical access needs on campus
- set up academic supports that may help in classes (e.g., test taking, note taking, alternative text)
• provide individual, one-on-one consultation on a wide variety of disability related issues

**Health Insurance**

Concordia University expects that all students carry health insurance. It is the student’s responsibility to provide payment or insurance for any physical or mental health medical needs. Concordia University assumes no liability for student illness or injury and no responsibility for medical bills and/or services contracted for by students (including athletes). It is the responsibility of the student to carry the insurance card at all times to have available in case of illness or injury.

Students and families are strongly encouraged to ensure that both insurance coverage and local medical care options are in place prior to commencing classes. There are many options available to students, including, being covered on their parent's policy until age 26 or purchasing coverage through an insurance exchange. The insurance exchange is an online resource where you can find information about different health plans and coverage. Healthcare.gov (http://www.Healthcare.gov) is the federal insurance exchange. Residents of Minnesota can look under MNsure.org (http://MNsure.org) where you can access the cost for each plan and enroll or find out whether you qualify for financial assistance based on annual income.

**Learning Services**

Learning Services staff assists students in learning skills and strategies that help them achieve academic and personal success. Learning assistance is provided through individual counseling and through several credit-bearing courses. For more information and learning resources, visit the Learning Services website at www.csp.edu.

**Student Support Services Courses (SSS)**

CSP Student Support Services courses (p. 185)

**Tutoring Services**

Tutoring for courses and subjects other than writing and composition (which the Writing Center provides) is available free of charge to Concordia University undergraduate students to help them achieve academic success and improve their study skills. Students who would like to improve their grades from B’s to A’s as well as students who might be struggling in classes may request services.

Students who excel in subjects may apply to become Peer Tutors. This position provides students with the opportunity to explore their interests, connect with others, practice workplace skills, and enjoy the additional benefits of increasing their understanding of a subject. Contact the Tutoring Coordinator at (651) 603-6216 for more information.

**Writing Center**

Students are encouraged to use the Writing Center, located on the top floor of the Winget Student Center, at any stage during the writing process. Writing Center tutors, who include students, staff, and faculty, are trained to assist writers with focus, content, clarity, grammar, and mechanics in their works-in-progress. Students not only receive help on their writing projects, but also learn how to improve their writing skills. Some of these skills may include prewriting, planning, drafting, using sources, revising, and editing. Students may sign up for a 30-minute appointment by stopping by the Center, calling (651) 603-6233, or visiting their website: info.csp.edu/writingcenter.

**Service Learning**

Service-learning at Concordia University is defined as an experiential approach to teaching and learning that intentionally combines meaningful community or public service with an academic application, development of civic responsibility and personal growth. Service-learning opportunities are ones that are mutually beneficial. Service-learning opportunities can be either curricular – that is, tied to a class – or co-curricular, and these opportunities may involve direct service, indirect service, advocacy, or research. In addition to several course offerings, the Community Action, Leadership and Learning (CALL) Center also offers a variety of other opportunities for students to engage, including (but not limited to) student club involvement, National Hunger and Homelessness Awareness Week, service trips over winter and spring breaks, and tutoring/mentoring at after-school programs. For more information, contact the Service Learning Director at (651) 641-8236 or check out the website at the CALL Center (http://concordia.csp.edu/call/service-learning) website.

**University Ministry**

University Ministry at Concordia University, Saint Paul, also known as CSP Ministry, is to provide a Christ-centered, team-based, approach to ministry that supports the spiritual formation of a diverse student population within the context of the Christian Gospel found in the Scriptures. We commit to being a relational presence across the university, walking with students of all kinds during their Concordia experience. CSP Ministry serves the spiritual needs of the Concordia community with prayer support, discipleship, encouragement, and devotional and relational opportunities.

Whether you describe yourself to be a life-long Lutheran, a new Christian, someone just asking questions about faith, or at any other place in your spiritual life, you are welcome to participate in chapel services, Bible studies, or conversations. CSP Ministry is here to meet you where you are on your spiritual journey and invites you to experience God’s love for you expressed in the Gospel of Jesus Christ.

**Ministry Opportunities**

- Morning Chapel
  Monday, Wednesday, & Friday at 10:30am
  Tuesday & Thursday at 11:20am
- Evening Chapel
  Monday, Tuesday, & Thursday at 10:00pm
  Wednesday at 9:08pm
- Lectors
- Musicians
- Sound Technicians
- Scripture Studies
- Peer Ministry
- Cornerstone Men’s Ministry
- Theology and Ministry Club (including Prisms)
- Fellowship of Christian Athletes
- 908 (Wednesday evening student-led, contemporary chapel service)
- Evening Chapel Coordinators and Musicians

**Chapel Services and Devotional Life**
The university’s sense of community is rooted in its commitment to a Christian perspective within the Lutheran tradition. Times of devotion around scripture and song are at the center of campus life and relate to all campus activities, whether academic, social, cultural, or co-curricular. All members of the campus community are welcomed as participants in the devotional assembly. Chapel is held each weekday morning as well as Monday-Thursday evenings in addition to festival celebrations and devotional activities in spaces across campus. Devotions and videos of chapel are available online as well at ministry.csp.edu.

Spiritual Care

CSP Ministry seeks to be a support and walk alongside of students through their journey at Concordia University. Spiritual care, including conversation, prayer, hospital visits, and other resources are available from the CSP Ministry staff. CSP Ministry staff are confidential personnel. Additionally, personal and academic counseling services are available with Student Accessibility Services and Learning Services.

Prayer requests can be submitted at ministry.csp.edu and can be kept confidential or prayed for in chapel. To request spiritual care or connected with CSP Ministry staff, email cspministry@csp.edu.

NCAA Division II Athletics

Intercollegiate athletics are considered an integral part of Concordia University’s educational experience. Concordia University is a member of the Northern Sun Intercollegiate Conference and a member of the NCAA Division II.

The university is a member of the National Collegiate Athletic Association (NCAA) and agrees to abide by the rules and policies governing the association. Eligibility rules and regulations governing students’ participation in intercollegiate athletics are available through the office of the Athletic Director.

The Director of Athletics supervises and directs the intercollegiate program of athletics for men and women. The Director of Athletics recommends the appointment of coaches for the various teams.

Tuition and Fees

Tuition and Fees 2018-2019

Payment of Fees

Tuition and fee charges, including any balance due after disbursement of financial aid1, must be paid using one of the below options.

Payment in Full

Payment in full (or the total balance due after accounting for financial aid1) made by the first due date of the CSP Installment Plan (below). Students may pay online, by mail or in person.

- Online – Make a payment online 24/7 by credit card or bank transfer from a checking or savings account online.
- By mail – Send check or money order to:
  Concordia University–St. Paul
  NW 5884
  P.O. Box 1450
  Minneapolis, MN 55485-5884
  Please reference your Concordia ID number

  - In person – Check, money order, or cash is accepted at the cashier’s window on campus.

1 Financial aid awards typically include loan opportunities, for which you must apply and sign a Promissory Note.

CSP Installment Plan

In this plan, you will make payments in up to two installments, plus a $35 enrollment fee, per semester according to the timeline found in the Tuition and Fee Payment Procedure for each semester. This information is found on the portal.

Students who have an outstanding balance due, or have not completed financial aid requirements by the first due date, will be automatically enrolled in the CSP Installment Plan. All late payments will incur a 1% finance charge.

Summer Semester

Summer tuition is due by June 15. Concordia University reserves the right to modify payment plans during the time of student enrollment, specifically from year to year.

Book Purchase Credit

The only students that will be considered for a Book Purchase Credit are those who are Pell Grant eligible and expecting a refund. The amount of the voucher will be equal to the annual published books and supplies allotment.

Refund Policy for Traditional Undergraduate Students

Business Day
Business days are defined as Monday through Friday, excluding posted holidays.

Business Service Hours
On campus business hours are defined as Monday through Friday 8am – 4:30 pm, excluding posted holidays.

Online campus business hours are defined as 24 hours per day, 7 days per week, including holidays.

Traditional Undergraduate Student
Traditional undergraduate students are defined as learners enrolled at the undergraduate level in a 15 week term, which may be offered in a variety of settings including (but not limited to) on-campus delivery and online delivery.

Total Drop
A total drop is a drop from all registered courses done before the start of the 11th business day of the term. Dropped courses do not appear on a transcript and do not affect academic standing.

• 100% refund before the start of the 6th business day of the term
• 75% refund from the 6th business day to before the start of the 11th business day of the term

Total Withdrawal
A withdrawal from all registered courses from the 11th business day through the end of the 50th business day of the term. Withdrawn courses appear on a transcript with a grade of “W” and have a direct impact on academic standing and financial aid status.

• 50% refund from the 11th business day to before the start of the 16th business day of the term
• 25% refund from the 16th business day to before the start of the 21st business day of the term
• 0% refund from the 21st business day to end of the 50th business day of the term

Refund Schedule for Traditional Students Withdrawing from the University

• 100% refund before the start of the sixth business day of the term
• 75% refund before the start 11th business day of the term
• 50% refund before the start of the 16th business day of the term
• 25% refund before the start of the 21st business day of the term
• 0% refund on or after the 21st business day of the term

Refund Policy for Adult Undergraduate and Graduate Students

Business Day
Business days are defined as Monday through Friday, excluding posted holidays.

Business Service Hours
On campus business hours are defined as Monday through Friday 8am – 4:30 pm, excluding posted holidays.

Online business hours are defined as 24 hours per day, 7 days per week, including holidays.

Adult Undergraduate Student
Adult undergraduate students are defined as learners enrolled at the undergraduate level in a term consisting of two seven week sessions
which may be offered in a variety of settings including (but not limited to) on-campus delivery and online delivery.

**Graduate Student**

Graduate students are defined as learners enrolled at the graduate level in a term consisting of two seven week sessions which may be offered in a variety of settings including (but not limited to) on-campus delivery and online delivery.

**Drop**

Students are allowed to drop any course before the start of the 6th business day of each term. Students who drop a course will receive a full refund of tuition. Dropped courses do not appear on a transcript and do not impact academic standing.

**Withdrawal**

Students are allowed to withdraw from any course from the 6th business day of each term through the end of the 25th business day of the term. Withdrawn courses appear on a transcript with a grade of "W" and have a direct impact on academic standing and financial aid status. No refunds are granted for withdrawals.

**Current Add/Drop/Withdrawal Schedule**

**2018-19 Adult Undergraduate, Graduate and SCS Add/Drop Dates**

**Fall 2018**

- **First Seven Weeks (September 4 – October 19)**
  - Last day to add a first half semester course: September 3, 2018
  - Last day to drop (without record or charge) a first half semester course: September 10, 2018
  - Last day to withdraw ("W" grade) a first half semester course: October 8, 2018

- **Second Seven Weeks (October 22 – December 20)**
  - Last day to add a second half semester course: October 21, 2018
  - Last day to drop (without record or charge) a second half semester course: October 28, 2018
  - Last day to withdraw ("W" grade) a second half semester course: November 28, 2018

**Spring 2019**

- **First Seven Weeks (January 14 – March 1)**
  - Last day to add a first half semester course: January 13, 2019
  - Last day to drop (without record or charge) a first half semester course: January 21, 2019
  - Last to withdraw ("W" grade) a first half semester course: February 18, 2019

- **Second Seven Weeks (March 11 – May 3)**
  - Last day to add a second half semester course: March 10, 2019
  - Last day to drop (without record or charge) a second half semester course March 17, 2019
  - Last day to withdraw ("W" grade) a second half semester course: April 14, 2019

**Summer 2019**

- **First Seven Weeks (May 13 – June 28)**
  - Last day to add a first half semester course: May 12, 2019
  - Last day to drop (without record or charge) a first half semester course May 19, 2019
  - Last day to withdraw ("W" grade) a first half semester course June 16, 2019

**Second Seven Weeks (July 8 – August 23)**

- Last day to add a second half semester course: July 7, 2019
- Last day to drop (without record or charge) a second half semester course July 14, 2019
- Last day to withdraw ("W" grade) a second half semester course August 11, 2019

Undergraduate Academic Information

Academic Policies and Procedures

Registration

The requirement for completion of an undergraduate degree at Concordia University, Saint Paul, is 120 semester credits. The average academic load for a full-time undergraduate student is 15 credits. The maximum load for undergraduate students without payment of additional fees is 19 credits. Students who desire an academic overload must petition through the advisor for permission.

Ordinarily freshmen and sophomore students register for courses numbered from 100 to 299. Academic Advisors assist in the planning and approval of course registration. Credits earned in courses numbered less than 100 are not applicable to graduation requirements.

In undergraduate degree completion programs, enrollment is considered continuous throughout the program or until the student informs their academic advisor about a discontinuation. Students who stop participating but have not officially discontinued are liable for the cost of attendance.

Time Limits

There is no time limit for completion of a degree in undergraduate programs at Concordia University.
**Classification of Students**

**Full-Time Students**
Full-time students are those who have satisfied the entrance requirements, have been admitted to the university and are registered for a minimum of 12 credits per semester. The Minnesota State Grant program defines a full-time student as one who is registered for a minimum of 15 credits per semester.

**Part-Time Students**
Undergraduate students are considered part-time when they carry 11 credits or fewer during a semester. Undergraduate students carrying 9 to 11 credits are classified as three-fourths time students; students carrying 6 to 8 credits are classified as half time students.

Undergraduate students are placed in a class according to the total number of credits earned:

- Freshman - up to 29 credits
- Sophomore - 30 to 59 credits
- Junior - 60 to 89 credits
- Senior - 90 credits and above

**Repeating Courses**
Students may repeat a course. If students repeat a course, both courses remain on the student's transcript but only the higher/highest grade is used in computing a student's cumulative grade point average (CGPA).

**Auditing Courses**
Students who satisfy the requirements for admission may register to audit a course without receiving academic credit for the course. Registration procedures are the same as for credit-bearing courses. The course fee is at a reduced rate unless the course fits under the regular credit limit of 19 credits per semester. Auditing students need not meet regular course requirements but should confer with the instructor as to their privileges and responsibilities in the course. Upon completion of the course, an entry is made on the student's permanent record along with other classes. Students may find it helpful to audit a course to review materials for a more advanced course or to enrich an interest area. Auditors are excluded from laboratory and studio participation. Students may change regular registration to an audit before the end of the eighth week of the semester. Registration may be canceled for non-attendance.

**Co-curricular Activities**
Members and managers of an intercollegiate team (one complete season) and cheerleaders and drill team members may apply a maximum of three credits in three different athletic activities toward graduation requirements as electives. Any additional credit earned in the same or other co-curricular activities will be indicated on the transcript but will not meet graduation requirements.

**Independent Study**
Independent study is an educational experience, designed for enrichment, conducted for credit outside the regularly scheduled classroom offerings. It may be an approved student/faculty designed course or may be based on an existing course. Either experience must be conducted under the supervision of an instructor who is responsible for the academic soundness of the proposal. Each credit awarded must represent approximately 35 clock hours of academic work.

Credit for independent studies may be used to fulfill any curriculum requirement. Only four credits of independent study may be taken at one time. No more than 12 credits of independent study may be counted toward graduation requirements. Students are responsible for completing an application form that specifies course goals/objectives and projected outcomes, learning strategies and evaluation procedures. The proposal must be approved by the advisor, instructor, department chair and the dean of the college. An independent study application form may be submitted during regular registration times but no later than the end of the second week of a class. Forms are available on the portal.

**Internships**
Students may apply for internship programs with the approval of the instructor, the advisor, the department chair, the director of advising and the registrar. Internship guidelines are available from the appropriate department. Internship registration forms are available on the portal.

No more than one-third of a major or a minor may consist of internship credits; normally, no more than 12 field-based experience credits may be applied toward the minimum of 120 credits required for the baccalaureate degree. The number of credits applicable to a major, minor or emphasis is determined in advance by the appropriate department(s). Separate learning contracts are written with the department(s) and work is evaluated by a faculty member or an adjunct faculty member from each department involved. The Director of Christian Education and Director of Christian Outreach programs require an internship. Separate guidelines apply to these internships. The Pass/No Pass grade is given for all field-based learning experiences.

**Attendance in Class and Completion of Assignments**
The university assumes that all registered students have freely accepted personal responsibility for regular class attendance. Students are expected to attend all class meetings and laboratory sessions for the courses in which they are enrolled. In cases of emergencies and/or unforeseen circumstances students are expected to notify their instructors and arrange for any possible “makeup” assignments; however, instructors are not required to allow for such “makeup” assignments. Instructors will record attendance and specify procedures for handling absences in course syllabi.

The undergraduate degree completion programs are unique and typically offer an accelerated calendar for adults which require fewer but more intense class sessions, chats sessions, and the like. Since these courses are only seven weeks in length, missing “class” is highly discouraged and may affect the final grade and/or course completion. In cases of extreme emergencies and unforeseen circumstances students are expected to notify their instructors and arrange any possible “makeup” assignments; however, instructors are not required in any way to allow for such “makeup” assignments.

All course assignments are also to be competed according to established deadlines. Instructors are not required in any way to accept coursework beyond the established deadline. Missing assignment deadlines will most certainly impact a grade in a course.

Additional attendance guidelines and requirements for degree completion undergraduate students:

- If a student must miss a class/chat because of an emergency or illness, he/she is required to complete his/her regular assignments(s) and complete a make-up assignment that contributes to the subject being studied and enhances the class-learning environment. A missed class/chat may result in a grade reduction.
- If a student misses two classes/chats, the instructor and the student need to discuss the student's ability to complete the course. In addition, the student will be required to complete his/her regular...
assignment(s) and extra work. Two missed classes/chats will result in additional grade reduction.

- Any additional absences will require retaking the course. The student will be billed and a grade will be issued each time the course is taken.
- Regular attendance is a key factor in determining the continuing financial aid support.
- Instructors understand the uncertainty of military requirements and other contractual obligations, and they will work with the student to meet educational goals.
- It is the student’s responsibility to contact the instructor to make appropriate arrangements.

Transfer Credit

Concordia University will accept up to a maximum of 90 credits with an overall GPA of 2.00 from regionally accredited institutions or nationally accredited institutions recognized by CHEA (Council for Higher Education Accreditation). Students who have completed the Minnesota Transfer Curriculum or an associate of arts degree from an accredited institution are considered to have met the general education requirements with the exception of the theology requirement which must be completed at Concordia.

Transfer credit may be applied to one of the following curriculum requirements:

- **General Education** - The primary responsibility for evaluation rests with the registrar who shall consult the General Education Committee if the appropriateness and comparability of the credit is doubtful. Transfer credits in the general education area are entered as a "Pass" grade and do not count in GPA calculation.

- **Major, minor, emphases, certificate and program courses** - The appropriateness and comparability of credit in these areas shall be assessed by the appropriate department or approved and approved by the department on a course substitution request form. Transfer credits in the major are entered as a letter grade and will count in GPA calculation, with the exception of approved study abroad coursework.

- **Electives** - The appropriateness and comparability of credits in this area shall be assessed by the registrar. Transfer credits in the elective area are entered as a "Pass" grade and do not count in GPA calculation.

Students may earn up to a maximum of 30 credits of coursework for experiences from any of the following: non-accredited institutions, documented work training, or military. Credits are typically for elective coursework. Credit for coursework in majors and minors must be approved by the respective academic department. General Education coursework must be approved by the General Education Committee. The office of the Registrar may grant such credit.

Transferring Credit Frequently Asked Questions (http://info.csp.edu/Academic-Resources/Registrar/Transferring-Credit)

Assessment of Student Learning and Professional Development

Concordia University conducts a series of activities to assess – among other things – student learning, program effectiveness, and student perceptions of faculty effectiveness. The assessment program at Concordia University, Saint Paul is a process for educational improvement that helps both the institution and the individual student. Assessment results help determine how well the institution is meeting its mission and goals for students, what is working and where changes need to be made. In addition, assessments provide students with feedback to monitor progress toward their own educational goals. This assessment program uses a variety of tools to measure students learning and development beyond what simple grades can indicate. In some cases, assessment results will demonstrate how Concordia University students compare in certain subject areas to students across the country. Many of the assessment activities are part of courses and some will be a part of the process of applying for an academic major. Other assessments will involve student participation in surveys, focus groups or interviews. As part of the general education program and at the completion of the academic major and minor, students may also complete an outcomes assessment. As alumni, students will be asked to participate in assessment surveys that inquire about the impact their Concordia University education has had for them. More information about assessment activities can be obtained from academic advisors or the office of assessment and accreditation.

Drop Registration from Courses "Without Academic Record"

**Full Semester Courses**

Students may withdraw from a course without record during the first two weeks of the course.

**Half Semester Courses (7 Week Courses)**

Students may withdraw from a course without record during the first week of the course.

Withdrawal from Courses/Withdrawal with Academic Record

**Full Semester Courses**

Students may withdraw from full semester courses any time after the second week of the course through the eleventh week and receive a "W" grade.

**Half Semester Courses**

Students may withdraw from half semester courses any time after the first week of the course through the fifth week and receive a "W" grade.

Withdrawal Procedures

- Students are able to drop courses online through the drop dates posted on the academic calendar.
- After the drop period is over, students must submit a signed Registration Restriction Form with instructor and advisor signatures.
- Effective dates for withdrawals will be determined by the date when the properly completed Registration Restriction Form is received in the Registrar's Office.
- Withdrawal from coursework may have financial implications. Students will receive 100% tuition refunds only for courses from which they withdrew prior to the 6th business day of the term. See financial policies for further information.

Withdrawal from the University

Students who desire to discontinue from the university, take a leave of absence, or changing their cohort must discuss their plans with their advisor. Traditional undergraduate students will contact the Director of Academic Advising at (651) 603-6271 or advising@csp.edu for an exit interview. It is the student’s responsibility to fulfill all necessary obligations by contacting the following: financial aid office, student accounts, library/information services/help desk, security, and offices.
issuing special equipment, such as laptops, instruments, keys, and athletic equipment. Students who officially withdraw from school will receive refunds and grades according to the standard schedule. Students who discontinue without notice will be liable for any financial obligations.

Students who are asked to leave Concordia University as a result of administrative dismissal or academic disqualification, may appeal. Contact the Director of Academic Advising, (651) 603-6271 or advising@csp.edu

**Requesting an “In Progress” Grade**

An In-Progress grade may be given to students who have missed part of their assigned work due to circumstances which are beyond their control and who are otherwise doing satisfactory work. Note that any in-progress grade could affect the students’ probationary and disqualification status (See Satisfactory Progress Policy). Process:

- Prior to the end of the term the student files a form with the professor requesting an “I” grade and indicating a planned completion date.
- Students and instructors develop an agreement including the guidelines for completion of the necessary coursework. In degree completion programs, an “in-progress” grade should be removed within two weeks.
- In traditional programs, an in-progress should be completed and removed by the seventh week of the following semester in which the “I” grade was incurred or at a date set by the professor on the form provided. In degree completion undergraduate programs and graduate programs, all course requirements must be completed within four weeks from the last day of class.

- The grade of “I” will be changed to the grade of “F” by the registrar unless an instructor assigns a passing grade or requests an extension beyond the normal time limit.
- Permission may be granted by the instructor to extend the time of an “I” grade to a maximum of one year.
- When extenuating circumstances warrant. Any further extension must be approved by the instructor and the Vice President for Academic Affairs and filed with the registrar.

**Pass/No-Pass Grading**

A course usually graded A through F may be taken Pass/No Pass by a student if the course is elective and not part of the general education curriculum or part of a major or minor. A course is designated as elective when it is not used by a student to meet any specific area or course requirement including the general education program, major, minor, emphasis, or professional courses. To take a course usually graded A through F as a Pass/No Pass course, a student must file the appropriate form with the Office of the Registrar before the course is half over – the end of the third week for a seven week class or the end of the seventh week for a full semester course. Pass/NoPass courses transferred in by students as required courses (a course is designated as required when it is used by a student to meet any specific area or course requirement including the general education program, major, minor, emphasis or professional courses) are acceptable only from colleges where the grading system is the normal system as described above.

There is a four-credit limit of P-N courses per semester for sophomores, juniors, and seniors. Internships (see below) which are normally graded by the Pass/No Pass system do not count towards these limits.

Field experiences, internships, and co-curricular athletic activities are offered only on a Pass-No Pass basis. A student may earn a maximum of eight credits in the combined music/drama area and one credit in each area of athletics that are applicable to the total credits for graduation requirements. The maximum credit limit applies to students who are not completing a music/drama major, minor, or emphases. Although these courses apply toward graduation requirements, they are not calculated into the cumulative grade point average.

**Academic Good Standing**

A student in good standing is one who:

- Is registered for the current term
- Is attending class in accordance with the class attendance policy
- Has no financial obligations to the university
- Is not on disciplinary probation and
- Is not on academic probation.

Eligibility to participate in certain interscholastic activities necessitates the fulfillment of additional requirements.

**Satisfactory Academic Progress Policy for Undergraduate Students**

To be eligible to register continuously without conditions, a student must achieve satisfactory academic progress. Concordia will follow federal-financial-aid policy on satisfactory academic progress as long as
Concordia accepts federal funding. (Refer to Financial Aid (p. 21) for full policy details)

When a student does not maintain satisfactory progress, the university will impose certain restrictions that will affect the student's eligibility for enrollment:

1. **Academic Probation**: Academic probation is a formal warning that students did not achieve satisfactory progress. A student on probation will remain eligible to enroll in the subsequent term for a maximum of 16 credits, but must achieve satisfactory progress at the end of that term or face disqualification.

2. **Disqualification**: Disqualification occurs when students do not meet satisfactory academic progress requirements for two consecutive terms. Additionally, for first year undergraduate students with no prior college credits earned, a student must achieve at least a 1.0 GPA for their first term to be eligible to return for a second term. Students will be notified of their disqualification in writing before being re-admitted by completing the registrar. Students may appeal to be re-admitted by completing the Disqualification Appeal Form.

### Disqualification Appeal Process

A Disqualification Appeal Form must be submitted to the academic appeals committee. The academic appeals committee will decide approval or denial of students who are appealing their academic disqualification. Appeals must be submitted to the academic appeals committee at least two weeks before the start of the term for which the student desires readmission. The appeal must state what undue hardship caused the student's inability to meet satisfactory progress standards. The hardships could include illness, injury, or death of an immediate relative. Only special extenuating circumstances will be considered. Students must also explain how they propose to remedy their situation. If the appeal is successful, the student is readmitted on probationary status. Appeals are approved for one term only. Students may also show successful completion of 12 semester credits with a CGPA of 2.0 or higher from another accredited institution to indicate that they have overcome the challenges that caused the original disqualification.

### Honor Recognition - Dean's List

Full-time (12 or more credits) undergraduate students, who earn a grade point average (GPA) of 3.6 and above in a given academic semester, are included on the dean's list. To be considered, all course incomplete grades must be removed by the end of the second week after the week of final examinations.

### Graduation Honors

Full-time students in bachelor degree programs at Concordia University who have earned at least 60 credits at Concordia University and who have earned a cumulative grade point average of 3.90 or higher are designated as graduating summa cum laude; those students with a cumulative grade point average of 3.75 to 3.89 are designated as graduating magna cum laude; those students with a cumulative grade point average of 3.60 to 3.74 are designated as graduating cum laude.

Students in bachelor degree programs who have earned fewer than 60 credits at Concordia University and have at least a 3.90 GPA at Concordia will be recognized as graduating "with high distinction." Students who have earned fewer than 60 credits and have a GPA between 3.75 and 3.89 will be recognized as graduating "with distinction."

### Academic Honors Convocation

Students receiving dean's list recognition, special departmental awards, and merit scholarships will be recognized at the annual Academic Honors Convocation held during the spring semester.

### Honorary Societies for Students

#### Lambda Pi Eta

Lambda Pi Eta is the official communication studies honor society of the National Communication Association (NCA). The Nu Beta chapter of Lambda Pi Eta was chartered at Concordia University in 2001. As an accredited member of the Association of College Honor Societies (ACHS), Lambda Pi Eta has nearly 300 active chapters at colleges and universities worldwide. Lambda Pi Eta was founded in 1985 at the University of Arkansas, became a part of the National Communication Association (NCA) in 1988, and became the official honor society of the NCA in July 1995. Lambda Pi Eta represents what Aristotle described in his book, Rhetoric, as the three ingredients of persuasion: Logos (Lambda) meaning logic, Pathos (Pi) relating to emotion, and Ethos (Eta) defined as character credibility and ethics. The goals of Lambda Pi Eta are to:

- recognize, foster, and reward outstanding scholastic achievement;
- stimulate interest in the field of communication;
- promote and encourage professional development among communication majors;
- provide an opportunity to discuss and exchange ideas about the field;
- establish and maintain close relationships and understanding between faculty and students; and
- explore options for further graduate studies.

#### Sigma Tau Delta

Sigma Tau Delta, The International English Honor Society, was founded in 1924. In 1987, the Mu Chi Chapter was established at Concordia University. Membership is open to students who have completed at least five semesters of college work with a minimum of 3.00 grade-point average in English and who rank in the top 35 percent of their class in general scholarship. The purposes of the society are to:

- confer distinction for high achievement in English language and literature;
- to promote interest in literature and the English language on the campus and in the surrounding community; and
- to foster the discipline of English in all its aspects, including creative and critical writing.

### Participation in Commencement Ceremonies

Commencement ceremonies are held each May and December. Students who are approved to graduate and have 8 or fewer credits remaining, with a plan to complete in the term following the ceremony, are eligible to participate.

### Financial Hold

Students who are not current in their financial obligations to Concordia University, are placed on financial hold. While on financial hold, students:

- may have their course management system (i.e. Blackboard) disabled
- may be subject to late fees
- may have financial aid canceled for future terms
- may be de-registered from future class registration
- may be unable to receive grades, transcripts, or diplomas
Research with Human Subjects
All research projects employing human subjects must be reviewed by the Human Subjects Review Committee. No research project should be implemented without the approval of the Human Subjects Review Committee. Students and faculty who are planning to conduct research are directed to use and follow the procedures in the Faculty Handbook Section 8, Appendix D: Concordia University Saint Paul, MN Protocols and Procedures for Research Involving Human Subjects Application and Information Packet and Appendix E: Protocol Form Research Involving Human Subjects.

Academic Integrity
Academic integrity is essential to any academic institution and is in keeping with the mission of the university. In order to protect Academic integrity is essential to any academic institution and is in keeping with the mission of the university. In order to protect the rights of students, the disciplinary procedure for dealing with cases of academic dishonesty follows these broad guidelines.

Academic integrity includes working honestly on tests and assignments, honestly reporting research findings, properly citing the source of any materials quoted, paraphrased or modified in the work one submits. A popular handbook for writers defines properly citing source material in this manner:

“To plagiarize is to present another person’s words or ideas as if they were your own. Plagiarism is like stealing. The word plagiarize comes from the Latin word for kidnapper and literary thief. Plagiarism can be intentional, as when you submit as your own work a paper you did not write. Plagiarism can also be unintentional, but not less serious an offense if you are unaware of what must be acknowledged and how to do so with documentation.” (Troyka, L. Handbook for writers, Simon and Schuster, 6th ed.)

Violations of academic integrity include “cheating” and “plagiarism” as defined by the university’s Student Code of Conduct (SCC).

Off-Campus Semester Study
Concordia University encourages students to broaden their cultural awareness and explore the world through off-campus study programs. In order to apply for off-campus study or study abroad opportunities, students must meet certain criteria dependent upon the study option. Concordia University will allow only two semesters of off-campus study or a maximum of 32 off-campus study credits to be applied to the 120 credits for the bachelor’s degree. The university’s graduation requirements will remain in effect. Students enrolled in pre-approved off-campus study will also be considered in the financial aid process. In no way will program leaders or instructors of programs/courses be responsible for personal injury or property damage arising out of the act or negligence of any direct carrier, hotel, or travel service or any other person rendering any service offered in connection with off-campus study. For more information on current programs reach out to our study abroad office at abroad@csp.edu.

Travel Seminars
Another off-campus study abroad option available to students is our short-term Travel Seminar program. Faculty-led programs and courses are offered around the country and the world in many different disciplines. Travel seminars are offered while other semester classes are not in session (January break, spring break, May after graduation) and are typically included in your spring semester credit load. In order to participate, students must be in good standing. Current programs (https://cspabroad.csp.edu) are updated annually. For further information, contact the Community Action, Leadership, and Learning Center (CALL Center) at abroad@csp.edu or (651) 641-8236.

Reserve Officers Training Corps (ROTC)
Air Force ROTC
A cooperative program between Concordia and the University of Saint Thomas provides students with the opportunity to concurrently enroll in credit courses in aerospace studies at Saint Thomas. Air Force Reserve Officer Training Corps is a program that provides educational and leadership development. The program prepares students for commissioning as second lieutenants in the United States Air Force. Air Force ROTC complements the academic major of the student's choice and increases the student's career options. Students incur no obligation by enrolling in the courses; the Aerospace classes are free and are paid by a University of Saint Thomas grant. Credit is transferable. Scholarships are available, especially in engineering, mathematics, physics, computer science, and nursing. For more information, contact the Department of Aerospace Studies at the University of Saint Thomas, (651) 962-6320 or 1-800-328-6819, ext. 6320.

Army ROTC
ROTC trains and prepares men and women for a commission as an officer in the regular Army, Army Reserve and National Guard. In addition to instruction in military fundamentals, ROTC develops leadership qualities and self-confidence essential to success in today’s world.

Concordia’s program, six semesters in length, is completed concurrently with course work required for a B.A. degree through the University of Minnesota. The first two semesters constitute the Basic Program, while the four remaining semesters are the Advanced Program.

Cadets/students are under no legal obligation while in the Basic Program. Upon entrance into the Advanced Program the students sign a contract and begin receiving a monthly stipend from the ROTC program. Traditional Concordia University students who are also Army ROTC scholarship winners shall receive a room and board scholarship assurance each term while they are on a scholarship contract. Non-traditional degree completion students enrolled as cadets in the University of Minnesota Corps of Cadets by means of a scholarship contract shall receive a $500 per semester stipend for each semester they are enrolled in an undergraduate degree completion program. For further information, call (612) 626-1584.

Naval ROTC
Naval ROTC two-year scholarship and non-scholarship programs allow students to earn a commission in the U.S. Navy or U.S. Marine Corps. Concurrent completion of degree requirements at Concordia and Naval Science requirements at the University of Minnesota results in an active duty commission. Career options include aviation, submarine warfare and surface warfare (Navy), or aviation and ground office positions (Marines). For further information, call (651) 625-6677.

Definition of Academic Terms
There are three 14-week semesters offered at Concordia University. The traditional academic year consists of fall and spring semesters plus final examination days each semester, fall and spring.

Bachelor of Arts degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.
**Graduation Requirements**

**Bachelor of Business Administration degree** consists of a major in Accounting, general education courses, and electives courses totaling a minimum of 120 credits.

**Bachelor of Fine Arts degree** consists of an intensive major in the visual or performing arts of typically 77 to 80 credits, general education courses, and elective courses totaling a minimum of 120 credits.

**Bachelor of Science degree** consists of a major of typically 45 to 60 credits, general education courses, and elective courses totaling a minimum of 120 credits.

**Certification for Church work** is the process by which the faculty approves candidates for placement in the public ministry of The Lutheran Church Missouri Synod (LCMS); including teacher, Director of Christian Education, Director of Christian Outreach, and Director of Parish Music.

A credit means a semester hour credit. One semester hour credit represents 35 hours of engaged time.

A **elective course** is a course chosen in addition to major, minor, or emphasis requirements.

An **emphasis** consists of 12 to 19 credits taken in courses in one area or related areas of study.

An **integrative course** is comprised of two or more disciplines, is team-taught, and makes connections to life beyond academic material.

A **teaching licensure** is recommended by the university after completion of requirements for the desired license and is granted by the state of Minnesota.

An **academic major** normally consists of 32 to 80 credits taken in courses in one area or related areas of study prescribed by the faculty.

An **academic minor** normally consists of 20 to 24 credits taken in courses in one area or related areas of study prescribed by the faculty.

A **prerequisite** is a course which students are required to take before being eligible to enroll in an advanced course.

**Summer school** consists of two seven-week sessions May - August.

A **track** is one of two or more alternative sets of courses prescribed by the faculty within a major. The purpose of a track is to provide direction to a student in meeting interest, vocational, or other needs while fulfilling the requirements of a major.

A **transcript** of credits is a certified record of all grades earned and all courses attempted at a given school, college or university.

**Graduation Requirements**

**Associate of Arts Degree (AA)**

To earn the Associate of Arts (AA) degree at Concordia University, students must:

1. Complete 60 total credits, including the equivalent of the required general education curriculum. A minimum of 30 credits must be completed in residence.
2. Earn a minimum cumulative grade point average of 2.00 at Concordia University.
3. Complete all assessment activities and outcome examinations required for general education.

4. Submit an online application for graduation/program completion when prompted to do so by the Registrar. You will be required to submit a degree completion plan to your academic advisor if you are not already registered for all remaining requirements.

**Bachelor of Arts Degree (BA)**

To earn the Bachelor of Arts (BA) degree at Concordia University students must:

1. Complete 120 total credits, of which 30 must be completed at Concordia University and 20 in the senior year.
2. Complete the course requirements for the 47 credit general education curriculum.
3. Complete the course requirements for an academic major – typically 40 to 44 credits for the BA – or two academic minors – typically 20 to 24 credits each. At least 50% of a major, minor or emphasis must be completed in residence unless approved by the appropriate department(s).
4. Submit for approval petitions for any and all substitutions for general education courses and courses in the major and/or minor(s).
5. Earn a cumulative grade point average of 2.00 or above, and a cumulative grade point average of 2.00 or above in the major and all minors. If the 2.00 cumulative grade point average is not attained in a minor, the minor will not be awarded. Two or more majors, minors, or emphases can be requested in related areas, with a maximum of three courses, or one-fourth of the total credits, whichever is higher, in common. An exception may be granted for multiple teaching licenses.
6. Complete all assessment activities and outcomes examinations required for general education and/or majors and minors.
7. Submit an online application for graduation/program completion when prompted to do so by the Registrar. You will be required to submit a degree completion plan to your academic advisor if you are not already registered for all remaining requirements.
8. Be approved as a candidate for a degree by the Registrar.

Note: Some programs may have minimum course grade requirements or higher content GPA requirements. See specific program pages for those additional requirements. Additional requirements for Teacher Education majors include completion of state tests, human relations activity hours, and current certification in CPR and First Aid.

**Bachelor of Business Administration Degree (BBA)**

For admission to the Bachelor of Business Administration (BBA) in Accounting degree program, students must:

1. Complete all freshman/sophomore required business and prerequisite courses.
2. Earn no more than 8 credits of D/F grades in the freshman/sophomore required business and prerequisite courses. All D/F credits from all prior enrollments in courses that a student repeats are counted as D/F credits for the purposes of admission to the majors in the BBA program. Accounting majors also earn a minimum of a B and a C in ACC 201 Principles of Financial Accounting and ACC 202 Principles of Managerial Accounting.

To earn the Bachelor of Business Administration (BBA) degree at Concordia University students must:
1. Complete 120 total credits, of which 30 must be completed at Concordia University and 20 in the senior year.

2. Complete the course requirements for the 47 credit general education curriculum.

3. Complete all upper-level (300- and 400-level) basic business core courses and all major courses in residence.

4. Earn a cumulative grade point average of 2.00 or above, a cumulative grade point average of 2.00 or above in the major and all minors. If the 2.00 cumulative grade point average is not attained in a minor, the minor will not be awarded.

5. Complete all assessment activities and outcomes examinations required for general education and/or majors and minors.

6. Submit an online application for graduation/program completion when prompted to do so by the Registrar. You will be required to submit a degree completion plan to your academic advisor if you are not already registered for all remaining requirements.

7. Be approved as a candidate for a degree by the Registrar.

If a student has earned the grade of D in a course that is part of the BBA basic business core and has taken that course at a school other than Concordia University, the course will not substitute for a course that is part of the business core. A student may earn transfer credit for a lower-level (100 or 200 level) course that is part of the business core only if the student took the course at an accredited institution of higher education.

Bachelor of Fine Arts Degree (BFA)
To earn the Bachelor of Fine Arts (BFA) degree at Concordia University students must:

1. Complete 120 total credits, of which 30 must be completed at Concordia University and 20 in the senior year.

2. Complete the course requirements for the 47 credit general education curriculum.

3. Complete the course requirements for an academic major — typically 77 to 80 credits. At least 50 percent of the major must be completed in residence unless approved by the appropriate department.

4. Submit for approval petitions for any and all substitutions for general education and/or majors.

5. Be approved as a candidate for a degree by the Registrar.

If a student has earned the grade of D in a course that is part of the BBA basic business core and has taken that course at a school other than Concordia University, the course will not substitute for a course that is part of the business core. A student may earn transfer credit for a lower-level (100 or 200 level) course that is part of the business core only if the student took the course at an accredited institution of higher education.

Bachelor of Science Degree (BS, BSN)
To earn the Bachelor of Science (BS) or Bachelor of Science in Nursing (BSN) degree at Concordia University students must:

1. Complete 120 total credits, of which 30 must be completed at Concordia University.

2. Complete the course requirements for the 47 credit general education curriculum.

3. Complete the course requirements for the academic major — typically 45 to 60 credits. At least 50 percent of a major, minor or emphasis must be completed in residence unless approved by the appropriate department(s).

4. Complete petitions for any and all substitutions for general education courses and courses in the major and/or minor(s).

5. Earn a cumulative grade point average of 2.00 or above, and a cumulative grade point average of 2.00 or better in the major and all minors. If the 2.00 cumulative grade point average is not attained in a minor, the minor will not be listed on the transcript. Two or more majors, minors, or emphases can be requested in related areas, with a maximum of three courses, or one-fourth of the total credits, whichever is higher, in common.

6. Complete all assessment activities and outcomes examinations required for general education and/or majors and minors.

7. Submit an online application for graduation/program completion when prompted to do so by the Registrar. You will be required to submit a degree completion plan to your academic advisor if you are not already registered for all remaining requirements.

8. Be approved as a candidate for a degree by the Registrar.

Note: Some programs may have minimum course grade requirements or higher content gpa requirements. See specific program pages for those additional requirements.

University Outcomes
University Outcomes for All Undergraduates
The Concordia University graduate will be able to demonstrate the following competencies:

Critical Thinking — Identify the problem/issue; articulate solutions/ perspectives; identify and assess key assumptions; identify and assess data and evidence; identify and consider of the influence of context; evaluate the ethical dimensions and apply ethical principles; and synthesize conclusions, implications, and consequences.

Information Literacy — Prepare for research; generate search strategy and access resources; evaluate and process information; transfer and apply learning; incorporate information technology; practice legal and ethical use of information.

Oral Communication — Develop content into a well-organized oral presentation; use appropriate language and nonverbals to enhance the fluency of the presentation; effectively incorporate citations into the presentation; effectively tailor the presentation to the audience and respond appropriately to audience feedback.

Quantitative Reasoning — Translate verbal or written assertions into quantitative data; read, analyze, and interpret quantitative data, such as graphs, charts, or statistics; and support conclusions using quantitative data.

Writing — Relate content to an audience, develop and organize material, construct fluent sentences using standard grammar, mechanics and references.

Aesthetic Values — Relate how artistic expressions reflect philosophical, religious, and social thought in human communities; and recognize major forms of artistic expression in their culture.

Civic Values — Understand the value of participation in the civic infrastructure of the United States; recognize the similarities and
School of Continuing Studies

Concordia's School of Continuing Studies offers undergraduate general education and elective courses delivered in accelerated online formats. The courses are designed for adult students and to assist students in building enough general education credits to start one of Concordia University’s adult accelerated degree programs. Through these intensive courses learners can earn up to 36 semester credits in approximately one calendar year. There are no educational prerequisites to enroll in these classes and visiting students are welcome to enroll.

Accelerated general education courses allow learners to:

- efficiently obtain general study requirements to prepare for an accelerated learning program;
- develop skills to be successful in academic work;
- earn foundational credits for a liberal arts education; and
- work towards a college degree, regardless of geographic location or time.

Course Delivery

Courses are delivered online. In the online accelerated classes learners collaborate with a community of peers through chats, discussion boards, and email.

Course Selection

Participants will be teamed with an advisor who will assist in creating a class schedule that fits with the student’s work and personal life.

Global Values – Pose critical questions about global issues and articulate arguments from a variety of global perspectives; identify and evaluate a variety of underlying cultural values that influence the diversity of ethics among cultures/countries; describe and interpret various aspects of other cultures relative to their own culture.

Interpersonal Values – Display effective interpersonal skills during interactions with others such that they accept and deliver constructive criticism; effectively resolve conflicts; demonstrate active listening strategies and other factors that contribute to positive relationships.

Physical Values – Demonstrate an understanding of and consistently implement health-conscious behaviors.

Spiritual Values – Identify and analyze narratives, theological themes, and literary types of the biblical texts; relate the Bible to Christian teachings and practice, particularly as these have been conveyed in the Lutheran tradition; state the central place of the Gospel in the teaching, life, and witness of the Christian church; respect those with differing religious traditions and experiences while being faithful to personal beliefs and practices.

Associate of Arts Degree: Online

The Associate of Arts (A.A.) degree provides learners with general education credits from various academic disciplines delivered through online education. General education courses provide students with a foundation for critically examining the world from unique perspectives. These courses also help prepare students for the major courses in their bachelor degree programs.

The Associate of Arts degree program totals 60 semester credits.

General Education Requirements

General Education Requirements

The purpose of the general education curriculum is to provide Concordia University students with the opportunity to grow in their ability to:

A. discover, confront and explore unfamiliar information and ideas;
B. use available academic resources and skills to think analytically, critically, and synthetically;
C. use appropriate and current technology for research and problem solving; and
D. ideally move beyond the academic data itself to formulate and express new insights and ideas.

Fine Arts (Minimum 4 credits required; two courses from two different areas – Art, Music, and Theatre)

The fine arts curriculum increases students’ awareness, understanding and critical appreciation of varied aesthetic expression; and seeks to
foster their creative talents. Nursing (pre-licensure) students fulfill this requirement with 2 credits.

1 Recommended for Teacher Education students

**History and Political Science (4 credits required)**

History offerings help students understand historical sources on their own terms and to recognize the interplay of political, intellectual, social, economic and cultural factors in the development of civilizations. It thereby provides one method whereby present-day circumstances can be better understood and evaluated. Political science courses help students understand their own government and the role of each citizen in the democratic process. Applied globally, political science pertains to the relationships between different governments and peoples and explores how their interests and welfare are connected by many of the same factors examined by historians. Nursing (pre-licensure) students select one course in History/Political Science or Literature.

Mathematics and Science (7 credits required)

Mathematics offerings are designed to develop students’ understanding of basic mathematical concepts, to develop their abilities to analyze and solve mathematical problems and to promote mathematical awareness in the analysis of problem solving strategies and the interpretation of results. Science courses examine the physical nature of the world. Biology involves plant, animal and human life; physical science deals with the processes of the earth; while earth science studies the earth and the universe.

Students take a minimum of 7 credits of mathematics and science, with the prescribed number of credits in each of areas.

Mathematics (Minimum 3 credits required)

Incoming students are initially placed in math courses according to their math ACT scores. Students who do not have a current math ACT score or those who would like to change their placement will need to take the Math Placement Exam.

Religion and Theology (6-8 credits required; 3-4 Introductory, 3-4 Intermediate)

Students in traditional programs meet their general education requirements in theology by taking a course from the “Biblical” category and a course from the “Intermediate” category. Students in professional church work programs must select from those courses in both categories that are also requirements in the minor in Lutheran Theology. Students in adult undergraduate programs meet this requirement by taking a combined course that meets the outcomes in the intro/intermediate areas.

Accounting Major (BA Adult)

The Accounting BA prepares students for accounting careers in business, government or non-profit organizations. The major builds upon a strong liberal arts foundation and prepares students for professional certifications such as the Certified Public Accountant (CPA) and the Certified Management Accountant (CMA). This program does not provide these certifications. Students interested in earning these certifications should check with their state’s CPA or CMA education requirements.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p.   ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Accounting Major (BBA traditional)

Prepare for a career in financial or managerial accounting. Students in the Bachelor of Business Administration – Accounting program complete courses in Cost Accounting, Auditing, Income Tax, and Forensic Accounting in addition to core business subjects in management, marketing, economics, analytics, and finance. The BBA in Accounting meets the Minnesota Board of Accountancy’s requirements for upper division accounting coursework required for the Uniform CPA Exam.

General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

Degree Requirements

Bachelor of Business Administration (p. ) degree consists of a 70 credit major in Accounting, general education courses, and elective courses totaling a minimum of 120 credits.

1  2.75 GPA required in content courses; minimum C- grade required in all content courses

Art Studio Major (BA Traditional)

This program is designed to prepare students for various careers in the arts and fields that rely on visual images. Students will gain an understanding of design theories and concepts related to the production and public presentation of art. Upon completion of the program, students will have knowledge of the role of art and design in culture, an ability to produce work and both critical thinking and creative problem solving skills to prepare them for a variety of careers in related fields.

General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

Degree Requirements

Bachelor of Arts (BA Traditional) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Biology Major (BA Traditional)

Biology majors develop a strong foundation in biology by exploring cell biology, genetics, molecular biology, chemistry, evolutionary theory, scientific methodology, and laboratory techniques in our core curriculum. Students then have the opportunity to tailor their degree with various electives including immunology, microbiology, human anatomy and physiology, and human gross anatomy, in which students have access to a human cadaver lab. The coursework pushes students to sharpen their critical thinking, scientific reasoning, and laboratory skills.

General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

Degree Requirements

Bachelor of Arts (BA Traditional) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Business Major (BA Adult; Online Only)

This program is designed to prepare students with the knowledge and skills needed to work effectively in a business organization or as an entrepreneur. A major in business is applicable to virtually any industry and will provide the knowledge and skills for students to start their own business. The program provides a broad exposure to all the elements that make an organization function well.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. 44) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

### Business Management Major (BA Traditional)

Develop crucial business skills in project management, team-building, HR management, and negotiations to enter the broad field of management. Using core business principles in marketing, finance, management, economics, and entrepreneurship, develop a personal management style, learn motivation tactics, and utilize strategic planning skills with an emphasis on ethics. Investigate various dimensions of business decisions by delving into case studies and working as a consultant with area businesses to develop strategies for competitive advantage and growth.

### General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

### Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

### Chemistry Major (BA Traditional)

Chemistry majors are prepared to pursue rewarding careers in industry, education, health professions, and government. Students will gain an understanding of the structure of atoms and molecules, properties of materials, and the reactions that convert one molecule or material to another. The chemistry major prepares students to think critically and quantitatively, reason scientifically, and to understand the experimental methods, techniques, and instrumentation used in chemistry. Students have the opportunity to gain relevant research experience on campus and develop mentoring relationships with full-time faculty who are experienced in cutting-edge research.

### General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

### Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Total Credits 43

Christian Ministry Major (BA Traditional)

This program is designed to prepare students for service in a ministry setting (with an option for certification as a Director of Christian Education or Outreach for LCMS students). Students will gain an understanding of Christian and Lutheran doctrine, beliefs, teachings, history, practices, ethics, church organization and strategy, vocation, and outreach. Upon completion of this program, students will recognize their personal identity in Christ, the broader ministry of the Gospel, and their philosophy of ministry.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.
Degree Requirements

Bachelor of Arts degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Total Credits 12
The Church Music major develops students into well-rounded church musicians, preparing them for careers as music professionals in a Christian worship setting. It enjoys all of the opportunities in Concordia’s Music program, but also provides these additional features:

a. there are organ, choral, piano, guitar, instrumental, composition, and self-designed tracks, thus equipping students to lead both traditional liturgies and contemporary worship formats.

b. each track shares the core musicianship (music theory/analysis/writing/ear-training/keyboard harmony) and music history courses. Private lessons and ensembles applicable to each track are also part of the core.

c. each track has specialized courses, culminating in a senior project/recital in the track.

d. the program culminates in recital performance in the student’s chosen track(s) and an internship in a metro area church.

e. students may add Director of Parish Music Certification by completing the Lutheran Theology minor, compiling a portfolio, and passing entrance and exit interviews with the Department of Theology and Ministry. This leads to rostered church worker status as a Commissioned Minister in The Lutheran Church–Missouri Synod.

With several tracks available, the Church Music Major at Concordia allows students to pursue music ministry in the area that best suits their interests and talents.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

**Degree Requirements**

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

**Prerequisites**

The successful church music major will enter the program with music-reading ability and previous music performance experience and study. The level of each student’s abilities and experience will be initially assessed through a music placement survey, auditions for ensembles and placement evaluations by private lesson instructors. Based on this assessment, the student may be required to take one or more of the following courses:

Director of Parish Music (DPM) Certification
Code Title Credits
Lutheran Theology Minor 24

Additional Requirements
Students must attend eight recitals or concerts per year and document such in their Music Portfolio to be submitted for review each year by November 1 to the Chair of the Music Department. A minimum of a 2.75 GPA is required in all music coursework, as well as a minimum of 2.5 GPA in each area of performance, history/literature, and theory/composition. Students must also complete a performance assessment for the music faculty in February of their sophomore year (or in their first year for transfer students). The Keyboard Proficiency Assessment must be passed prior to internship. Finally, students should take the Senior Music Outcomes exam when Musicianship/Music History courses are completed.

Communication Arts and Literature Education/Teaching Major (Grades 5-12) (BA Traditional)
Students who complete this major and other state requirements are eligible to apply for a Minnesota teaching license for grades 5 through 12 Communication Arts and Literature.

General Education Requirements
All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements
Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Communication Studies Major (BA Traditional)

Lifelong skills such as speaking, working in groups, working with new media, organization, critical thinking, and writing form the foundation of the Communication Studies program. Classroom and on-the-job internship experiences prepare students for thoughtful and informed entry into countless career choices.

The Communication Studies major is based on research data which indicates that employers are interested in potential employees with skills in oral communication, listening, writing, interpersonal communication, interviewing and small group communication, and who have some career training and orientation.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Community Arts Major (BA Traditional)

This program is designed to prepare students for various careers in the arts and fields that connect community service to interest in the arts. Students will gain an understanding of theories of community building and arts concepts related to the public creation and presentation of community arts projects and events. Upon completion of the program, students will have knowledge of the role the arts can play in community building, an ability to listen to community needs and respond by facilitating or producing responsive arts works or events. Community
Computer Science Major (BS Online Only)

This program is designed to prepare students to analyze problems and design software solutions. Project management, interpersonal skills, needs analysis, as well as teamwork and communication are emphasized. The program covers key skill areas in computer science such as web design, mobile app development, user experience, object-oriented programming, security considerations, software engineering, and core programming technologies. The curriculum also includes relevant technology topics such as database management, system design, virtual systems, and mobile devices.

General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

Degree Requirements

Bachelor of Science (p. 44) degree consists of a major of typically 45 to 60 credits, general education courses, and elective courses totaling a minimum of 120 credits.

Total Credits 55

Electives

Choose one of the following

CSC 315 Mobile App Development (4)
CSC 435 Advanced Web Application Development (4)

Total Credits 55

Criminal Justice Major (BA Adult; Online Only)

This program's objective is to enhance interest, experience, and knowledge in the field of criminal justice. Professionalism, ethics, and leadership remain central themes throughout the program. Individual and organizational dynamics are explored from a systems thinking perspective.
perspective, focusing on criminal justice. The study of history, research, and trends impacting the criminal justice system are examined as they interrelate with a changing society. This program is designed for students working in the criminal justice field who desire to improve the work they do, to position themselves for promotional opportunities, and to facilitate life transition.

Note: This degree program is not intended for Minnesota peace officer licensure, but will qualify for continuing education credits where accepted.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education requirements.

**Degree Requirements**

Bachelor of Arts degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

**Criminal Justice Major (BA Traditional)**

Students have the opportunity to explore the criminal justice system within the realm of social and behavioral science. The knowledge and expertise of the faculty, small classes and individual attention allow students to develop a deep understanding of the subject matter. Some key topics in the coursework include juvenile justice, community policing, the judicial process, and criminal law. The educational outcomes in combination with the internship experience prepare students to enter a career in the field or graduate school.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education requirements.

**Degree Requirements**

Bachelor of Arts degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

English as a Second Language Education/Teaching Major (Grades K-12) (BA Traditional)

Students who complete this major and other state requirements are eligible to apply for a Minnesota teaching license for grades K through 12 English as a Second Language.

Prerequisite — Demonstration of proficiency in a language other than English through:

a. two years of a world language at the secondary level;
b. one year of a world language at a post-secondary level; or
c. equivalent literacy in the candidate’s primary language

General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

English with an Emphasis in Creative Writing Major (BA Traditional)

In the English major, students will gain broad-based knowledge of literature from all periods and from around the world. They will learn to write clearly and persuasively, think independently, create original ideas, present alternative viewpoints and solve problems. Concordia University students develop these skills by working closely with knowledgeable faculty dedicated to relationship-based education through discussion, debate, course presentations, one-on-one consultations with professors and supervised writing projects. Students have many opportunities to apply the skills learned in the classroom to practical hands-on situations, such as writing for The Sword student newspaper, tutoring students in the Writing Center, student teaching or gaining internship experience at a local business. Creative Writing is one of the four areas of emphasis available to students.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. 44) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

**Exercise Science 3+2 Option (BA + MS Exercise Science)**

The undergraduate Exercise Science major focuses on kinesiology concepts in human movement, exercise, and management. The program prepares students for positions in settings such as fitness/wellness centers, personal training, coaching, rehabilitation sciences, and health and wellness education. Students are prepared for post-baccalaureate study in areas such as human growth, aging, athletic training, biomechanics, chiropractic, exercise physiology, sports management, sport psychology, and more.

The Master of Science in Exercise Science is designed to advance the skills and knowledge of current and future Exercise Science professionals. By utilizing a combination of theoretical inquiry and practical application, students will gain greater insight regarding exercise testing and prescription as they relate to working with diverse populations. Major topics discussed include exercise physiology, exercise testing, applied exercise prescription, biomechanics, nutrition and metabolism, and psychology of sport and exercise. This program will prepare students to become leaders within the Exercise Science industry.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

**Degree Requirements**

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

The 3+2 program allows high-performing students to have the ability to shorten their timeline for completion of a master's degree. Admission to the 3+2 program requires:

1. Completion of 64 credits or an associate's degree,
2. a 3.00 CGPA,
3. a written essay, and
4. an interview (telephone or in person) with the department.

The undergraduate and graduate degrees will be conferred simultaneously upon conclusion of the master's degree to ensure all student outcomes have been met. Interested students should contact the department or their academic advisor for specific information regarding the 3+2 program.

Family Science Major (BA Adult; Online Only)

Students graduating with a Family Science major develop lifelong skills in scientific thinking and understanding human thought, behavior, and family interaction. It is a program for students who have a genuine care and concern for individuals and families and are interested in how families can function more effectively.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Family Science Fieldwork/Internship (Taken concurrently with FAS 442)

Total Credits 43

Family Science Major (BA Traditional)

Students graduating with a Family Science major develop lifelong skills in scientific thinking and understanding human thought, behavior, and family interaction. The educational outcomes in combination with the internship experience prepare students to enter a career of choice or graduate school.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Successful completion of these courses leads to certification as a Certified Family Life Educator from the National Council on Family Relations

Finance Major (BS Traditional)

In this program students learn how to make financial decisions for organizations via planning, raising funds, making investments and controlling costs. Students gain knowledge and skills that are important for any business or organization. Because the finance program is designed to be responsive to the needs of the marketplace, it will be a relevant major for those considering a variety of careers such as
stockbroker, investment banker, securities analyst, credit manager, or other financial specialist.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

**Degree Requirements**

Bachelor of Science degree consists of a major of typically 45 to 60 credits, general education courses, and elective courses totaling a minimum of 120 credits.

1. 2.75 CGPA required in content courses; minimum C- grade required in each content course.

**Graphic Design Major (BA Traditional)**

This program is designed to prepare students for creative professions like graphic design and other communication-related fields that rely on visual imagery. Students will gain an understanding of design theories and practices related to production in all areas of graphic design for traditional and emerging digital formats. Upon completion of the program, students will have advanced craft, theory, process, and technical skills, an ability to produce thoughtful and informed work in such areas as institutional branding and identity, new media, web development and
interactivity, package design, publication design, advertising, illustration, signage, exhibition design, sustainability, spirituality, or social change.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

**Degree Requirements**

Bachelor of Arts (p. ___ ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

- **Health Care Administration Major (BA Adult; Online Only)**

This program is designed to give students the knowledge and skills to become leaders in any health care field. Throughout the Health Care Administration degree program, students will develop practical experience and confidence that will help them succeed in a rapidly changing health care industry. The coursework explores current trends and events in the health care industry, evaluates how various business principles shape and affect these trends, and emphasizes the role of leaders within the health care industry.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

**Degree Requirements**

History Major (BA Traditional)

The study of History at Concordia University is not only about the past—it is also about the present and the future. A student in this program will learn to think critically about change over time and how contemporary society has been shaped by all those who came before. The program stresses both global and community education. The program offers students the global knowledge they will need to compete in the 21st century. At the same time, students can experience and witness local history first-hand. The History major will allow students to develop skills in both research and content knowledge. The program offers courses that focus on the entire globe. Students get a mix of political, social, economic, and diplomatic history. The major requires a senior research project, where students do an original research paper, as well as a senior readings course. The remaining classes are electives, with the stipulation that at least one of those courses has a global focus. History majors are also required to do an internship, which helps them prepare for their careers and the job market.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

International Business Major (BS Traditional)

The International Business major prepares students for careers in multinational corporations, both at home and abroad. The program is built upon the same robust core of business subjects that all business majors share. Additionally, students gain an understanding of how to conduct business in a foreign country, including understanding the customs, opportunities, and challenges of working across cultures. Learning about management and leadership abroad, global marketing, logistics of international trade, and investments made in foreign markets will prepare students to work in the complex and competitive international business world.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Science (p. 44) degree consists of a major of typically 45 to 60 credits, general education courses, and elective courses totaling a minimum of 120 credits.

Information Technology in Management Major (BA Adult)

This program provides students with an opportunity for focused study of information technology and its relevancy in business management. Students study Information Technology principles and processes and their application to social and organizational problems. When combined with professional experiences, this major can equip students for entry-level or advancement in professional fields such as project management, information systems management, database management, financial systems management, cloud analysis, and programming.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.
Marketing Major (BA Adult)

Learn how to be a strategic leader in the field of marketing. This program helps students build practical skills and knowledge that are directly applicable to the ever-changing world of business. Students learn how to analyze critical factors that drive business results and how to formulate marketing efforts that create differentiation in the marketplace.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. 44) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Music Business (BA Traditional)

The Music Business major is a joint offering of the Music and Business Departments. The major is designed for students who wish to work as promoters, marketers, assistants, or managers of musical organizations and individual artists in either the commercial or non-profit realms. The degree provides students a foundational knowledge base in music and business, culminating in an internship with a professional musical organization in the Twin Cities. The skills obtained in this degree prepare graduates for entry level positions in a variety of music and arts organizations.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

1 Students must attend eight recitals or concerts per year and document such in their Music Portfolio. The portfolios should be submitted for review each year by November 1 to the Chair of the Music Department. A minimum 2.5 GPA is required in music courses.

### Music Education/Teaching Major (Grades K-12 Instrumental and Classroom Music and/or Vocal and Classroom Music (BA Traditional))

Two different majors are described below. Students who complete the instrumental track and other state requirements are eligible to apply for a Minnesota teaching license for Instrumental and K-12 Classroom Music. Students who complete the vocal track and other state requirements are eligible to apply for a Minnesota teaching license for Vocal and K-12 Classroom Music. Students may complete both tracks and be eligible for both licenses.

### General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

### Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

**Music Major (BA Traditional)**

Students in the Music major expand their creativity, analytical, research and writing skills while studying music performance, programming, analysis, composition, history, literature, education and worship music. The music program is led by accomplished and caring faculty who give one-on-one attention to students in a nurturing community. With the support of CSP’s deeply networked music faculty, students in this major are provided opportunities to ply their craft in music positions at churches, internships with local music organizations, and professional workshops. The culmination of the major is a senior year public presentation of the student’s work, in which the student plans, prepares, promotes, and presents a recital of their work. The major prepares students for graduate work in music or other fields and employment as entry level music performers, composers, and private teachers. The program also provides students with the communication skills, collaborative aptitude, creativity, organizational ability, and work ethic to succeed in a broad range of fields beyond music, while providing them with a lifelong outlet for joyful aesthetic expression.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

**Degree Requirements**

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

1  The successful Music major will enter the program with music-reading ability and previous music performance experience and study. The level of each student’s abilities and experience will be initially assessed through a music placement survey, auditions for ensembles and placement evaluations by private lesson instructors. Based on this assessment, the student may be required to take one or more of the Prerequisite courses.

Additional Requirements

Students must attend eight recitals or concerts per year and document such in their Music Portfolio. The Portfolios should be submitted for review each year by November 1 to the Chair of the Music Department. A minimum of a 2.75 GPA is required in music coursework, as well as a minimum of 2.5 GPA in each area of performance, history/literature, and theory/composition. Performance audition in February of sophomore year (first year for transfers). Pass Keyboard Proficiency Exam prior to graduation. Take Senior Music Outcomes exam when Music History courses are completed.

Nursing Major (BSN Adult)

This Bachelor of Science Nursing program (RN to BSN) is a post-licensure program for Registered Nurses designed to advance the knowledge and skills of nursing professionals through an integration of learning and experience. The combination of theoretical inquiry and practical application is integrated so that students can gain insight into ethics in health care, professional and evidence-based practice, interdisciplinary collaboration and communication, leadership, management, care coordination and community health. Upon completion of the program, students will be prepared to be leaders and lifelong learners who can adapt to developments in health care delivery and the diverse patient population.

General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

Degree Requirements

Bachelor of Science (p. 44) degree consists of a major of typically 45 to 60 credits, general education courses, and elective courses totaling a minimum of 120 credits.

Nursing Major (BSN Pre-Licensure)

The pre-licensure baccalaureate nursing track is designed to prepare graduates to take the National Council Licensure Examination (NCLEX-RN) and to enter the nursing profession as a generalist in a variety of care settings, serving culturally diverse clients of all ages in an ever-changing, dynamic health care context. Learning takes place in a variety of settings including; the classroom, simulation laboratory, and supervised clinical practice experiences to ensure students have a solid foundation for practice. Students will gain an understanding of leadership, advocacy, collaboration, and evidence-based practice concepts that will allow them to impact patient outcomes positively.

General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

Degree Requirements

Bachelor of Science (p. 44) degree consists of a major of typically 45 to 60 credits, general education courses, and elective courses totaling a minimum of 120 credits.
**Orthotics and Prosthetics Major (BS Traditional)**

Majoring in Orthotics and Prosthetics involves the study of how to design and fit braces, artificial limbs, and other devices that help individuals lead full lives. Students will learn to effectively analyze, design, and construct appropriate orthotics and prosthetics and make sound ethical decisions surrounding their use. How is gait analysis conducted? What role can patient counseling play? What materials should be used in fabrication? This program provides the educational preparation to become an ABC certified assistant.

### General Education Requirements

All degree seeking undergraduate students must complete the general education requirements.

### Degree Requirements

Bachelor of Science (p. 44) degree consists of a major of typically 45 to 60 credits, general education courses, and elective courses totaling a minimum of 120 credits.

Psychology Major (BA Adult; Online Only)

This program takes a contemporary approach to psychology methods and prepares students for a modern health environment through comprehensive and rigorous curriculum as well as an 8-credit hour internship that offers practical field experience. The accelerated learning experience puts students on track for career advancement sooner and provides a solid educational foundation for continued education in graduate school.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. 53) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Psychology Major (BA Traditional)

This program encourages students to develop lifelong skills in scientific thinking and understanding human thought, behavior, and interaction. Classroom learning and an internship experience will prepare students to enter a career of choice or graduate school.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

---

**Public Policy Major (BA Traditional)**

The Public Policy major will equip students with sufficient intellectual tools to prepare them for professional work in the public sector. Students will be trained to seek positions in organizations which deal with public policy issues such as government agencies, trade associations, lobbying organizations, nonprofit groups, regulatory agencies, and NGOs. This major will provide students with the factual, analytical, practical, and theoretical skills necessary for contemporary policy design, implementation, and evaluation.

**General Education Requirements**

All degree seeking undergraduate students must complete the general education (p. 44) requirements.
Degree Requirements

Bachelor of Arts (p. ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Sport Management Major (BA Traditional; BA Adult Online)

The major in Sport Management focuses on core concepts in kinesiology, exercise, and sport management. The program prepares students to enter the work force in a number of sport management areas including facility and event management, marketing, and fitness center management. Students learn business and sport theory and have numerous opportunities to bridge theory into practical applications.

General Education Requirements
All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements
Bachelor of Arts (p.  ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Sport Psychology Major (BA Traditional)

The Sport Psychology major focuses on current psychology and kinesiology as foundational concepts in sport psychology. Students learn sport and psychological theory and have numerous opportunities to bridge theory into practical applications. This degree prepares students for careers in injury rehabilitation, fitness/wellness centers, coaching, and health and wellness education. The program also serves as preparation for post-baccalaureate study in areas such as human growth, aging, exercise physiology, sport management, and sport psychology.

General Education Requirements
All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements
Bachelor of Arts (p.  ) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Theology Major (BA Traditional)

The major in theology is designed to prepare students who plan to attend seminary and pursue a master’s of divinity or other advanced theological degree. The core required courses introduce students to biblical studies, Lutheran theology, philosophy, and church history. Students are encouraged but not required to study biblical Greek and Hebrew and can choose from a variety of theology electives that are of interest to them. Although the degree emphasizes Lutheran doctrine, students from any Christian tradition planning to attend seminary will be well prepared by completing this major.

General Education Requirements

All degree seeking undergraduate students must complete the general education (p. 44) requirements.

Degree Requirements

Bachelor of Arts (p. 32) degree consists of a major of typically 32 to 44 credits or two minors, general education courses, and elective courses totaling a minimum of 120 credits.

Lutheran Theology Minor

The Minor in Lutheran Theology provides the theological core required of students seeking to serve as professional church workers in The Lutheran Church—Missouri Synod. With additional professional training in their chosen field of service, graduates will be ready to pledge themselves to the Scriptures and the Lutheran Confessions.

Prerequisites from General Education

- MUS 120 Listening to Life: Western Classical Music (2)
- or MUS 121 Listening to Life: Global & Popular Music (2)

Required

- MUS 201 Musicianship I 4
- MUS 202 Musicianship II 4
- MUS 7XX 2 semesters of ensemble at 0-2 credits each 2
- MUS 8XX 2 semesters of private lessons at 1 credit each 2

Select one of the following:

- MUS 321 Music History I (3)
- MUS 322 Music History II (recommended) (3)
- MUS 323 Music History III (3)

Electives

Select 11 credits, which may be chosen from any music offerings (including private lessons and ensembles beyond those required) 11

Additional Requirements

- Attend two recitals or concerts per year 2

Total Credits 24

1 Students enter the program with music-reading ability and previous music performance experience and study. The level of each student's abilities and experience will be initially assessed through a music placement survey, auditions for ensembles and placement evaluations by private lesson instructors. Based on this assessment, the student may be required to take one or more of the Prerequisite courses.

2 Students must attend two recitals or concerts per year and document such in their Music Portfolio. The portfolios should be submitted for review each year by November 1 to the Chair of the Music Department. A minimum of a 2.5 GPA is required in music coursework.

Photography Minor

This program combines studio art courses and photographic and art history to give students a solid foundation in photographic production and its role in culture. Students will gain knowledge and skills of photography to enhance preparation for informed living and careers in multiple fields.

Psychology Minor

(Available Online)
### Religion Minor

This program is designed to address such questions as: How does religion help the individual live a well examined life? What is the importance of religious values for the individual and for the human community? How does theological literature relate to social issues? You'll explore how religious perspectives have a significant role in public life and have opportunities to observe and reflect on religious faith communities. A minor in religion paired with a major from a variety of disciplines—business, science, sports medicine, the arts—will add a distinctive quality to a graduate's resume and open careers in those areas.

Graduate Academic Information

- Academic Integrity for Graduate Students (p. 95)
- Academic Policies and Procedures: Graduate (p. 96)
- Definition of Academic Terms (p. 98)
- Graduation Requirements: Graduate Programs (p. 98)
- Program Requirements (p. 98)
- The Principles of Graduate Study (p. 99)

Academic Integrity for Graduate Students

Definition of Terms

1. Academic integrity is essential to any academic institution and is in keeping with the mission of Concordia University. In order to protect the rights of students, the disciplinary procedure for dealing with cases of academic dishonesty follows these broad guidelines. Violations of academic integrity include “cheating” and “plagiarism” as defined by the university’s Student Code of Conduct (SCC).

2. The term “cheating” includes, but is not limited to:
   a. use of any unauthorized assistance in taking quizzes, tests, or examinations;
   b. dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; or
   c. the acquisition, without permission, of tests or other academic material belonging to a member of the university faculty or staff
   d. academic deception (e.g. fabricating data, misrepresenting sources, misleading presentations, lying) in written or oral form.

3. The term “plagiarism” includes, but is not limited to, the use, by paraphrase or direct quotation, of the published or unpublished work of another person without full and clear acknowledgement. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.

4. The term “recycling” may be new to some. Instructors expect that work submitted in a course is original work done for that course. These are two examples of recycling:
   a. Submitting your own work, which has been submitted and graded for an earlier course, for a second course.
   b. Submitting your own published work as original work for a course.

Implementation of Academic Integrity Policies

1. The instructor will gather and document all evidence of academic dishonesty in a clear and concise manner. The instructor will complete a Graduate Student Academic Report.

2. The instructor will present this evidence to the student. The instructor will notify the student in writing that this has been done and will provide instruction for the appeal process.

3. The instructor may prescribe academic penalties, including but not restricted to, the requirement of additional work, an assignment of a failing grade on the work in question, or a failing grade for the entire course. Any prescribed penalties must be in writing and include instructions for the appeal process. These should be documented through the Graduate Student Academic Report.

4. If this is a repeated occurrence, the Department Chair, Dean of the College and the AVP for Graduate Studies may impose additional penalties, including but not limited to dismissal from the departmental program, suspension from the university, or expulsion from the university.

5. A student has the right to appeal the academic penalties imposed by the instructor by filing an appeal with the AVP for Graduate Studies within 3 university business days of the documented imposition of
Academic Policies and Procedures: Graduate

Fulltime Status
Graduate students are considered full-time students when they have been admitted to the university and are registered for a minimum of 6 credits per semester.

Time Limits for Completion
- Master’s degree programs at Concordia University must be completed within five years of the first date of the beginning of the first course.
- Ed.S. degree programs must be completed within six years of beginning of the first course.
- Ed.D. degree programs must be completed within seven years of the beginning of the first course.
- DPT degree programs must be completed within four years of the beginning of the first course.

Repeating Courses
Students may repeat a course. If students repeat a course, both courses remain on the student’s transcript but only the higher/higher grade is used in computing a student’s cumulative grade point average (CGPA).

Auditing Courses
Students who satisfy the requirements for admission may register to audit a course without receiving academic credit for the course. Registration procedures are the same as for credit-bearing courses. Auditing students need not meet regular course requirements but should confer with the instructor as to their privileges and responsibilities in the course. Upon completion of the course, an entry is made on the student’s permanent record along with other classes. Students may find it helpful to audit a course to review materials for a more advanced course or to enrich an interest area. Auditors are excluded from laboratory and studio participation. Graduate students may change regular registration to an audit before the end of the fourth week of the semester. Registration may be canceled for non-attendance.

Independent Study
Independent study is an educational experience conducted for credit outside the regularly scheduled classroom offerings. It may be an existing course or an approved student/faculty designed course. Either experience must be conducted under the supervision of an instructor who is responsible for the academic soundness of the proposal. Each credit awarded must represent approximately 35 clock hours of work.

Credit for independent studies may be used to fulfill any curriculum requirement. Students are responsible for completing an application form that specifies course goals/objectives and projected outcomes, learning strategies and evaluation procedures. The proposal must be approved by the advisor, instructor, department chair, and the dean of the college. An independent study application form may be submitted during regular registration times but no later than the end of the second week of a class. Forms are available in the academic advising office, on the university website, and in the Registrar’s Office.

Transfer Credit
Up to 6 semester credits may be accepted for transfer from an accredited graduate school for the graduate programs. The credits must be appropriate to the student’s program and the course outcomes (objectives) need to match a course in the student’s program. Application for transfer of credit is made by the student to the Advisor. The credits must be certified by the Registrar and approved for the degree program by the program director.

Up to 9 semester credits may be accepted for transfer from an accredited graduate school for the Ed.S.

Up to 12 semester credits may be accepted for transfer from an accredited graduate school for the Ed.D.

Normally no credits will be accepted for transfer into the DPT program.

Only courses with a grade of B or better will be accepted for transfer credit and normally credits older than five years will not be accepted. The chair of the graduate program or designee will make the determination whether a student is required to audit a course in place of taking the course for a grade.

Good Standing
To remain in good standing, a graduate student must maintain a 3.0 grade-point average for all courses in the graduate program. Students not in good standing must return to good standing during the next semester or be dropped from the program.

Attendance Policies
The Graduate School assumes that all registered students have freely accepted personal responsibility for regular class attendance. Students are expected to attend all class meetings and laboratory sessions for the courses in which they are enrolled. In cases of emergencies and/or unforeseen circumstances students are expected to notify their instructors and arrange for any possible “makeup” assignments; however, instructors are not required to allow for such “makeup” assignments. All graduate programs/courses have a stated attendance policy included in each syllabus.

Drop of Registration and Withdrawal from Courses
Students may drop their registration from a course without record during the first (1st) week of the course. Students may withdraw from courses any time after the first (1st) week of the course through the fifth (5th) week and receive a “W” grade.

Withdrawal Procedures
1. Students are able to drop courses online through the drop dates posted on the academic calendar.
2. After the drop period is over, students must submit a signed Registration Restriction Form with instructor and advisor signatures.
3. Effective dates for withdrawals will be determined by the date when the properly completed Registration Restriction Form is received in the Registrar’s Office.
4. Withdrawal from coursework may have financial implications. Students will receive 100% tuition refunds only for courses from which
they withdrew prior to the 6th business day of the term. See financial policies for further information.

**Withdrawal from the University**

Students who desire to discontinue from the university, take a leave of absence, or change their cohort must contact their academic advisor. It is the student’s responsibility to fulfill all necessary obligations by contacting the following: financial aid office, student accounts, library/information services/help desk, security, and offices issuing special equipment, such as laptops, instruments, keys, and athletic equipment. Students who officially withdraw from school will receive refunds and grades according to the standard schedule. Students who discontinue without notice will be liable for any financial obligations.

Students who are asked to leave Concordia University as a result of administrative dismissal or academic disqualification, may appeal. In this case, students should contact their academic advisor.

### Grading System

<td>Not included</td>
</tr>
</tbody>
</table>

#### Requesting an "In Progress" Grade

An In-Progress grade may be given to students who have missed part of their assigned work due to circumstances which are beyond their control and who are otherwise doing satisfactory work. Note that any in-progress grade could affect the students’ probationary and disqualification status (See Satisfactory Progress Policy).

**Process:**

1. Prior to the end of the term the student files a form with the professor requesting an “I” grade and indicating a planned completion date.
2. Students and instructors develop an agreement including the guidelines for completion of the necessary coursework. The grade of “I” will be changed to the grade of “F” by the registrar unless an instructor assigns a passing grade or requests an extension beyond the normal time limit.
3. Permission may be granted by the instructor to extend the time of an “I” grade to a maximum of one year when extenuating circumstances warrant. Any further extension must be approved by the instructor and the Vice President for Academic Affairs and filed with the Registrar.
4. The maximum number of In-Progress grades students may carry at one time is two.

### Satisfactory Academic Progress Policy

A. To remain in good standing, a graduate student must maintain a 3.0 cumulative grade-point average and complete a minimum cumulative

of 67% of all attempted graduate level coursework. Incompletes (I) and withdrawals (W) do not count toward completion.

B. When a student does not maintain satisfactory progress, the university will impose certain restrictions that will affect the student’s eligibility for enrollment.

1. **Academic Probation:** Academic probation is a formal warning that students did not achieve satisfactory progress. Students will be notified of their probation status in writing by the registrar.
2. **Disqualification:** Disqualification occurs when students do not meet satisfactory academic progress requirements for two consecutive terms. Students will be notified of their disqualification in writing by the registrar. Students are ineligible to register for subsequent terms. Students may appeal to be readmitted by completing the Disqualification Appeal Form.

### Disqualification Appeal Process

A Disqualification Appeal Form must be submitted to the graduate academic appeals committee. The graduate academic appeals committee will decide approval or denial of students who are appealing their academic disqualification. Appeals must be submitted to the academic appeals committee at least two weeks before the start of the term for which the student desires readmission. The appeal must state what undue hardship caused the student’s inability to meet satisfactory progress standards. The hardships could include illness, injury, or death of an immediate relative. Only special extenuating circumstances will be considered. Students must also explain how they propose to remedy their situation. If the appeal is successful, the student is readmitted on probationary status. Appeals are approved for one term only.

### Financial Hold

Students who are not current in their financial obligations to Concordia University, are placed on financial hold. While on financial hold, students:

- are not allowed to attend any classes
- have their course management system disabled (i.e., Blackboard)
- are subject to late fees on any and all unpaid balances
- have financial aid for the next terms canceled (since they are not current students)
- are de-registered so all student loans move into repayment status
- are unable to receive grades, transcripts, or diplomas
- who receive veterans benefits have those benefits discontinued.

In these situations, students do not receive grades for courses attended while on financial hold even if coursework is completed.

### Appeal of Policy and Procedure

Graduate students may appeal decisions made by program faculty or administrators regarding disqualification, re-admission, grade change, or academic integrity regarding entry into a program, continuation in a program, or questions that may arise as a result of a candidate’s academic performance in a program.

**Steps for making an appeal:**

1. Student submits completed appeal to the Dean’s Office
2. The Dean reviews the form and determines if appeal should be granted based on stated reason for appeal.
   a. If request for appeal is denied, the Dean will email the student with reason for denial.
b. If request for appeal is approved, the Dean will email the student and follow-up.

3. If denied, the student may appeal the decision to the Graduate Appeals Committee.
   a. Submit appeal to the Associate Vice-President for Graduate Studies (AVP-GS) for consideration by the Graduate Academic Appeals Committee.
   b. If request for appeal is denied, the AVP-GS will email the student with reason for denial.
   c. If request for appeal is approved, the AVP-GS will email the student and follow-up.

4. Final Appeal Option
   a. If appeal is denied, the student may appeal a final time to the Vice President for Academic Affairs.
   b. The Vice President for Academic Affairs will review the case and email the student of decision and reason.
   c. No further appeals are allowed after this decision.

Commencement

Students will be invited to participate in a commencement ceremony in May or December depending on when their coursework is completed. Students will be notified of their ceremony eligibility by the Registrar.

Research with Human Subjects

All research projects employing human subjects must be reviewed by the Human Subjects Review Committee. No research project should be implemented without the approval of the Human Subjects Review Committee. Students and faculty who are planning to conduct research are directed to use and follow the procedures in the Faculty Handbook Section 8, Appendix D: Concordia University Saint Paul, Minnesota Protocols and Procedures for Research Involving Human Subjects Application and Information Packet and Appendix E: Protocol Form Research Involving Human Subjects.

Student researchers must read the Belmont Report and sign off on the Human Subjects Application.

Definition of Academic Terms

Certificate is a package of courses available for credit but not typically fulfilling graduation requirements.

A credit means a semester hour credit.

Doctoral Degree: May be earned in:

1. Physical Therapy (DPT) – 111 credits
2. Education (ED.D) – at least 60 credits

An endorsement is a focused group of courses within a graduate program that leads to a state licensure.

An emphasis is a focused group of courses within a graduate program that may or may not lead to a certification or a licensure.

Full-time graduate students are students who have been formally accepted into a graduate degree program and enrolled in a minimum of 6 credits in a semester. Half-time Graduate Students are students who have been formally accepted into a graduate degree program and are enrolled in three to five credits in a semester. Visiting students* are those students who have registered for graduate courses but have not been admitted to a program.

A Master's degree consists of at least 30 semester credits. All programs include a survey of the academic field, ethics, diversity, research, and a capstone course.

There are three 14/15 week semesters offered at Concordia University. Graduate students typically take two seven-week courses in each semester.

Specialization: at least 30 credits beyond the Master’s degree. May be earned in:

1. Education – Principal Licensure/Superintendent Licensure (ED.S)

A transcript of credits is a certified record of all grades earned and all courses attempted at a given school, college, or university.

Graduation Requirements: Graduate Programs

A graduate degree from Concordia University carries the following general requirements. Students will:

a. Successfully complete all required courses in the degree program with a cumulative grade point average in the courses of a 3.0 or higher.

b. Complete petitions for any and all substitutions made in the program.

c. Complete all assessment activities and outcomes examinations required by the program or for the degree.

d. Submit an online application for graduation/program completion upon reaching 12 credits, or when prompted to do so by the Registrar.

e. Be approved as a candidate for a degree by the faculty, upon the recommendation of the Registrar.

Students who complete all course requirements within 30 calendar days following the end of a regular academic term at Concordia University are listed as graduates of that term.

Program Requirements

A master’s degree at Concordia University shall require a minimum of 30 semester credits with a grade-point average of 3.00 or better.

A Doctor of Physical Therapy degree shall require a minimum of 111 semester credits beyond a bachelor’s degree with a grade point average of 3.0 or better.

An Educational Specialist degree at Concordia University shall require a minimum of 30 semester credits beyond a master’s degree with a grade point average of 3.0 or better.

An Educational Doctorate degree at Concordia University, St. Paul, shall require a minimum of 60 semester credits beyond a master’s degree with a grade point average of 3.0 or better.

Graduate students must pass their capstone at 80% or higher.
The Principles of Graduate Study

Graduate professors are actively engaged in research and learning.

Graduate coursework is more creative.
Graduate coursework is more self-directed.
Graduate coursework is more rigorous.
Graduate coursework is more attentive to epistemological issues.
Graduate coursework is more attentive to research.
Graduate coursework is more a community of learners, rather than merely a teacher-student relationship.
Graduate students give careful consideration to research, information, and bibliographic references.
Graduate learning is not just remembering information, it is constructing knowledge.

Business Administration (MBA)

Students who earn an MBA degree use cross-curriculum education activities to become experts in their chosen industry during the length of the program. Knowledge and practical experience give students the confidence they need to succeed in their professional setting. The program, offered both on-campus and online, explores business trends and events, and how they affect the current business environment.

Business Administration with an Emphasis in Health Care Compliance (MBA)

This program enables students to develop the knowledge, practical experience and confidence to succeed in their chosen industry. The emphasis courses, offered online within a partnership with the Mitchell Hamline School of Law, prepare students to lead a health care organization through the complex maze of government laws and regulations, and champion an ethical corporate culture. Students will be equipped with the strategies and tools essential to the development and implementation of an effective health care compliance program. Upon completion of the emphasis students are prepared to sit for the Compliance Certification Board's (CCB) Certified in Health Care Compliance (CHC) Exam.

Criminal Justice Leadership (MA)

The Criminal Justice Leadership program recognizes the importance of criminal justice professionals in the human services field. The curriculum enables students to enhance professionalism, position themselves for leadership opportunities, and contribute to life transitions by building
upon experience and previous study. Students in this program come with a wealth of experience including law enforcement, courts, corrections, military and social service, which will uniquely benefit each cohort. The Criminal Justice Leadership program is conveniently offered in an online format. The following coursework is designed to be sequential.

**Education (EdD)**

The Ed.D. is designed to address three salient areas of leadership: 1) issues pertaining to exemplary leadership models, ethics, policy making, and special topics; 2) scholarship for understanding, producing, and evaluating research applicable to improving organizations; and 3) coursework integrated with a doctoral field experience/research and designed to allow students to focus on areas of specialization within leadership. A significant underpinning of the doctoral program is to prepare leaders for culturally diverse environments.

**Education with an Emphasis in Curriculum and Instruction (Including K-12 Reading Endorsement) (MA)**

The Master of Arts in Education with an emphasis in Curriculum and Instruction and including the Minnesota K-12 Reading Endorsement, prepares licensed educators to be experts in curriculum design, instruction, and assessment in general and in literacy. Teachers learn to integrate the national and state literacy standards into relevant and meaningful learning experiences and to increase student achievement in reading. The program also equips teachers to effectively integrate technology and use assessment data to better serve students. Upon the completion of the program, teachers will be dynamic critical thinkers and reflective practitioners who are able to lead and teach in the ever-changing demands of today's complex schools and classrooms. The coursework is designed to be sequential and is offered in both face-to-face and online formats.

Education with an Emphasis in Early Childhood (MA)

The Master of Arts in Education with an emphasis in Early Childhood is designed for professional decision makers, reflective practitioners, and adaptive experts. Students learn professional practices in the field of early education and focus on strategies and best practices rooted in theory and philosophy supported by research. Students in this program will interpret, evaluate and apply research and theory related to all areas of early childhood education. The coursework is designed to be sequential and is offered online.

**Educational Specialist (EdS)**

This program is designed for educators with at least three years of teaching experience who currently hold a Master’s degree and a valid Minnesota teaching license and who wish to become licensed as a principal or superintendent in the state of Minnesota while earning a Educational Specialist (Ed.S.) degree.

Note: An alternative path is available for non-licensed teachers. The Educational Specialist (Ed.S.) degree is designed to provide Minnesota schools with the highest possible quality principals and superintendents. The goals of this program include the licensure of graduates with the academic and moral standards that epitomize the values of Concordia University.

**Exercise Science (MS)**

The Master of Science in Exercise Science is designed to advance the skills and knowledge of current and future exercise science professionals. By utilizing a combination of theoretical inquiry and practical application, students will gain greater insight regarding exercise testing and prescription as they relate to working with diverse populations. Major topics discussed include exercise physiology, exercise testing, applied exercise prescription, biomechanics, nutrition, and metabolism as well as psychology of sport and exercise. This program prepares students to become leaders within the exercise science industry.

Family Science (MA)

The primary objective of the Master of Arts in Family Science is to articulate the definition and role of the family life practitioner – particularly the role of the family life professional. The broad principles and philosophy of family life education are explored, including the ability to plan, implement and evaluate such educational programs, and the ability to define and establish leadership within the field. The coursework is designed to be sequential and the program is offered in an online format.

Human Resource Management (MA)

This program offers students a practical study of human resource competencies required in today's organizations. The overall context centers on the human resource role as a strategic partner within organizations. The program places emphasis on developing human resource leadership, innovation, financial, and strategic thinking skills within the context of human resources to help organizations maximize the return on investment from their human capital. The coursework is designed to be sequential.

Human Services with an Emphasis in Forensic Behavioral Health (MA)

This 36-credit graduate program is offered in partnership with the American Institute for Advancement of Forensic Studies (AIAFS) and is entirely online. It focuses on the direct relationship between behavioral health and the law. The program provides students with a comprehensive overview of the field of forensic behavioral health and related systems of care. The program is not a clinical/counseling program. A 15-credit certificate option is also available and consists of the first five courses of the degree program.

Information Technology Management (MS)

This program prepares students with the business leadership skills needed to successfully lead teams in the information technology workplace. Integrating business management and technical skill development, the coursework prepares graduates with in-demand skills and competencies. Through experience-based learning, students critically explore and apply leadership theory, business strategy, data analytics, information security, project management, IT innovation and ethics.

Leadership and Management (MA)

Organizational success depends on the efforts of skilled managers and leaders to properly leverage influence. The Master of Arts in Leadership and Management guides students to focus on helping businesses thrive as healthy organizations by paying attention to the human and social interactions of each member. This graduate program emphasizes ways to balance business skills and inter-social relationship skills so leaders and managers can maximize their influence and motivate organizational members to find meaning and purpose within the organization’s mission, vision, and purpose. The coursework is sequential and offered in a blended or online format.

Orthotics and Prosthetics (MS)

The Master of Science (MS) in Orthotics and Prosthetics provides educational preparation for orthotists and prosthetists in the evaluation, fabrication, and custom fitting of artificial limbs and orthopedic braces. Students will be trained on the assessment, treatment plan development, implementation, follow-up, and practice management of orthoses and prostheses. The program consists of 33 credit hours offered primarily online, with three one-week intensives held on Century College's campus within their orthotics and prosthetics lab.

The MS in Orthotics and Prosthetics is offered through a collaborative partnership between Concordia University, St. Paul and Century College. Due to changes in the accreditation requirement through the National Commission on Orthotic and Prosthetic Education (NCOPE), the MSOP has replaced the post-baccalaureate practitioner program previously offered through Century College. Concordia University, St. Paul and Century College representatives work closely to ensure a high-quality student experience that meets the educational needs of the orthotics and prosthetics industry.

Physical Therapy (DPT)

The Doctorate in Physical Therapy is a 111-semester credit program. The program's mission is to prepare students for autonomous practice across the lifespan. Students in the program and graduates from the program will apply and contribute to evidence-based practice while epitomizing the art of physical therapy. Graduates will embody lifelong learning and will be leaders in education, scholarship, and Christian service within their communities. The program's motto is: Follow in the footsteps of the greatest Healer the world has ever known.

**Special Education with an Emphasis in Autism Spectrum Disorders (MA)**

This program is for individuals who hold a valid Minnesota teaching license and who wish to expand their teaching skills and knowledge of the characteristics and interventions used with students diagnosed with autism spectrum disorders. It is designed to prepare highly effective professional, decision-making, and reflective educators who are proficient in foundational knowledge; referral, evaluation, planning, and programming; instructional design, teaching, and ongoing evaluation; collaboration and communication; standards of effective practice; and core special education skills including instructional strategies, social/emotional health, social competence, cultural competence, classroom management, and academic competence. The coursework is designed to be sequential and is offered in an online format.
Special Education with an Emphasis in Specific Learning Disabilities (MA)

This program is for individuals who hold a valid Minnesota teaching license and who wish to expand their teaching skills and knowledge of the characteristics and interventions used with students diagnosed with specific learning disabilities. It is designed to prepare highly effective professional, decision-making, and reflective educators who are proficient in foundational knowledge; referral, evaluation, planning, and programming; instructional design, teaching, and ongoing evaluation; collaboration and communication; standards of effective practice; and core special education skills including instructional strategies, social/emotional health, social competence, cultural competence, classroom management, and academic competence. The coursework is designed to be sequential and is offered in an online format.

SPED 562 Literacy Strategies for Grades K-6: SPED (6 credits) is required unless candidates are able to verify equivalent coursework addressing comprehensive scientifically-based reading instruction including reading foundations and assessment.

Sport Management (MA)

The Master of Arts in Sport Management prepares graduates to understand the growing sport management industry. Students will learn, through a hands-on, practical application of coursework, effective decision making, leadership, finance, and human and facility resource management. Students will also examine concepts of management, strategic planning, marketing, and law as it pertains to sport management.

Strategic Communication Management (MA)

The Master of Arts in Strategic Communication Management prepares students to strategically analyze and solve communication challenges. The program is ideal for students who have professional experience or career interests in corporate communication, public relations, strategic planning or other general management functions. Graduates will leave the program with knowledge of emerging technologies, industry innovation, leadership and intercultural communication.

Teaching (MAT)

The Concordia University, St. Paul, Master of Arts in Teaching (MAT) program leads to a master’s degree and licensure as a Kindergarten through Sixth Grade teacher. The program is designed for candidates to develop the necessary knowledge, skills, and dispositions to be effective educators in today’s elementary classrooms. Candidates may earn an initial license or add the K-6 license to an existing license.

The MAT program is 42 credits. Students may choose to complete only the licensure portion and not the master’s degree – this option is 36 credits. Licensure only students do not complete ED 521 or ED 590.

Total Credits 42
COURSE DESCRIPTIONS

Accounting (ACC)

ACC 201 Principles of Financial Accounting 4 credits
Explore the role of accounting in the business world. Broad topics include the concepts of financial accounting, as well as financial statement preparation and analysis. Additional topics include the accounting cycle, including journal entries, adjustments, financial statement preparation, and closing entries. (Students must earn a minimum grade of C in order to progress to ACC 202.)

ACC 202 Principles of Managerial Accounting 4 credits
Discover the role managerial accounting plays in planning, directing, and controlling operations. Learn cost classifications and cost behavior, cost/volume/profit analysis, responsibility accounting, allocation methodologies, budgets, cash flow, and time value of money. Students must earn a minimum grade of C in order to progress to ACC 311 Intermediate Accounting. (Prerequisite: minimum grade of C in ACC 201)

ACC 311 Intermediate Accounting I 4 credits
Expand your understanding of financial accounting topics and learn the conceptual framework of financial reporting. Practice analyzing complex financial accounting and reporting issues. Apply financial accounting measurements, revenue and expense recognition, inventory cost and valuation, long-lived assets, costing valuation and amortization. International Financial Reporting Standards are also covered. (Prerequisite: minimum grade of C in ACC 201)

ACC 312 Intermediate Accounting II 4 credits
Continue an in-depth investigation of accounting topics as in Intermediate Accounting I, and learn the liability and equity sections of the balance sheet, revenue recognition, pension expense and liability, as well as error correction and the direct and indirect methods of preparing the statement of cash flows. (Prerequisite: Minimum grade of C in ACC 311)

ACC 411 Advanced Accounting 4 credits
Plunge into the advanced study of accounting, focusing on accounting for combined corporate entities. Examine the equity method, consolidated financial statement preparation and analysis, partnership accounting, governmental accounting, non-profit accounting and accounting for estates and trusts. (Prerequisite: Minimum grade of C in ACC 312).

ACC 412 Auditing 4 credits
This course defines the ethical and legal responsibilities of the auditor and covers the topics of the preparation of the audit program and working papers for the audit of the financial statements in accordance with generally accepted auditing standards (GAAS). (Prerequisite: ACC 311)

ACC 413 Cost Accounting 4 credits
Pick up in this course where Managerial Accounting left off. Practice developing and using accounting data for managerial decision-making, creating "what if" scenarios using Excel modeling to quantify various outcomes, and engage in an extended study of budgeting, Preparation, measurement, and analysis of capital budgeting projects using Excel is also covered. (Prerequisite: Minimum grade of C in ACC 202)

ACC 414 Federal Income Tax 4 credits
Study the application of federal income tax law primarily to individuals. Secondarily, explore corporate and partnership tax law. Research a variety of tax problems extensively. Both procedural and substantive tax laws are examined. (Prerequisites: Minimum grade of C in CSC 121 or CSC 210 and in ACC 201)

ACC 440 Fundamentals of Forensic and Investigative Accounting 4 credits
Investigate the nature of accounting fraud and embezzlement. Research actual cases of fraud and embezzlement, focusing on internal control failures, common traits of individuals who commit fraud, as well as red flags that indicate increased risk of fraud. Integrate business valuation techniques, internal controls, fraud investigation techniques, and transforming data into evidence. (Prerequisites: Minimum grade of C in ACC 311)

ACC 480 Management Accounting 4 credits
Management Accounting explores advanced topics in Financial Reporting, Planning, Performance, and Control, with an emphasis in Financial Decision Making. (Prerequisites: ACC 312, ACC 411, ACC 412)

ACC 490 Accounting Strategy Capstone 4 credits
The Accounting Strategy Capstone Course brings together topics discussed throughout the curriculum with an integrated application to real world problems in order to formulate strategies and implementation planning for businesses. (Prerequisites: BUS 345, ACC 414, ACC 480)

ACC 498 Accounting Internship 1-16 credits

Archaeology (ARC)

ARC 101 Introduction to Biblical Archaeology 2 credits
This course surveys the history and methods of the discipline of archaeology. It examines the relationships between historical records and material remains, and it provides hands-on experience with material remains.

Art (ART)

ART 101 Approaching Art 2 credits
This course lays the foundation for approaching visual art by introducing fundamental aspects of the nature of art and art making. The course will investigate four areas which are key to appreciating art. These four units will include the importance perceptual skills, the nature of the creative process, the place of art in its cultural context, and the role and processes of abstraction. The course will involve looking at art, reading, writing and speaking about art using acquired vocabulary and knowledge.

ART 102 2D Design 2,3 credits
This course introduces the foundation design elements and principles for two-dimensional design. Compositional problems are introduced and solved in a studio setting. In addition basic two-dimensional media are introduced and explored during the different units of the course of study.

ART 103 3D Design 2,3 credits
This course introduces the foundation design elements and principles for three-dimensional design. Compositional problems are introduced and solved in a studio setting. In addition basic three-dimensional media are introduced and explored during the different units of the course of study.

ART 104 Introduction to Art History 3 credits
A captivating exploration of the history of art in the West and throughout the world, this course encourages students to develop an appreciation for a diverse range of works of art. Students will explore the creation of art, see it as critical thinking, and problem solving that has relevance to their lives. Students will also see art as a rich array of materials and aesthetic elements combined with the inner workings of the human spirit, passion, emotion, and creativity.
ART 105  Color Theory 3 credits
Traditional and contemporary approaches to color theory will be taught. These ideas will be beneficial for most studio areas and of particular importance to careers in design.

ART 111  Drawing I 3 credits
This introductory studio course is designed to familiarize beginning students with fundamental techniques and concepts of drawing. In that basic skill building is the core of this course it is a very approachable class for non-art majors. Although some history of drawing will be presented learning will be assessed primarily through portfolio production and review. (Prerequisite: ART 101 or consent of instructor)

ART 142  Introduction to Digital Photography 2-3 credits
This course is designed to engage students in the basic practices and techniques of creating images with digital technology. The course will focus on a series of varied projects and include aesthetic lectures and critique, as well as basic image manipulation with digital imaging software.

ART 202  Digital Imagery 3 credits
This introductory course is designed to familiarize beginning students with the fundamental techniques and concepts of design using computer technology as the primary medium. Students will build on drawing and composition skills to create designs with a variety of design software programs. Although technological and ethical issues in the field will be addressed, learning will be assessed primarily through portfolio production and review. (Prerequisites: ART 102 or consent of instructor).

ART 211  Illustration 3 credits
This course introduces the technical and conceptual skills for successful illustration. It is an important foundation for all design and applied arts fields.

ART 221  Painting I 3 credits
This course is designed to introduce students with fundamental concepts in oil and/or acrylic painting. Historical and contemporary approaches to painting will be addressed. Non-art majors can also succeed in this course.

ART 241  Photography I 3 credits
This course is designed to familiarize beginning students with the fundamental techniques and concepts of photographic practices and processes. The use and operation of the 35mm film camera, experimental and traditional black and white darkroom techniques and new digital technologies will be taught through demonstration and assigned projects. Photographic history and criticism will also be introduced. Portfolio production will be the main form of assessment in this introductory course.

ART 251  Sculpture I 3 credits
This introductory studio course is designed to familiarize beginning students with the fundamental techniques and concepts of contemporary sculpture. Both additive and reductive sculpture will be explored as students are introduced to both traditional and non-traditional sculpture media. Students will also investigate the relationship of drawing to the sculptural process. Although some 19th and 20th C. sculpture history will be presented, learning will be assessed primarily through portfolio production and review. (Prerequisites: ART 101, ART 103 or consent of instructor)

ART 261  Ceramics I 3 credits
This introductory studio course is designed to familiarize beginning students with the fundamental techniques and concepts of contemporary ceramic art. Students will see and also investigate sculptural and vessel forms in clay, along with the relationship of drawing to the creative process. Although significant clay art history and technology will be taught, learning will be assessed primarily through portfolio production and review.

ART 271  Survey of Western Art I 3 credits
This course is designed to introduce students to fundamental concepts in art history as well as important masterworks from the western art tradition. Prehistoric work through the 14th C. will be addressed. Non-art majors can enjoy this course.

ART 272  Survey of Western Art II 3 credits
This course is designed to introduce students to fundamental concepts in art history as well as important masterworks from the western art tradition. 15th C. work through the present will be addressed. Non-art majors can enjoy this course.

ART 282  Graphic Design I 3 credits
This course lays the foundations of the discipline of graphic design. The course helps students apply concepts of design and color theory into applied arts areas. (Prerequisite: ART 102 or ART 202)

ART 284  Graphic Imagery 4 credits
This hands-on introduction to graphic design encompasses the fundamentals of design theory, process and practice. Emphasis is placed on the development of creative problem solving skills and processes primarily through the creation of structured iconography and letterforms. Students also explore visual communications-related professions and practices.

ART 300  Community Arts 4 credits
This course is designed to introduce students to the variety of forms community arts programs have taken and are taking across the country. Facets of community arts programs such as legal aspects, funding issues, cooperation and collaboration, as well as aesthetic issues will be explored. Many fine and performing arts genre will be addressed and specific programs will be referenced and researched. Guest presenters from the Twin Cities will play a large part in this course.

ART 302  Digital Art II 3 credits
This course is designed to expand students facility in using the computer to solve more complex problems. Students will build on drawing, composition and computer skills to create designs with a variety of design software programs. Students will be encouraged to develop a personal voice with the computer. Learning will be assessed primarily through portfolio production and review. (Prerequisite: ART 202 or consent of instructor)

ART 311  Figure Drawing 3 credits
This course is designed to familiarize beginning students with anatomy and the figure as a subject matter vital in an artist’s vocabulary. Students will build on drawing and composition skills to create designs with a variety of drawing media. Although the history of figurative art will be explored, learning will be assessed primarily through portfolio production and review. (Prerequisites: ART 102, ART 111 or consent of instructor)
ART 321  Painting II 3 credits
This is an intermediate level course designed to stimulate and further develop an interest in painting methods and techniques for personal expression. Students are encouraged to create and solve specific problems in painting. Learning will be assessed primarily through portfolio production and review and also class participation. (Prerequisite: ART 221 or consent of instructor)

ART 331  Relief Printmaking 3 credits
This introductory course is designed to familiarize students with the fundamental techniques and concepts of relief and intaglio printmaking. Students will build on drawing and composition skills to create editions of prints. Techniques covered will include woodcut, linocut, collagraph, and monoprints. Although some history of printmaking will be presented learning will be assessed primarily through portfolio production and review.

ART 332  Screen Printmaking 3 credits
This course is designed to familiarize beginning students with the fundamental techniques and concepts of silkscreen printmaking. Students will build on drawing and composition skills to create editions of silkscreen prints. Techniques covered will include cut, painted and photographic stencils. Although some history of printmaking will be presented, learning will be assessed primarily through portfolio production and review. (Prerequisite: ART 111)

ART 333  Intaglio Printmaking 3 credits
This course is designed to familiarize beginning students with the fundamental techniques and concepts of intaglio printmaking. Students will build on drawing, composition, and other art skills to create editions of intaglio prints. Techniques covered will include etching, dry point, aquatint, collagraph, monoprinting and photo-polymer plates. Although some history of printmaking will be presented, learning will be assessed primarily through portfolio production and review.

ART 341  Photography II 3 credits
This course expands students’ knowledge of the use of the 35 mm camera and black and white darkroom processing and printing. Students learn to control film exposure and development in order to make consistently good prints. Photographic theory is introduced. Students will fully explore their ideas through shooting a lot of film. Learning will be assessed primarily through portfolio development and review, as well as class participation. (Prerequisite: ART 241 or consent of instructor.)

ART 342  Digital Photography 2 credits
This course will investigate the unique approaches to digital photography as an art form. This field will be compared and contrasted with black and white photography and also explored as its own unique area of artistic investigation. Emphasis will be given to seeing and thinking like an artist.

ART 351  Sculpture II 3 credits
This is an intermediate level course designed to stimulate and further develop interest in sculptural methods and techniques for personal expression. Media exploration and contemporary aesthetic issues such as environmental sculpture or installation are introduced, as students are encouraged to create and solve problems in sculpture in specific areas of the discipline. Learning will be assessed primarily through portfolio development and review. (Prerequisite: ART 251 or consent of instructor)

ART 361  Ceramics II 3 credits
This intermediate course is designed to advance students knowledge of the techniques and concepts of contemporary ceramic art. Students will investigate both sculptural and vessel forms in clay with special emphasis given to exploration of a wide variety of surface treatments. Students will develop substantial knowledge of glaze technologies. Learning will be assessed primarily through portfolio production and review, along with class participation. (Prerequisite: ART 261 or consent of instructor)

ART 370  Mexican Art and Culture 2,4 credits
This course introduces the student to Mexican art and culture through study and experience in Mexico. The social, political and historic context of Mexican culture is emphasized. Required pre-trip and post-trip involvement and observation and discussion carry most of the course content. Students must also complete a project following up on the experiential learning.

ART 374  Art of Mexico 4 credits
This course is intended to provide a survey of the history of Mexican art. It is arranged in three parts starting with pre-conquest indigenous cultures, which will be the majority of the course emphasis. It will also include the Colonial Period and Revolutionary Art. Special emphasis is placed on relating the art to the cultural contexts from which it came. Influences such as religion and political histories are investigated in their relationship to the art. (Prerequisite: ART 101 or consent of instructor)

ART 375  Art of Asia 4 credits
This course is intended to provide a survey of the history of Asian art. It is arranged in three parts starting with India and Southeast Asia, then moving to China and finishing with Korea and Japan. Special emphasis is placed on relating the art to the cultural contexts from which it came. Influences such as religion, trade and political histories are investigated in their relationship to the art.

ART 376  World Art 4 credits
This course is intended to provide a survey of non-western, world art. It is arranged in multiple units, which will sample ethnographic art from across the world. Cultures from West Africa, the Near East and the Far East, indigenous cultures from the Americas and Oceanic cultures will be surveyed. Special emphasis is placed on relating the art to the cultural contexts from which it came. Influences such as religion and political histories are investigated in their relationship to the art. (Prerequisite: ART 101 or consent of instructor)

ART 382  Graphic Design II 3 credits
This course develops sophisticated applications in the discipline of graphic design. The course helps students develop their professional portfolio for applied arts areas. (Prerequisite: ART 282)

ART 383  Web Design I 3 credits
The Web Design course is structured to teach the visual, communication and marketing aspects of a good website. It is a project based course where students will create websites and web content using Adobe Creative Suite software (Dreamweaver, Photoshop, Flash) and other web-related tools. Course material will be tailored to the experience level of students enrolled in the course.
ART 384  Typography 1 4 credits
An introductory graphic design study of written communication through the craft and art of letterforms and application of typographic principles. It serves as an introduction to typography as an element in the design process. The course is taught as a skill and an art form. It explores the dynamics of type in context. From the traditions of book design to the frontier of digital and interactive typography, students explore type as a design and communication tool, investigating these contexts through the lens of historical innovation.

ART 387  Art in Secondary Education 2 credits
This course guides prospective junior and senior high school art teachers in understanding the spirit of art teaching and equips them with knowledge and skills necessary for successful teaching. Students will be involved in practical problems of school art both in the classroom and outside the classroom. The course deals with aesthetics, critical program evaluation, research, history and skill building and idea awareness in Discipline Based Art Education. (Prerequisite: acceptance in education program or consent of instructor)

ART 411  Advanced Drawing 4 credits
This course is designed to establish personal style in a variety of drawing media. Traditional subjects like the still life and the figure will be investigated along with creative and divergent situations used for expression. Significant emphasis will be placed on developing skills in formal and iconographic criticism. Learning will be assessed primarily through portfolio development and review. (Prerequisite: ART 311 or consent of instructor)

ART 421  Advanced Painting 4 credits
This course is designed to encourage the individual stylistic development of advanced painting students. Students may explore new painting media and/or figurative painting while applying previously learned techniques in creating complete artistic expressions/compositions. Students will be encouraged to work in series. Learning will be assessed primarily through portfolio development and review. (Prerequisite: ART 321 or consent of instructor)

ART 431  Mixed Media Graphics 3 credits
This course is designed to familiarize intermediate students with alternative and advanced graphics techniques, in particular photographic and digital applications for printmaking, as well as digital prints and non-silver photography. Contemporary issues and themes in graphics will be discussed. Learning will be assessed primarily through portfolio production and review. (Prerequisites: ART 102, ART 111, and one of the following: ART 141, ART 202, ART 231, ART 232, ART 233, or permission)

ART 435  Advanced Printmaking 4 credits
This course is designed to encourage the individual stylistic development of advanced printmaking students. Students may explore new printmaking media while applying previously learned techniques in creating more developed projects. Learning will be assessed primarily through portfolio development and review. This course may be repeated for credit.

ART 441  Advanced Photography 4 credits
This course is designed to establish personal style in photography. Traditional treatment of the medium will be investigated along with creative and divergent photographic expressions. Computer applications in photography will be introduced and explored. Significant emphasis will be placed on developing skills in formal and iconographic criticism. Learning will be assessed primarily through portfolio development and review. (Prerequisite: ART 241 or consent of instructor)

ART 451  Advanced Sculpture 4 credits
This course is designed to develop personal style in sculpture. Contemporary issues in sculptural media and theory will be addressed. Learning will be assessed primarily through portfolio production and review.

ART 461  Advanced Ceramics 4 credits
This course provides an in-depth study of the techniques and concepts of clay as an art medium. Students build on previous ceramics experience to work in series as a way of developing sophistication in their clay work. Advanced glaze technology, firing options and construction techniques constitute the course content. Learning will be assessed primarily through portfolio development and review. (Prerequisite: ART 361 or consent of instructor)

ART 472  19th and 20th Century Art and Design 4 credits
This course examines the revolutionary developments in painting, sculptural and architectural traditions from the 19th C. as well as the Modernist traditions of the first half of the 20th C. and the initial Post-Modern trends that follow. The course links these artistic developments with world-wide cultural influences. In addition, special attention is given to the history of design.

ART 473  History of Photography 3 credits
This course introduces students to 19th, 20th and 21st century photographic technologies, practitioners and images. Emphasis is on Western photographic practices and the impact that the invention of photography has had on our understanding of the world around us from science, history, culture, aesthetics, politics, current events, and every-day life.

ART 481  Topics in Art: _________ 1-4 credits
This teacher directed course will center on advanced and narrowly defined studio or art historical investigations to be announced. The course focus may introduce unfamiliar or unusual media, or subjects, or provide very advanced level knowledge of a familiar discipline. (Prerequisites: ART 101 and consent of instructor)

ART 482  Graphic Design III 4 credits
This advanced course further develops applications in the discipline of graphic design. Students will work on a series of projects and develop a professional portfolio. (Prerequisite: ART 384)

ART 483  Web Design II 3 credits
This course explores the more advanced visual, communication and marketing aspects of professional websites. It is a project based course where students will create websites and web content using Adobe Creative Suite software (Dreamweaver, Photoshop, Flash) and other web-related tools. Course material will be tailored to the experience level of students enrolled in the course.

ART 484  Typography 2 4 credits
The culmination of all previously taught typographic competencies, this course focuses on developing type skills applicable to the work a designer is assigned at recognized design and advertising firms. Advanced project work addresses functional as well as expressive typography. The class requires students to develop concepts, present and explain their ideas, and bring their solutions to life.

ART 485  Graphic Design Senior Projects 1 4 credits
The advanced culmination of all previously taught graphic design skills and proficiencies. Project work centers on complex applications incorporating a wide spectrum of creative solutions to both practical and experimental design problems. Portfolio development and artistic professionalism is stressed.
ART 486 Graphic Design Senior Projects 2-4 credits
This rigorous studio course is designed to facilitate challenging, individual directions in design and critical thinking. Students map out a plan of study for the semester and work on a series of related ideas that culminate in a cohesive body of work. Students are expected to refine their understanding of contemporary issues and historical approaches related to their specific concept or process, and bring an advanced competency to the technical and formal concerns that inform their work. Through frequently scheduled critiques, and a developed designer statement, an emphasis will be placed on developing a process of self-evaluation to clarify visual choices and express and defend individual artistic points of view. Over the course of the semester students will investigate exhibition design and prepare for the exhibition and presentation of their work.

ART 487 Art Education Capstone 2 credits
This course aims to enable future art teachers to relate the general concepts of art education to specific teaching theories. Past and contemporary theories of art education are studied. In addition, historical approaches to art education are presented, as are a variety of artists’ philosophies on the nature of art. (Prerequisite: ED 447 or consent of instructor)

ART 488 Independent Study 1-4 credits

ART 489 Mentored Study 1-4 credits
This opportunity encourages the student to establish advanced study in an art medium with an internship within the institution in any desired discipline. The mentor relationship will be a guided experience, which encourages the student toward mastery of a studio or historical discipline. Assessment will be through contractual arrangement with the guiding mentor. (Prerequisite: advanced work completed in the field desired)

ART 491 Theories in Contemporary Art 3 credits
This seminar style course discusses theories and ideas that underpin the current art world. The approaches of many current artists and critics are examined.

ART 498 Arts Internship 1-16 credits
This opportunity is specifically required for Community Arts majors or minors as well as Design Majors. It establishes advanced field study in the discipline in a setting outside the campus context. The internship will be arranged by the student in consultation with the advisor and assessment will be through contractual arrangement with the guiding mentor. (Community Arts majors are encouraged to do this through HECUA.) (Prerequisite: ART 301)

ART 499 Art Senior Seminar 1-2 credits
This course serves as the capstone experience in the Art Department. The course will vary somewhat based on the student's degree sought. It will normally be the production of a solo exhibition, or of a professional design portfolio, or a Community Arts experience. The work produced and presented must be the student's current work. Individual directions will be developed with the professor and student's advisor. (Prereq Senior standing or Instructor consent)

Biology (BIO)

BIO 100 Biology Today 3 credits
This course challenges students to confront, evaluate, and integrate the major discoveries and principles of the biological sciences within their worldview as members of contemporary society. Major themes of the course include the role of genes and inheritance in human growth and development; health and behavior; human origin and relationship to the Earth's biodiversity; and human impact on, role within, and responsibility for the integrity of the biosphere. Lectures, readings, discussions, films, and laboratory activities comprise the course. (Prerequisites: none. Students planning further study in biology or other natural sciences should complete BIO 120 and BIO 130.)

BIO 102 Biology in a Box 4 credits
This augmented course challenges students to confront, evaluate, and integrate the major discoveries and principles of the biological sciences within their worldview as members of contemporary society. The course incorporates hands-on experiments and activities to aid in learning core concepts in biology. All required materials can be purchased as a single lab kit that comes straight to your home - in a box! Learn about biology from the tiniest cellular viewpoint all the way up to the larger scale, whole world ecological viewpoint.

BIO 120 Biology I: The Unity of Life 4 credits
This course emphasizes inquiry and investigation while introducing students to the unifying theories of modern biological science. Topics considered include foundational mechanisms of matter, energy, cells, genetics, and reproduction. The course is comprised of lectures, readings, discussions, written assignments, online assignments, and a laboratory component. (Recommended prerequisites: one year of high school biology and chemistry and four years of high school mathematics)

BIO 130 Biology II: The Diversity of Life 4 credits
This course evaluates the current hypotheses explaining the origin, development, and maintenance of the Earth's biodiversity. The major lineages of life are surveyed and compared at the organismal level by considering evolutionary relationships between structure and function. The course is comprised of lectures, readings, discussions, written assignments, online assignments, and a laboratory component. (Recommended prerequisites: one year of high school biology and chemistry and four years of high school mathematics)

BIO 210 Genetics 4 credits
This course focuses on the principles of heredity and the molecular concepts regarding the genome. Major topics include Mendelian genetics, sex linkage, extranuclear inheritance, chromosomal aberrations, structure and function of DNA, regulation of gene expression, mutation, and modern DNA technologies. Problem solving and quantitative reasoning are emphasized. (Prerequisite: Minimum grade of C-in BIO 120)

BIO 230 Animal Biology and Physiology 4 credits
This course provides a comparative study of major animal groups within a taxonomic, morphological and physiological framework. Major topics include animal cells, animal tissues, organ systems, animal phylogeny, life cycles and development. Three lecture sessions and one three hour laboratory period per week. (Prerequisites: Minimum grade of C-in BIO 120)
**BIO 300  Microbiology 4 credits**
Did you know that our world is covered in microorganisms? This course explores the diversity of the microbial world, providing overviews on bacteria, Archaea, viruses, fungi, and protozoans. A major emphasis is placed on how microorganisms cause disease, how the human body attempts to prevent disease, and how we can treat infectious disease. Other topics include microbial growth, metabolism, genetics, and environmental and food microbiology. The lab consists of a series of classic microbiology experiments that teach students how to visualize, culture, quantify, and identify microorganisms. A short self-directed research project allows students to design and implement their own experiment. (Prerequisite: Minimum grade of C- in BIO 120)

**BIO 315  Human Anatomy and Physiology I 4 credits**
This course is part one of a study of the structure and function of the human body. Major topics include the introduction to the human body, cells, tissues and skeletal, muscle, and nervous systems. Three lectures and one three hour lab period per week. (Prerequisite: Minimum grade of C- in BIO 120)

**BIO 316  Human Anatomy and Physiology II 4 credits**
This course is part two of a study of the structure and function of the human body. Major topics include the endocrine, cardiovascular, respiratory, digestive, reproductive and urinary systems. Three lectures and one three hour lab period per week. (Prerequisite: Minimum grade of C- in BIO 120 or instructor consent)

**BIO 330  Cell Biology 4 credits**
This course is a study of the structure and function of eukaryotic cells from a molecular viewpoint. Major topics include molecular cell structure, metabolism, membrane transport, cell signaling, cell division and cancer, stem cells and tissue differentiation. Students read and discuss the ethical implications of biomedical research in the context of The Immortal Life of Henrietta Lacks. The lab focuses on cell culture technique and requires students to design and implement a self-directed mini research project. (Prerequisite: Minimum grade of C- in BIO 120)

**BIO 340  Science Issues and Ethics 4 credits**
This course includes a short introduction to the study of philosophy and ethics, followed by critical analyses of current issues in health and environmental sciences. Ethical discussions are framed in a solid understanding of the science behind each topic. The course will include a variety of formats, including reading and reviewing papers and/or texts, analyzing case studies, and participating in class discussions. (Prerequisite: Minimum grade of C- in BIO 120 and CHE 115).

**BIO 350  Medical Terminology 2 credits**
This course will help students learn the components of medical terms. Students will learn the basic elements of words, such as roots, prefixes, suffixes, combining vowels, and combining forms in order to understand, the word’s meaning. Students will be able to apply the meaning of the word to an anatomical structure, physiological function or pathology, the course will be mainly online but with several scheduled face-to-face meetings for discussion and examination.

**BIO 415  Biology of Aging 3 credits**
This 3 credit course will focus on theories of human aging from a biological perspective. The structural and functional changes that occur during the aging process will be investigated at several levels: molecular, cellular, tissue, and organ system. The symptoms and clinical management of age-related diseases will also be explored. This course is targeted for students interested in the health sciences and is required for the gerontology minor/certification. (Prerequisite: Minimum grade of C- in BIO 120 (preferred) OR BIO 100)

**BIO 430  Immunology 4 credits**
This course provides a comprehensive study of the immune system. Major topics include passive immunity, cell-mediated immunity, humoral immunity, autoimmune diseases, vaccination strategies and other medically relevant topics. (Prerequisite: BIO 120)

**BIO 440  Human Gross Anatomy 4 credits**
This course is a comprehensive study of human anatomy which includes dissection of a human cadaver. Skeletal, muscular, nervous, digestive, cardiovascular, respiratory, and urogenital systems will be covered, and emphasis will be placed on the relatedness of structure and function.

**BIO 450  Special Topics in Biology 1 credit**
The topic for this course will vary each semester, chosen from a wide range of current research in biology. Students will read background material, participate in discussions and complete writing assignments as directed by the instructor. This course will meet for one lecture/discussion hour per week. (Prerequisite: Minimum grade of C- in BIO 120)

**BIO 456  Research in Biology 1-4 credits**
This course offers students an opportunity to do original research in an area of expertise of one of the biology faculty members. When applicable, the research will be followed with presentation of a poster or a paper at a research symposium. (Prerequisite: Minimum grade of C- in BIO 120)

**BUS 310  Organizational Behavior 4 credits**
Organizations are complex entities and understanding them is important for students in business programs. This course investigates the impact of individuals, groups, the structures, and the environments of organizations.

**BUS 340  Business Analytics I 4 credits**
In this course students will apply tools and concepts from mathematics and statistics to learn a portfolio of tools used in business. Mathematical and statistical concepts include descriptive statistics, mathematical modeling, ratios and percentages, probability and counting rules, probability and decision analysis, hypothesis testing, correlation, regression, chi-square, and analysis-of-variance.

**BUS 345  Business Analytics 4 credits**
In this course students will apply tools and concepts from mathematics and statistics to learn a portfolio of tools used in business. These tools include probability analysis and hypothesis testing. Students will be introduced to the growing field of Business Intelligence and Data Analytics. Topics include data mining, text mining, business intelligence architecture, data reporting systems and data visualization tools.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>BUS 350</td>
<td>Innovative Marketing and Social Media</td>
<td>4</td>
<td>Provides an introduction to the study of marketing, e-commerce, and social media in business and other organizations.</td>
</tr>
<tr>
<td>BUS 360</td>
<td>Accounting and Budgeting</td>
<td>4</td>
<td>Explains the financial implications of business management and the principles of accounting and organizational structures.</td>
</tr>
<tr>
<td>BUS 380</td>
<td>Principles of Ethical Management</td>
<td>4</td>
<td>Teaches ethical management theories and applications for motivation, decision-making, organizational structures, and dynamics to shape organizational culture.</td>
</tr>
<tr>
<td>BUS 382</td>
<td>Human Resource Management</td>
<td>4</td>
<td>Introduces the role of human resources in organizations and the application of law to the present day workplace.</td>
</tr>
<tr>
<td>BUS 384</td>
<td>Applied Accounting and Finance</td>
<td>4</td>
<td>Provides a foundation in finance and accounting tools to make business assessments and financial decisions.</td>
</tr>
<tr>
<td>BUS 386</td>
<td>Marketing in the Global Environment</td>
<td>4</td>
<td>Teaches integrated marketing and business strategy for innovative and sustainable business growth in the digital economy.</td>
</tr>
<tr>
<td>BUS 388</td>
<td>Analytics and Technology</td>
<td>4</td>
<td>Teaches data analysis and visualization using business analytics concepts and tools for research and forecasting.</td>
</tr>
<tr>
<td>BUS 410</td>
<td>Operations, Technology and Quality</td>
<td>4</td>
<td>Discusses the theoretical foundations for production management.</td>
</tr>
<tr>
<td>BUS 415</td>
<td>Social Intelligence and Leadership</td>
<td>4</td>
<td>Explores how social intelligence can enhance leadership effectiveness and the principles of social intelligence competency in practical ways.</td>
</tr>
<tr>
<td>BUS 420</td>
<td>Business Finance</td>
<td>4</td>
<td>Focuses on financial management topics including capital markets, cash budget, pro forma statements, analysis of financial statements, and ROI.</td>
</tr>
<tr>
<td>BUS 425</td>
<td>Business Intelligence</td>
<td>4</td>
<td>Teaches the analysis of raw data to help make organizational decisions and the use of tools to extract actionable knowledge.</td>
</tr>
<tr>
<td>BUS 430</td>
<td>Business Law and Ethics</td>
<td>4</td>
<td>Examines the legal aspects of business, ethics, and the connection between the two.</td>
</tr>
<tr>
<td>BUS 440</td>
<td>Business Analytics II</td>
<td>4</td>
<td>Teaches the use of data mining, business intelligence architecture, data reporting systems, and data visualization tools.</td>
</tr>
<tr>
<td>BUS 445</td>
<td>International Management</td>
<td>4</td>
<td>Focuses on managing business operations in more than one country and the interactions between multinational firms.</td>
</tr>
<tr>
<td>BUS 449</td>
<td>Business Strategies</td>
<td>4</td>
<td>Examines business strategy theories and practical principles for innovation and organizational growth.</td>
</tr>
<tr>
<td>BUS 450</td>
<td>Business Analytics II</td>
<td>4</td>
<td>Teaches data analysis and forecasting tools to make predictions.</td>
</tr>
<tr>
<td>BUS 452</td>
<td>Business Capstone</td>
<td>4</td>
<td>Explores business intelligence architecture, data reporting systems, and data visualization tools.</td>
</tr>
<tr>
<td>BUS 455</td>
<td>Business Casestone</td>
<td>4</td>
<td>Analyzes business cases for decision-making and problem-solving.</td>
</tr>
<tr>
<td>BUS 459</td>
<td>Business Internship</td>
<td>4</td>
<td>Offers practical experience in business and business-related undergraduate programs.</td>
</tr>
<tr>
<td>BUS 467</td>
<td>Study Abroad</td>
<td>4</td>
<td>Supports students’ program learning with first-hand experience.</td>
</tr>
<tr>
<td>BUS 491</td>
<td>Internship</td>
<td>4</td>
<td>Provides practical experience in business and business-related undergraduate programs.</td>
</tr>
</tbody>
</table>
BUS 597  Study Abroad 0-4 credits
This international travel course supports students' program learning with first-hand experience.

Business Administration (MBA)

MBA 500  Organizational Leadership and Development 3 credits
This course introduces leadership in dynamic, changing organizations where customers change, technologies shift, and work processes evolve. In this course students will examine how leaders develop themselves and others and create alignment as an organization changes to meet the needs of the future.

MBA 505  Global Economics 3 credits
The course will apply economic theory to develop a framework to analyze and predict trade, exchange rate, environmental, health, labor and other policies. Strategies will encompass the interaction of American and global economic institutions and policy making entities such as the United States Trade Representative, Congress, Federal Reserve, WTO, and the European Union.

MBA 510  Managerial Research Methods and Design 3 credits
This course examines the various research methodologies used in organizational settings. It provides an overview of quantitative and qualitative methodologies including research design, data collection and analysis, interviewing, case studies, and action science. The philosophy, ethics, and politics of management research are introduced. Students will critique published research, write a literature review, and design research studies.

MBA 515  Applied Business Ethics 3 credits
This course will review and analyze popular models of ethical decision making. Readings, case studies, and special presenters will provide opportunities to investigate current ethical issues facing leaders and managers in business and organizational settings as well as critically apply various ethical theories and decision-making frameworks. Literature relative to Christian vocation, applied ethics, and value-centered leadership will be explored. Student papers and presentations will demonstrate the integration of a personal and vocational ethic.

MBA 520  Integrated Marketing Communication 3 credits
This course will develop marketing strategy and executing diverse communication tactics critical to all enterprises. Consistency in both processes and messages is important. Students will analyze business scenarios and determine strategic objectives, target markets and messages, as well as demonstrate to use and how to apply multiple marketing tactics.

MBA 525  Strategic Human Resource Management 3 credits
This course looks at human resources management from an operating manager's perspective and focuses on the key role strategic human resource management plays in the development and execution of organizational strategy. Emphasis will be placed on the cultural, behavioral, and the legal issues faced by companies as they attempt to compete in an increasingly expanding global economy. Students will work collaboratively to analyze and compare the complexities and challenges of doing business abroad as well as in the United States and discuss approaches, plans, and programs to address those issues strategically.

MBA 530  Managerial Finance and Accounting 3 credits
This course will examine the framework and systems of current accounting and finance principles including preparation of financial statements, accounting cycles and balance sheet classifications. Students will apply these principles along with ethical responsibility and critical thinking skills to management practices of business decision making and strategic planning.

MBA 535  Legal Environment for Managers 3 credits
This course integrates the treatment of law and management. It helps managers and leaders spot legal issues before they become legal problems and emphasizes developing the legal astuteness to craft solutions that attain core organizational objectives without incurring undue legal risk. Traditional legal concepts are discussed as well as current topics in developing areas of the law. An emphasis on ethical concerns stimulates understanding of how managers must incorporate considerations of ethics and social responsibility into their managerial actions.

MBA 540  Applied Ethics for Health Care Leaders 3 credits
As formal and informal healthcare leaders, students will clarify and affirm their vocation/calling and moral compass including examining potential vulnerabilities that may challenge one's integrity. Students will explore ethical theories and principles from the healthcare leader perspective in the context of current healthcare issues including economic constraints and resource allocation, access-to-care, autonomy and decision-making especially at end-of-life, moral distress, and other issues faced by healthcare professionals. Students will analyze contextual factors contributing to ethical dilemmas including professional values, patient/family rights and preferences including cultural differences, social and health inequities, political factors including hierarchy and ethical climate, and policy, legal, and regulatory requirements. Students will synthesize course concepts through the application of ethical decision-making models within the Christian context to various bioethical, clinical, business, and professional ethical dilemmas.

MBA 545  Quality Practices 3 credits
In order to compete in this new economy, health care entities, particularly hospitals, need to employ quality practices. This course will examine current theory and practices for health care institutions: Six sigma, Lean and other processes and procedures. Students will understand how the quality system interweaves with customer service and happiness.

MBA 555  Health Care Informatics 3 credits
A call has come from the highest reaches of government for the computerization of all medical records. Information systems and the interlocking of these systems will be a major concern for health care providers in the years to come. Students will learn how to collect, massage, manipulate data in order to make it useful. There is plenty of useless data and information available; the real professional can mine that data and information into golden nuggets of knowledge.

MBA 560  Health Care Strategic Leadership 3 credits
The distribution system for health care is complex and changing rapidly. The strategy process represents an essential opportunity for health care leaders to establish, implement and guide the organization's direction in these turbulent waters of changing distribution systems. MAP is a process in which students summarize, synthesize, and demonstrate knowledge, skills, and competencies as organizational managers and leaders. Students will draw from their MBA course work, career experiences, and synthesizing activities to build a portfolio.
MBA 561  Customer Analysis 3 credits
This course explores the behavior of consumers and the factors that influence their behavior. Analysis of customer decision-making and how marketing strategy can be used to influence those decisions is examined through various theories, models and techniques that attempt to explain the behavior of the consumer. The framework is a buyer behavior model, in which concepts from psychology, sociology, and economics are applied to individual and organizational purchase decisions. The course will also explore consumer insights and shopper marketing to build revenue and grow the business. Marketing strategies of leading firms in consumer products, technology, and services (including internet services) are analyzed using a variety of formats including lecture-discussions, case studies designed to illustrate the salient issues as well as readings and texts.

MBA 565  Analytics for Business Intelligence 3 credits
This course deals with the process of acquiring, analyzing and interpreting primary and secondary marketing data needed for profitable marketing decisions. It considers recent developments in the use of internal and external data needed for marketing decisions. This course is intended to explore data mining techniques with the goals: 1) To provide the key methods of classification, prediction, reduction, and exploration that are at the heart of data mining; 2) To provide business decision-making context for these methods; 3) Using real business cases, to illustrate the application and interpretation of these methods.

MBA 570  Marketing Decision Models 3 credits
This course focuses on the benefits of using analytic and modeling-based approaches to marketing decision-making. It offers an applied approach to develop student's ability to work on marketing data, and weigh alternate business decision options based on benefits and costs as well as construct models to aid managerial decisions determining business strategy. This course deals with the process of acquiring, analyzing and interpreting primary and secondary marketing data needed for profitable marketing decisions. Coursework is developed in strategic marketing, new product development, branding, marketing segmentation, sales and trade promotion analysis, pricing, and design of marketing mix, sales force allocation, direct, and internet marketing.

MBA 575  Marketing Strategy Monetized 3 credits
This course focuses on the role of business strategy to create profitable customers by delivering superior value. Strategy becomes monetized during the implementation process which is critical to executing on successful consumer capitalism. This course will develop metrics and systems to utilize in the marketing activities to measure customer value and business return on investment. An outcome of this course is the ability to communicate the value of marketing strategies to executive management regarding ROI. In this course, a hybrid format of lecture-discussions and applied work issues will be incorporated to illustrate the marketing strategy outcomes.

MBA 580  Bridging the IT-Business Gap in a Global Setting 3 credits
Compare technical to non-technical staff in studying ways to build collaborative effectiveness in managing functions and projects. Minimize the barriers to successful intercultural communication by investigating various tools for teamwork in local and global settings. Utilize project case studies and collaborative software tools to practice communicating virtually across diverse settings and maximize teamwork to deliver on business strategy.

MBA 585  Project and Lifecycle Management 3 credits
Introduce the entire project lifecycle by practicing collaborative development of various project monitoring and reporting tools in a case-study setting: 1) project scope/charter, 2) work breakdown structure, 3) cost-benefit analysis, 4) communication plan, 5) project schedule, 6) risk register, and 7) quality management plan. Transfer learning objectives to the student’s own Management Application Portfolio (MAP) by practicing knowledge retention and by applying concepts from the Project Management Body of Knowledge (PMBOK).

MBA 590  Information Systems Analysis and Communication 3 credits
Create a systemic understanding of business requirements by interviewing key stakeholders and diagramming to communicate process workflow. Utilize contemporary case studies to compare software and infrastructure development methodologies such as the Systems Development Lifecycle to Agile Methods. Apply learned skills to key decision-making tasks such as in-house development, outsourcing, software testing, and cloud computing. Create a first draft of the initial phases for the student’s own Management Application Portfolio (MAP).

MBA 595  Business Information Systems Security, Risk, and Quality 3 credits
Analyze how information systems are designed to interact with people and carry out business strategy. Design plans to analyze and secure enterprise-wide data and applications in a growing mobile environment. Assess risk and manage quality in working to meet auditing and compliance standards. Topics include business continuity and disaster recovery, virtualization, and the effects of compliance on infrastructure development. Create first drafts of middle and final phases for the student’s Management Application Portfolio (MAP).

MBA 605  Operations and Technology Management 3 credits
This course will examine value-chain functions such as product-process design, quality management, supply chain management and workforce management in order to understand the resource-based view of strategic advantage for the organization. Students will examine strategic management of operations utilizing to support the value-chain functions of operations management.

MBA 610  Tools for Managerial Decision Analysis 3 credits
This course will focus on how managers think clearly and make effective decisions. Students will examine and apply several models of decision-making. Innovative, critical, emotional and futuristic thinking will be explored. The students will develop their own tools to become effective decision-makers.

MBA 620  Strategic Leadership 3 credits
This course introduces students to the principal practices and the theorists of contemporary strategic thinking. Students will understand how leaders have strategically created and affected organizational outcomes. After examining the elements of a strategic planning process, students apply those principles and focus on strategic analysis of their industry and the strategic practices of the organizations within that industry.

MBA 630  Topics in Global Management 3 credits
This course focuses on the opportunities and threats of the complex environment of international business, with an emphasis on the unique problems involved in managing international operations. Main topics include the relevance of the foreign economic, political, legal, and cultural environment, international market analysis, international human resource management, and import/export transactions.

MBA 688  Independent Study 1-3 credits
CHE 221 Organic Chemistry I 4 credits
This course is the first semester of the comprehensive course in organic chemistry. Topics covered include structure and bonding, nomenclature, constitutions and configurations, stereochemistry, instrument methods [e.g. NMR, IR, MS, GC], reaction kinetics and thermodynamics, mechanisms, and the syntheses and reactions of various functional groups of organic chemistry. (Prerequisite: CHE 116)

CHE 222 Organic Chemistry II 4 credits
This course is the second semester of a comprehensive course in organic chemistry. The course includes the reaction mechanisms and multi-step synthetic routes for organic functional groups that include oxygen, nitrogen, and aromatic systems. Additional topics include amino acids and proteins, carbohydrates, lipids and synthetic polymers. (Prerequisite: CHE 221)

CHE 326 Analytical Chemistry I 4 credits
This course builds on fundamental components of the general chemistry sequence. Careful consideration of uncertainty in measurements, error propagation, and accurate use of instruments are emphasized through consideration of chemical concepts including solubility, equilibria, and acid-base reactions. (Prerequisite: CHE 116)

CHE 328 Introduction to Biochemistry 4 credits
This course is an introduction to the structure, function, synthesis, and breakdown of biomolecules. Biological processes including enzyme catalysis, bioenergetics, and metabolism are studied at the molecular level. The lab involves students in the production of protein through recombinant DNA technology. (Prerequisite: CHE 221)

CHE 330 Dietary Biochemistry 4 credits
Examination of the digestion and utilization of macromolecules from a biochemical viewpoint. Metabolic pathway activation/regulation via diet. Factors influencing macromolecule content of common foodstuffs. (Prerequisite: CHE 328)

CHE 341 Thermodynamics 4 credits
This course is an introduction to chemical thermodynamics. The mathematics of chemical energy exchange will be studied in detail and used to build an understanding of why gases behave as they do, why chemical reactions never go to completion (equilibria), and the intricacies of phase transitions. Concepts will be related back to biological and everyday examples such as protein folding, enzyme substrate binding, internal combustion engines, and refrigeration. (Prerequisite: CHE 116)

CHE 342 Introduction to Polymer Chemistry 4 credits
This course covers organic mechanisms of polymer synthesis including condensation, radical, ionic, emulsion, ring-opening, and metal-catalyzed polymerizations. Additional topics discussed include polymer chain conformations, solution thermodynamics, molecular weight characterization of polymers, and physical properties of polymers. Laboratories will involve polymer characterization and synthesis. (Prerequisite: CHE 221)

CHE 345 Special Topics in Chemistry 1 credit
The topic for this course will be chosen from a wide range of current research and development in chemistry. Students will read background material, participate in discussions, and complete labs and/or writing assignments as instructed.

CHE 456 Research in Chemistry 1-6 credits
This course offers students an opportunity to do original research in an area of expertise of one of the chemistry faculty members. When applicable, the research will be followed with presentation of a paper at an undergraduate research conferences and submission of a paper for publication. Two to three hours of laboratory and/or library work per credit per week.
CHE 497 Chemistry Teaching Assistant 1-4 credits
Students enrolled in this course will work with a faculty member to gain teaching experience in chemistry courses. Activities may include: designing laboratory exercises; working with students in laboratory, classroom and tutoring environment; preparing and delivering lectures; developing course materials; grading.

CHE 498 Internship in Chemistry 1-12 credits
The internship is designed to provide students with a work/educational experience that may help determine future educational and occupational goals.

Child Development (CHD)

CHD 310 Growth/Development Child 4 credits
This is a broad sketch of human growth and development from pre-natal stages to elementary age. Developmental processes are studied from a biological and developmental perspective. Personality development and the effects of temperament on learning are discussed.

CHD 320 Role Early Childhood Educator 4 credits
This foundational course discusses the roots of early childhood education and the purposes of early childhood in today's society. The historical and present role of adults within the field of early childhood will be examined. Learners will explore NAEYC's code of ethics and its implications for the profession.

CHD 330 Best Practices in EC 4 credits
This class provides the theoretical framework and best practices for working in early childhood settings. Learners examine how individualized curriculum and environment can be integrated through developmentally appropriate practices in order to promote the cognitive and social development of children.

CHD 400 Introduction to Early Childhood Education 3 credits
This seminar helps students grasp the breadth, depth, and foundations of early childhood education.

CHD 402 Writing for Educators 3 credits
Early childhood staff of all levels (directors, teachers, assistants, aides, family child care, etc.) must demonstrate professionalism as strong communicators not only verbally, but as writers, as well. This course will lay the groundwork of writing expectations in the program, and serve to remediate as needed.

CHD 410 Growth and Development of Children 3 credits
This is a broad sketch of human growth and development from pre-natal stages to elementary age. Developmental processes are studied from a biological and developmental perspective. Personality development and the effects of temperament on learning are discussed.

CHD 411 Child Social and Emotional Growth 3 credits
This course studies the social, psychological and emotional growth of children from prenatal to elementary ages. Issues of attachment, perspective-taking and friendship are discussed. (Prerequisite: Minimum grade of C- in CHD 400, CHD 402, and CHD 410)

CHD 422 Human Diversity and Relations 3 credits
The purpose of this course is to expand our understanding of the influences of gender, culture, economic situation, learning styles, and language on the socialization of children, and then how to use this new understanding to form the way we program for and interact with children. (Prerequisite: Minimum grade of C- in CHD 400, CHD 402, and CHD 410)

CHD 430 Infants and Toddlers 3 credits
In this course, students will study the emerging skills and developmental characteristics of infants and toddlers. Course topics include environments that foster development, appropriate practices, and promoting the development of autonomy. (Prerequisite: Minimum grade of C- in CHD 400, CHD 402, and CHD 410)

CHD 435 Developmentally Appropriate Practices in Early Childhood Education 3 credits
This is a historical, present, and future perspective of developmentally appropriate practices. Appropriate classroom practices and current topics are discussed. (Prerequisite: Minimum grade of C- in CHD 400 and CHD 410)

CHD 440 Children's Play and Learning 3 credits
Theories of Piaget, Parton, Erickson, and Vygotsky are studied to determine how children learn to play and the effect that play has on the child's development. Historical perspectives and effects of play on learning are reviewed. (Prerequisite: Minimum grade of C- in CHD 435)

CHD 445 Language Development and Emergent Literacy 3 credits
The research and stages of language development from birth through age seven are extensively explored. Students will understand how to guide children through the language acquisition process. (Prerequisites: Minimum grade of C- in CHD 400, CHD 402, and CHD 410)

CHD 450 Children's Literature 3 credits
Using children's books to develop literature-based curriculum is the emphasis of this course. There is a review of authors of children's literature and an exploration of books for a variety of purposes. (Prerequisite: Minimum grade of C- in CHD 400, CHD 402, and CHD 410)

CHD 451 Dual Language Learners 3 credits
This course will address the needs of the early childhood classroom professional. The course will move beyond the basics of child development to help educators understand the natural progression of second-language acquisition in young children. (Prerequisite: Minimum grade of C- in CHD 445)

CHD 461 Ethics in Early Childhood 3 credits
Classical and historical ethics are explored, as well as the student's personal values system. Individuals face tough ethical decisions with increasing frequency in our society and a framework for addressing those questions is needed. Each student will develop a system for making ethical decisions in their personal and professional life. (Prerequisite: Minimum grade of C- in CHD 400, CHD 402, and CHD 410)

CHD 482 Young Child with Special Needs 3 credits
This course is designed to introduce the student to the information and techniques needed to develop curricula and instruction to meet the unique needs of individual children in early childhood settings. Special emphasis is given to the theories, research, and practical application from the fields of both early childhood education and special education. (Prerequisites: Minimum grade of C- in CHD 400, CHD 402, and CHD 410)

CHD 490 Portfolio and Synthesis 3 credits
This senior level and final course is designed to help learners reflect on all they have done in the BA Child Development program. Through guest speakers, research study, and reflection on practice, students will synthesize all they have learned. Preparation of a professional portfolio will cap the learning experience. All other courses in the program must be successfully completed before taking this course. (Prerequisite: Senior standing and successful completion of all other courses in the program.)
Christian Ministry (CHM)

CHM 268 Introduction to Christian Ministry 2 credits
Through an exploration of scriptural, theological, historical and social foundations of Christian ministry, students work to develop a personal philosophy of ministry. In addition, students study and utilize essential leadership skills for effective Christian ministry practice and service. As a major project throughout the course, students develop a professional Christian ministry portfolio.

CHM 270 Using Social Media in Ministry 2 credits
Emerging social media and digital technologies are changing the way organizations—including the local church—reach constituents and communities. How do Christian leaders develop strategies to leverage social media effectively as a tool for communication and outreach? In this course, students will explore available social media tools; develop a strategy for utilizing social media in a healthy way, both personally and organizationally; and learn to evaluate social media effectiveness through case study and real-world implementation of course learnings.

CHM 321 Foundations for Teaching and Learning 4 credits
Students explore the scriptural, theological and historical role of Christian education within the church. This exploration will equip students to teach the faith across the lifespan through an intentional implementation of Christian educational programs and experiences.

CHM 323 Leadership Foundations 4 credits
Developing their biblical and theological foundations for the practice of Christian leadership within diverse and changing faith communities, students explore leadership models and theories essential for guiding Christian ministry organizations into the future. Students gain administrative and productivity skills essential for organizational leadership.

CHM 325 Strategic Ministry 3 credits
Christian ministry in diverse and fluid cultures calls for strategic and intentional leadership. Students explore and apply current strategic planning theories, methods and tools to help Christian ministry organizations fulfill their missions within ever-changing communities and cultural contexts. Through case study analysis and projects, students apply organizational change theory to congregations and ministry organizations.

CHM 330 Cultural Contexts and Faith Development 3 credits
Students study the practice of Christian ministry within different cultural contexts and across the lifespan, paying particular attention to applying principles of biblical interpretation and a Lutheran understanding of Law and Gospel to the design and implementation of ministry experiences. Through applied projects, students develop a commitment to a reflective practice that respects diverse voices and beliefs.

CHM 421 Teaching to Lead and Equip 4 credits
Effective ministry requires teams of transformational leaders. Educators and other leaders in the church serve and lead in ways that equip and empower others to serve within their local congregations, communities and beyond. Reflective practice helps leaders shape educational experiences that equip learners to serve and volunteer within diverse and rich cultural settings. Through applied projects and research, students design volunteer ministry programs and leadership training experiences. There is a fieldwork component to this course.

CHM 269 Theory to Action: Capstone in Christian Ministry 2 credits
Students reflect on and formalize their understanding of Christian ministry in the context of their personal identity in Christ, the broader ministry of the Gospel, and their vision of future ministry and personal growth. Students prepare and present a capstone Christian Ministry project.

CHM 425 Youth and Family Ministry 4 credits
Youth and family ministry is a partnership within congregation, home and community. Grounded in baptismal theology, this ministry is a tending of the faith journey throughout the lifespan. Students develop skills to lead a relational and Christ-centered ministry for and with youth in a congregation. There is a fieldwork component to this course.

CHM 430 Children and Confirmation Ministry 4 credits
Current and emerging theories of children’s ministry serve as the foundation for developing engaging children’s ministry practices, experiences and programs. Additionally, students research and plan effective approaches to confirmation programming. There is a fieldwork component to this course.

CHM 435 Teaching and Leading Adults 4 credits
Adult learning theory serves as a foundation for the development of adult education programs and experiences. Throughout this course students explore and apply theories of adult learning, spiritual formation, effective teaching methods and adult spiritual direction strategies. Participants utilize a planning process for initiating and leading adult education programs in ministry settings. There is a fieldwork component to this course.

CHM 440 Speaking the Gospel 4 credits
Students explore the practical application of models of personal witness and Christian apologetics through the development of skills in nurturing relationships, recognizing barriers to and opportunities for faith-sharing, dealing with fears, listening actively, and effectively applying Law and Gospel to the needs of the hearer. There is a fieldwork component to this course.

CHM 445 Practice of Missions in the 21st Century 4 credits
Students explore the basic tenets of living a mission-focused lifestyle in various cultures and contexts in North America and around the world by becoming familiar with issues related to crossing cultural barriers. These include culture shock; spiritual, physical, and emotional health; learning language and culture; team development; and integrative vocational practices. There is a fieldwork component to this course.

CHM 450 Congregational Practices in Mission and Outreach 4 credits
Students explore a strategic, team-based approach to congregational outreach and discipleship. By means of classroom and field experiences a multi-phase model is explored, developed and applied to a chosen contextual setting. There is a fieldwork component to this course.

CHM 455 Urban Outreach 4 credits
Students develop an understanding and appreciation for the distinct outreach opportunities available in 21st century urban centers. Through classroom experience and interaction with cooperative agencies, a theological perspective is developed that moves students to connect entrepreneurial practices and evangelistic ministry. There is a fieldwork component to this course.

CHM 488 Independent Study 1-4 credits

CHM 490 Theory to Action: Capstone in Christian Ministry 2 credits
Students reflect on and formalize their understanding of Christian ministry in the context of their personal identity in Christ, the broader ministry of the Gospel, and their vision of future ministry and personal growth. Students prepare and present a capstone Christian Ministry project.
CHM 498  Commissioned Ministry Internship I 6 credits
The internship provides DCE and DCO students a full-time supervised involvement in the educational or outreach ministries of a cooperating congregation or cross-cultural organization. Emphasis is placed on active leadership in a variety of professional tasks. Students register for CHM 498 in the fall and CHM 499 in the spring to complete the 12-month internship.

CHM 499  Commissioned Ministry Internship II 6 credits
The internship provides DCE and DCO students a full-time supervised involvement in the educational or outreach ministries of a cooperating congregation or cross-cultural organization. Emphasis is placed on active leadership in a variety of professional tasks. Students register for CHM 498 in the fall and CHM 499 in the spring to complete the 12-month internship.

Communication Studies (COM)

COM 103  Interpersonal Communication 4 credits
Students examine their methods of interpersonal communication in various contexts including dyadic, small group, and mediated communication. Individual activities and group work include both oral and written components. Class discussions and small group activities provide opportunities to practice and refine interpersonal communication skills. Objective exams and quizzes focus on cognitive learning of the principles and concepts in the various communication contexts. (COM 103 is one of the two choices for the communication general education requirement for all students. It is also a prerequisite for all communication majors.)

COM 105  Listening as a Communication Tool 2 credits
An essential skill for administrators is effective listening; too often hearing is confused with listening. Students will discover their personal barriers to effective listening; learn how to mitigate listening barriers to make others feel heard; integrate new listening skills from the telephone to the boardroom, and discover how much better informed they will be about: business, employees, and customer.

COM 109  Introduction to Communication 3 credits
This course introduces the practices and principles of interpersonal communication. This course will require students to gain introductory knowledge of theory as well as apply course concepts through written assignments in addition to individual and group presentations. Emphasis is placed on the communication process. Issues to be addressed include: interpersonal relationships, sending and receiving messages, language, listening, and cultural considerations. Additional emphasis will engage students to think critically about cultural implications regarding interpersonal communication.

COM 205  Small Group Communication 4 credits
Students study and practice communication in small discussion and task groups. Topics include leadership and facilitation of groups as well as group dynamics. Group activities include problem solving discussions and task completion. Course units include goal setting, cohesion and norms, power, leadership, decision-making and problem solving, conflict and facilitating task and interpersonal relations in face-to-face and virtual groups. (Prerequisite: COM 103 or COM 212)

COM 212  Public Speaking 4 credits
Students prepare and deliver various types of public performances including speeches and oral interpretation. The evaluation and criticism of speeches is studied. Videotape helps students adjust to their performance style and improve presentation delivery. Course units include speech construction, presentation and delivery, audience and text analysis, informative, persuasive and special occasion speeches as well as visual aid construction. (COM 212 is one of the two choices for the communication general education requirement for all students. It is also a prerequisite for all communication majors.)

COM 222  Social/Mass Media Communication 4 credits
Students study and critically appraise the history and development of the various traditional mass and contemporary social media with an emphasis on the impact of these communication developments on individuals and society. The content of the course also includes a strong focus on the dominant social media platforms and their role in marketing and public relations. Students will be able to edit video and utilize basic metrics applied to online communication tools. (Prerequisite: COM 103 or COM 212)

COM 309  Intercultural Communication 4 credits
Students explore the principles and processes of communication between cultures. Course topics include intercultural communication models, the impact of different cultural patterns on the communication process, the anthropological concept world view and its impact on intercultural communication, detection of communication problems in intercultural situations, gender and diversity issues in intercultural communication, and constructing valid strategies for communicating interculturally. (Prerequisite: COM 103 or COM 212)

COM 320  Media and Public Relations 4 credits
Students study and experience the latest techniques and trends in effective communication with the media for agencies, organizations, and businesses, as they pursue media relations. Topics addressed include public relations; creation of strategic public relations plans, audience analysis and media characteristics; media and marketing decisions; managing integrated marketing and emerging communication technology functions and budgets. Special attention is given to the role of social media. (Prerequisite: (COM 103 or COM 212) & ENG 120)

COM 322  History of Film and Television 3 credits
Students study film and television as it has developed throughout the 19th, 20th, and 21st centuries. Screenings of classic films and television are complimented by class analysis and discussion of how the moving image has changed over time. This is not a production course, as students will focus instead on understanding film theory and aesthetics.

COM 325  Social Media Relations & Analytics 4 credits
Students develop an understanding of the theory and strategic management of social media especially in the public relations context. By analyzing history, tactics and current trends, students learn how the public relations process and the goal of relationship building with various stakeholders is impacted by various social media applications. Students also become acquainted with social media tactics in various professional settings. (Required prerequisite: COM 103 or COM 212) (Suggested prerequisite: COM 222)
COM 403  Family Communication 4 credits
Students examine communication patterns in functional families and interpersonal relationships. Reading and discussion are combined with experiential activities. Course units include diverse family systems, health communication, communicating with aging family members and those with disabilities, communication patterns, family roles, power, decision-making, conflict, stress and coping, ecology, and improving family communication. (Prerequisites: COM 103, COM 212, and COM 205)

COM 441  Communication Research Methods 4 credits
Basic quantitative and qualitative approaches and methods are applied to communication studies. The course includes question construction, survey research and design, experimental design, quantitative content analysis and comparisons, and qualitative analysis of participant observation, interviewing and focus group methodology. Critical studies and approaches in the field of communication will be discussed. This course is a prerequisite for COM 442 because it implements the research proposal. (Prerequisites: COM 103, COM 212, COM 205, and COM 222)

COM 442  Communication Theory 4 credits
Students study and apply theories to human communication including interpersonal and public communication, small groups, mediated communication, persuasion, gender studies, as well as work, friend, and marital relationships. Perspectives on and methods of critical inquiry and research are an integral part of the course content. Research projects are presented to the rest of the class as well as submitted to professional organizations for review. COM 442 implements the research proposal developed in COM 441. COM 442 and COM 443 are intended to be a year-long capstone sequence. (Prerequisites: COM 103, COM 205, COM 212, COM 222, COM 309 and a minimum grade of C- in COM 441)

COM 443  Persuasive Communication 4 credits
Students study and apply persuasive communication theories to the study and analysis of communication events including speeches, posters, films, campaigns, television programs, advertising, social media and other forms of public communication. Students examine the ways in which beliefs, values, attitudes, and behavior are deliberately affected through various forms of human and electronic communication. The major project is an application of theory and research. Research projects may be submitted to professional organizations or an online journal for review. COM 442 and COM 443 are intended to be a year-long capstone sequence. (Prerequisites: COM 103, COM 205, COM 212 AND COM 222)

COM 444  Research Communication Methods 3 credits
Basic quantitative approaches and methods are applied to communication studies. The course includes research question construction, survey research, SPSS, and quantitative comparisons.

COM 478  Organizational Communication 4 credits
Students examine theories of communication systems, processes and assumptions in organization structures. Topics include roles, relationships and responsibilities of individuals within organizations as well as skills in and applications of organizational communication, including communication audits. Interviewing skills in the various demands of organizations will be examined and practiced. Values and ethical communication behaviors are explored through a variety of activities including case studies and self-assessments. Exploration of crisis communication strategies and their effectiveness in organizational image restoration are examined. (Prerequisites: COM 103, COM 212 and COM 205)

COM 488  Independent Study 1-5 credits
Independent study offers the opportunity to pursue advanced study in communication. Independent study is open only to students with substantial preparatory course work in communication. It is not intended to be taken in the place of a regularly offered course. (Prerequisite: permission of communication faculty)

COM 490  Senior Seminar 2 credits
Students finalize their capstone research project in this culminating experience in the discipline. Students will be expected to prepare their research projects for dissemination to professional organizations for review, presentation, or publication. (Prerequisite: Minimum grade of C- in COM 441 and COM 442, Permission of instructor, Senior Standing)

COM 498  Internship 1-12 credits
Students participate in a variety of internship programs in such experiences as editing, publishing, broadcasting, television, human resources, and public relations under the supervision of Communication faculty. Internships are tailored to the needs, interests, and career aspirations of the student. Portfolios, learning logs, and meetings with the internship faculty supervisor are required for all internships. (Prerequisites: COM 103, COM 205, COM 212, COM 325, ENG 120 and permission of communication faculty advisor)

COM 500  Strategic Leadership and Management 3 credits
Examine strategic leadership and management topics, addressing the communication theories, dynamics, research, principles, and practices prevalent in all aspects of organizational life. Utilize leadership and management theories to address challenges and opportunities facing for-profit corporations, nonprofits, and government agencies. Group relationships are fostered, creating a collaborative learning environment conducive for personal and professional growth that emphasizes effective communication, problem solving, and healthy decision-making.

COM 510  Persuasive Communication 3 credits
This course covers the principles and practices of persuasion, advocacy, and marketing. Learners explore theories of motivation, attitude, and behavior that guide how an ethical communicator strives to gain compliance; properly advocate for people, values, and ideals; and change attitudes and behavior. Students learn about how research informs marketing and persuasion tactics, and apply key concepts and conceptual frameworks in marketing such as how to segment, reach target audiences, and influence others in a socially responsible way. Students work with a communications plan that addresses a real issue that draws upon the things you have learned in this course. Students also have an opportunity to develop presentation skills through in-class presentations.

COM 515  Corporate Social Responsibility and Ethical Leadership 3 credits
Connects morality, ethics, and values with leadership and influence. Explore and respond to challenging organizational dilemmas while balancing personal integrity and organization goals, incorporating these elements into the personal and professional decision-making process. Think critically, gain sensitivity in using appropriate language, express clear ethical reasoning in both written and verbal communication, and research the role of leadership in the creation of an ethical corporate culture. Assess ethical risk to organizations in the public sphere and develop insights into personal philosophies.
COM 520  Media Strategies 3 credits
Develop a structured approach to understanding and managing internal and external communications. Explore media relations, the research and creation of strategic public relations media plans, audience analysis, media characteristics, media and marketing decisions, and how to manage various communication technology functions and budgets. Special attention given to the role of navigating current and future media landscapes.

COM 525  Digital Communication 3 credits
Explore how digital communication technologies affect interpersonal and organizational communication. Address how to use various digital avenues to reach diverse publics. Integrate digital communication tools into strategic communication plans. Devise an effective digital communications campaign.

COM 530  Interactive Media Mgmt 3 credits
This course explores how emerging interactive communication technologies affect interpersonal and organizational communication. Students are introduced to different types of interactive media, while also researching and discussing issues related to cyberspace, virtual communities, collaborative teams, business on global networks, search engine optimization, search engine marketing, digital brand integration, Web analytics, blogs and podcasts, and wireless marketing.

COM 540  Communication Inquiry & Measurement 3 credits
Learn various research methodologies that are relevant and effective in organizational settings. Become an effective organizational change agent. Gather, analyze, and synthesize complex credible information using action research methodologies. Students select a capstone project that will demonstrate, using action research methodology, organizational change management. Utilize change management theory to affect organizational change.

COM 545  Project Management and Analytics 3 credits
Increase leadership effectiveness using resources and tools to manage major projects, analytic performance evaluations, and information from cross-platform projects. Students will utilize project management tools to plan for the successful completion of their capstone project.

COM 550  Communication Strategies for Conflict Management 3 credits
This course provides an overview of the nature and functions of perspectives, viewpoints, and values on conflict, as well as the difficult elements and role of communication in human conflict. Students develop communication skills, such as listening and collaboration, which are necessary for managing conflict productively in interpersonal, organizational, and intercultural contexts. Professionals will gain an understanding of patterns, research strategies, and processes associated with conflict management styles with civility. This course addresses how language, perception, gender communication, generational differences, and context influence the conflict process.

COM 560  Intercultural Communication 3 credits
Explore the major concepts, research, theories, and models that constitute intercultural communication, with an emphasis on using these ideas in applied contexts. Important topics include: worldviews, communication styles, skills development in intercultural arenas, societal influences on stereotyping, ethnocentrism and racism, cultural value orientations, nonverbal dimensions of communication, language interaction, gender communication, intra-cultural issues, stereotypes, intercultural transitions, and adaptation.

COM 570  Leadership Communication 3 credits
Analyze how leadership depends on healthy communication skills that nurture a healthy organizational culture. Critical management techniques also rely on understanding those leadership skills essential to work with people in a dynamic interactive culture. Focus on successful leadership and management strategies as part of human interaction, conflict, decision making, problem solving, persuasion, mentoring, collaboration, team building, change management, and facilitation. Explore how to effectively communicate with top executives in an organizational setting.

COM 575  Content Strategy 3 credits
Create a content strategy that develops meaningful, cohesive, engaging, and sustainable communication content to attract and retain target audiences. Develop a strategic perspective on how content is aligned with customer needs and organizational goals. Analyze stages in the content life cycle. Measure content effectiveness using analytics and feedback. Study storytelling, multi-channel, cross-channels, and omni-channel techniques.

COM 585  Strategic Customer Experience 3 credits
Explore the benefits of a customer-centric organization through analyzing different strategic models. Craft a customer experience (CX) strategy to aid organizations in competitive markets. Evaluate how brand, technology, internal and external stakeholders, and processes should be successfully communicated. Understand the dimensions of customer value and effectively map the customer journey.

COM 590  Crisis Communication 3 credits
Address the basic types and elements of crises, and the importance of providing effective leadership and management in those conflict laden times. Intersections with other fields will also be addressed, including public relations, conflict management, and risk management. Analyze the role strategic communication, media relations, power, and organizational culture play during a crisis. Develop tools for dealing with the media in less-than-optimal situations, learn how to develop plans for different critical audiences (both internal and external), analyze effective persuasive methods, and discover ways to utilize effective public relations strategies for communicating the organizational message during a crisis.

COM 595  Reflection and Capstone 3 credits
Review and reflect upon the program’s courses and capstone project. Complete and present the program's capstone project.

COM 610  Corporate Responsibility & Ethical Communication 3 credits
This course explores foundations in personal values and mission statements, decision trees in ethical decision-making, and ethical theories and moral philosophies that relate ethics to organizational, mediated, mass media, and interpersonal communication contexts. The course examines the communication components and hindrances to good ethical decision-making. Students learn how to think critically, gain sensitivity in using appropriate language, express clear ethical reasoning in both written and verbal communication, and research the role of communication in the creation of an ethical corporate culture. Through case studies, readings, and other activities, students are exposed to ethical issues that arise in communication and are required to argue and analyze the ethical dilemmas they will encounter in the working world. Learners will gain skills in assessing ethical risk to organizations in the public sphere and develop insights into their personal philosophies.
COM 695 Capstone 3 credits
The final course provides an opportunity for students to review and reflect upon the courses and experiences in the program. Additional activities add self-confidence in strategic communication management and leadership skills. Students present the completed Action Research Project they have worked on with the project coordinator, and polish their ARP report in an error-free and thorough submission. Students also continue reading and reflection on their course work and experiences as life skill builders. Students receive feedback from their Action Research Project coordinator and share learning with other students in the final presentation.

Computer Science (CSC)

CSC 115 Introduction to Computer Science 4 credits
This course introduces students to problem solving using the Python programming language. Students will learn computer hardware concepts, number systems, and Boolean algebra. The course will cover Python programming constructs such as conditional statement, iteration, function, class and object. Students are expected to take a problem description and write a program in Python that provides a solution to the problem. This course assumes the student has no prior programming experience.

CSC 121 Basics of Technology in Business 2 credits
The purpose of this course is to respond to the technological demands of business today. Students will be equipped with the required knowledge and skills to fulfill basic business needs. A foundation in fundamental tools and emerging technologies will be explored through both practice and theory with a focus on how they can be leveraged for business advantage. A solid base in business information systems will provide students the confidence to generate and manage information for thoughtful and informed decisions. Business efficiency and productivity topics will include emerging and contemporary technologies for data management, business intelligence, and professional communication.

CSC 135 Modern Web Design 4 credits
In this course, students will start by learning basic HTML and CSS for building static Web pages and later use JavaScript, jQuery, Bootstrap, and Angular with JSON to build an interactive Website. Students will also learn about responsive Web design and user experience concepts. This course requires that students have some programming background in one programming language. (Prerequisite: Minimum grade of C- in CSC 115 or equivalent)

CSC 175 Math for Computer Science 4 credits
This course covers mathematical concepts that are widely used in the field of Computer Science, including discrete math, logic, and proofs. (Prerequisite: Minimum grade of C- in MAT 103, or Level 3 on the Math Placement Exam)

CSC 210 Microsoft Excel Core 4 credits
Through Microsoft Excel, students will be led through an exploration of a powerful spreadsheet program. After a review of the basic commands and functionality, students will be challenged to manipulate specific data for informative reporting that is visually, accurately and dynamically representative of the learning objective. To accomplish this task advanced formulas, search strategies, and data analysis tools will be incorporated into learning projects including mastery of Pivot Tables and Pivot Charts. Further studies will include strategies for managing large data sets, linking and importing external data, mitigating security issues, and working toward automation. Upon completion of the course, students will have sufficient preparation if they wish to take the Microsoft Office Specialist Certificate.

CSC 222 Introductory Programming with Java 4 credits
This course teaches student problem solving with structured programming techniques using Java. The topics covered includes variables, primitive data types, conditional statements, loops, static methods, file processing, string, arrays, and some concepts of object oriented programming. This course requires that students have some programming background. (Prerequisite: Minimum grade of C- in CSC 115)

CSC 230 Database Design 4 credits
Utilize a database tool to create a prototype for output that meets real-life business outcomes. Learn the fundamentals of database design including the relational model, SQL, and data warehousing. Practice working individually and in teams to learn the normalization process, minimizing opportunities for redundant, inaccurate data. Other topics include design implications for speeding data access (e.g. denormalization), and the emergence of unstructured data systems.

CSC 235 Server-Side Development 4 credits
This course provides an overview of programming and database techniques used in server-side programming. Topics include handling web form data, SQL database design, security considerations, stored procedures and JSON. (Prerequisite: minimum grade of C- in CSC 135 and CSC 230)

CSC 240 Database Development for Business 4 credits
Analyze database use within a variety of business contexts. Gather requirements for a real-life database that addresses current business strategies and develop a prototypical model that meets stakeholder reporting needs and enhances organizational efficiency. Learn the basics of database design including the relational model and an introduction to SQL queries. Practice working individually and in teams to learn the normalization process, minimizing opportunities for redundant, inaccurate data.

CSC 245 Modern Web Development 4 credits
This course is designed as an introduction to the functional components of computer systems, including their hardware implementation and management at different levels, and their interaction, characteristics, and performance. The course also covers practical implications for computer programming. (Prerequisite: Minimum grade of C- in CSC 115 or equivalent)

CSC 250 Mobile App Development 4 credits
This course teaches students how to build Android mobile applications from the bottom up using Android Studio and Java. Students will learn Android architecture, how to design user interface, and how to handle user interface events. Other topics include saving and restoring the state of an app and integrating Google Map. The course consists of several small projects giving students the ability to create an Android app incrementally. At the end of the course, students will use knowledge they have learned in the course to build a medium size Android app and to learn the process of preparing and publishing their app to Google Play Store. (Prerequisite: Minimum grade of C- in CSC 222)

CSC 265 Object Oriented Programming in Java 4 credits
This course teaches student problem solving with object oriented programming techniques using Java. The topics include exception handling, generics, object oriented programming, design patterns, and data structures. This course assumes that students already have a good programming background. (Prerequisite: Minimum grade of C- in CSC 222)
CSC 330  Language Design and Implementation 4 credits
The course provides a comparative survey of programming language paradigms. It includes an overview of the properties, applications, syntax, and semantics of selected object-oriented, functional, comparative, and declarative programming languages. (Prerequisite: Minimum grade of C- in CSC 322)

CSC 420  Data Structures and Algorithms 4 credits
This course covers both theory and application of data structures such as lists, stacks, queues, sets, maps, binary search trees, and graphs. The algorithm portion covers time complexities of algorithms using big-O notation, various sorting algorithms, concepts of dynamic programming, and divide-and-conquer algorithms. By the end of the course, students should know to apply the appropriate data structures for a given problem for optimal performance. Students will be able to determine the efficiency of basic algorithms. Students must have a good object-oriented programming background. (Prerequisite: Minimum grade of C- in CSC 322)

CSC 422  Software Engineering 4 credits
This course introduces students to concepts and tools in software engineering. The topics include software life-cycle models, the phases of software development, design patterns, software architecture and Agile software development. Students will learn various software engineering tools such as integrated development environment, version control systems, and project management software. This course assumes students have a good background in object-oriented programming in at least one programming language. (Prerequisite: Minimum grade of C- in CSC 322)

CSC 435  Advanced Web Application Development 4 credits
This course teaches students Web application development using common tools and frameworks in the current industry. The course covers various front-end libraries and frameworks such as React and Angular and several back-end frameworks and tools such as Python Flask, Code Igniter Node, and Java Spring Boot. Students will learn both relational databases and NoSQL databases. Students will build various Web applications using various frameworks throughout the term. Students are assumed to have good knowledge of JavaScript, have a good understanding of backend development and of databases. (Prerequisite: Minimum grade of C- in CSC 235)

CSC 450  Computer Science Capstone 4 credits
This course is a capstone course for the Bachelor of Science in Computer Science. The course provides students realistic hands-on software development experience. Students will work in teams to build a medium-size software. Students will use agile software development and tools necessary to support teamwork. This course assumes the student has a good programming background in at least one programming language and is willing to learn new tools and technologies. (Prerequisite: Minimum grade of C- in CSC 422 and CSC 315 or CSC 435)

CSC 488  Independent Study 1-4 credits

Criminal Justice (CJU)

CJU 402  Returning Student Seminar for Criminal Justice 4 credits
This course will provide each student with an opportunity to reflect on their decision to return to college. Emphasis will be on preparations for their return to college and their development of a learning plan. Students will focus on time management, organizational skills, and practical writing for criminal justice practitioners. Extensive time will be devoted to writing fundamentals, such as mechanics, sentence structure, academic and professional prose and APA style.

CJU 422  Information Literacy in Criminal Justice 4 credits
Information today grows exponentially. This course teaches students to identify information needs in their profession, know and access criminal justice data bases, discern legitimate information, manage the data, and present information in an articulate, professional manner. Students will effectively integrate sources in academic writings using APA style.

CJU 431  Inside the Criminal Mind 4 credits
This course explores theories and research of criminal behavior. Students will examine how past and present understanding of criminals has determined responses of society and the criminal justice system.

CJU 435  Philosophy of Values and Ethics 4 credits
Students examine the issues of accountability in government and business regarding human rights and ethics through readings, discussion and debates. Exploring both ethical theory and personal values, students develop a system for making ethical decisions in their personal and professional lives. This course also explores the emotional and physical risks associated with their work and helps develop strategies that will nurture maintaining physical and emotional health.

CJU 437  Systems Thinking in Criminal Justice 4 credits
Given the dynamic complexity of organizations, it is vital that professionals have an understanding of how organizations and systems interact. This course provides the skills to diagnose interactions and engage in finding solutions to problems. “Systems thinking” serves as one of the threads of continuity running throughout this degree program.

CJU 451  Diversity in Criminal Justice 4 credits
While multiculturalism is a popular term in today’s society, diversity issues play a particularly important role in criminal justice. This course provides an understanding of diversity from theoretical, organizational, and personal perspectives to impact the effectiveness of those employed in criminal justice and mitigate the risk of legal liability and public perception issues that negatively impact this profession.

CJU 452  Constitutional Law 4 credits
This course will develop the understanding and working knowledge of constitutional law that professionals in this field are expected to have. Students will review constitutional history and basic concepts to understand interpretations of the Constitution by the United States Supreme Court impacting criminal justice, and learn practical research strategies to find law.

CJU 453  Troubled Youth in the Criminal Justice Corrections System 4 credits
This course explores why and how governments have always treated children differently than adults. Theories of delinquency and the corresponding responses by society through the criminal justice system are addressed, as are current data, trends and programs. Students will also explore the challenges facing juvenile corrections in a society that continues to change in demographics, norms, and expectations of criminal justice.

CJU 455  Contemporary Issues in Criminal Justice 4 credits
Current criminal justice related events occurring nationally and locally will provide the scenarios for students to apply the knowledge acquired during this degree program in a thoughtful and scholarly manner. Students will draw upon their understanding of systems thinking, constitutional law, religion, modern trends, ethics, and individual and community behavior.
CJU 490  Criminal Justice Portfolio 4 credits
This final course is designed to help learners reflect on all they have done during this degree program. Students will synthesize all they have learned. Preparation of a professional and educational portfolio or e-portfolio will cap the learning experience. Students will participate in group activities to provide closure to the program.

CJU 498  Criminal Justice Internship 1-16 credits

CJU 500  Administration of Criminal Justice 4 credits
This course is a scholarly consideration of the concepts, principles, and analytical tools for effectively administering criminal justice agencies. Students will examine the critical application of strategic management skills in operational environments that are ever-changing, under intensive scrutiny by the public and media, and limited by legal, financial, and political constraints.

CJU 502  Correctional Design 4 credits
The philosophies, roles, and designs of juvenile corrections continue to evolve. This course expands upon the basics of institutional and community corrections by exploring modern research and trends in modern corrections. Students will address leadership, legal, political, and financial issues impacting the effectiveness of corrections in a society with increasing demands and expectations of the criminal justice system.

CJU 505  Reflective Adult Learner & Leadership 4 credits
The premise of this course is leaders must have an understanding of who they are and why they are here. Students will devote considerable time to self-examination and reflection to gain greater awareness and understanding of who they are, and how their life and professional experiences influence their paradigms and leadership qualities. There is an emphasis on attitude and emotional intelligence and how they influence leadership effectiveness and results.

CJU 520  Research Methods in Criminal Justice 4 credits
This course will provide an understanding of the dynamics of problem-solving with special attention to research methodologies which result in finding creative and productive solutions.

CJU 543  Contemporary Issues in Criminal Justice Leadership 4 credits
This course examines stress from a leadership perspective by asking why and how employers should respond to mental health issues. Theory, research, and trends in employee assistance are discussed as students consider how employers can help prevent, mitigate, and respond to emotional issues impacting personnel on the job.

CJU 545  Legal and Legislative Issues 4 credits
Those in leadership positions find themselves with a greater duty to recognize and respond to legal issues. This course examines how law defines policy in areas impacting the business of criminal justice, including due process, civil rights, equal protection, employment law, civil liability, and criminal procedure. In addition to identifying emerging law, this class addresses the political science of public policy at jurisdictional levels, including the United States Supreme Court.

CJU 570  Applied Ethics in Criminal Justice Leadership 4 credits
This course will review and analyze popular models of ethical decision making and problems criminal justice professionals face every day. Readings, case studies, and written assignments will provide opportunities to investigate current ethical issues facing criminal justice leaders and managers in organizational settings, as well as critically apply various ethical theories and decision-making frameworks. Discussions relative to Christian vocation, applied ethics, and value-centered leadership will be explored. Weekly written assignments will demonstrate the integration of a personal and vocation ethic.

CJU 584  Accessing Criminal Justice Resources 4 credits
This course familiarizes students with online academic and professional criminal justice leadership periodical indexes. Students will employ secondary research techniques in a criminal justice topic area of their choice. Students will evaluate and ethically report the body of research and informational landscape related to the topic in APA style. Students will learn to integrate knowledge navigation into academic, professional, and personal application. Students will also reflect on program objectives and personal learning and identify a direct link between the new knowledge they have acquired and their career field. Students will also begin steps to set up their final project (E-folio) due at the end of the master’s program.

CJU 596  Criminal Justice Capstone 4 credits
The Capstone course is the concluding event of the program. This course assists students in synthesizing previous coursework and research leading to greater self-reflection, application to their career field, and an assessment of their learning throughout the duration of the program. The student will present and discuss the final M.A. Capstone E-folio.

Curriculum Instruction (CI)

CI 553  Instructional Strategies 3 credits
Theory and strategies of designing technology-rich environments to support active learning in schools.

CI 560  Curriculum and Instruction in Literacy 3 credits
An examination of the history of the school curriculum, the fundamentals of curriculum design, and methods of implementation for literacy.

CI 561  Foundations of Literacy 3 credits
A survey of the historical and theoretical development of literacy education and expectations for becoming an effective literacy teacher.

CI 562  Literacy Strategies for Grades K-6 3 credits
An investigation of literature and effective literacy strategies for the elementary classroom.

CI 563  Literacy Strategies for Grades 7-12 3 credits
A review of adolescent literature and effective literacy strategies for learners in grades 7-12.

CI 564  Assessment, Evaluation and Supervision in Literacy Programs 3 credits
Administration and analysis of individual and group assessments and strategies for supervising literacy programs and communicating student progress.

Differentiated Instruction (DI)

DI 509  Application of Differentiated Instruction in Gifted Education 3 credits
This course is a study of the improvement of educational practices in relation to differentiated instruction with emphasis on gifted education.

DI 515  Family Systems for Educators 3 credits
Best practices for building strong family-school relationships; a survey of current developments in the study of the family and an analysis of changes in American society and their influence on family life.

DI 532  Collaboration in Inclusive Settings 3 credits
A study of applied best practices for implementing and sustaining collaborative teaching in inclusive settings. Areas of focus include skills for collaboration, co-teaching, inclusive school practices, team building, shared problem solving, interpersonal communication, conflict and controversy, and home-school communication.
DI 534 Teaching Students with Mental Health Needs 3 credits
A study of classroom strategies, state and district initiatives and support resources that help children and youth with mental health needs learn successfully in the inclusive classroom setting.

DI 536 Inclusion: Effective Practices for All Students 3 credits
Exploring and applying the values underlying inclusion, the foundations of successful inclusion, differentiating instruction and classroom management.

DI 538 Differentiating Instruction Across Content 3 credits
This course will focus on methods of instruction for diverse learners. Students will develop knowledge and skills for planning, implementing, coordinating and evaluating differentiated teaching and learning environments that challenge and assist diverse learners to achieve at their highest level of ability.

DI 594 Effective Practices in Differentiated Instruction 3 credits
An introduction to the study, exploration and application of effective practices for all classroom learners. Focus is on classroom instruction blending of whole-class, group and individual instruction on the premise that instructional approaches are to be varied and adapted in relation to the diverse student needs in the classroom.

Early Childhood (ECC)

ECC 180 MN EC Educators Conf 1 credit
Join the faculty of Concordia University and the Minnesota South District for this annual conference. Choose from over 60 sectionals with tracts geared for infants, toddlers, preschool, kindergarten, primary, school age, administrator as well as general topics to update your knowledge, exchange ideas, and reaffirm your commitment to the education of young children. For more information and conference register see the website: www.csp.edu/earlychildhood or call 651-641-8857.

Early Childhood Education (ECE)

ECE 321 Pre-Primary Education 3 credits
Emphasis is placed on an understanding of history and current trends for three, four, and five year olds in early childhood and kindergarten. The focus of the course includes the development of appropriate learning environments and teaching strategies for skilled, foundational, and impressional treatment of all curricular areas. This course, like all early childhood courses, includes the themes of developmentally and culturally appropriate practices, play, behavior guidance and partnerships with parents. This course includes 30 hours of practicum time with young children. (Prerequisite: PSY 210)

ECE 322 Kindergarten Endorsement Methods 2 credits
Emphasis is placed on an understanding of the history and current trends for Kindergarten. The focus of the course includes the development of appropriate learning environments, activities, and strategies for intentional teaching in all curricula areas. This course, like all early childhood courses, includes the themes of developmentally and culturally appropriate practices, play, behavior guidance, and partnerships with parents.

ECE 323 Kindergarten Methods 2 credits
Emphasis is placed on an understanding of the history and current trends for kindergarten. The focus of the course includes the development of appropriate learning environments, activities, interactions, and strategies for intentional teaching in all curricula areas. This course, like all early childhood courses, includes the themes of developmentally and culturally appropriate practices, play, behavior guidance, and partnerships with parents.

ECE 324 Language Development and Emergent Literacy 3 credits
This course is designed to prepare educators and allied professionals to guide young children through the process of language acquisition and emergent literacy. The research and stages of language development from birth through age seven are extensively explored. Literacy strategies are explained, modeled, and experienced. The process of acquiring English as a second language and supportive strategies from adults and peers is also explored. This course, like all early childhood courses, includes the themes of developmentally and culturally appropriate practices, play, behavior guidance and partnerships with parents. Twenty-five hours working with young children is required. (Prerequisite: PSY 210)

ECE 325 Education of Infants and Toddlers 3 credits
This course includes the study of the emerging skills and developmental characteristics of infants and toddlers (birth to age three) and how to create an educational environment to promote their physical, cognitive, and social-emotional development. This course is designed to provide the skills for working with young children in a variety of settings. Course topics include the impact of the early years, behavior and guidance, health and safety issues, program and teacher licensure, and work with parents. This course, like all early childhood courses, includes the themes of developmentally and culturally appropriate practices, play, behavior guidance and partnerships with parents. (Prerequisite: PSY 210)

ECE 326 Building Primary Classrooms 3 credits
Emphasis is placed on an understanding of the history, goals, and current trends in the education of primary children. The focus of the course includes the development of a creative primary learning environment and strategies in achieving the standards set by the State of Minnesota.

ECE 425 Young Children with Special Needs 2 credits
This course is designed to introduce students to the laws and techniques needed to develop curricula and instruction to meet the unique needs of individual children in the early childhood setting. Emphasis is given to the integration of theories, research, practical application, and promotion of collaboration between early childhood professionals, special educators, and parents. Particular attention is given to authentic assessment which informs instruction, program planning, and individualization of activities. Also included is the presentation and discussion of the theory of behavior guidance in an inclusive early childhood classroom. May be taken in lieu of ED 439. If so, 25+ human relations hours working with students with disabilities are required. This course, like all early childhood courses, includes the themes of developmentally and culturally appropriate practices, play, behavior guidance and partnerships with parents. (Prerequisite: PSY 210)

ECE 426 Organization and Administration of Early Childhood Education 1 credit
This course, which is normally completed during the student teaching semester, deals with the following administrative topics: responsibilities of the early childhood director, supervision and evaluation of staff, staff development, budgeting and finances, health maintenance and safety, parent involvement, and public relations. (Prerequisite: PSY 210)

ECE 427 Authentic Assessment and Guidance in ECE 2 credits
Students will examine the various methods of child study, observation, portfolio development, and other authentic assessment strategies as a way to assess children’s growth and the development of knowledge and skills. Classroom management strategies will be explored including the effect of classroom practices and learning environments on children’s behavior.
ECE 520  **Effective Research Writing 3 credits**
This course will emphasize the difference between academic writing for a master's program and writing for personal use. APA Formatting will be emphasized, strategies for developing a literature review, and writing for academic use will be included.

ECE 521  **Topics & Research in Early Ed 3 credits**
This course will explore the current research in early education focusing on the theme of evidence-based practices by integrating theory with the activities of teacher researchers. Current empirical studies will be used to apply and understand research methods.

ECE 522  **Play: Theoretical Foundations and Applications 3 credits**
This course is a study of the various theoretical foundations of play and their application to young children's development and learning. Students examine the role of the teacher in children's play, analyze play environments, and review the issues and research affecting children and curricula.

ECE 526  **Curriculum and Instruction in Early Childhood Education 3 credits**
Along with the presentation of curriculum and instruction theory, this course will explore the development and implementation of early childhood curriculum and instruction. The link between assessment and program evaluation will be made.

ECE 527  **Observation and Assessment in Early Childhood Education 3 credits**
The various methods of child study, observation, portfolio development, and other assessment strategies are studied as a way to assess children's growth and the development of knowledge and skills. In addition, current classroom practices and learning environments are explored to identify changes that benefit children, their families, and communication between program and home.

ECE 541  **The Diverse Classroom 3 credits**
This course presents studies of education in multicultural settings. Students explore the values, beliefs, customs, and perceptions of racial and ethnic groups which affect social life and the education of children. Concepts of culture, social class, and power are developed.

ECE 544  **Language Development and Emergent Literacy 3 credits**
Current research is studied in regard to emergent literacy and language development in children with implications for the classroom teacher. Whole language strategies are explored for children from birth through age seven.

ECE 576  **Methods in Early Childhood Programming 3 credits**
This course is an in-depth look at current literature that supports leadership in early childhood education and then extends learning to the complexities of quality programming in early childhood education.

ECE 577  **eFolio and Completion 3 credits**
This course assists students in synthesizing previous coursework leading to greater self-reflection and assessment of learning. In addition, the student will complete, present, and discuss the final M.A. Capstone eFolio.

---

**Economics (ECO)**

ECO 101  **America in the Global Economy: Macroeconomics 4 credits**
This course will illustrate the dynamic integration of America within the global economy by focusing on macroeconomics policy areas such as trade, exchange rate policy and domestic economic policy. The course will also introduce students to alternative theoretical frameworks such as classical, Keynesian, monetarism, rational expectations, Marxist, and institutionalist perspectives. The course will explore problems facing the less industrialized countries and the newly emerging countries and the United States role in their development.

ECO 102  **Microeconomics 2 credits**
This course will illustrate the dynamic integration of America within the global economy by focusing on the microeconomics issues such as the role of multinational corporations, antitrust policy, and strategic trade policy. The course will first introduce students to basic microeconomics theory such as market structure (perfect competition, monopoly, monopolistic competition, and oligopoly), factor markets, the role of government in the global economy, welfare reform, environmental policy and trade, and exchange rate policy. The course will then illustrate the global dimensions of domestic microeconomics policy.

ECO 401  **Global Economics 4 credits**
This course will introduce students to the theories explaining trade and financial (exchange rates, foreign direct investment) markets in the economy. The course will also focus on policy issues in the trade and financial sectors such as the effectiveness of domestic trade and monetary policy, coordination of international exchange rates and the role of institutions such as the Federal Reserve System and the World Trade Organization in the present global economy. The course will also introduce students to national and local ethnic markets. (Prerequisite: Minimum grade of C in ECO 101)

ECO 498  **Internship: 1-16 credits**

---

**Education (ED)**

ED 201  **Foundations and Introduction to Education 3 credits**
Concordia's teacher education program and its conceptual framework are introduced to students in this course. This course introduces students to the philosophical, historical, sociological, and legal foundations upon which current educational theory and practice is constructed. During the duration of the course students need to register for required MTLE Basic Skills Test (additional fee). A 15-hour field experience that satisfies a portion of the university's human relations requirement is included. Admission to Program is an outcome including development of eFolio and admittance to program interview. (Prerequisite: Minimum grade of C in PSY 210, PSY 220 or PSY 215)

ED 202  **Critical Dispositions for Teachers 1 credit**
An introduction to Concordia’s teacher education program including its rationale and procedures for admission, retention and completion of the program. Students are introduced to the teaching profession and explore their own currently held understandings, beliefs and dispositions about teaching. This course is intended for transfer students who have previously taken an introduction to teaching course. (Prerequisite: PSY 210, PSY 220 or PSY 215)
ED 290 Language and Society 4 credits
This course examines the diverse nature of human language and the social factors that influence it such as culture, age, gender, social class, setting, topic, and identity. In its study of languages, dialects, codes, and society, the course attempts to foster multicultural understanding and to diminish American ethnocentrism.

ED 330 Human Diversity and Relations 2 credits
This course helps students experience, understand and become sensitive to human diversity and presents strategies for teaching human relations skills in the classroom setting. A 15-hour field experience that satisfies a portion of the university's human relations requirement is included.

ED 334 Methods in Teaching Elementary Physical Education (Grades K-5) 4 credits
This course is designed to give students the basic principles of effective instruction at the elementary school level.

ED 335 Methods in Teaching Middle School and Secondary Physical Education (Grades 6-12) 4 credits
This course is designed to give students the basic principles of effective instruction at the middle and secondary school level.

ED 336 Educational Psychology 3 credits
This course applies the basic principles of human development and behavior to the classroom situation. Emphasis is given to the teacher education conceptual framework, theoretical backgrounds in learning, and their application to the classroom. Topics include the characteristics of children, student variability, educational planning and instructional objectives, classroom management and assessment.

ED 342 Teaching Literacy 4 credits
The important connection between all the literacy skills: reading, writing, listening, thinking and speaking is addressed. An understanding of a balanced reading approach is emphasized. The approach includes methods of embedding a wide variety of children's literature in the classroom through literature circles, thematic units, reading and writing conferences, reading and writing workshops, process writing and authentic assessment. Teaching strategies for building comprehension, word recognition and word analysis skills are presented as well as appropriate developmental and instructional orientation to spelling, grammar and punctuation. (Prerequisite: admission to Teacher Education Program) Enrollment is concurrent with ED 371 Teaching Practicum.

ED 344 The Effective Teacher 3 credits
The planning, instructional strategies, and assessment that have wide application to effective teaching are examined. (Prerequisite: Minimum grade of C- in ED 201 or ED 202)

ED 345 The Effective Elementary Teacher 2 credits
Instructional methods and materials that have wide application to the elementary grade levels are examined. Particular emphasis is given to such topics as the decision-making inherent in teaching (CSP model), effective instruction (planning, critical presentation skills, student interest, motivation, and involvement, etc.) and effective classroom management. (Prerequisite: admission to Teacher Education Program)

ED 346 The Effective Middle School Teacher 2 credits
The historical, sociological, psychological and philosophical aspects of the middle school are studied. Discussion and activities focus on the purposes, functions and implications of the curriculum and the learner. Students explore middle school teaching practice and student learning in the classroom and current middle school organization and practice. (Prerequisite: admission to Teacher Education Program)

ED 347 The Effective Secondary Teacher 2 credits
This course provides a study of the purposes, history, philosophy, organization, operation, students, curriculum, teaching practices, and current problems of secondary schools in the United States. Emphasis is on the knowledge and skills necessary to teach effectively in a secondary school. (Prerequisite: admission to Teacher Education Program)

ED 348 Second Language Acquisition 4 credits
This course examines both the cognitive aspects of second language acquisitions, and the social and cultural ones. The acquisition of the second language and the first language are compared and contrasted. The acquisition of language in a multilingual environment is explored.

ED 351 Teaching of 9-12 Mathematics 4 credits
This course emphasizes the content and methods for teaching secondary mathematics. The course includes curriculum design, effective instructional strategies, methods of using technology to enhance student learning, procedures for assessment of student learning, and a high school field experience. (Pre-requisite: Admission to Teacher Education Program, and minimum grade of C- in MAT 110 and MAT 135)

ED 352 Teaching 9-12 Social Studies 2 credits
This course provides students with an understanding of how the cognitive and affective dimensions of social studies are combined with learning theory and practice for effective teaching at the secondary level. The professional role of the social studies teacher in and out of the classroom is addressed. Prerequisite: admission to Teacher Education Program. (Prerequisite to secondary student teaching)

ED 353 Teaching 9-12 Science 2 credits
This course emphasizes instructional methods specific to the teaching of science in secondary schools. Topics covered include goals and objectives, individualized instruction, lesson planning, inquiry, lab use and safety, evaluation and testing, science and societal issues, field trips and fieldwork, science fairs, computers and professional organizations. Prerequisite: admission to Teacher Education Program. (Prerequisite to secondary student teaching)

ED 355 Teaching of 9-12 Communication Arts / Literature 2 credits
This course provides students with an understanding of basic theory and practice in teaching literature, speech, communication, and composition in grades 9-12. It includes instruction in unit planning and implementation, the use of media resources, testing and evaluation, individualization instruction, and curriculum evaluation and planning. It also introduces some study of the history and of present trends in the teaching of literature and communication. Prerequisite: admission to Teacher Education Program. (Prerequisite to secondary student teaching)

ED 356 Teaching Elementary Science/Environmental Education 2 credits
In a laboratory setting, students actively explore science concepts and skills. They become familiar with materials and methodology especially well suited to the teaching of elementary school science and assessment of the associated learning, as well as recognize the central role of science in the development of enthusiastic learning and innovative, integrative and critical thought. (Prerequisite: admission to Teacher Education Program) Enrollment is concurrent with ED 371 Teaching Practicum.

ED 357 Teaching Elementary Social Studies 2 credits
This course reviews the content, methods, materials and research related to the teaching of elementary social studies (K-6th Grade). Attention is given to the content of the social studies curriculum and its basis within the social sciences, global education, experiential learning, concept development, inquiry methods, moral development, assessment, Minnesota standards, and critical thinking. (Prerequisite: admission to Teacher Education Program) Enrollment is concurrent with ED 371 Teaching Practicum.
ED 360  Content & Mthd for K-6 Mathema 3 credits
This course provides opportunity for students to learn and apply the content, conceptual framework, and theories of teaching and learning of the elementary school mathematics curriculum. (Prerequisite: Admission to Teacher Education program.)

ED 371  Teaching Practicum 1-4 credits
This course provides an early field experience for students prior to student teaching. Students are assigned to work with a cooperating teacher at a grade level appropriate to their license. The course is taken concurrently with methods courses to relate theory to practice. Students are usually placed in diverse, urban classrooms. (Prerequisite: Admission to Teacher Education Program)

ED 375  Teaching Practicum: Kindergarten Endorsement Methods Field Experience 1 credit
This course provides a field experience for students taking the Kindergarten Endorsement Methods course. Students are assigned to work with a cooperating teacher at the Kindergarten level and often in diverse, urban classrooms. The course is typically taken upon completion of Kindergarten Endorsement Methods to relate theory to practice. This course will be effective until June 30 2012.

ED 380  Education of Exceptional Children 3 credits
This course is designed to explore the various areas of exceptionality among children of school age. Awareness of the scope and nature of the exceptionality, essential educational procedures and available rehabilitative and legal resources will be studied. The course will include a series of pre-practicum experiences documenting a variety of grade levels. SPED580 Graduate students will be required to complete additional reading and research and to prepare a class presentation.

ED 382  Teaching Students with Linguistic Differences and Difficulties 3 credits
This course builds on ED 342 Teaching Literacy. In this course students will learn how to facilitate the development of the reading skills in two languages and the transference of the skill developed in one language to a second one. Particular attention will be paid to the specific problems of non-native English speakers learning to read English. SPED 582 Graduate students will be required to complete additional reading and research.

ED 386  Principles of Bilingual Education 4 credits
This course provides a basic understanding of the history and development of the bilingual education in the United States. Students will learn about the different bilingual education program models and their implications for implementation.

ED 389  ESOL Methods: Teaching English to Speakers of Other Languages 4 credits
In this course students will become more aware of the nature of language, particularly of English and of how language is acquired/taught. The focus will be on the components of language teaching, as well as methodology and evaluation. Specific goals include students increasing their awareness of the grammar of English and learning to use reference grammars to answer questions; students understanding different approaches and methods to language teaching and incorporating them into a syllabus and/or lesson plans; students learning current basic theories of how language is acquired; students selecting and using materials and ready to teach language; and, students assessing English language proficiency and evaluating language performance.

ED 390  S.E.A.T. Seminar 1 credit
This course provides opportunities for the student in the S.E.A.T. program to explore different topics of interest to educators. It is designed to help participants to move from the roles of para-educator to professional teacher.

ED 410  Health Methods and Strategies 3 credits
This course is designed to give students the basic principles of effective instruction in health education at the middle and secondary school levels.

ED 418  Adult Education and Development 4 credits
An overview of adult learning theory and development, psychological perspectives of the adult learner, educational implications of the adult system, teaching strategies and program development will be explored. Appropriate roles of leaders in adult education and methods used with adults are analyzed. A planning process for creating, developing, implementing and evaluating adult education programs is utilized. Application is made to adult education in various settings. The service-learning component of this course leads to direct involvement with adults in a variety of diverse learning settings. (Prerequisite: upper level standing)

ED 439  The Inclusive Classroom 2 credits
Prospective educators are introduced to legislation and practices related to the inclusion of students with unique learning needs into regular classrooms. Topics include the classroom teacher's role is assessing, developing, and implementing unique learning experiences and managing group and individual behaviors. A 15-hour field experience that satisfies a portion of the university's human relations requirement is included. (Prerequisite: upper level standing)

ED 446  Teaching Elementary Music 1 credit
This course presents the principles, objectives and materials of music education in the elementary schools espoused by the leading pedagogical methods. (Prerequisites: minimal competency in music as demonstrated by test, successful completion of Class Piano and/or MUS 120 or MUS 121, admission to Teacher Education Program.) Enrollment is concurrent with ED 371 Teaching Practicum.

ED 447  Teaching Elementary Art 1 credit
This course seeks to develop in the prospective elementary school teacher the fundamental understandings, attitudes and skills needed for the effective teaching of art in the elementary school. (Prerequisites: ART 101 Approaching Art and admission to Teacher Education Program.) Enrollment is concurrent with ED 371 Teaching Practicum.

ED 448  Teaching Methods for Elementary/Middle School Movement Education 1 credit
This course provides students with the basic principles of effective instruction in movement education at the Elementary/Middle School level (K-8). The course addresses curriculum content, philosophy development, objective writing and annual/unit/daily lesson planning teaching skills, methods, class organization, progression of skill, and evaluation as it relates to creating an effective physical education program that promotes lifelong physical activity. Instructional subjects will include locomotor/ non-locomotor skills, manipulatives, elementary games, fitness activities, and some sport skill development. (Prerequisite: Admission to Teacher Education Program.) Prerequisite to student teaching. (Not required if student completes KHS 330)

ED 454  Teaching the Faith 2 credits
Theories of spiritual growth and development of children and adolescents, organization and distinctive characteristics of various religion curricula, theories and methods of effective teaching of the faith and materials for instruction at both elementary and secondary levels are studied. Classroom management and discipline from the Lutheran perspective is also considered. (Prerequisite: ED 336 Educational Psychology, upper level standing.)
ED 464  Student Teaching Parent & Family Education and Capstone Seminar 4,12 credits
Student teaching provides direct teaching experiences for students to develop the understanding, attitudes and skills necessary for facilitating discussion with groups of parents. Students are assigned to work with a licensed parent educator. Seminars are held on campus. A capstone project is part of the experience. (Prerequisites: Admission to Teacher Education Program and completion of all coursework in the Parent Educator major.)

ED 470  Health Education for Teachers 2 credits
This course investigates personal and community health issues facing today's school-aged children and adolescents. (Prerequisite: Admission to Teacher Education Program)

ED 471  Student Teaching 1-15 credits
Student teaching provides direct teaching experience for students to develop the understanding, skills, and dispositions necessary for implementing developmentally appropriate practices in classrooms for young children. Typically, students are assigned to work with two cooperating teachers in two different classrooms for one full semester. Seminars are held on campus and a capstone portfolio is required. (Birth-Grade 3 Practicum.)

ED 472  Student Teaching 1-16 credits
ED 475  Teaching 5-8 Mathematics 1 credit
This course provides opportunities to develop an understanding of the content of middle school mathematics programs and formulate a teaching methodology for the meaningful learning of mathematics by middle school students. Students will be challenged to reflect on their personal views of mathematics, on how middle school children learn mathematics and on classroom environments that help middle school children understand mathematics. Teaching from a problem-solving perspective and making communication, reasoning and connections the primary foci of mathematics learning will be central to the course. (Prerequisite: admission to Teacher Education Program.)

ED 476  Teaching 5-8 Social Studies 1 credit
Teaching Middle Level Social Studies is a methods class that provides the student with the social studies curriculum, and specific methods required to teach in the middle school. The knowledge, skills, and values that provide curriculum content will be identified as well as a variety of approaches and issues for instruction. The student will be able to develop a social studies framework reflecting current thought and provide leadership in the school setting for social studies instruction. This course will provide the middle grade teacher with the concepts needed to make appropriate instructional decisions. (Prerequisite: admission to Teacher Education Program.)

ED 477  Teaching 5-8 Communication Arts/Literature 1 credit
This course will help the prospective teacher understand and apply current theories of communication arts instruction with its focus on practical strategies and skills essential to the teaching of reading, writing, speaking, listening, media literacy, and literature at the middle school level. (Prerequisite: admission to Teacher Education Program.)

ED 478  Teaching 5-8 Science 1 credit
This course is designed to provide teaching methods to use at the middle school level. (Prerequisite: Admission to teacher education program)

ED 481  Introduction to Developmental Adapted Physical Education 2 credits
Learners study disorders that limit student participation in physical education and the adapted developmental approach to addressing the needs of these students in physical education.

ED 483  Collaborative Teaching in Inclusive Settings 3 credits
This course is designed to help student develop the necessary skills to manage a program designed to meet the educational needs of children with mild to moderate learning and/or behavior problems in inclusive settings. Emphasis will be placed on referral procedures, collaboration skills, instructional planning, effective teaching strategies and adaptive materials. This experience provides teacher education students with an opportunity to gain specialized field experience in special education. SPED583: Graduate students will be required to do an action research project and to prepare a written report suitable for publication.

ED 485  Assessment of ESL Students 2 credits
This course prepares the student to undertake testing of students who do not have English as a first language. The course will deal with both the knowledge needed to perform both formal and informal assessments that are meaningful as well as the skills necessary to administer and accurately interpret assessments for limited English proficient students in at least two languages.

ED 487  Reading Across the Content Areas 3 credits
The range of standardized and informal assessment options will be studied. Techniques will include the administration of procedures including analyzing data and making instructional and placement decisions. Communication of results to students’ parents, caregivers and other professionals; impact on career skills affecting employability; and ethical issues will be discussed. A 15 hour field experience that satisfies a portion of the university’s human relations requirement is included. (Prerequisite to Student Teaching.)

ED 488  Independent Study 1-16 credits
ED 498  Internship 1-16 credits
ED 502  Educational Issues 3 credits
A study of historical and contemporary issues in education. Students explore the social and academic goals of education, the current conditions of the nation’s educational system, the teaching profession and the future of American education.

ED 503  Effective Communication for Educators 3 credits
This course will focus on providing foundational communication skills for educators. All coursework is based on an integrated skills approach with listening, speaking, reading, writing, and grammatical components. Course content focuses on the exploration of U.S. educational systems for students at all levels who study in various physical environments. Students will visit schools. The application of the content in response to the fieldwork will give the student a familiarity with conversational American English, as well as an integration of the common grammatical structures of colloquial English in writing, reading, speaking, and listening. It is further designed to prepare students for academic success in U.S. college degree programs through a final written project to be presented orally.

ED 504  Social Studies for Teachers 1 credit
A study of social studies teaching methods, organizing and directing classroom instruction, using technology, and the research and development of curricula.

ED 506  Community Learning Laboratory 3 credits
Students are presented with rich opportunities to engage with kindergarten through grade 12 administrators, teachers, and students in a variety of settings. Topics include research supported findings in the following: learning and human development, teaching strategies, and personal qualities.

ED 507  Diversity in Education 3 credits
A study of the issues and approaches to educating a culturally and linguistically diverse population and those with learning difficulties.

ED 508  Legal and Ethical Issues in Education 3 credits
A study of legal issues, professional ethics, and moral philosophy with applications to the field of education.
ED 510 Capstone: CFLE 3 credits
This course assists students in synthesizing previous coursework leading to greater self-reflection and assessment of learning. In addition, the student will present and discuss the final MA Capstone eFolio.

ED 511 Capstone: Non-CFLE 3 credits
This course assists students in synthesizing previous coursework leading to greater self-reflection and assessment of learning. In addition, the student will present and discuss the final MA Capstone eFolio. This is the capstone course for students who have selected the Non-CFLE track.

ED 512 Ethical Issues for Professional Educators 3 credits
A study of ethics and moral philosophy with application to the field of education. Current educational issues will be examined in the context of the lives and careers of the PK-12 educator.

ED 514 Psychology of Learning and Teaching in Schools 3 credits
An overview of the application of psychological principles, theories, and strategies to issues of learning and teaching in school settings.

ED 521 Educational Research and Applications 3 credits
Mastering the systematic and rigorous process of posing a focused question, developing a hypothesis, testing the hypothesis, collecting and analyzing relevant data and drawing conclusions.

ED 522 Educational Foundations and Ethical Issues 3 credits
Learners focus on the philosophical, historical, sociological, and legal foundations upon which current educational theory and practice are constructed. Emphasis is placed on ethical issues related to the field of education.

ED 530 Human Diversity & Relations 2 credits
This course helps students experience, understand, and become sensitive to human diversity and presents strategies for teaching human relations skills in the classroom setting. A 15-hour community service field experience that satisfies a portion of the university's human relations requirement is included and required.

ED 535 Introduction to Teaching Children 3 credits
Human growth and development from the prenatal stages to the elementary years is reviewed. Concordia's teacher education program and its conceptual framework are introduced. Learners reflect on teaching as a profession and explore beliefs, understandings, and dispositions in relation to teaching children.

ED 537 Inclusion in Diverse Classroom 3 credits
Learners experience, understand, and become sensitive to human diversity and develop strategies for teaching human relations skills in the classroom setting. Prospective educators are introduced to legislation and practices related to the inclusion of students with unique learning needs in the regular classroom.

ED 539 Legal and Legislative Issues 3 credits
This course will deal with law and legislation that affects early childhood education. Children and childcare are presented as issues of public policy. The skills and strategies of child advocacy are discussed and students are challenged to become active in public advocacy for children.

ED 543 Introduction to Field Experience: Instructional Strategies 3 credits
This course prepares learners in developing an understanding of the instructional strategies and leadership skills necessary for teaching and leading in multiple school settings.

ED 544 Field Experience I 3 credits
This course engages students in collaborative partnerships with a network of cooperating schools providing students with the opportunity to participate in a classroom teaching experience. The course is designed whereby students apply research and their knowledge of content and effective instructional practices.

ED 545 Field Experience II 3 credits
This course engages students in collaborative partnerships with a network of cooperating schools providing students with the opportunity to participate in a classroom teaching experience. The course is designed whereby students apply research and their knowledge of content and effective instructional practices.

ED 546 Field Experience III 3 credits
This course engages students in collaborative partnerships with a network of cooperating schools providing students with the opportunity to participate in a classroom teaching experience. The course is designed whereby students apply research and their knowledge of content and effective instructional practices.

ED 547 Emergent Language Acquisition and Development 3 credits
The process of emergent language acquisition and development is studied. Literacy strategies are explored, modeled, and experienced. Methods for working with English language learners are addressed.

ED 548 Content and Methods for Teaching K-6 Literacy 3 credits
A study of the content, philosophy, materials, research, and strategies related to the teaching of literacy in the K-6 classroom.

ED 549 Effective Teaching 3 credits
This course develops the skills of planning, implementing, and evaluating for the decision-making, reflective practitioner. Topics of study will include such things as instructional planning, assessment, differentiation, technology, classroom management, and others.

ED 550 Content and Methods for Teaching K-6 Mathematics 3 credits
A study of the content, philosophy, materials, research, and strategies related to the teaching of mathematics in the K-6 classroom.

ED 551 Content and Methods for Teaching K-6 Science 3 credits
A study of the content, philosophy, materials, research, and strategies related to the teaching of science in the K-6 classroom.

ED 552 Content and Methods for Teaching K-6 Health and Movement 3 credits
A study of the content, philosophy, materials, research, and strategies related to the teaching of health and movement in the K-6 classroom.

ED 553 Content and Methods for Teaching K-6 Social Studies 3 credits
A study of the content, philosophy, materials, research, and strategies related to the teaching of social studies in the K-6 classroom.

ED 554 Curriculum & Instruction 3 credits
A study of the role of the educational leader to develop and implement curriculum design and effective instructional methods and strategies.

ED 555 Content and Methods for Teaching K-6 Art and Music 3 credits
A study of the content, philosophy, materials, research, and strategies related to the teaching of art and music in the K-6 classroom.

ED 556 Supervision and Improvement of Instruction 3 credits
Theory and practice of supervision of educational programs and personnel with a focus on improvement.

ED 560 Clinical Experience and Professional Foundations K-6 1-6 credits
This experience provides direct teaching of learners to develop the understanding, skills, and dispositions necessary for implementing developmentally appropriate practices in the classroom.
ED 582 Ethics for Educators 3 credits
This course is a study of ethics and moral philosophy with applications to making decisions regarding current social and personal problems.

ED 590 Conducting Research and Completing the Capstone 3 credits
A review and critical analysis of current educational research focused on a specific question. Students complete the capstone project.

ED 591 Completing Thesis-Option Capstone 1 credit
A review and critical analysis of current educational research with application of active research by the student on a specific question that relates to the program essential question resulting in a thesis-option capstone for publication.

ED 7000 Introduction to Advanced Graduate Education 3 credits
This course will be an introduction to advanced graduate programs that include an Educational specialist (Ed.S.) degree and an Educational Doctorate (Ed.D.) degree. Units of study will emphasize research, writing, presentations, and fiscal policy. Legal concerns, etc. In addition, discussions and assignments related to current issues in education will be a major component of this seminar.

ED 7001 Principal Leadership in 21st Century Schools 3 credits
This course is designed for individuals who desire to pursue a principal position in the future. The primary focus is on the knowledge and skills of leaders who create cultures of excellence; respond to diverse learner needs; facilitate the development of safe, efficient, and effective learning environments; and impact the political, social, economic, legal, and cultural contexts that shape Minnesota schools.

ED 7002 HR for Principals 3 credits
This course examines the human resources available to principals. It examines the functions and practices in school systems that principals deal with daily. Approaches to management, motivation, professional development, and performance are addressed along with obstacles to effective team development.

ED 7003 Principal's Role in Instructional Supervision 3 credits
This course investigates the role of the principal relevant to the supervision of instruction and evaluation of teacher performance for the purpose of instructional improvement. A variety of theoretical models for instructional supervision will be reviewed along with their pros and cons. Students will practice supervisory and evaluative strategies.

ED 7004 Data Use and Analysis for Principals 3 credits
This course will provide the learner an opportunity to use data to inform decision making at the principal level by providing a link between research and practice. Using actual data from their school or district students will learn and use statistical data to create a school improvement plan (SIP) and present it as a project in the course.

ED 7005 Principals and the Facilitation of Change 3 credits
This course focuses on theories and strategies for leading change in the educational setting. Emphasis is placed on systemic change at the building level. It will consider aspects of change in well managed schools that focus on diverse learner needs as well as safe learning environments that promote a culture of excellence.

ED 7006 Legal Issues for Principals 3 credits
This course examines the reality of legal issues that the everyday principal must face nearly every day of the school year. The focus is on local, state, and national legal principles and issues related to students and employees. Individual rights and responsibilities related to the legal process, structure of the law, legislation, litigation, and current legal issues are examined in detail.

ED 7007 Finance and Business Management for Principals 3 credits
This course is designed as a comprehensive overview of public school finance and business management. Students examine the economic, political, and management issues facing public school principals. Lessons address resource allocation and resource distribution in light of the principles of liberty, adequacy, and equity.

ED 7008 Ethics and Interpersonal Effectiveness for Principals 3 credits
This course is designed to have potential principals examine their own personal ethical profiles and communication styles in light of the ethical struggles they are certain to experience in their lives as school administrators. They will be required to reflect on their communication behaviors in light of their roles as educational leaders and relate those behaviors to ethical theory.

ED 7009 Principal Internship 1 2 credits
This full year course is an internship that requires the students to complete a minimum of 320 clock hours over two consecutive semesters at a university-approved school. Under the supervision and support of a university-approved onsite mentor and a university supervisor, the students will identify, plan, and complete a School Improvement Project (SIP) and a variety of administrative tasks, projects, and assignments designed to strengthen performance and professional skills that will assist the students to become a licensed principal in the state of Minnesota.

ED 7010 Principal Internship 2 2 credits
This full year course is an internship that requires the students to complete a minimum of 320 clock hours over two consecutive semesters at a university-approved school. Under the supervision and support of a university-approved onsite mentor and a university supervisor, the students will identify, plan, and complete a School Improvement Project (SIP) and a variety of administrative tasks, projects, and assignments designed to strengthen performance and professional skills that will assist the students to become a licensed principal in the state of Minnesota.

ED 7011 Principal Internship 3 2 credits
This full year course is an internship that requires the students to complete a minimum of 320 clock hours over two consecutive semesters at a university-approved school. Under the supervision and support of a university-approved onsite mentor and a university supervisor, the students will identify, plan, and complete a School Improvement Project (SIP) and a variety of administrative tasks, projects, and assignments designed to strengthen performance and professional skills that will assist the students to become a licensed principal in the state of Minnesota.

ED 7012 Principal Internship 4 1.5 credits
This full year course is an internship that requires the students to complete a minimum of 320 clock hours over two consecutive semesters at a university-approved school. Under the supervision and support of a university-approved onsite mentor and a university supervisor, the students will identify, plan, and complete a School Improvement Project (SIP) and a variety of administrative tasks, projects, and assignments designed to strengthen performance and professional skills that will assist the students to become a licensed principal in the state of Minnesota.

ED 7013 Teaching Internship 4.8 credits
ED 7031 Superintendent Leadership in 21st Century School Districts 3 credits
This course is designed for individuals who desire to pursue a superintendent position in the future. The primary focus is on the knowledge and skills of school district leaders who create cultures of excellence; respond to diverse learner needs; facilitate the development of safe, efficient, and effective learning environments; and impact the political, social, economic, legal, and cultural contexts that shape Minnesota schools districts.

ED 7032 HR Issues for Superintendents 3 credits
This course examines the human resources available to superintendents and related fiscal issues. It examines the functions and practices in school systems that superintendents deal with daily. Approaches to management, motivation, professional development, and performance are addressed along with obstacles to effective team development.

ED 7033 Legal Issues for Superintendents 3 credits
This course examines the reality of legal issues that the superintendent must face nearly every day of the school year. The focus is on local, state, and national legal principles and issues related to faculty, students, and employees. Individual rights and responsibilities related to the legal process, structure of the law, legislation, litigation, and current legal issues are examined in detail.

ED 7034 School District and Community Relations for Superintendents 3 credits
This course focuses on PK-12 school districts developing and sustaining district, family, and community relationships based on collaborative initiatives that help all children learn. Emphasis is placed on selected issues, including communication with the diversity of internal and external publics, including older adults, employee associations, governing boards, parents, and students.

ED 7035 Data Use and Analysis for Superintendents 3 credits
This course will provide the learner an opportunity to use data to inform decision making at the district office level by providing a link between research and practice. Using actual data from their district students will learn and use statistical data to create a district improvement plan (DIP) and present it as a project in the course.

ED 7036 Critical Issues and Analysis of Public Policy for Superintendents 3 credits
Educational policy-making processes are examined at the macro (national, regional and state) and micro (local and institutional) levels using a variety of policy models. Selected educational policies at the macro and micro levels are analyzed, using different policy models. Students are expected to identify the factors such as the actors involved, politics, and economical inputs that impact policy formation and implementation.

ED 7037 Superintendents and the Facilitation of Change 3 credits
This course focuses on theories and strategies for leading change in the educational setting at the district office level. Emphasis is placed on systemic change within the district. It will consider aspects of change in well managed school districts that focus on diverse learner needs, legal accountability, and safe learning environments that promote a culture of excellence.

ED 7038 Ethics and Interpersonal Effectiveness for Superintendents 3 credits
This course is designed to have potential superintendents examine their own personal ethical profiles and communication styles in light of the ethical struggles they are certain to experience in their lives as school district administrators. They will be required to reflect on their communication behaviors in light of their roles as educational leaders and relate those behaviors to ethical theory.

ED 7039 Superintendent Internship 2-6 credits
This full year course is an internship that requires the students to complete a minimum of 320 clock hours over two consecutive semesters at a university-approved school. Under the supervision and support of a university-approved onsite mentor and a university supervisor, the students will identify, plan, and complete a District Improvement Project (DIP) and a variety of administrative tasks, projects, and assignments designed to strengthen performance and professional skills that will assist the students to become a licensed superintendent in the state of Minnesota.

ED 7040 Real Time/Relevant Educational Leadership and Educational Reform 3 credits
This course is designed for students who are pursing leadership in education. This course will examine the skills, knowledge and disposition required for Real time/Relevant organizational leaders. Students will study the political, social, economic, legal, and cultural contexts that shape today's organizations.

ED 7041 Foundations of Scholarly Analysis 3 credits
This course is designed to provide the student with an overview of how data is understood, analyzed and used in various epistemological, ontological and methodological contexts within scholarly research. Students will be further introduced to the paradigmatic foundations of research, various methods of research and data analysis. Students will use this course to create their first literature review at the doctoral level and begin to develop their personalized libraries relevant to their research interests.

ED 7042 Human Resource Management in Today's 21st Century Organizations 3 credits
This course is designed so students will develop an understanding of the significance of human resources available to leaders and related fiscal issues they will examine the current application, research and theoretical perspectives on human resources management practices in an educational setting. Particular attention will is given to the scholarly evaluation of theoretical and practical issues addressed by educational leaders. This course will provide an overview of strategies HR and the leaders’ role in acquiring, developing, rewarding and managing the performance of talent in a highly complex academic environment. Moreover, this course will address important topics on staff relations and legal issues as they related to managing staff.

ED 7043 Leadership Exemplars 3 credits
This course is design for students to study in-depth the attributes for leaders who have affected change and examine their methodologies to effect change. Students will examine such areas as what characteristics those leaders demonstrated, their problem solving strategies and how they created a culture of change. This course will examine how leadership can impact an organization's culture, structure, productivity, decision making, and resource allocation. It will examine not only the difference between management and leadership but also more effective in today's educational organizations. The course will examine the impact of capital, planning, staffing finances and visioning. It will examine the many challenges educational leaders face in a constant changing environment.
ED 7044  Leading Change in Today's Organizations 3 credits
This course will examine the dynamics that influence the leadership of Real time/Relevant organizations, including such variable as changing demographics, workforce, economics, and technology. It will examine how leaders must not only be cognizant of these dynamics but must also develop strategies to address them.

ED 7045  Advanced Leadership Ethics 3 credits
This course is designed to understand the moral and ethical imperative that faces leaders. It examines the virtues constructs of a leader, and how to resolve conflicts between personal ethics and organizational ethics. Moreover to apply and address complex ethical issues.

ED 7046  Introduction to Scholarly Research 3 credits
This course begins the theoretical discussion of the primary research designs used in educational research. The curricular goal is to establish a foundation for success interaction with the research literature used throughout the program of study. One goal of educational research is to provide knowledge that leads to strategies and action for solutions and change. Students will gain experience developing a framework for consuming the research literature in educational leadership.

ED 7047  Influences and Assessment of Public Policy 3 credits
This course examines the knowledge of how public policy is developed, and how research is used to develop public policy. The theoretical framework is to examine the literature regarding the internal and external influences on public policy and how organizations and individuals implement and react to this influence. The course will examine what is good public policy.

ED 7048  Organizational Theory and Analysis 3 credits
This course focuses on the leadership skills needed to understand the theoretical framework of organizational decision-making, innovations, and identity. The construct in this course is to understand what the central analysis of decision making and what key concepts of decision making are central to organizations.

ED 7049  Introduction to Concordia Educational Leadership Approach 2 credits
This course is designed to provide students with the framework and key areas of emphasis within the Concordia doctoral program in order for them to understand the commitment, the mindsets and skillsets essential for equity-focused, ethically-driven, reflective servant leadership. This course is also designed to provide the students with the skills to: a) develop a research plan, b) develop a line of research, c) understand the use of research methodology, d) conduct a scholarly literature review, e) conduct a comprehensive literature review, f) begin to develop a research topic, g) begin to develop a framework of a dissertation proposal, and f) and begin to develop an IRB for approval.

ED 7050  Dissertation Preparation 3 credits
This course is designed to provide the students with the skills to: a) develop a research plan, b) develop a line of research, c) understand the use of research methodology, d) conduct a scholarly literature review, e) conduct a comprehensive literature review, f) begin to develop a research topic, and g) start to develop a framework of a dissertation proposal.

ED 7051  Overview of Research Methodology 3 credits
This course is designed to provide the student with an overview of the methods of research methods. Students will be introduced to how to conduct research, what research is, and how to conduct analysis. Students will use this class as an opportunity to refine and expand on their research topic and dissertation proposal.

ED 7052  Quantitative Research Methods 3 credits
This course is designed to offer an overview of quantitative research methods. Areas to be addressed in this course are sampling, measurements and instrumentation, research design, and conducting an analysis. The course addresses developing research questions and hypotheses, selecting research methods, and supporting conclusions for research. Compute assisted data analysis will be applied. Such specific content will be: a) understanding the deviations and correlations, b) relations among variables, c) reliability and validity, d) statistical inferences, e) regression analysis, f) use of most recent edition of SPSS, and g) factor analysis. A requirement of this course will be for students to develop a research design using the quantitative methodology.

ED 7053  Qualitative Research Methods 3 credits
This course is designed to offer investigations into traditional and exploratory processes of qualitative research, and will provide the critical analysis tools necessary for doing such research. Doctorate candidates will develop skills in the examination and critique of traditional qualitative methodology such as: a) sampling, b) instrumentation, c) determine authenticity, d) data collection, e) data analysis, and f) research format. Students will explore and study such genres as, but not limited to case study, and narrative inquiry. A requirement of this course will be for students to develop a research design using the qualitative methodology.

ED 7054  Written Comps 0 credits
This course is designed for the student to demonstrate their writing skills and ability to articulate a comprehensive thought that captures the theoretical constructs presented in the course content.

ED 7055  Doctorate Field Experience/Research 3 credits
This course is to offer for doctorate students to engage in a Doctorate Field Experience/Research in an organization of their choosing that will enhance their research agenda. They will develop an understanding of how organizations function.

ED 7056  Elective Research Methods 3 credits
This course is designed for students to explore the methods and techniques grounded in adult educational theory, to help adult's learning in a variety of settings. This course will provide an instruction and introduction to critical reflections as a core capacity for teachers of adult learners.

ED 7057  Adult Learning Theories and Foundations 3 credits
This course is designed for students to explore the methods and techniques grounded in adult educational theory, to help adult's learning in a variety of settings. This course will provide an instruction and introduction to critical reflections as a core capacity for teachers of adult learners.

ED 7058  Strategies for Adult Learning 3 credits
This course is designed for students to examine and understand the methods, strategies, practices, technology, and tools employed in facilitating adult learning. The course will focus on preparing students as an educational leaders in the development, implementation and evaluations of adults learning programs ranging from short-term programs to long term programs that are designed to advance professional development.

ED 7060  eFolio Review of Competencies 0 credits
Written Comprehensive Exam that must be passed prior to registration for ED 7061.
ED 7061  Written Dissertation Proposal 3 credits
This course is designed for the student to develop their presentation of the dissertation proposal to a doctorate committee. This includes the significance of the proposed study, literature review supporting the study, the proposed research design, and time line for completion. Once this is completed and approved the student will move into the status of a doctoral candidate.

ED 7062  Dissertation 0-9 credits
This course is the start of the dissertation development. Most of this will be time spent with the advisor and writing the first three chapters of the dissertation. The candidate will conduct their research. The sequence of expected outcomes are as follows: 1) the candidate will finalize the first three chapters, and begin, or finish collection of data, to conduct an analysis of the data collected. Start to draw inferences from the data, and 2) work with their advisor in developing their dissertation and prepare for its defense.

ED 7071  Director of Special Education Leadership in 21st Century School Districts 3 credits
This course is designed for individuals who desire to pursue a director of special education and in the future. The primary focus is on the knowledge and skills of leaders who create cultures of excellence; respond to diverse learner needs; facilitate the development of safe, efficient, and effective learning environments; and impact the political, social, economic, legal, and cultural contexts that shape Minnesota schools.

ED 7072  HR Issues for Directors of Special Education 3 credits
This course examines the human resources available to principals. It examines the functions and practices in school systems that principals deal with daily. Approaches to management, motivation, professional development, and performance are addressed along with obstacles to effective team development.

ED 7073  Legal Issues for Directors of Special Education 3 credits
This course examines the reality of legal issues that Directors of Special Education must face nearly every day of the school year. The focus is on local, state, and national legal principles and issues related to students and employees. Individual rights and responsibilities related to the legal process, structure of the law, legislation, litigation, and current legal issues are examined in detail. A case study focus will drive the class discussions.

ED 7074  Program Policies and Inclusionary Leadership 3 credits
This course is designed for students to acquire the knowledge necessary to lead change in educational institutions. Student achievement will be measured by demonstrating competencies in the following areas: 1) Philosophical underpinnings, educational foundations, and educational principles that influence an institution’s ability to change; 2) Mission’s and visions of institutions such as high schools, technical colleges, and higher education institutions and how they influence the institution; 3) Influences that global society, technology, and demographics have on educational institutions; 4) The need for innovations to be established within these institutions.

ED 7075  Data Use and Analysis for Directors of Special Education 3 credits
This course will provide the learner an opportunity to use data to inform decision making at an administrative level. Learners will engage in data collection, root cause analysis, research methodologies, ethical practices, and communication of results to an appropriate audience. Students will collect and analyze real data from a school or district. Based on their research and analysis, the student will prepare a school improvement plan and/or initiative that could be presented to school leadership and/or community (i.e. superintendent, school board).

ED 7076  Critical Analysis of Educational Policy 3 credits
Educational policy-making processes are examined at the macro (national, regional and state) and micro, local, and institutional) levels using a variety of policy models. Selected educational policies at the macro and micro levels are analyzed, using different policy models. Students are expected to identify the factors such as the actors involved, politics, and economic inputs that affect policy formation and implementation.

ED 7077  Special Education Financial Policy and Funding 3 credits
This course is designed as a comprehensive overview of public school finance and business management. Students examine the economic, political, and management issues facing public school administrators. Lessons address resource allocation and resource distribution in light of the principles of liberty, adequacy, and equity.

ED 7078  Ethics and Interpersonal Effectiveness for Directors of Special Education 3 credits
This course is designed to have potential directors of special education examine their own personal ethical profiles and communication styles in light of the ethical struggles they are certain to experience in their lives as school administrators. They will be required to reflect on their communication behaviors in light of their roles as educational leaders and relate those behaviors to ethical theory.

ED 7079  Director of Special Education Internship 6 credits
This course is an internship that requires the candidate to complete a minimum of 320 clock hours over two consecutive semesters at a university-approved school. Under the supervision and support of a university-approved onsite mentor and a university supervisor, the candidate will complete a School Improvement Project (SIP) and a variety of administrative tasks, projects, and assignments designed to strengthen performance and professional skills that will assist the candidate to become a licensed director of special education in the state of Minnesota. Internships will include 40 hours in an administrative unit not currently employed. Internships will include experiences in single, cooperative and educational districts.

ED 7088  Independent Study 1-3 credits

Education Leadership (EDL)

EDL 507  Human Resources and Diversity 3 credits
A study of leadership and management for human resources and diversity in the work place in the changing environment of contemporary schools.

EDL 550  Leadership and Human Resources Management in Education 3 credits
A study of school leadership and human resource management on the impact of successful learning of all students in educational settings.

EDL 552  Management of Human and Financial Resources 3 credits
A focus on educational leadership theory and practice related to the management of human and financial resources.
EDL 553  Educational Policy and Administration 3 credits
A study of the educational leader’s role in the analysis, development, implementation and evaluation of educational policy in contemporary society and schools.

EDL 555  Supervision and Improvement of Instruction 3 credits
A study of the knowledge and skills of the educational leader to build and implement collaborative teacher supervision procedures which will increase effective instruction and improve student learning.

EDL 557  Financial Resources 3 credits
A study of leadership and management of the fiscal resources of contemporary schools.

**Educational Technology (ET)**

ET 500  Technology Trends and Social Media 3 credits
A survey of the historical and theoretical development of educational technology and an examination of future trends in K-12 education.

ET 505  Exploring Classroom Technology Tools 3 credits
An examination of how to best enhance student achievement through effective incorporation of various software and hardware.

ET 510  Virtual Classroom 3 credits
The study of various social media modes to engage the learner and enhance instruction.

ET 515  Professional Development and Leadership in Educational Technology 3 credits
A focus on leadership and professional development in planning and integrating educational technology.

ET 520  Field Experience: Course Development 3 credits
Demonstrate application of skills and knowledge required to support technology design and implementation in an educational setting.

**English (ENG)**

ENG 100  Introduction to College Writing 4 credits
This course is designed for students who need writing instruction and practice before enrolling in ENG 120 College Writing. Focusing on correct and clear sentence construction, organized and developed paragraphs, and significant grammar problems, ENG 100 mixes short writing assignments, class discussion, and individual conferences. Students may be required to take ENG 100 based on their English ACT or their verbal SAT scores. Students who wish to review writing basics may elect, at any point in their college careers, to enroll in ENG 100.

ENG 112  Fundamentals of Writing, ESOL 4 credits
This course, an English for Speakers of Other Languages course, is designed for students whose writing indicates a need to study writing mechanics, grammar and other sentence-level or paragraph-level aspects of writing. This may be an elective but it is required for students whose high school grades, test scores and/or writing sample indicate a need for such study.

ENG 120  College Writing 4 credits
The content of a writing course is writing. For students to become proficient writers in all disciplines, they need to learn how to read and analyze a variety of texts and then practice reading and analyzing texts from various disciplines. Through research and writing, students learn what others are saying and how to integrate those ideas into their own writing. Constant practice will guide students into developing their own voice and style. They will make conscious choices related to audience and academic conventions. (Prerequisite: Minimum grade of C- in ENG 100 or Test Placement)

ENG 155  Introduction to Literature 4 credits
Introduction to Literature seeks to excite students about literature; to feed students passion about literature; and to enhance their pleasure from literature. Through a variety of texts, students will encounter other members of the human community and, while in their company, learn about themselves. The course will introduce basic literary terminology.

ENG 220  Applied Grammar 2 credits
To communicate clearly, students must correctly apply the rules that govern the English language. Through reading, discussion, and constant practice, students in this course will examine and use these rules to further develop their writing skills.

ENG 221  Journalism 4 credits
This course is an introduction to periodical journalism. It focuses on the contemporary practices, issues, and ethics of the profession. Students will practice extensive in-the-field reporting and journalistic writing. (Prerequisite: Minimum grade of C- in ENG 120)

ENG 222  Journalism Practicum 1 credit
Journalism II provides an opportunity for "hands-on" experience in all aspects of producing a newspaper: writing, editing, layout, photography, business management, etc. This course is strongly suggested for those who wish to contribute to The Sword (the Concordia student newspaper) on a regular basis. It is required for the Editor-in-Chief, Technical Editor(s), and Page Editors. Beginning writers and photographers are encouraged to sign up. This workshop style class meets one hour a week, usually in the evenings.

ENG 227  Column Writing 2 credits
This course will introduce students to the role of columns as vehicles that affect both public opinion and the identities of periodicals. Study of a range of contemporary artifacts will provide a basis for understanding the balance of opinion and reporting in column writing. Students will both analyze and write columns.

ENG 228  Review Writing 2 credits
This course will introduce students to the various roles of the review in our culture. Study of contemporary artifacts will provide a basis for understanding the balance of presentation, critique, and edification in reviewing. Students will both analyze and write reviews.

ENG 317  Topics in Literature and History 4 credits
This interdisciplinary course, team-taught by faculty from both English and History/Political Science, will explore a theme from a selected area of the world (such as the Middle East or Latin America) through literature, history, and politics. Students will read important works of literature on the selected topic and will examine the context of the literature by investigating the history and politics surrounding that literature. Prerequisites: ENG 120, ENG 155

ENG 320  Writing in the Workplace 2 credits
Students in this course will examine the conventions of writing in the workplace. The particular topics of the course will vary depending on the semester. Some of the topics covered might include grant writing, copyrighting, writing for the web, public relations writing, or technical writing. (Prerequisite: Minimum grade of C- in ENG 120)

ENG 324  Teaching Writing 1:1 2 credits
Often, the best way to learn something is to teach it to someone else. Students in this course will do just that: improve their own writing, editing, and tutoring skills while helping others express their ideas in writing, develop their own writing voice, and edit their own work. Students will apply what they learn from readings, discussions, and writing assignments by tutoring in the Writing Center each week. (Prerequisite: ENG 120)
ENG 325  Creative Writing I 4 credits
This course will examine the basic elements of short fiction and poetry and will require students to experiment with both genres. The class is run as a workshop: the main focus will be on the discussion of each other's work. It is also, to a certain extent, a literature course, since what one reads strongly influences what one writes. Assigned readings are intended to give students a fuller understanding of technique as well as a range of artistic possibilities.

ENG 326  Topics in Writing 2 credits
This course, the topic of which may vary from year to year, is designed to provide intermediate writers with the opportunity to experiment with different styles and genres.

ENG 330  Young Adult Literature 2 credits
By introducing the student to a wide variety of both traditional and recent literature for young adults, this course helps the student become aware of quality adolescent literature. It includes instruction in oral interpretation of the literature, methods of presenting it in the classroom and planning individualized reading programs for young people of high school age. (Prerequisites: ENG 120, ENG 155)

ENG 338  History and Principles of the English Language 2 credits
This course provides an introduction to the linguistic study of the English language, focusing in particular on English phonology, morphology and syntax. Also covered in the course will be the development of the English language over time and the relationship between language and society, including literature, dialects and registers of various English speakers and writers.

ENG 365  British Literature I: Anglo-Saxon, Medieval, Renaissance, Restoration, Enlightenment 4 credits
The beginning course in the survey of British literature covers the Anglo-Saxon period through the middle of the eighteenth century. Selected readings lead to discussions about the growth of nationalism and its reflection in literary pride and canon formation. (Prerequisites: Minimum grade of C- in ENG 120 and ENG 155)

ENG 366  British Literature II: Romantics, Victorians, Moderns, Post-Moderns 4 credits
The survey of British literature continues with selected writings from the Romantic period through to the present day. Readings cover the rise of the novel, the fight for women's rights and the decline of colonialism. (Prerequisites: ENG 120, ENG 155)

ENG 369  Shakespeare 4 credits
This course offers a study of Shakespeare's work and its relationship to Elizabethan concepts of poetry and rhetoric as well as to gender and imperialism and government. It explores the rich terrain of Shakespeare imaginative world. (Prerequisites: ENG 120, ENG 155)

ENG 375  World Literature I: Western Classical Literature 4 credits
This course examines major authors in the Western literary tradition from the ancient Greeks and Romans through the Middle Ages. Authors include Homer, Aeschylus, Sophocles, Euripides, Virgil and Dante. This course may offer additional material from other early cultures. (Prerequisites: Minimum grade of C- in ENG 120 and ENG 155)

ENG 376  World Literature II: Geographic or Thematic 4 credits
Using examples of literature in translation from Asia, South America, Africa, the Caribbean, and Europe, the course will explore themes common around the world in forms distinctive to diverse cultures. (Prerequisites: ENG 120, ENG 155)

ENG 385  American Literature I: Beginnings to 1860 4 credits
Students examine selected works of early American writers with emphasis on Puritanism, literary nationalism, and the period known as the American Renaissance. Along with examining the literature for aesthetic technique, students discuss significant themes and the literary canon as it relates to minority and women writers. (Prerequisites: ENG 120, ENG 155)

ENG 386  American Literature II: 1860-Present 4 credits
Students explore the emergence of local color, realism and naturalism and the fragmentation of modern and post-modern literature between the Civil War and the present. Women and minority writers are important foci. (Prerequisites: ENG 120, ENG 155)

ENG 420  Persuasive Writing on Contemporary Issues 4 credits
Students in this course analyze essays by established writers of expository prose, read articles in current magazines and journals and meet with local writers invited into the classroom. Students also write their own creative non-fiction and keep journals. Both in workshops and in individual conferences, the course asks students to consider their own writing as a process that requires their attention to revising and editing. (Prerequisites: ENG 120, ENG 155)

ENG 425  Creative Writing II 4 credits
This is an advanced course that requires students to probe more deeply into the elements of short fiction, poetry and creative non-fiction. In addition to producing original creative work, students will read a variety of literary texts and selected works on the craft of creative writing. This class will be run as a workshop. (Prerequisites: Minimum grade of C- in ENG 325)

ENG 440  Literary Theory 4 credits
In this course students become familiar with various critical theories about literature including structuralism, deconstruction, cultural criticism (especially as related to third world literature), feminist theory and psychoanalytical theory. It prepares them to read critically and helps them to develop their own critical stances. (Prerequisites: Minimum grade of C- in ENG 120 and ENG 155, and an upper level English course)

ENG 487  Topics in Literature, 2,4 credits
Topics in Literature offers students an opportunity to study in-depth a literary genre, theme, or movement. Topics will vary from offering to offering. (Prerequisite: ENG 155 or permission of the instructor)

ENG 488  Independent Study 1-4 credits
Independent study offers the opportunity to pursue advanced study in language, literature, or communication. Independent study is open only to students with substantial preparatory course work in the discipline involved.

ENG 490  Seminar in Literature 4 credits
Seminars in literature cover varying topics in greater depth than is possible in a survey class. Recent seminar topics include Virginia Woolf: Her Art and Her Influence; Emily Dickinson: Her Circle and Her Influence; Seminar in the African-American Literary Tradition; and Victorian Secrets. (Prerequisites: Minimum grade of C- in ENG 120 and ENG 155)

ENG 498  Internship 1-12 credits
Students participate in a variety of internship programs in editing, publishing, broadcasting, television and public information under the supervision of the faculty and the director of internships for the company or organization granting the internship. (Prerequisites: ENG 120, ENG 155)
ENG 499 Framing the Literary Tradition 1 credit
This course, taught by all full-time English faculty, for English majors and
teacher candidates in language arts, is designed to help the major see
patterns in course work. Through review, reading and discussion students
will re-examine and synthesize texts and ideas. The English Capstone
exam is both written and oral. (Prerequisite: senior year status)

ENG 500 Advanced Workshop I 3 credits
Students will write original creative pieces in their chosen genre and have
their work critiqued by their peers and instructor in a workshop setting.

ENG 505 Studies in the Craft of Creative Writing 3 credits
Students will learn to approach writing as a craft, studying the elements
of creative writing, such as point of view, character, setting, tone, imagery,
etc.

ENG 510 Advanced Workshop 2 3 credits
Students will write original creative pieces in their chosen genre and have
their work critiqued by their peers and instructor in a workshop setting.

ENG 515 Studies in the Contemporary Novel 3 credits
In this course students will investigate some of the themes, forms and
techniques of contemporary published novelists with the goal of
identifying trends in the genre. Specific authors and sub-topics may vary
from semester to semester.

ENG 520 Advanced Workshop 3 3 credits
Students will write original creative pieces in their chosen genre and have
their work critiqued by their peers and instructor in a workshop setting.

ENG 525 Studies in Contemporary Creative Nonfiction 3 credits
This course will investigate various examples of published creative
nonfiction, such as the memoir, travel writing, personal essays and
narrative journalism. Specific authors and genres may vary from
semester to semester.

ENG 530 Advanced Workshop 4 3 credits
Students will write original creative pieces in their chosen genre and have
their work critiqued by their peers and instructor in a workshop setting.

ENG 535 Studies in Contemporary Poetry 3 credits
This course examines the landscape of contemporary poetry, with a focus
on the variety of themes, techniques and generic conventions explored
by poets writing in English. The specific writers studied may vary from
semester to semester.

ENG 540 Advanced Workshop 5 3 credits
Students will write original creative pieces in their chosen genre and have
their work critiqued by their peers and instructor in a workshop setting.

ENG 545 The Culture and Ethics of Writing, Editing, and Publishing 3 credits
Students will explore the culture and ethics of writing, editing and
publishing.

ENG 550 Researching and Writing about Literature 3 credits
Students will research and write a 25 page extended critical essay on a
literary topic approved by their instructor.

ENG 555 Thesis 3 credits
Students will write a book-length manuscript in their chosen genre
(fiction, creative nonfiction, or poetry).

Family Studies (FAS)

FAS 200 Intro to Family Life Ed 3 credits
This course is an introduction to the field of family life education.
Students will explore primary theoretical principles using the Life Span
Family Life Education framework and professional issues influencing
the practice of family life education. Emphasizing key content areas, the
students will be introduced to: content area definitions and objectives;
examples highlighting the integration of theory and practice in family life
education; key resources; and future Issues and challenges for family life
educators.

FAS 220 Adolescent Development 3 credits
This course examines developmental characteristics of adolescence
from a family systems perspective; covering physiological, emotional,
cognitive, parent-child, social, vocational and religious dimensions with
application to family life education and ministry. (Prerequisite: Minimum
grade of C in FAS 447)

FAS 400 Family Systems, Structures and Relationships 4 credits
This course is an analysis of the family. It investigates the family as a
system of relationships which interacts across the family life cycle. It
includes a survey of current developments in the study of the family
and an analysis of changes in American society and their influence on
family life. Also included is a focus on marriage and family therapy from a
systems framework. (Prerequisite: Minimum grade of C in FAS 440)

FAS 440 Overview of Contemporary Families 3 credits
This overview course is intended to provide the student with an
understanding of families and their relationships to other institutions
and an introduction to the family as a dynamic system. Specific
attention will be given to family forms and composition; ethnicity and
cultural variations; dating, courtship, and marital choice; gender roles;
demographic trends among families; institutional effects on families and
vice versa; and family structures and functions. (Prerequisite: Minimum
grade of C in FAS 200)

FAS 442 Family Decision-Making and Resource Management 3 credits
This course familiarizes the student with an understanding of the
decisions individuals make about developing and allocating resources
to meet their goals. The focus of the course is on internal dynamics of
family decision-making processes and on the goal-directed behaviors of
families in improving their quality of life. (Prerequisite: Minimum grade of
C in FAS 440)

FAS 443 Parent Education 3 credits
This course explores how parents teach, guide, and influence their
children and adolescents. The course will emphasize parenting as a
process, a responsibility and a role that changes across the life span.
Variations in parenting practices will be discussed in the context of
building on strengths, empowering parents, and remaining sensitive to
individual and community needs. (Prerequisite: Minimum grade of C in
FAS 448)

FAS 444 Family Law, Public Policy, and Applied Ethics 3 credits
This course explores historical development of laws and public policy
affecting families. Ethics and ethical implications of social change will be
explored. Students will understand the legal definition of the family and
laws that affect the status of the family. The course will focus on the role
of the family life educator as an advocate for the well being of the family.
The formation of social values, respect for the diversity of values, and the
social consequences of value choices are discussed within a family life
education framework. (Prerequisite: Minimum grade of C in FAS 443)
FAS 446 Methodology in Fam Life Ed 3 credits
This course provides the student with a conceptual framework for programming family life education. Students will apply the methodology of adult learning to the broad principles of family life education. Attention is directed at developing the ability to plan, implement, and evaluate family life education programming. Through the lens of reflective practice, an emphasis is placed on educational methodology and leadership. In addition, networking with community agencies and the resources and challenges of technology in delivering family life education is explored. (Prerequisite: Minimum grade of C in FAS 453)

FAS 447 Growth & Dev in Children 3 credits
This course will familiarize the student with child and adolescent developmental theories. Attention will focus on the physical, emotional, cognitive, social, moral, sexual and spiritual development of the child and adolescent. Application of developmental concepts to family life education will be emphasized. The course will emphasize the child's position in the family life cycle. (Prerequisite: Minimum grade of C in FAS 446)

FAS 448 Development in Adulthood 3 credits
This course familiarizes the student with adult developmental and gerontological theory. Attention will focus on the physical, emotional, cognitive, social, moral, sexual and spiritual development of the adult. Developmental concepts across the life span related to family life education will be emphasized. (Prerequisite: Minimum grade of C in FAS 220)

FAS 451 Family Comm & Relationships 3 credits
This course familiarizes the student with an understanding of the psychological, spiritual and social aspects of developing and maintaining healthy interpersonal relationships. An emphasis will be placed on the physiological, psychological, social and sexual development of relationships across the life span. (Prerequisite: Minimum grade of C in FAS 442)

FAS 453 Intimate Relationships 3 credits
This course examines the intimacy of human sexuality and relationships. Specific attention will focus on the emotional and psychological aspects of sexual involvement, sexual values and decision-making, the physiological and psychological components of the sexual response, and the influence of sexual involvement on interpersonal relationships. (Prerequisite: Minimum grade of C in FAS 451)

FAS 480 Parent Coaching 1: From Theory to Practice 3 credits
Students will study a variety of techniques that are unique in coaching parents. Attention will be directed at developing the student's ability to evaluate and implement family life education knowledge while understanding the uniqueness of each individual family. It is bringing the student from theory to creating a solid and professional foundation for Parent Coaching.

FAS 481 Parent Coaching 2: Building Skills, Attitudes, and Competency 3 credits
Students will broaden their knowledge of the field of parent coaching and sharpen their mindful parenting skills. It includes skills for coaching a variety of parenting challenges, behaviors, problems, concerns, issues, and special needs. Also included is a focus on couple relationships and recognizing spiritual needs. (Prerequisite: FAS 480)

FAS 482 Parent Coaching 3: Professional Applications 3 credits
Students will apply the techniques and skills that they have learned with actual clients. The professors and cohort members will offer ideas and support to better their coaching sessions. The class contains details for your Parenting Consultant Business as well as gaining Parent Coaching skills. As a result of this class, you will feel like a confident Parent Coach. (Prerequisite: FAS 481)

FAS 483 Parent Coaching 4: Supervised Field Parent Coaching 3 credits
There is a required Fourth Class in the Parent Coaching certificate which offers supervision from a certified parent coach. This includes new tools, support, new perspectives, problem solving while being sensitive to the new coach's learning and coaching style. It opens up a new area of confidence for the coach. This class will be available when the student begins their coaching. (Prerequisite: FAS 482)

FAS 488 Independent Study 1-4 credits

FAS 490 Capstone: CFLE 3 credits
The final course is designed to help learners reflect on all they have done in the program. Through guest speakers, research study and reflection on practice, students will synthesize all they have learned. Preparation of a professional portfolio will cap the learning experience. (Prerequisite: Minimum grade of C in FAS 444)

FAS 491 Capstone: Non-CFLE 3 credits
This final course is designed to help learners reflect on all they have done in the BA program. Through discussion questions and review of past coursework, students will synthesize all they have learned. Preparation of a professional portfolio will cap the learning experience. This is the capstone course for students who have selected the Non-CFLE track.

FAS 498 Family Science Fieldwork/Internship 1-12 credits
The internship provides the student with an in-depth field experience in a work setting that provides family life education services. The student learns to apply family life education theories and principles.

FAS 499 Senior Outcomes 0 credits

FAS 504 Systemic Dynamics of Families 3 credits
This course is designed to provide an understanding of family strengths and weaknesses in light of internal dynamics of the family. Students will explore the family as a system of relationships extending across the family life cycle. The course includes a survey of current developments in the study of family and analysis of changes in American society and their influences on family life. Emphasis is placed on using family systems processes to examine and understand the internal dynamics of the family that lead to effective family life education program planning, implementation, and assessment.

FAS 506 Families In Society 3 credits
This course familiarizes the student with an understanding of the history, evolution and demographics of the family. Kinship, family structures, functions and roles are explored. Particular emphasis will be placed on the family's relationship to other systems and institutions in the society.

FAS 507 Seminar in Family Science 3 credits
This seminar is an advanced exploration of the field of family science and family life education. (Pre-requisite: Year 3 of the Family Science 3+2 program)
building on strengths; empowering parents, and remaining sensitive to Variations in parenting practices will be discussed in the context of process, a responsibility, and a role that changes across the life span. Children and adolescents. The course will emphasize parenting as a values and decision-making. An emphasis will be on sexuality and emotional and psychological aspects of intimate relationships. Topics explored. Students will understand the legal definition of the family and laws that affect the status of the family. The course will focus on the role of the family life educator as an advocate for the well-being of the family. The formation of social values, respect for the diversity of values, and the social consequences of value choices are discussed within a family life education framework.

FAS 530 Family Communication and Relationships 3 credits
This course familiarizes the student with an understanding of the psychological, spiritual, and social aspects of developing and maintaining healthy interpersonal relationships. An emphasis will be placed on the physiological, psychological, social, and sexual development of relationships across the life span.

FAS 532 Navigating the Oceans of Data and Information in Family Life Education 3 credits
The course is designed to introduce the scope and function of information and the research process in family studies. The course will introduce students to types and fundamental concepts and process in the research literature. Problem solving is viewed as one of the primary functions of the research literature information, leading to strategies and action for solutions and change. Students will gain experience developing a framework for consuming the research literature and information in family studies.

FAS 534 Reflexive Assessment and Evaluation in Family Life Education 3 credits
This course reviews the connection between research methods and the research question or problem. Students will explore the role of assessment and evaluation in early childhood education. Various forms of assessment will be considered with an emphasis on the recursive nature of assessment. Students will experience the process of establishing strategy for a program in early childhood education.

FAS 540 Family Decision Making 3 credits
This course familiarizes the student with an understanding of the decisions individuals make about developing and allocating resources to meet their goals. The focus of the course is on internal dynamics of family decision-making processes and on the goal-directed behaviors of families in improving their quality of life. Topics include: decision-making, valuing, planning, communication, and organization skills for resource use.

FAS 551 Seminar in Human Growth 3 credits
This course includes a study of human growth and development throughout the life cycle. Consideration of physical, emotional, cognitive, social, moral, sexual, spiritual and personality development is included.

FAS 560 Intimate Relationships 3 credits
The purpose of this course is to familiarize the student with the emotional and psychological aspects of intimate relationships. Topics include: dating and courtship; love and romance; and sexual behavior, values and decision-making. An emphasis will be on sexuality and intimacy in interpersonal relationships across the lifespan.

FAS 570 Parent Education 3 credits
This course explores how parents teach, guide, and influence their children and adolescents. The course will emphasize parenting as a process, a responsibility, and a role that changes across the life span. Variations in parenting practices will be discussed in the context of building on strengths; empowering parents, and remaining sensitive to individual and community needs.

FAS 576 Methods in Programming 3 credits
This course provides a pedagogical framework for planning, implementation, and evaluation of programming for parent and family education.

**Finance (FIN)**

**FIN 211 Personal Finance 2 credits**
This course presents an overview of the financial planning process for individuals. The focus is on the decision-making tools and applications of financial planning. Students will build their own financial plan that will guide their financial decisions in the present and in the future.

**FIN 301 Corporate Finance I 4 credits**
This course explores the basics of financial management. Topics include the capital markets, the cash budget, pro forma statements, analysis of financial statements, and the time value of money. Students also complete a research project. (Prerequisites: ACC 201)

**FIN 311 Corporate Finance II 4 credits**
This course continues the examination of various corporate finance topics from Corporate Finance I. Special focus is given to long-term financing, including bonds, preferred stock, common stock and the optimal capital structure. Students also explore capital budgeting and the cost of capital and dividend policy. (Prerequisite: FIN 301)

**FIN 411 Investments and Capital Markets 4 credits**
This course explores investment decision-making in a capitalist economy. The operation of securities markets, business cycles and fiscal and monetary policy are analyzed. Various investment methodologies are discussed. International investing, valuation of stocks and bonds and a survey of the various types of investment assets are also included. Students prepare an investment portfolio as their final project. (Prerequisite: FIN 301)

**FIN 420 Financial Development, Fundraising, and Grant Writing 4 credits**
Students learn the theory and practice of philanthropy, fundraising and grant writing for non-profit organizations. This course provides hands-on instruction for identifying grant opportunities, writing proposals, and evaluating proposals for non-profits. Students also learn to develop budgets and manage resource acquisition through ethical fund-raising and the development of philanthropy partners.

**FIN 488 Independent Study 1-4 credits**

**FIN 498 Internship 1-16 credits**

**Geography (GE)**

**GE 101 Human Geography 2 credits**
Human Geography is an introduction to the basic techniques and concepts of geography. Population, culture, livelihood, settlements and political geography are introduced with emphasis placed on the human role in inhabiting and changing the landscape.

**Graduate Study Abroad (GST)**

**GST 597 Graduate Study Abroad 0-4 credits**
This international travel course supports students’ program learning with first-hand experience.

**Greek (GRK)**

**GRK 211 Beginning Greek I 4 credits**
Students begin their study of the fundamentals of Greek grammar.
Health Care (HCR)

HCR 220 Epidemiological Foundation 4 credits
This course is designed to provide students with a historical background in epidemiological studies. The course will expose students to the principles and concepts necessary for understanding the basics of epidemiological activity and classical epidemiological investigations. The course will also cover material related to general research methods, statistics, and trend analysis in an effort to identify evidence-based practices in health care settings.

HCR 250 Leadership Communication 4 credits
This course emphasizes leadership communication processes with a focus on leadership skills and strategic planning. Specific topics include decision making, problem solving, conflict and change management, and how to cultivate a supportive work environment. Presentation and interviewing skills will also be highlighted.

HCR 300 Strategic Leadership of Resources, People and Teams 4 credits
The strategy process represents an essential opportunity for health care leaders to establish, implement and guide the organization’s direction in these turbulent waters of changing distribution systems. Students will look at the strategies of health care organizations in an increasingly global and competitive marketplace.

HCR 325 Compliance and Regulatory Requirements 4 credits
The focus of this course is to examine the role law plays in the everyday operation of our health care system from the management perspective. Key topics will include: The Affordable Care Act of 2010, Corporate Compliance and Integrity, Fraud and Abuse, health care laws, and health care regulatory agencies. Laws and bills related to health care in the State of Minnesota will be examined and followed.

HCR 340 Health Care Information Systems 4 credits
This course is designed to introduce students to health care information systems and help them understand why the interlocking of these systems provides numerous challenges and opportunities for health care providers in the years to come. Students will learn how to collect, massage, manipulate data in order to make it useful. There is plenty of useless data and information available, the real professional can mine that data and information into golden nuggets of knowledge.

HCR 350 Healthcare Diversity and Global Issues 4 credits
Students use literature, interviews and class discussion to explore the values, beliefs, customs and perceptions represented in various kinds of diversity affecting social and economic life. Students explore the obligations and implications of equal opportunity in organizations while they develop organizational strategies to benefit from diversity in the United States and abroad.

HCR 400 Health Care Finance 4 credits
Explores the major concepts of finance within an organizational context, including basic accounting terms, budgeting, time value of money, types of healthcare payments and insurance systems, and global considerations, as students use standard financial tools to make business assessments and financial decisions important for managers in a healthcare organization.

HCR 425 Health Care Economics 4 credits
This course examines the discipline of health care economics as students study demand management; concepts of efficiency, production, and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. This course also reviews how the economic behaviors of health care consumers and suppliers, particularly in the United States, affect the manner in which scarce resources are allocated.

GRK 212 Beginning Greek II 4 credits
Students complete their study of the fundamentals of Greek grammar. (Prerequisite: GRK 211)

GRK 299 Greek Review 1 credit
Students review basic concepts, master of vocabulary and forms, and explore syntactic structures in preparation for the seminary entrance exam.

GRK 312 Matthew 2 credits
Through reading of major portions of the Greek text of Matthew, students build their skills in the translation of biblical Greek and analysis of grammatical forms. Particular attention will be given to the indicative verb. Matthew is read in the fall term prior to Year A in the liturgical cycle. (Prerequisite: GRK 212 with a grade of C or above.)

GRK 314 Mark 2 credits
Through reading of the complete Greek text of Mark, students build their skills in the translation of biblical Greek and analysis of grammatical forms. Particular attention will be given to nouns, pronouns, and adjectives. Mark is read in the fall term prior to Year B in the liturgical cycle. (Prerequisite: GRK 212 with a grade of C or above.)

GRK 316 Luke 2 credits
Through reading of major portions of the Greek text of Luke, students build their skills in the translation of biblical Greek and analysis of grammatical forms. Particular attention will be given to the vocabulary of Luke. Luke is read in the fall term prior to Year C in the liturgical cycle. (Prerequisite: GRK 212 with a grade of C or above.)

GRK 412 Galatians and Romans 2 credits
Through the reading of the complete Greek texts of Galatians and Romans, students build their skills in the translation of biblical Greek and analysis of grammatical forms. Particular attention will be given to participles. (Prerequisite: GRK 212 with a grade of C or above.)

GRK 414 Corinthians 2 credits
Through reading of major portions of the Greek texts of both letters, students build their skills in the translation of biblical Greek and analysis of syntactic relationships. Particular attention will be given to the syntax of subordinate clauses. (Prerequisite: completion of GRK 212 with a grade of C or above.)

GRK 416 General Epistles 2 credits
Through selected reading of the Greek texts of a wide variety of epistolary writings, students build their skills in the translation of biblical Greek and in the analysis of textual variants. Particular attention will be given to texts displaying a broad range of textual variation. (Prerequisite: GRK 212 with a grade of C or above.)

GRK 488 Greek Independent Study 1-4 credits

Health Care (HCR)

HCR 220 Epidemiological Foundation 4 credits
This course is designed to provide students with a historical background in epidemiological studies. The course will expose students to the principles and concepts necessary for understanding the basics of epidemiological activity and classical epidemiological investigations. The course will also cover material related to general research methods, statistics, and trend analysis in an effort to identify evidence-based practices in health care settings.
HCR 435  Ethics and Decision Making in Health Care Environments 4 credits
This is a foundational course in ethics for individuals pursuing vocations of service in health care. Students will have a greater understanding of the ethical principles that are applied to the delivery of health care services and the processes for making sound ethical decisions. Students will develop models of decision making that are consistent with core personal values as well as the ethical standards of their professions. Motivations for ethical healthcare decisions will be evaluated. The roles and responsibilities of healthcare professionals will be explored on the basis of Christian values as well as assumptions drawn from reason and societal norms and expectations.

HCR 440  Legal Environment for Healthcare Managers 4 credits
This course integrates the treatment of law and management. It helps managers and leaders spot legal issues before they become legal problems and emphasizes developing the legal astuteness to craft solutions that attain core organizational objectives without incurring undue legal risk. Traditional legal concepts are discussed as well as current topics in developing areas of the law. An emphasis on ethical concerns stimulates understanding of how managers must incorporate considerations of ethics and social responsibility into their managerial actions.

Hebrew (HBR)

HBR 311  Biblical Hebrew I 4 credits
This course is a study of the biblical Hebrew language. Emphasis is on basic grammar and vocabulary. Students will be introduced to the strong verb and to noun paradigms.

HBR 312  Biblical Hebrew II 4 credits
The study of basic Hebrew grammar is continued in this course. Students are introduced to weak verbs and to the study of the Hebrew text of the Torah. (Prerequisite: HBR 311)

History (HIS)

HIS 121  World History 4 credits
A comparative introduction to the development of cultures in Europe, the Americas, Asia and Africa. Topics include the age of exploration from a global perspective; the rise of the West; religious, economic and political revolutions; imperialism; changes in the patterns of everyday life. No prerequisites.

HIS 212  Introduction to History 4 credits
Students familiarize themselves with methods of inquiry in history and compare these with the methodologies of other disciplines. The course asks participants to raise relevant questions about the data, sources, and conclusions of the material they examine and to conduct their own inquiry through the completion of a self-designed project.

HIS 220  Leaders in American Society 4 credits
In this course, students examine the leadership foundations of American society. After examining and discussing these foundations, students will move to non-Western ethical influences of our contemporary society. Students will study the lives of many diverse leaders. In examining the traditional with the contemporary, students will explore the complex ethical framework of our nation.

HIS 221  World Culture: Greece and Rome 4 credits
This course studies the cultural history of ancient Greece and Rome with a focus on the interaction of diverse cultural elements which shape the metropolitan and cosmopolitan world culture of which we are heirs.

HIS 231  USA to 1877 4 credits
This survey course traces American history from colonial times through Reconstruction. The course emphasizes a broad range of topics including: colonial settlement patterns, the growth of slavery, the Revolution, the development of nationalism, the Age of Jackson, Westward expansion, sectionalism, and the Civil War and Reconstruction.

HIS 233  USA since 1877 4 credits
This survey course traces American history from Reconstruction to the present time. The course will begin by focusing on the nation’s emergence as a world power and its failure to keep the promises it made in the 13th & 15th amendments. Students will also examine: America’s various reform movements, World War I, the Roaring Twenties, the Depression and New Deal, World War II, the Cold War, Civil Rights, Vietnam, the 1960s counterculture, Watergate, the oil and Iran hostage crises, the Reagan revolution, the Gulf War, the Clinton years, the 2000 election and the 9/11 attacks.

HIS 267  Introduction to Latin America 4 credits
An introduction to modern Latin America, with emphasis on the post-colonial era. Beginning with a discussion of the colonial heritage, the course traces the development of Latin America, its struggle with political instability and economic dependence and the role of the United States in hemispheric development. Primary focus is on Argentina, Brazil, and Chile.

HIS 285  European History Since 1789 4 credits
This comprehensive survey focuses on events and forces that have shaped European history since the French Revolution. The course will examine industrialization, the revolutions of 1848, socialism, the unification of Germany, European imperialism, the devastating world wars of the 20th century, as well as the Russian Revolution, National Socialism and the Holocaust, the Cold War standoff, and the birth and expansion of the European Community.

HIS 317  Topics in Literature and History 4 credits
This interdisciplinary course, team-taught by faculty from both English and History/Political Science, will explore a theme from a selected area of the world (such as the Middle East or Latin America) through literature, history, and politics. Students will read important works of literature on the selected topic and will examine the context of the literature by investigating the history and politics surrounding that literature. Prerequisites: ENG 120, ENG 155

HIS 320  Minnesota History 2 credits
This survey course traces American history from colonial times through Reconstruction. The course emphasizes a broad range of topics including: colonial settlement patterns, the growth of slavery, the Revolution, the development of nationalism, the Age of Jackson, Westward expansion, sectionalism, and the Civil War and Reconstruction.

HIS 325  Legal Environment for Healthcare Managers 4 credits
This course integrates the treatment of law and management. It helps managers and leaders spot legal issues before they become legal problems and emphasizes developing the legal astuteness to craft solutions that attain core organizational objectives without incurring undue legal risk. Traditional legal concepts are discussed as well as current topics in developing areas of the law. An emphasis on ethical concerns stimulates understanding of how managers must incorporate considerations of ethics and social responsibility into their managerial actions.

HIS 331  USA to 1877 4 credits
This survey course traces American history from colonial times through Reconstruction. The course emphasizes a broad range of topics including: colonial settlement patterns, the growth of slavery, the Revolution, the development of nationalism, the Age of Jackson, Westward expansion, sectionalism, and the Civil War and Reconstruction.

HIS 333  USA since 1877 4 credits
This survey course traces American history from Reconstruction to the present time. The course will begin by focusing on the nation’s emergence as a world power and its failure to keep the promises it made in the 13th & 15th amendments. Students will also examine: America’s various reform movements, World War I, the Roaring Twenties, the Depression and New Deal, World War II, the Cold War, Civil Rights, Vietnam, the 1960s counterculture, Watergate, the oil and Iran hostage crises, the Reagan revolution, the Gulf War, the Clinton years, the 2000 election and the 9/11 attacks.

HIS 367  Introduction to Latin America 4 credits
An introduction to modern Latin America, with emphasis on the post-colonial era. Beginning with a discussion of the colonial heritage, the course traces the development of Latin America, its struggle with political instability and economic dependence and the role of the United States in hemispheric development. Primary focus is on Argentina, Brazil, and Chile.

HIS 385  European History Since 1789 4 credits
This comprehensive survey focuses on events and forces that have shaped European history since the French Revolution. The course will examine industrialization, the revolutions of 1848, socialism, the unification of Germany, European imperialism, the devastating world wars of the 20th century, as well as the Russian Revolution, National Socialism and the Holocaust, the Cold War standoff, and the birth and expansion of the European Community.

HIS 317  Topics in Literature and History 4 credits
This interdisciplinary course, team-taught by faculty from both English and History/Political Science, will explore a theme from a selected area of the world (such as the Middle East or Latin America) through literature, history, and politics. Students will read important works of literature on the selected topic and will examine the context of the literature by investigating the history and politics surrounding that literature. Prerequisites: ENG 120, ENG 155

HIS 320  Minnesota History 2 credits
This survey course traces American history from colonial times through Reconstruction. The course emphasizes a broad range of topics including: colonial settlement patterns, the growth of slavery, the Revolution, the development of nationalism, the Age of Jackson, Westward expansion, sectionalism, and the Civil War and Reconstruction.

HIS 325  Legal Environment for Healthcare Managers 4 credits
This course integrates the treatment of law and management. It helps managers and leaders spot legal issues before they become legal problems and emphasizes developing the legal astuteness to craft solutions that attain core organizational objectives without incurring undue legal risk. Traditional legal concepts are discussed as well as current topics in developing areas of the law. An emphasis on ethical concerns stimulates understanding of how managers must incorporate considerations of ethics and social responsibility into their managerial actions.

HIS 331  USA to 1877 4 credits
This survey course traces American history from colonial times through Reconstruction. The course emphasizes a broad range of topics including: colonial settlement patterns, the growth of slavery, the Revolution, the development of nationalism, the Age of Jackson, Westward expansion, sectionalism, and the Civil War and Reconstruction.

HIS 333  USA since 1877 4 credits
This survey course traces American history from Reconstruction to the present time. The course will begin by focusing on the nation’s emergence as a world power and its failure to keep the promises it made in the 13th & 15th amendments. Students will also examine: America’s various reform movements, World War I, the Roaring Twenties, the Depression and New Deal, World War II, the Cold War, Civil Rights, Vietnam, the 1960s counterculture, Watergate, the oil and Iran hostage crises, the Reagan revolution, the Gulf War, the Clinton years, the 2000 election and the 9/11 attacks.

HIS 367  Introduction to Latin America 4 credits
An introduction to modern Latin America, with emphasis on the post-colonial era. Beginning with a discussion of the colonial heritage, the course traces the development of Latin America, its struggle with political instability and economic dependence and the role of the United States in hemispheric development. Primary focus is on Argentina, Brazil, and Chile.

HIS 385  European History Since 1789 4 credits
This comprehensive survey focuses on events and forces that have shaped European history since the French Revolution. The course will examine industrialization, the revolutions of 1848, socialism, the unification of Germany, European imperialism, the devastating world wars of the 20th century, as well as the Russian Revolution, National Socialism and the Holocaust, the Cold War standoff, and the birth and expansion of the European Community.

HIS 317  Topics in Literature and History 4 credits
This interdisciplinary course, team-taught by faculty from both English and History/Political Science, will explore a theme from a selected area of the world (such as the Middle East or Latin America) through literature, history, and politics. Students will read important works of literature on the selected topic and will examine the context of the literature by investigating the history and politics surrounding that literature. Prerequisites: ENG 120, ENG 155

HIS 320  Minnesota History 2 credits
This survey course traces American history from colonial times through Reconstruction. The course emphasizes a broad range of topics including: colonial settlement patterns, the growth of slavery, the Revolution, the development of nationalism, the Age of Jackson, Westward expansion, sectionalism, and the Civil War and Reconstruction.

HIS 325  Legal Environment for Healthcare Managers 4 credits
This course integrates the treatment of law and management. It helps managers and leaders spot legal issues before they become legal problems and emphasizes developing the legal astuteness to craft solutions that attain core organizational objectives without incurring undue legal risk. Traditional legal concepts are discussed as well as current topics in developing areas of the law. An emphasis on ethical concerns stimulates understanding of how managers must incorporate considerations of ethics and social responsibility into their managerial actions.
HIS 325 U.S. Business History 4 credits
The course will primarily examine the role of business in the American economy from the colonial period to the present. The course will focus on the development of capitalism and the corporation, with an emphasis on the interaction between business firms and other institutions in American life—including labor unions and the government. Students will study business, labor, and other economic institutions starting in the 17th century and ending with the modern global corporation. Topics will include the fur trade, early American industrialization, railroads, the slave economy, the Gilded Age and Progressive Era, labor strife, and the modern corporation.

HIS 330 America's Civil War: 1845-1877 4 credits
This course will examine the Civil War era in the United States. The class will emphasize a number of topics including: North-South social and cultural differences, the short and long-term causes of the conflict, Southern secession, slavery and emancipation, Abraham Lincoln's leadership, battles and military strategies, soldier's lives, wartime diplomacy, politics, and economics during the war; the struggles of Reconstruction and the significance of the war in American history.

HIS 332 The Cold War: A Global Perspective 4 credits
This course examines the causes, actions, and results of a conflict between the world's superpowers that shaped the direction of global affairs for more than forty years. This course will allow the students to view the Cold War through the eyes of the United States, the Soviet Union, their allies, and many other countries that served as proxies during this period. Both the history and the international system will be emphasized.

HIS 334 US Foreign Policy 4 credits
This course examines the goals and consequences of American foreign policy and diplomacy from the founding of the republic to the present day. Topics include commercial and territorial expansion, America's relationships with other states and nations, World Wars I and II, the Cold War, Vietnam, U.S. imperialism, and the current conflicts over terrorism and natural resources. The perspectives of other peoples and nations will be emphasized.

HIS 340 Slavery and Freedom in the Americas 4 credits
This course explores the history and demise of chattel slavery in the Americas by using a global approach to examine developments and conditions of slavery and emancipation in Latin America, the Caribbean region, and the United States. By comparing slavery in the U.S. to other slave systems the class will explore whether the legacy of race relations in the Southern U.S. was exceptional or typical. Topics will include: the Atlantic slave trade, slave life and slave culture, the expansion of slavery in the southern United States, resistance to slavery and violent revolution in Haiti, the long demise of slavery in the Americas, and the efforts of freed people to give meaning to their "new birth of freedom."

HIS 341 The Civil Rights Movement in the U.S. 4 credits
This course will explore the major campaigns, personalities, organizations, and guiding themes of the Civil Rights Movement in the United States. This course will focus on the "long civil rights movement"; that portion of the struggle characterized by an organized mass movement(s) from World War II through the 1970s, highlighting the shift from protest to electoral politics. The class will place the civil rights movement within the context of American political, economic, and social institutions. It will also analyze the major historical, sociological, and political debates about the Civil Rights/Black Power movements and place those movements in the broader context of national and international developments.

HIS 345 Themes in World History 4 credits
This course will explore a specific topic or topics selected by the instructor, and will expand the student's understanding and appreciation of the history and historiography of the given subjects(s). (Pre-Req waiver can be signed by professor).

HIS 355 History and Politics of Modern Asia 4 credits
In-depth study of selected topics in contemporary Asian history, government, and politics. Primary focus will be on India and China, but other historical and political topics, issues, and countries will be covered.
and acculturation. Students will gain a better understanding of the Hmong community here and through a combination of lectures and field work experiences, students will face the challenges and opportunities that the Hmong faced in these countries. The class will also look at the various roles that the Hmong have had on these nations. This course will examine the rich history of the Hmong people in China, Laos, Thailand, Vietnam and America and the various roles that the Hmong have had on these nations. The class will also look at the various challenges and opportunities that the Hmong faced in these countries.

HIS 401 Research and Writing in History 4 credits
This serves as the research and writing capstone course for History majors and minors. After reading other scholars’ ideas and interpretations in various classes, students will now have the opportunity to research, analyze, and write their own original work of scholarship. Students will do original research projects using primary source materials (newspapers, oral history interviews, government documents, letters, diaries, etc.) rather than scholarly articles or books. Student can select their own topic, but must coordinate with an instructor. Assessment goals include sound research, adequate content and coverage of the subject, strong critical analysis of sources, and writing style.

HIS 403 Introduction to Professional Studies 1-2 credits
History, Political Science, and pre-law students will be introduced to and given opportunities to tour and work in a variety of professional settings: archives, museums, professional record-keeping centers, law offices, etc. Students may use this class to select an internship site or think more broadly about vocational opportunities in the discipline.

HIS 487 Readings Seminar: Topics in History 2 credits
Readings/Research Seminar in History covering various, selected topics. This course will emphasize the use of scholarly and primary source materials; historiography and interpretation, archival research, and student participation. Recent readings-seminar topics include: America in the 1960s; the French Revolution and Napoleon, Minnesota History, and the Russian Revolution.

HIS 488 Independent Study 1-4 credits
Independent study provides a more flexible educational experience for the student as well as college credit for work done outside the conventional classroom setting. These courses are generally designed and supervised by a faculty member. Students are responsible for completing an application form that specifies course goals, objectives, projected outcomes, learning strategies, and evaluation procedures. The student’s advisor, course instructor, department chair, and the dean must approve the proposal.

HIS 498 Internship 1-16 credits
Students participate in internships in state and local government agencies, archives, museums, and related fields of interest under supervision of staff members of the department of history.

Hmong (HMG)

HMG 101 Introduction to Hmong Studies 2 credits
Through a combination of lectures, reading and research, students will gain a better understanding of the Hmong community and the area of Hmong studies through the work of Hmong scholars and researchers from around the world.

HMG 102 Hmong Literature and Art 4 credits
In this course, students will explore the various literatures (folk as well as modern) and art forms that have been in use by the Hmong for over 4,000 years. A combination of field experiences/observations, and readings as well class discussion will be used.

HMG 201 Hmong Culture and Society 4 credits
Through a combination of lectures and field work experiences, students will gain a better understand of the Hmong community here and throughout the world as they deal with changes relating to globalization and acculturation.

HIS 301 Hmong Cosmology and Belief 4 credits
This course will examine the origin of the Hmong language and also be able to read and write basic Hmong.

HIS 302 Reading and Writing for Hmong 2 credits
Students enrolled in the class will gain general understanding of the various forms of religions that are practiced by the Hmong throughout the world. Students will learn from books/assigned readings, lectures, class interaction and field work/observation.

HON 110 Perspectives, Approaches, and the Gospel 3-8 credits
Using primary texts and artifacts set in their historical/cultural contexts students examine the ways in which peoples of the west, east, and south have apprehended their world, humanity, and God over time. Sciences, arts, and the religious texts of Christianity will serve to challenge students to develop a world view that integrates faith and learning.

HON 201 Being Human and Christian in an Interconnected World 4-8 credits
Students explore their values and beliefs in view of the needs of the less fortunate and the impact of human life on the planet. Particular attention is paid to the role of technology in contemporary life. Students explore Christian concepts of vocation and service.
HON 220  Scholarship and Service for the Sake of Others 8 credits
Students develop and practice models of learning and service on behalf of others and the world. Students integrate their chosen discipline and their Christianity in their Honors Projects.

HON 410  Building for Eternity 2 credits
During their senior year, honors students reconvene to explore again the integration of faith and learning for the sake of others and the world. Through a final project in their chosen discipline, students set a course for ongoing learning and service in the context of the Christian gospel.

Human Resource Management (HRG)

HRG 500  Human Resources Leadership and Ethics 4 credits
This course examines the full scope of human resources activities. It covers a broad list of key Human Resources competencies including strategic management, teaming, problem solving, conflict management, and creativity. This course will also focus on understanding the value and connection between morality, ethics, and values as they relate to the role of Human Resources leadership in our capital system.

HRG 510  Strategic Human Resources and Measurement 4 credits
This course examines the role of the Human Resources leader in the development of vision, mission, values, and coherent strategic plans. Students will diagnose their strategic abilities and develop a plan for increasing their personal and team strategic capabilities. Students also will explore the importance of developing a global talent management and metric driven mindset.

HRG 520  Recruitment, Selection, and Retention 4 credits
This course will explore the full spectrum of the talent acquisition process with a focus on making an effective business case for implementing talent acquisition strategies. The course will also cover testing methods, applicant assessment, and employment engagement methods and the laws and regulations impacting staffing in organizations.

HRG 530  Compensation and Benefits 4 credits
This course explores employee performance methods, pay and reward systems, employee benefits programs, and total compensation systems. The focal point of the course is on designing pay structures that support organization values and strategic objectives. Topics include the strategic role total compensation plays in organizations, the dynamics of alternative pay systems, sales compensation, executive compensation systems, and employee benefits.

HRG 540  Organization Development for Human Resources Professionals 4 credits
This course will help Human Resources leaders understand organization development from a leadership and HR perspective. Students will build their capacity to facilitate complex change initiatives using change theories, models, and concepts. Students will demonstrate an understanding of how a complex business environment is driving the need for continuous change.

HRG 550  Research Methods and Design 4 credits
This course provides concentrated learning in action research methodology. The course provides an overview of quantitative and qualitative data collection methods, analysis, intervention selection, and evaluation. The philosophy, ethics, and politics of organizational research are introduced. Students will complete the first phase of their final capstone paper during this course.

HRG 560  Finance for Human Resources Leaders 4 credits
This course will focus on developing Human Resources business acumen as well as a quantitative mindset. Moreover, the practical aspects of strategic and operational roles of accounting and finance are explored. In addition, applications for forecasting, budgeting, financial performance, and fiscal and ethical responsibilities in a global context will be explored.

HRG 570  Legal Environment for Human Resources Leaders 4 credits
This course covers legal employment issues that Human Resources leaders face in operating organizations in today's complex environment. Students will study the foundations of the United States legal system, the public and international environment, the private environment, and the regulatory environment as it relates to the role of Human Resources practitioner.

HRG 580  Human Resources Action Research at Work 4 credits
This course will offer students an opportunity to leverage their learning from the entire curriculum and demonstrate their competence in Human Resources problem-solving and leading change. Students will select a topic related to Human Resources leadership. Furthermore, they will use an action research framework and create a high impact deliverable for increasing organization effectiveness.

Human Resource Management (HRM)

HRM 200  Employment Law 2 credits
Human Resources Management requires operations to be fully compliant with both state and federal statutes that govern all aspects of employment, beginning with recruitment and hiring through termination. This course is designed to provide the student with an overview of the legal framework impacting human resources practices, and an introduction to applying those principles to practical situations.

HRM 310  Managing in Organizations 4 credits
Students will learn the underlying trends and topics of leadership and management. The class will explore the importance of effective management practice. Topics such as self-directed work teams, motivation, systems theory, quality, and leadership will be studied. Students will investigate their own strengths and areas of personal development in order to understand how best to develop their own leadership capabilities.

HRM 320  Advanced Human Resource Management 4 credits
The role of the human resource management function in organizations will be studied. The changing nature of work and demographic shifts will be of particular focus. Students will study all of the roles that the human resource professional plays.

HRM 325  Survey and Research Methods 4 credits
Basic survey and research methodologies are explored in the context of human resource management. Analysis of professional research articles is studied with an emphasis on reading and understanding research. Students will learn the use of technology as a tool for HR professionals.

HRM 350  Legal Issues in Human Resources 4 credits
Every human resource professional needs to understand employment law. The historical roots of labor/management will be examined and the application of the law to the present day workplace including wrongful discharge, harassment, interviewing, selection, compensation, and benefits will be discussed and studied. Techniques such as negotiation and mediation will be practiced.
HRM 352  Staffing the Organization 4 credits  
How do we find and keep good employees? Every organization in America is grappling with this issue. This course will focus on the many aspects of Talent Management. Students will study recruitment, forecasting, selection, orientation and retention.

HRM 353  Compensation and Benefits Systems 4 credits  
How will employees be compensated for their efforts? Salary administration variable pay, performance management, position evaluation, HRIS, and reward systems, in terms of monetary and non-monetary pay, will be evaluated. Employee benefits will also be examined.

HRM 400  Recruitment, Selection and Onboarding 4 credits  
Study recruitment, forecasting, selection, onboarding, and employee retention. Obtain knowledge on contemporary approaches to internal and external recruiting. Understand job analysis within the context of selection and further be able to identify several selection approaches. Understand the employer’s legal responsibilities in the employee selection process. Articulate the positive performance implications related to successful candidate onboarding. (Prerequisites: Minimum Grade of C- in BUS 382)

HRM 405  Strategic Compensation Systems 4 credits  
Study the fundamentals of employee compensations and employee benefits. Examine all aspects of compensation program design and administration; from initial strategy-setting to addressing internal equity/external competitiveness to pay communication. In addition, examine the basic elements of employee benefits. Design compensation approaches that support organization’s strategy and objectives and are competitive in the marketplace. Future challenges and trends will also be covered. (Prerequisites: Minimum Grade of C- in BUS 382)

HRM 410  Organizational Development and Change 4 credits  
Study the fundamentals, theories, and practice of organization development (OD). Learn diagnosis, design, development, and evaluation of OD initiatives. Explore the differences between Human Resource Development and Organization Development, specifically as they pertain to learning and change, and apply them to real life examples. Examine what drives change, how organizations transition through change, and how organizations manage resistance to change. Explore how technology has expanded learning opportunities, the potential it represents for organizational improvement, and how it impacts OD. (Prerequisites: Minimum Grade of C- in BUS 382)

HRM 435  Business & Personal Ethics 4 credits  
This class will look at processes and strategies for dealing with ethical dilemmas and situations. Students will work on case studies and look at their own roots in developing their ethical positions. Students will wrap up this class with their own statement of ethical beliefs.

HRM 440  Human Resources Plan 4 credits  
Learn to solve complex human resources (HR) issues through research, solution identification, and HR plan development and presentation. Select and study an HRM-related issue or opportunity for a real organization. Conduct primary and secondary research. Design a specific solution to the problem and make specific recommendations based on data collection. Write and present an extended report including an implementation plan with costs, barriers, and stakeholders needed to support the plan. Students must hold senior standing and have successfully completed all other program course requirements before registering for this course. (Prerequisites: Minimum grade of C- in HRM 400, HRM 405, HRM 410, and HRM 470)

HRM 470  Strategic Human Resources 4 credits  
Examine how HR professionals work as strategic partners within organizations. Explore the differences between the administrative Human Resource professional from the strategic Human Resource professional. Identify skills and competencies needed to perform at the strategic level. Recognize the strategic challenges related to the business and HR specifically. Learn the importance of partnering with business leaders across the organization to improve organization effectiveness. (Prerequisites: Minimum Grade of C- in BUS 382)

HRM 498  Internship 1-12 credits

Human Services (HSV)

HSV 490  Portfolio and Synthesis 2 credits  
This final course is designed to help learners reflect on all they have done in the BA program. Through guest speakers, research study, and reflection on practice, students will synthesize all they have learned. Preparation of a professional portfolio will cap the learning experience.

HSV 500  Human Services 3 credits  
This course explores the roles and responsibilities that human service professionals perform in delivering services to clients with behavioral health issues in criminal justice and forensic behavioral health settings. This initial course will provide an interdisciplinary view of human services across numerous settings, including social work, case management, child protective services, domestic violence and homeless shelters, substance use and behavioral health treatment centers, first responders, courts, and community supervision. Students will (a) become acquainted with evidence-based non-clinical assessment and intervention techniques, (b) match common community-based resources to client needs, and (c) enhance communication, problem solving, and advocacy skills to employ on behalf of clients.

HSV 510  Family Violence, PTSD & Trauma 3 credits  
This course will provide an in-depth look at the relationship between family violence, child maltreatment, post-traumatic stress disorder (PTSD), and various forms of trauma and their impacts on global functioning. It will explore risk factors and warning signs associated with family violence and other forms of maltreatment. Students will analyze the direct and indirect impacts of violence and abuse on the victims and other family members. Students will identify victim-offender typologies and explore the impact of substance use and behavioral health in cases involving family violence. Current intervention strategies and available community resources for those affected by family violence and other traumatic events will be included.

HSV 515  Research Methods in Human Services 3 credits  
This course will provide students with the skills to critically evaluate research on issues in the field of human services. Students will learn how to apply empirical research to their decision-making with clients, including the dynamics of problem solving and the development of creative and efficient solutions. Students will build quantitative and qualitative analysis skills in the application and critique of research methodology (i.e., design, data collection, analysis, and interpretation) in the field of human services.
HSV 525  Ethical and Legal Considerations in Human Services 3 credits
This course focuses on the ethical and legal considerations that human service professionals encounter in their daily job duties. Topics include ethical and legal issues such as confidentiality, mandated reporting, consent and release of information, duty to warn, domestic violence, orders for protection, and harassment, especially how such issues come into play for clients with histories of self-harm, family violence, and other forms of violence. Students will learn the use of ethical decision-making frameworks and discuss the dangers faced while working in human service settings and ways to minimize potential liability. Students will explore the potential roles of human service professionals as witnesses in court cases. Students will be equipped to make ethical decisions and properly document practices in the field of human services.

HSV 535  Psychopathology in Human Services 3 credits
This course will examine the most common behavioral health conditions observed in human services populations, and their assessment and treatment. Topics include Serious and Persistent Mental Illness (SPMI) conditions, personality disorders, substance-use disorders, and childhood disorders. Students will learn the risk factors and key clinical features associated with each disorder and explore the impact of substance use, traumatic brain injuries, and pre-natal substance exposure on mental health symptoms. Evidence-based intervention and treatment strategies deemed most effective with human services and forensic behavioral health populations will be included.

HSV 555  Special Populations in Human Services 3 credits
This course will explore underserved and disadvantaged individuals who are involved in the field of human services. Topics include vulnerable children and adults, individuals impacted by intellectual, learning, neurocognitive, and neuropsychological deficits, and those diagnosed with serious and persistent behavioral health disorders. Special attention will be given to Fetal Alcohol Spectrum Disorders (FASD), Autism Spectrum Disorders (ASD), Traumatic Brain Injuries, Wernicke Korsakoff Syndrome, and trauma. Student will examine the role of institutions such as forensic state hospitals and veteran, dependency, adult and juvenile justice court systems. Students will be equipped to identify and better understand the special populations that are found in criminal justice and forensic behavioral health settings.

HSV 560  Substance Use and Co-Occurring Disorders 3 credits
This course provides an overview of substance use disorders and the most commonly abused substances in human service populations. Students will learn how to identify commonly abused substances, recognize patterns and warning signs associated with substance use, and identify evidence-based intervention and treatment approaches. This course will explore the impact that substance use has on brain development, behavior (e.g., violence), and the family system. Assessment criteria and screening practices for clients with comorbid substance use and behavioral health disorders are included. Topics include other complicating factors including chronic medical issues, developmental disabilities, and Traumatic Brain Injury (TBI). Students will be equipped to recognize substance use disorders in human service populations and more effectively assist clients with substance use disorders.

HSV 565  Sexual Offending 3 credits
This course introduces the theories and research behind why some clients engage in and justify inappropriate sexual behaviors. Topics include types of sex offenders, risk factors, statistics associated with sex offending, sex offender-specific policies (i.e., registries and civil commitment of SVPs), and sex offender treatment options. Co-morbid conditions and diagnostic criteria that are often associated with sex offending will be highlighted. Students will learn about sex offender-specific risk assessment tools along with their strengths and limitations.

HSV 566  Risk Assessment in Human Services 3 credits
This course introduces students to different types of risk assessments (e.g., actuarial and structured professional judgment) used with adolescents and adults in the human services arena. Topics will include in-depth exploration of risk approximation as it relates to self-harm, future violence, familial violence, sexual predation, and trauma exposure. Students will become familiar with the intended use, potential for misuse, and limitations accompanying varied risk assessment tools and methods across different settings. Students will explore the theoretical and research findings that guide the development, selection, and implementation of risk assessment procedures that are relevant to the specific referral question and case. Students will be equipped to select, rate, and utilize information gathered from risk assessment instruments in the field of human services.

HSV 585  Cultural Awareness and Understanding for the Human Service Professional 3 credits
This course provides the foundational knowledge and increases the awareness and skills that contribute to culturally competent practice in human services. The course will sharpen the critical thinking skills necessary for cultural competency as it highlights the intersection of cultural diversity, behavioral health, and criminal justice involvement. The course will also build self-awareness of cultural identity and how this can affect the provision of human services. An in-depth look at specific criminal behaviors (e.g., family violence) and how culture impacts these particular behaviors as well as influences involvement with corrections will be explored.

HSV 590  Forensic Behavioral Health Law for the Human Service Professional 3 credits
This course will examine the relationship between behavioral health and the legal system and discuss the various roles that human service professionals can play in the forensic behavioral health law arena. Topics include competency, expert witness testimony, courtroom testimony protocols, and the insanity defense. Case studies and scenarios will be used to enhance the student's understanding of the law as it relates to the mentally ill. Issues involving mentally ill offenders and developmentally impaired persons who commit crimes will be addressed. The stages of a criminal case and exploration of therapeutic courts (i.e., drug, DUI, and mental health) will be included.

HSV 595  Research and Capstone 3 credits
This course is the culminating final project in this program of study. Students will complete a 40-60 page integrative paper on a scholarly topic relevant to the practice of human services in forensic behavioral settings.
Information Technology Mgt (ITM)

ITM 312 Harnessing Personal Innovation 4 credits
Utilize reflective tools and course feedback to examine individual strengths and opportunities for growth as a writer and communicator. Harness this self-awareness to develop a personalized strategic plan that clarifies each student’s unique ability to collaborate on teams and innovate for the organization. Begin comparing the effectiveness and efficiency of various electronic and face to face communication strategies amidst a contemporary exploration of technology’s global impact on business.

ITM 325 Business Management for Information Technology 4 credits
Conduct an in-depth examination of the characteristics of a business and the circumstances that affect their success. Explore varying activities and styles of managers within organizations to develop an effective personal style for managing technology as a business-savvy professional. Study ways to enhance the effectiveness and efficiency of application development and operations management teams. Topics include managing change, compliance, finances, marketing, business intelligence, and frameworks for technology service delivery such as the Information Technology Infrastructure Library (ITIL) and the Control Objectives for Information and related Technology (COBIT).

ITM 342 Project and Lifecycle Management 4 credits
Channel effective project management skills to innovate and deliver on business strategy. Utilize a project management simulation to study planning, scheduling, and tracking techniques for effective project management. Apply learning to a draft of the following deliverables for the student’s own Applied Research Project: 1) project scope/charter, 2) work breakdown structure, 3) cost-benefit analysis, 4) project schedule, 5) risk register, and 6) quality management plan. Identify the relationships between IT operations, project management and other value-chain functions that manage internal and external relationships among partners, vendors, and outsourcers. Explore the impact of operations management on a firm’s competitiveness and management of IT resources.

ITM 351 Bridging the Technology-Business Gap 4 credits
Compare technical to non-technical staff in studying ways to build collaborative effectiveness for the business. Investigate sources of power from the local to global setting to better understand how power can be lost or gained within an organization. Empower each employee with defined outcomes and the right organizational fit. Utilize collaborative software tools to practice communicating virtually across diverse settings and maximize teamwork to deliver on business strategy.

ITM 400 Bridging the IT Business Gap for Innovation 4 credits
Explore how to lead and manage collaborative teams of technical and non-technical workers to deliver business strategy. Use reflective tools to examine individual strengths for personal and professional growth. Learn to use collaborative software tools to work on team projects and to improve in confidence and credibility as an information-literate critical thinker in conducting research, writing, communicating, and presenting. Minimize the barriers to successful intercultural communication by using various tools for teamwork in local and global settings. (Prerequisites: Minimum grade of C- in BUS 388)

ITM 402 Strategic Project Management for IT 4 credits
Learn to deliver on new ideas and strategies by practicing traditional and agile methodologies and processes that help bring new products and services to the market. Build on differing strategic approaches and project management techniques to manage innovation so that competitive strategy and new ideas can be realized. Gain skills, through an applied research project, in gathering requirements, applying appropriate methodologies, and utilizing various deliverables to crystalize a measurable objective, perform a cost-benefit analysis, connect to business strategy, and identify constraints. (Prerequisites: Minimum grade of C- in BUS 388)

ITM 410 Business-Driven Information Systems and Security 4 credits
Learn how information systems are designed to interact with people and carry out business strategy. Examine enterprise-wide applications, the infrastructure necessary to support these applications, and important implications for security and privacy. Topics include business continuity and disaster recovery, virtualization, and the effects of compliance on infrastructure development (e.g. HIPPA, SOX, GLBA). (Prerequisites: Minimum grade of C- in BUS 388)

ITM 420 Applied Systems Analysis and Design 4 credits
Study all phases of the project lifecycle with an emphasis on creating a first draft for the Planning and Analysis phases of the student’s Applied Research Project. Utilize contemporary case studies such as mobile applications development to compare software and infrastructure development methodologies such as the Systems Development Lifecycle and Agile Methods. Create a common understanding of project requirements by interviewing key stakeholders and diagramming to communicate process workflow. Apply learned skills to key decision-making tasks such as in-house development, outsourcing, software testing, business requirements gathering, and Cloud Computing.

ITM 421 Business Strategy and Technology Innovation 4 credits
Examine strategies that businesses use to be competitive in the marketplace. Determine how tactical strategies for technology support the business strategy. Practice working in teams to develop techniques for innovation management of technologies.

ITM 425 Data Management for Intelligent Business 4 credits
Learn to use business strategy and data-based applications as a foundation for making intelligent business decisions. Examine the normalization process, through team and individual work, to minimize the potential for losing customers through redundant and/or inaccurate data. Study the Structured Query Language (SQL), data warehouse team-building, de-normalization, and data-mining for faster access to operational and strategic information leading to a potential competitive advantage. (Prerequisites: Minimum grade of C- in BUS 388)

ITM 435 Business Ethics for Information Technology 4 credits
The conduct of technical and business professionals is considered from a moral and ethical perspective. Students develop their capability and depth as a reflective practitioner by using a rich framework for processing ethical decisions. A rare opportunity is provided to prepare a personal moral and ethical statement as a foundation for future decision-making.

ITM 440 Applied Research Project 4 credits
Learn to integrate business and technological knowledge to address an actual worksite need or problem. Through a capstone project gain experience in problem identification, solution selection, cost-benefit analysis, requirements gathering, options analysis, and success measurement. Students must hold senior standing and have successfully completed all other program course requirements before registering for this course. (Prerequisites: Minimum grade of C- in ITM 400, ITM 402, ITM 410, and ITM 425)
ITM 500 Business Strategy 3 credits
Examine the interaction between information technology and business strategy to create innovative and sustainable competitive advantage. Learn to ethically apply these insights to develop and advance organizational mission and vision.

ITM 505 Ethics in Technology Management 3 credits
Explore real-world information technology dilemmas and frameworks to identify ethical problems and reach ethical decisions. Use these skills, grounded in ethical theory, to make informed decisions within fast-paced and emerging business environments.

ITM 510 Research in Information Technology 3 credits
Develop ethical research skills and strategies to systematically provide information to decision-makers to address technological challenges and opportunities. Students define research problems, analyze data, and develop problem solving strategies.

ITM 515 Strategic Communication 3 credits
Learn effective communication strategies and skills necessary for success in real-world business settings. Develop authentic communication skills, central to strategic innovation, to ethically advance corporate strategy.

ITM 520 Financial Analysis for Technology Managers 3 credits
Learn financial tools leaders use to create value as they make technology decisions for their organizations. Apply these tools to business cases from the technology industry to increase skills in making data informed decisions.

ITM 525 Managing Technology Teams 3 credits
Develop skills to ethically lead and manage technology teams in evolving business environments. Explore how to select, motivate, and support teams to meet operational and strategic goals within a dynamic organizational culture.

ITM 530 Leadership Information Technology 3 credits
Explore leadership essentials, proven effective within the technology sector and beyond, and learn to distinguish when to lead and when to manage. Use these skills, recognizing leaders are found at all organizational levels, to ethically lead change and innovation.

ITM 535 Business Intelligence and Data Analytics 3 credits
Understand and describe the business intelligence (BI) methodology and concepts as well as the various types of analytics. Explore, analyze and visualize the data necessary for managerial decision making. Explore emerging technologies and their impact on analytics, BI, and business decision support.

ITM 540 Information Security 3 credits
Analyze how information systems are designed to interact with people and carry out ethical business strategy. Design plans to secure enterprisewide data and applications in a growing mobile environment. Assess risk and manage quality in working to meet auditing and compliance standards. Topics include business continuity and disaster recovery, virtualization, and the effects of compliance on infrastructure development.

ITM 545 Project Management 3 credits
Analyze the different methods of project management, tools and techniques necessary in the technology environment. Schedule, risk, quality, communication, stakeholder, technical team and resource management skills will be demonstrated through case study application and simulation.

ITM 550 Technology Management and Innovation 3 credits
Utilize contemporary case studies to compare software and infrastructure development methodologies such as the Systems Development Lifecycle to Agile Methods. Apply learned skills to key decision-making tasks such as in-house development, outsourcing, software testing, and cloud computing.

ITM 555 IT Management Capstone 3 credits
Integrate tools and techniques learned throughout the program. Demonstrate knowledge obtained by planning a project for implementation in industry. Ethically incorporate technical and business leadership skills through documented approaches to managing a technical product or process improvement while leading people through the changes brought by its implementation.

International Programs (ITS)

ITS 102 Foundations for International Students 1 credit
This course focuses on development of skills in living and learning in the United States.

Italian (ITA)

ITA 101 Intro. Italian Lang & Culture 3 credits
Learning the basics of Italian and the culture of Italy.

ITA 102 Introduction to Italian Language and Culture 3 credits
Introduction to Italian Language and Culture 102 gives a broad overview of this fascinating and ancient culture and the basics of the Italian language. It is a continuation of ITA 101 and will prepare students to study abroad in Italy and provide them with the basic tools to survive linguistically and to understand some of the basics of the Italian culture.

ITA 488 Independent Study 1-4 credits

Kinesiology (KHS)

KHS 100 Walking and Running Basics 1 credit
This course develops the fundamental skills, strategies and experiences to enjoy the health benefits of walking and running.

KHS 102 Team Sports Activities 1 credit
This course develops the fundamental skills, strategies and experiences in team activities such as soccer, volleyball, and basketball.

KHS 103 Strength & Conditioning Activities 1 credit
This course develops the fundamental skills, strategies and experiences in fitness activities such as weight training and cardiovascular conditioning.

KHS 106 Basketball Basics 1 credit
This course develops the fundamental skills, strategies and experiences to enjoy the sport of basketball.

KHS 107 Golf 1 credit
This course develops the fundamental skills, strategies and experiences to enjoy the sport of golf.

KHS 108 Racquetball 1 credit
This course develops the fundamental skills, strategies and experiences to enjoy the sport of racquetball.
KHS 110  Health Science 3 credits
This course will provide students with the opportunity to assess their current lifestyles while examining major public health issues of regional, national, and international concern. Students will critically analyze and reflect on the implications of engaging in health-conscious behaviors for the present and future. Students will be exposed to a broad range of consumer issues and information relating to various aspects of health science. This course addresses the University Outcomes of Physical Values and Information Literacy.

KHS 114  Pilates 1 credit
This course provides students with a basic understanding of the Pilates method, and how to properly perform a wide variety of introductory mat exercises. These exercises will focus on applying the fundamental skills of Pilates, including breathing technique, focus and body alignment. As students’ progress through exercises they will gain awareness of the mind-body relationship, and the many benefits Pilates offers.

KHS 116  Fitness Experience 1 credit
This course offers students the opportunity to experience fitness courses at a local fitness center.

KHS 117  Group Fitness 1 credit
This physical activity course is designed to help students gain an understanding of how to develop overall physical fitness including cardiovascular fitness, muscular strength and endurance, and flexibility. This course is also designed to help students develop a positive attitude toward exercise and healthful living through participation in aerobic exercise and class discussion. This course involves calisthenics, floor exercises, aerobic exercise, and muscle endurance.

KHS 125  Introduction to Kinesiology 1 credit
This course provides an introduction to the sub-disciplines of the field of Kinesiology. At the conclusion of the course, students will have an understanding of the various sub-disciplines of Kinesiology and the current issues present in these sub-disciplines, and be aware of available employment and graduate school opportunities.

KHS 200  Community Safety & First Aid/CPR 1 credit
This course is designed to give students the fundamental skills and procedures necessary to identify ways to prevent injury and/or illness, recognize when an emergency has occurred, follow emergency action steps, and provide basic care for injury and/or sudden illness until professional medical help arrives.

KHS 201  Pilates Certification 6 credits
Intensive Mat-Plus (IMP) Certification Course: This course is intended to build on our students’ general fitness and exercise science industry knowledge with classroom instruction and hands-on training specific to STOTT Pilates Mat work.

KHS 220  Research Methods 4 credits
This course is designed to expose students to the principles and concepts necessary for understanding the basic elements of research in kinesiology and allied health. Students will learn about the research process, types of measurement and research, and proper writing style. Emphasis will also be placed on locating and evaluating credible evidence from various sources. Concepts from this course will assist students in applying research methods to topics within their own fields of interest.

KHS 240  Introduction to Public Health 4 credits
This course gives students an overview of the broad field of public health, which centers on health promotion and disease prevention. Throughout the course students will be actively engaged in discussions and activities that promote a greater understanding of public health as a system, as well as its interdisciplinary connections to other health care fields.

KHS 300  Applied Nutrition 4 credits
The study of the interaction of humans with food. Nutritional concepts; current consumer issues in nutrition; nutritional needs through the life cycle; international nutritional concerns and issues are studied.

KHS 310  Drug Education 2 credits
Pharmacological and etiological foundations, schedules, classifications, theoretical approaches to dependency, addiction and tolerance together with intervention and prevention strategies are studied. This course is designed to provide students with applicable knowledge and role playing experience in the area of drug use and abuse. Students will develop a broad based knowledge of the various types of drugs and how they are being used today medically and on the street. The students will also be asked to participate in discussions designed to raise their awareness of drug use/abuse and assist them in developing the skills and habits necessary to refrain from the negative impacts of use/abuse.

KHS 311  Functional Anatomy 4 credits
This course employs a regional approach to human anatomy and emphasizes the role of the musculoskeletal system in producing movement. Elements of the nervous, cardiovascular, and respiratory systems are also considered. Kinematic features of common athletic movements are explored.

KHS 316  Psychology of Sport Injury and Rehabilitation 4 credits
Psychological factors related to sport injury and rehabilitation are examined. Special attention is given to the antecedents to injury, the stress-injury relationship, emotional responses to injury and rehabilitation, and the role psychological skills such as mental imagery, relaxation, goal setting, positive self-talk, and social support has on injury risk and recovery. Ethical issues for professionals and psychological considerations for malingering individuals are also examined.

KHS 320  Human Life Experience 3 credits
This is a survey course designed to enable students to understand the biological, physiological, psychological, social, and cultural aspects of sexuality and human sexual behavior. Students will approach much of the material from a variety of different learning strategies including, research, games, small and large groups discussions, guest speakers, group activities, small assignments/worksheets, etc.

KHS 375  Sociology of Sport and Exercise 4 credits
This course is designed to provide the student with a working knowledge about a number of topics regarding the sociological aspects of sport and physical activity. This course engages the students on the impact of sport and exercise in our lives and to make them aware of the social processes which either influence the institution of sport or are influenced by the institution of sport. Concepts covered will include: sport and exercise within and among societies and nations, social organizations, economics, education, the family unit, governments, religions, social differentiation (e.g., status, ethnicity, gender, age, careers, ethical), and social problems (e.g., honesty and violence).

KHS 390  Sport Management 4 credits
Sport Management theories and practices will be examined using a multi-disciplinary approach. Topic areas to be examined include: organization and management, marketing and promotion, special event management, facility management and design, management forecasting, and career opportunities.
KHS 391  Law & Sport 4 credits
This course is an overview of legal aspects relevant to managers in the sport and recreation environment. Areas of study include tort law, contract law, constitutional law, legislation and administrative law related to the operation and administration of sport, recreation and athletic programs. Risk management strategies and sport management applications of legal issues are also addressed.

KHS 392  Marketing and Fundraising 4 credits
Sport marketing and fundraising presents an overview of the various techniques and strategies used in meeting the needs of consumers in the sport industry as well as understanding how sport can be used to assist in the marketing of other companies and products. Areas to be addressed are the uniqueness of sport marketing, an overview of the segments of the sport industry, the importance of market research and segmentation in identifying the right sport consumer, the use of date-based marketing in researching the sport consumer the overview of the marketing mix as individual units and the relationship between those units, and the development and endorsement packages.

KHS 393  Planning & Managing Sport Facilities 4 credits
This course helps students understand how to plan, design, and maintain sport facilities. In addition, event management and programming will be examined within the context of stadium and arena management.

KHS 394  Sport Business 4 credits
This course will include a comprehensive analysis of issues related to sports business. Topics will include finance, accounting and budgeting as it relates to the world of sports business.

KHS 400  Health Psychology 4 credits
KHS 400 Health Psychology is designed to help students learn those skills necessary in forging a bridge between the client-learner’s thoughts, feelings and actions by integrating thought and behavior into one synergistic approach to the delivery of health education that can accommodate the whole person. Cognitive techniques, such as lecture discussion, readings, presentations, collection of data, and specific planning combined with the behavioral components of emotion and action will help in bringing about this synergistic process.

KHS 420  Program Administration 2 credits
Organization of health science education and physical education programs in schools, work sites, medical care settings, community, and public settings is studied together with needs assessment and evaluation strategies. Emphases on management, assessment, planning of health promotion enhance such study. This course is designed to give students a broad based exposure to the many organizational and administrative duties that accompany Physical Education, Sport, and various Health Program Management. We will start by looking to understand the characteristics of an effective leader and the ability to tap into those characteristics with the people one works with.

KHS 435  Sport Psychology 4 credits
Psychology of sport and its applications for performance enhancement are examined. Special attention is given to theory and techniques for developing and refining psychological skills to enhance performance and personal growth. Content examines personality traits, anxiety, aggression vs. assertion, motivation, and other individual and group variables. (Suggested prerequisite: PSY 101)

KHS 436  Motor Development, Control & Motor Learning 4 credits
This course examines the growth and development patterns of the child from infant, adolescence, adulthood, and through late adulthood. The purpose of the course is to enhance student insight into the fundamental role that the motor system plays in the human condition. There are four broad topic areas: 1) nature and mechanisms of the expression and control of motor behavior; 2) concepts, principles and measurement of motor learning; 3) factors that influence skill and proficiency in motor performance; and 4) practical approaches to studying and learning motor skills. Content will follow motor control through motor development across the life span with special emphasis on early childhood development and late adulthood.

KHS 439  Physical Dimensions of Aging 3 credits
This course is designed to provide students interested in the gerontology population the knowledge base of physical aging. Physical aging is central to most daily activities and permeates through all aspects of life. Throughout this class, students will study the biomechanical, physiological, and motor effects associated with aging. Students will understand that when society encourages older individuals to stop being active, professions should be encouraging activity, while understanding their physical abilities.

KHS 450  Exercise Assessment 4 credits
This course will focus on exercise testing and prescription with regard to stress testing and fitness evaluations. Indications and applications for clinical exercise testing and contraindications to exercise testing will be addressed, as well as special populations.

KHS 455  Occupational and Environmental Health 4 credits
Students will be introduced to physical, chemical, and biological hazards found in the environment and the health risks associated with workplace and community exposure to them. Risks to special populations and mechanisms of reducing or controlling these risks are discussed.

KHS 460  Health Advocacy and Leadership 4 credits
Through this course, students will explore advocacy for protection and promotion of the public’s health at all levels of society. Students will learn the professional skills necessary to function successfully as patient advocates and policy advocates. In addition, student leadership styles will be investigated, including career exploration and preparation.

KHS 472  Athletic Training, Injury Prevention, and Safety 4 credits
The practical study of procedures for the care and prevention of injuries sustained during physical activity, including First Aid and Safety principles as dictated by the American Heart Association and the American Red Cross. Designed as a course for students pursuing careers in athletic training, teaching, coaching, physical therapy, or other related fields. Instruction will include lectures, informational presentations, and hands on experience. (Suggested prerequisite: KHS 474)

KHS 473  Biomechanics 4 credits
This course examines the physics of human movement. Content areas include the structural mechanics of bone construction, muscle contraction, ligament, and tendon plasticity and elasticity. Sport implement mechanics and the mechanics of environmental conditions (e.g. friction, air, and water resistance) are also explored. Sport performance issues will also be analyzed for mechanical efficiency. (Suggested prerequisite: KHS 474)

KHS 474  Exercise Physiology 4 credits
The physiological basis for human performance and the effects of physical activity on the body’s functions are examined in theory and application. Representative experiences include lecture, discussion, group exercises, class teaching, and written projects. (Preferred prerequisite: KHS 110)
KHS 475 Applied Exercise Prescription 4 credits
This course integrates important principles and theories in exercise physiology, kinesiology, nutrition, psychology, and measurement, and then applies them to physical fitness testing and individualized exercise program design for team and individual athletes. Students will learn how to select physical fitness tests, conduct physiological assessments, and design individualized exercise programs and prescriptions. (Prerequisite: KHS 474 Exercise Physiology)

KHS 479 Coaching Pedagogy 2 credits
This course offers some realistic guidelines and principles that should enable the coach to conduct his/her coaching program successfully. Course content explains the principles of coaching through discussion of the techniques that encompass the philosophical, psychological, and moral issues involved in the administration of athletic programs. (Prerequisite: KHS 110)

KHS 482 Advanced Athletic Training 4 credits
This course is geared for the athletic training student pursuing NATA certification or students further interest in knowledge of injury prevention and management. Advanced knowledge and techniques of athletic assessment, treatment/rehabilitation, administration of an athletic training programs and sports medicine experience outside of the classroom will be stressed. (Preferred prerequisite: KHS 472)

KHS 488 Kinesiology Independent Study 1-4 credits

KHS 490 Senior Professional Seminar 1 credit
This capstone course prepares students to chart different paths following graduation with a degree in Kinesiology or physical education: (a) entering the work force in the field of Kinesiology at a bachelor's degree level, (b) enter the work force in the field of teacher education at a bachelor's degree level, or (c) enter a graduate school. In this course student will develop a resume, request letters of recommendation, complete a professional portfolio, and identify job-searching strategies. (Prerequisite: senior status)

KHS 497 Seminar in Graduate Kinesiology and Health Sciences 3 credits
This seminar is an advanced exploration of the disciplines within the kinesiology and health sciences department, and will further serve as preparation for 3+2 undergraduate students to begin their graduate program.

KHS 498 Internship 1-12 credits
This internship places students directly in a setting where students learn to apply entry-level competencies. The student and advisor collaborate with the on-site supervisor in selecting an appropriate internship site that meets the need of the student, the needs of the internship site and the program needs. (Prerequisites: senior status and advisor approval)

KHS 500 Foundations of Sports Management 3 credits
Today the need for sport management professionals is increasing in areas of business, marketing, sales and managing. This course will examine the expanding field of Sport Management. Areas of emphasize include; exploring job specific skills pertaining to sport marketing and sales, facility management, event planning, sport agents and recruiting services, intercollegiate athletics, professional sport, public relations.

KHS 505 Organizational Leadership and Development 3 credits
This course is a scholarly consideration of the concepts, principles and analytical tools for effective administration in sport management. Students will examine how leaders develop themselves and others in a dynamic, changing environment. The course will also examine the topics of communication and conflict management as they relate to successful organizational outcomes.

KHS 510 Human Resource Management 3 credits
Discusses critical aspects of human resource management as it relates to sport organizations. An overview is given of major functions and concepts regarding the management and administration of human resources in the organization including: recruitment, development, motivation, compensation, benefits administration, employee relations, and human resource information systems.

KHS 515 Management and Leadership 3 credits
Different theories of leadership and management styles are introduced and what their impact is on organizational structure, productivity, and decision making. Students will examine their individual management and leadership styles as they relate to sport management administration. This course will analyze how leadership is not only different from management but also more effective in today's workplace.

KHS 520 Managerial Finance 3 credits
The practical aspects of the strategic and operational roles of accounting and finance are explored, including applications of strategic planning, budgeting, financial performance, and fiscal and ethical responsibility in a sport management setting.

KHS 525 Managing and Planning Sport Facilities 3 credits
This course takes a multi-disciplinary approach to the theories and practices of facility design, construction, and operations. The course will examine a wide variety of both indoor and outdoor sports facilities including stadiums, gymnasiums, golf courses, fitness centers, and athletic fields. Students will also examine event management and programming within the context of stadium and arena management.

KHS 530 Research Design Methods 3 credits
This course examines the various research methodologies used in organizational settings. It provides an overview of quantitative and qualitative research methodologies including research design, data collection and analysis, interviewing, case studies, and action science. The philosophy, ethics, and politics of management research are introduced.

KHS 535 Sport Marketing 3 credits
This course will examine the application of marketing principles in the sport industry. Elements of corporate partnerships related to sport marketing will also be explored along with business strategies of sponsorships, branding, promotions, and event marketing.

KHS 540 Legal Aspects of Sport 3 credits
Legal Aspects of Sports is an overview of legal aspects that will be relevant to sport managers in areas of recreation, athletics, facilities, and business. The course will examine risk management strategies along with law related to operation and administration of sport-related programs. Students will explore case studies relating to the legal aspects of sports.

KHS 545 Ethics and Policy in Sport Management 3 credits
This course explores the topics of ethics and policy for administrators in a sport management setting. Students will critically analyze ethical concepts which influence the development of sport policies. The course will further examine the relevance of ethical considerations in policy development and compliance. Students will use contemporary case studies to examine ethical dilemmas relating to policy enforcement.
KHS 550  Sport Sales 3 credits
Sales is an essential revenue producing function for any commercial organization. Sport and recreations have a unique marketing relationship of product and inventory with the consumer and marketplace. The course is designed for the student to learn the theoretical concepts and the application of skills and practices associated with the sports sales process. Through readings and lectures, the course will examine the rationale regarding the benefits and disadvantages of various sales and promotional methodologies. This course will then concentrate on promotional and sales strategies, campaigns, and techniques.

KHS 565  Capstone 3 credits
The capstone course provides the sport management professional with the opportunity to synthesize the learning which has taken place throughout the program. It further focuses upon the practical application of knowledge within the sport management industry. The capstone will serve as an assessment of student learning within the Master of Arts in Sport Management.

KHS 570  Ethics and Policy in Sport and Exercise Science 3 credits
This course explores the topics of ethics and policy for exercise science professionals in a sport and exercise setting. Students will critically analyze ethical concepts, which influence the development of necessary policies. The course will further examine the relevance of ethical considerations in policy development and compliance. Students will use contemporary case studies to examine ethical dilemmas relating to policy enforcement within the exercise science industry.

KHS 575  Epidemiological Statistical Analysis 3 credits
This course examines the various research methodologies used in exercise science. It provides an overview of quantitative and qualitative research methodologies including research design, data collection and analysis, interviewing, case studies, and action science. The philosophy, ethics, and politics of research are introduced.

KHS 580  Mechanisms of Skilled Neuromuscular Behavior 3 credits
This course examines the integration of thought processes with the human body to produce skilled motor performance. Theoretical perspectives and mechanisms of motor behavior are examined and applied to significant systems involving gross motor learning and control in sport and exercise.

KHS 585  Biomechanics in Exercise Science 3 credits
This course examines qualitative and quantitative elements and physics of human movement. Content areas include the structural mechanics of bone physiology, muscle mechanics, and connective tissue principles. Sport techniques and environmental conditions (e.g., friction, air, and water resistance) are also explored. Biomechanical implications of sport and fitness skill performance will be analyzed for mechanical efficiency and effectiveness.

KHS 590  Psychology of Sport and Exercise 3 credits
Psychology of sport and its applications for performance enhancement are examined. Special attention is given to theory and techniques for developing and refining psychological skills to enhance performance in the exercise science industry. Psychological aspects of exercise-related injury will also be explored within this course.

KHS 595  Clinical Exercise Assessment 3 credits
Students will learn how to select physical fitness tests, and conduct physiological assessments on members of diverse populations. Students will further study the procedures involved in screening individuals from diverse populations with varying levels of functional work capacity.

KHS 600  Exercise Physiology 3 credits
The physiological responses to exercise performance and the effects of physical activity on the body's functions are examined in theory and application.

KHS 605  Nutrition and Metabolism 3 credits
This course focuses on the integration of nutrition with molecular and cellular biochemistry of metabolism. Major topics discussed in this course include the metabolic effects of diet composition, the interactions of macronutrients, and dietary modifications and their associated impact upon performance.

KHS 610  Research Methods 3 credits
This course examines the various research methodologies used in exercise science. It provides an overview of quantitative and qualitative research methodologies including research design, data collection and analysis, interviewing, case studies, and action science. The philosophy, ethics, and politics of research are introduced.

KHS 615  Exercise Prescription 3 credits
This course focuses upon the design of individualized exercise programs and prescriptions in health and disease. Knowledge of skills necessary for safe and effective application of these prescriptions for members of diverse populations as well as the prevention and maintenance of chronic disease will be emphasized.

KHS 620  Master's Capstone 3 credits
The capstone course provides the exercise science professional with the opportunity to synthesize the learning, which has taken place throughout the program. It further focuses upon the practical application of knowledge within the exercise science industry. The capstone will serve as an assessment of student learning within the Master of Science in Exercise Science program.

KHS 625  Master's Thesis 6 credits
The thesis provides the exercise science professional with the opportunity to synthesize the learning, which has taken place throughout the program, and to apply research principles to current exercise science topics. The thesis will serve as an assessment of student learning within the Master of Science in Exercise Science program.

KHS 700  Cross Country-Intercollegiate Men 1 credit
KHS 705  Cross Country-Intercollegiate Women 1 credit
KHS 710  Football-Intercollegiate 1 credit
KHS 715  Volleyball-Intercollegiate 1 credit
KHS 720  Basketball-Intercollegiate Men 1 credit
KHS 725  Basketball-Intercollegiate Women 1 credit
KHS 730  Baseball-Intercollegiate 1 credit
KHS 735  Softball-Intercollegiate 1 credit
KHS 740  Indoor Track & Field-Intercollegiate Men 1 credit
KHS 745  Indoor Track & Field-Intercollegiate Women 1 credit
KHS 750  Outdoor Track & Field-Intercollegiate Men 1 credit
KHS 755  Outdoor Track & Field-Intercollegiate Women 1 credit
KHS 760  Cheerleading 1 credit
KHS 765  Dance Line 1 credit
KHS 775  Soccer-Intercollegiate Women 1 credit
KHS 780  Golf-Intercollegiate Women 1 credit
KHS 785  Golf-Intercollegiate Men 1 credit
KHS 790  Spirit Squad 1 credit
KHS 795  Lacrosse-Intercollegiate Women 1 credit

Latin (LTN)

LTN 111  Beginning Latin I 4 credits
Students begin their study of Latin vocabulary, grammar and syntax in order to read and comprehend Latin prose and poetry with appropriate assistance.

LTN 112  Beginning Latin II 4 credits
Students continue their study of Latin vocabulary, grammar and syntax. Students read selections from the Vulgate (Exodus and Mark) and Ceasar’s Gallic Wars.

Leadership & Management (MLM)

MLM 500  Leadership, Management, Influence and Change 4 credits
This course provides an overview of leadership, management, influence, social power dynamics, and change theories and practices, emphasizing application to the challenges and opportunities facing for-profit corporations, nonprofits, and government agencies. Introduces the philosophies and methodological approaches underlying the Master of Arts in Leadership and Management as well as the writing and online research skills students will use in this program.

MLM 510  Applied Moral and Ethical Leadership 4 credits
This course connects morality, ethics, and values with leadership and influence. Students explore and respond to challenging organizational dilemmas while balancing personal integrity and organization goals from the perspective of Christianity and vocational ethics, incorporating these elements into the personal and professional decision-making process.

MLM 520  Strategic Organizational Research 4 credits
This course provides students with the ability to gather, analyze, and synthesize complex credible information about a topic of interest using quantitative and qualitative action research methodologies. Students choose a topic that relates to leadership, management, and/or social power dynamics and properly leverage their influence as they complete an action research project using a strategy to improve an organizational situation. While the emphasis of this course is on applied methods of research, an overview of the theory and some of the political and ethical implications of research will also be covered.

MLM 525  Financial Management for Leaders 4 credits
This course explores the practical aspects of the strategic and operational roles of financial management, accounting, analysis, and an introduction to finance-based decision-making related to working capital and long-term financing and investment. Students will learn the impact of a leader and/or manager’s influence on budgeting, financial performance, and fiscal and ethical responsibility.

MLM 532  Project and Quality Management 4 credits
This course covers the practical aspects of completing tasks while working with, leading, and influencing teams in a project environment for high quality results. Students will learn how to effectively manage projects using software tools that focus on the various related leadership issues, such as monitoring needs compared with current action, team dynamics, planning, execution, problem-solving, closure, and assessment. Discussion may include appropriate quality measures including Reengineering, Six Sigma, Lean Manufacturing, Office Kaizen, and Process Improvement.

MLM 542  Strategic Leadership and Process Implementation 4 credits
This course examines the leader and manager’s role in influencing the development and implementation of vision, mission, values, and coherent strategic plans. Students will use classical and creative strategies to develop short- and long-term goals that improve operational effectiveness and strategically position an organization for the future. Students will also diagnose their own strategic capabilities and develop a plan for increasing their strengths in this area. Emphasis will be placed on ways to manage the implementation phase through best-practice processes.

MLM 545  Legal Issues for Today's Leaders 4 credits
This course explores how the legal environment can influence a leader’s decisions, guiding their actions and helping them avoid legal pitfalls in today’s complex organizations. This understanding will help leaders identify greater opportunities to influence change and innovation. Students will also learn to understand and influence the spirit behind various policies, regulations, laws, and guidelines that take leadership beyond simple compliance with governmental regulations.

MLM 552  Organizational Culture Management 4 credits
This course explores how leaders manage the soft, relationship skills of organizational life to leverage their experience and practical research as they successfully influence innovative, disciplined, and well-led organizations. Topics explore strategies to a) assess an organization’s culture and climate; b) develop a continuous flow talent management mindset incorporating Training & Development methods throughout the organization; c) motivate and positively influence team member effectiveness and obtain applicable concepts and tools for acquiring, developing, improving, influencing, and (re)allocating talent; d) explore the concepts and theories related to change management and improvement; and e) develop skills to influence, plan, and implement changes for improving organizational life in both corporate and nonprofit settings.

MLM 555  Leadership and Management Research, Synthesis and Reflection 4 credits
This course offers students the opportunity to leverage their learning from the entire program. They will reflect their learning related to leadership, management, and social influence on topics relevant to their professional organizational setting. Students will also complete significant final steps in their research and present a formal report on their action research project.

MLM 589  Contextual Global Experience 4 credits
This international travel experience includes preparatory readings, comparative analysis, and reflection on a distinct leadership, management, or social influence topic that bridges learning to application in the organizational setting. (May be substituted for MLM 552.

MLM 599  Independent Study 1-4 credits

Management (MAN)

MAN 101  Introduction to Business 2,4 credits
This is a survey course intended to give students an overview of accounting, economics, finance, management and marketing.

MAN 120  Basics of Business 2 credits
Learn what it means to be an entrepreneur while exploring foundational concepts in management, marketing, economics, and finance/accounting. Create a full business plan for a small business in class, making daily decisions about the business in a dynamic environment.
MAN 201 Business Analytics 2 credits
In this course students will learn to use various tools to analyze data and make predictions. These tools include probability analysis, hypothesis testing, regression analysis, linear programming and tools for financial analysis. (Prerequisite: MAT 110 - can be taken concurrently)

MAN 202 Analytics, Modeling, and Techniques 2 credits
Apply tools and techniques learned through statistical modeling and visualizing data to improve skills in predictive and prescriptive analytics. Structured and unstructured data will be examined through data mining, web mining, text mining and sentiment analysis. (Prerequisites: MAT 110 and MAN 201)

MAN 204 Legal Environment of Business 2 credits
This course examines the administrative and common law regulation of business. Constitutional Law, Title VII and product liability are covered. Students also examine contract law and the Uniform Commercial Code provisions on sales and secured transactions.

MAN 301 Organizational Behavior 4 credits
Students study the basic principles of management while examining the effects of human behavior on teams and organizations. Students learn foundational theories of motivation, leadership, team building, and change management using classroom activities and case studies.

MAN 302 Operations and Quality Management 2 credits
This course will discuss the theoretical and practical foundations for operations management. The course will focus on the production process (including service), quality, and supply chain management. The production process includes the management of equipment and machinery, facilities, materials management, inventory control, scheduling, and lean operations. Quality includes quality control and quality management including six sigma. Supply chain management includes purchasing, vendor relations, and logistics. The concepts of project management are also reviewed.

MAN 350 Managing in a Global Economy 4 credits
This cross functional course will build on management principles and apply them to global opportunities using market measurement, competitive analysis, managing distribution, product positioning, ethics and decision-making, forecasting, budgeting, performance evaluation and maintaining control.

MAN 370 Non-profit Leadership and Management 4 credits
Students critically examine theories and practices of non-profit leadership and management, such as building, developing, and working with governing boards, employees, volunteers, and community resource people. Students learn to maximize resources in the effective management of volunteers and program delivery while exploring decision making and ethical questions within non-profit organizations. (Prerequisite or Corequisite: MAN 301)

MAN 401 Business Strategy and Ethics 4 credits
This course introduces the critical business skills of planning and managing strategic activities. Case studies are emphasized. Students learn an executive-level perspective on strategy formulation and implementation. Students also explore the divergent viewpoints one might hold in analyzing the ethical issues likely to confront business practitioners. This course is the capstone course in the Business Program. Therefore, students should take this course only during one of the last two semesters of their program. (Prerequisites: ECO 101, MAT 110, ACC 201, MAN 301, FIN 301)

MAN 410 Managing Talent, Change and Negotiations 4 credits
The role of the human resource management function in organizations will be studied in this cross functional course. The changing nature of work and demographic shifts will be of particular emphasis. The course also will focus on increasing the understanding of the negotiating process and on increasing the skill level for negotiating by focusing on preparation, interest identification, strategies and tactics, listening skills, collaborative negotiations, competitive negotiations, and options outside of negotiation. Emphasis will be given to win/win collaborative negotiations and preserving relationships using principled dispute resolution strategies. (Prerequisite: MAN 301)

MAN 415 Biblical Christianity for Thoughtful People 4 credits

MAN 435 Applied Ethics 4 credits
Students examine the issues of accountability in government and business regarding human rights and ethics through readings, classroom discussion and debates. Exploring both ethical theory and personal values, students develop a system for making ethical decisions on their personal, public and work lives.

MAN 450 Managing Finances and Business Strategy 4 credits
Students will apply business analytical tools in finance and accounting to real world business scenarios. Students will use popular business software, such as QuickBooks, to gain experience in implementing and managing small business finances. Through case studies and other techniques students will learn how to integrate their knowledge of business disciplines in developing business strategy which will include principles of stewardship and sustainability issues.

MAN 460 Managing Teams, Communication & Projects 4 credits
This course focuses on team building and team leadership utilizing principles of stewardship and sustainability issues. Topics include creating a project charter and plan, working as a project team, executing the project and closing out the project. This courses is for seniors only. (Prerequisite: MAN 301)

MAN 488 Independent Study 1-4 credits

MAN 498 Internship 1-12 credits

MAN 499 Senior Outcomes 0 credits

Marketing (MAR)

MAR 301 Principles of Marketing 4 credits
This course provides an introduction to the study of marketing in business and other organizations. Topics that will be addressed in this course include the marketing environment, marketing ethics, information gathering, product development, pricing strategies, distribution strategies, the promotional mix, decision making, nonprofit marketing, social marketing and international marketing. (Prerequisite: junior standing)

MAR 312 Consumer Behavior 4 credits
This course addresses the theoretical background for understanding consumer behavior. This course will examine the interaction between the environment, consumer’s affect and cognition and a consumer’s ultimate behavior. Various theories and perspectives on consumer motivation, attitude formation, information processing, and decision-making will be discussed throughout this course.
MAR 313  Advertising and Promotions 4 credits
This course is designed to provide students with a basic understanding of integrated marketing communications through advertising, promotions, personal selling, public relations and internet marketing. Ethical issues related to these topics will be examined and trends in consumer and business-to-business buyer behaviors will be explored. (Prerequisite: MAR 301)

MAR 413  Marketing Research 4 credits
This course will teach some of the fundamental tools needed to analyze the behavior and attitudes of all types of consumers. Students will acquire an overview of scientific methods and the research process. Skills learned will include learning how to identify problems, formulate problem definitions, define research objectives, choose and develop the research design, analyze data, and write up and present a report. Students will be taught several research techniques including survey, observation, focus groups, in-depth interviews, projective techniques, experimentation, and secondary data analysis. This course is for seniors only. (Prerequisites: MAR 301)

MAR 414  Marketing Strategy 4 credits
This is the senior marketing capstone course. In the class we will discuss how marketing strategy, tactics, theory and practice are integrated. Students will learn to apply strategic thinking through case analysis and through class facilitation and frequent participation. (Prerequisite: MAR 301 and Junior standing)

MAR 470  Digital Marketing 2 credits
This course will focus on the latest tactics and techniques used by companies in online marketing. Online, digital, social media, and e-commerce, search engine, and mobile marketing are all growing aspects of integrated marketing campaigns. Students will learn the fundamental elements of effective online marketing and will prepare marketing plans that incorporate these new tactics. (Prerequisite or Corequisite: MAR 301 and MAR 413)

MAR 471  Global Marketing 2 credits
This course examines the complexities of international marketing. The scope and nature of international and global marketing operations are introduced. The influence of culture on global marketing is explored. The traditional elements of marketing, including price, product, promotion, distribution, and service are examined in the context of international markets. Students are asked to analyze what it takes to introduce a product into a foreign market. (Prerequisite: MAR 301)

MAR 488  Marketing Independent Study 1-4 credits
MAR 498  Marketing Internship 1-12 credits

Marketing Management (MKM)

MKM 311  Innovation and Complex Systems 4 credits
This course introduces innovation as an essential for the new rule of business. Students will learn the framework and techniques to systematize innovation allowing them to take advantage of emerging opportunities. They will use the knowledge to understand how innovation affects the way we deploy resources to fulfill customer desires, viewing themselves as agents of innovation within organizations. Within this course of study the student will also examine the underlying dynamics, culture and change within an organizational context.

MKM 321  Marketing Innovation 4 credits
This course is the foundation of the marketing program. It reviews the concepts and application-oriented framework for marketing decision-making in a dynamic environment. Students explore current and emerging trends within a shifting marketplace and economic landscape. The five P’s of marketing - place, price, product, promotion and people - are the center of this module. The course emphasizes environmental scanning, target customers and achieving organizational objectives through the intentional and skillful blending of marketing strategies. Students will create their own marketing plans within this module.

MKM 330  Integrated Marketing Communications 4 credits
This course will focus on developing marketing strategy and executing diverse communication tactics that are critical for business success. The student develops specific targeted communications and campaigns to meet their strategic communication objectives and target markets while integrating elements to gain an appreciation for the promotion mix (personal selling, direct mail, advertising, public relations, electronic and personal selling, etc.) tactics. Students will create their own promotional plans as avenues for transmitting marketing messages effectively and present those to the cohort based on their overall value related to usefulness, cost/benefit analysis and social value.

MKM 342  Marketing Research 4 credits
This course gives students the tools for researching consumers and markets. Students learn to develop surveys, observation, experiments, and other tools for learning about customer characteristics and requirements. They learn about analytical techniques, data sources, research planning and costs. It requires an understanding of the components of the marketing research process, how to utilize it effectively to obtain relevant information, and how to integrate such information into the marketing decision-making process. As part of this course students will fully investigate the dynamics of an industry of their choice. Students will analyze the structure, competition, success/failure factors, distribution systems and other industry factors. This analysis will be used in their final business plan.

MKM 350  Interactive and Mobile Marketing 4 credits
This course will explore the explosion of Internet marketing options to engage consumers. It is designed as an introduction to the rapidly evolving world of Interactive marketing focusing on the tools of Internet marketing. Students will explore integrating electronic methods into the marketing function. The course includes discussion of the importance of website return on investment and brand building, community development and digital marketing models. Social media strategy and mobile marketing are also built into the course. By analyzing a company’s marketing situation the student will complete an Internet marketing plan that aligns to the business objectives.

MKM 360  International Marketing 4 credits
Today the economy is global and it is necessary to understand other world stakeholders and how business is ethically implemented worldwide. This course focuses on contemporary issues marketing across national borders, marketing within foreign countries and collaborating within global markets. Areas of focus include identifying marketing-based international business opportunities within the context of cultural, social, economic and governmental factors that may influence buyer behavior and ultimately determine market strategy. Students will create international marketing plans to market products to other countries.
MKM 401 Understanding and Developing a Strategic Approach to Social Media 4 credits
This course will teach the fundamentals of using social media and explore how it is changing business communications through integration into marketing, PR, customer service and sales functions. Students will explore the process of developing a social media marketing and communications strategy for a business or organization and creating a strategic plan to chart a course for implementing that strategy. The strategic process will be supported by research and measurement projects using social search tools, in addition to assessing client goals, expectations and resources. Students will receive an introduction to the most widely used social tools in preparation of their research. As part of this course, students will choose a client to work with developing a real world social strategy throughout the series of three courses (Strategy, Implementation and Measurement).

MKM 402 Implementing Social Media Plans and Processes 4 credits
This course will explore the process of implementing a social media marketing and communications strategy utilizing a range of social media applications and platforms (including mobile). This process will include developing engagement approaches and creating content and social objects to populate channels for that engagement. Students will learn the fundamentals of building and optimizing a powerful presence in the most widely used social channels (Twitter, Facebook, LinkedIn, blogs, etc.) gaining real-world experience in this process by working with a client of their choice (this must also be the same client they developed a social media strategy in the prior course).

MKM 403 Monitoring and Measuring Social Media Communications 4 credits
This course will explore the process of managing and measuring a social media strategy using a range of (paid and free) social search and measurement tools. This process will include learning more about the role of a Community Manager and understanding the practical applications of launching a social media initiative and integrating social media into an existing company infrastructure. Students will learn the fundamentals of social media monitoring and strategies for online reputation management and will be exposed to a range of social media case studies. They will also have an opportunity to present their own measurements when they report on the successes and struggles working with the client they selected for SMC 401 and 402 courses.

MKM 411 Applied Business Ethics 4 credits
This course is designed to investigate the broad spectrum of personal, business and society ethical issues that managers/leaders encounter. As corporate America struggles to find its social and ethical identity in a business environment that grows increasingly complex, managers are confronted with exceedingly difficult challenges. These challenges include balancing their economic, legal, ethical, and social responsibilities to the variety of stakeholder groups in which they interact. This course provides the structure for students to explore their personal ethics and develop the framework for addressing tough ethical decisions in business and in marketing. Students will apply ethical frameworks to business problems.

MKM 431 Applied Accounting & Finance 4 credits
In this course financial information is made easier to comprehend. It provides the foundation for basic principles and concepts that will make non-finance managers better equipped for service to the organization. Students will address financial assessment, budgeting and spending, global and ethical implications of financial decision-making, and financial prioritization for the present and the future. This course will provide the framework for the financials of market planning strategy including sales, new product development, return on investment, price and profit while offering the student an understanding of corporate reports and internal control.

MKM 440 Business Plan 3 credits
Students will create their own business plan for a product of their choice. The goal of this course is to enable the student to become proficient in developing his or her own business plans.

MKM 441 Marketing Strategy 4 credits
This course combines the overall coursework students have learned throughout their program of study. Students analyze graduate-level case studies for developing and implementing strategies that are distinctive and sustainable. The students will explore market entry and strategy alternatives as well as the integration of marketing strategy within operations, finance, supply chain and corporate culture within a global economy. Collaboration and group work is essential as students determine markets to compete based on their organization’s ability to create a competitive value proposition for the consumer.

MKM 450 Innovation and Systems Thinking 4 credits
Learn the framework and techniques to systematize innovation taking advantage of emerging opportunities. Develop an understanding for how innovation affects the deployment of resources fulfilling customer desires. Examine the underlying dynamics, culture, and change within an organizational context and its interrelated systems. (Prerequisites: Minimum grade of C- in BUS 386)

MKM 452 Integrated Promotional Strategy 4 credits
Explore competencies in advertising, PR, sales promotion, and marketing through analyzing their strengths and weaknesses. Gain skills in strategy development and planning while concentrating on incorporating targets, timing, and message strategies with a U.S. and global perspective. Develop authentic communication skills to ethically advance organizational strategy. (Prerequisites: Minimum grade of C- in BUS 386)

MKM 454 New Media Literacy and Social Media 4 credits
Learn to analyze, develop, implement, and evaluate communication strategies in the new media landscape where traditional channels and online social media co-exist. Explore digital, mobile, and social media, how to build digital media marketing strategies and track their effectiveness to increase shareholder value. Consideration will also be given to ethical issues associated with online privacy and security. (Prerequisites: Minimum grade of C- in BUS 386)

MKM 456 Marketing Information and Analysis 4 credits
Examine management interaction and leadership in the world’s largest industry by identifying and addressing growth strategies. Develop key management concepts and techniques to support workplace efficiency and productivity to ethically drive the industry through winning customer experiences. (Prerequisites: Minimum grade of C- in BUS 386)
MAT 101  Contemporary Mathematics 3 credits
This course was designed to give the liberal arts student an experience in contemporary mathematics with emphasis on its connection to society. The concepts include financial mathematics, statistics, apportionment, voting, graphs and networks. (Prerequisite: Minimum grade of C- in MAT 095 or level 2 or higher placement on the Math Placement Exam.)

MAT 103  Beginning Algebra 2 credits
This course is not a general education course and should only be taken by students planning to take a course with MAT103 as a prerequisite. Topics include calculator skills, combinatorics, linear equations and systems of linear equations, story problems, function notation, exponentials and logarithms. Students must earn a minimum grade of C- in this course to progress to the next level Math course. (Prerequisite: Minimum grade of C- in MAT095 or level 2 placement on the Math Placement Exam.)

MAT 105  Intermediate Algebra 2 credits
This course is not a general education course and should only be taken by students planning to take a course with MAT 105 listed as a prerequisite. Topics include properties of exponents, polynomials, factoring, radicals, rational equations, and graphing functions. Students must earn a minimum grade of C- in this course to progress to the next level Math course. (Prerequisite: A minimum grade of C- in MAT 103 or level 3 placement on the Math Placement Exam)

MAT 110  Introduction to Probability and Statistics 3 credits
This course will explore fundamental topics from probability and descriptive and inferential statistics and apply these to a range of areas of study including business, social science, and biology. Topics include probability and counting rules, probability distributions, hypothesis testing, correlation, regression, chi-square, and analysis-of-variance. (Prerequisite: Minimum grade of C- in MAT 100 or MAT 103 or level 3 or higher placement on the Math Placement Exam.)

MAT 125  Precalculus 4 credits
This course emphasizes functions and their applications. It starts with investigating graphs and solutions of the algebraic functions including polynomial, rational, and root functions. The course continues by exploring transcendental functions including exponential, logarithmic, and trigonometric functions. The course concludes with a study of conic sections. The course is a good preparation for Calculus and for those students who will encounter functions in their course of study. Students must earn a minimum grade of C- in this course to progress to the next level Math course. (Prerequisite: Minimum grade of C- in MAT 100 or MAT 105 or level 4 or higher placement on the Math Placement Exam.)

MAT 135  Calculus I 4 credits
This course explores the concepts of limit and continuity, investigates techniques of differentiation and its applications, introduces integration, and provides the framework for the Fundamental Theorem. (Prerequisite: Minimum grade of C- in MAT 125 or level 5 placement on the Math Placement Exam.)

MAT 145  Calculus II 5 credits
This course is a continuation of MAT 135. Topics covered include techniques of integration, an introduction to differential equations, sequences and series and applications of these concepts. Other topics include parametric equations, polar equations, and conic sections. Students will be introduced to a computer algebra system. (Prerequisite: Minimum grade of C- in MAT 135 or equivalent)

MAT 165  Quantitative Reasoning for Nursing 3 credits
This course is designed to meet the needs of current and potential nursing students. The course will include a review of essential math concepts needed for dosage calculation including: fractions, percentages, measurements, conversions, and ratios. This course will help nursing students in applying basic mathematical concepts to real world situations. Dosage accuracy is highlighted in scenarios that employ critical thinking skills. The course will also include a basic introduction to the statistical concepts of mean, median, mode, standard deviation, and z-scores, with an emphasis on medical examples. (Prerequisites: Minimum grade of C- in MAT 095 or level 2 placement on the Math Placement Exam.)

MAT 200  Foundations of Elementary Mathematics 4 credits
This course gives students the mathematical foundation necessary to teach K-6 mathematics and to prepare for the Minnesota Teaching Licensure Basic Skills Exam. Topics include basic algebra, set theory, probability, statistics, geometry, and problem-solving techniques. (Prerequisite: Minimum grade of C- in MAT 100 or MAT 105 or level 4 placement on the Math Placement Exam.)

MAT 201  Elementary Mathematics: Numbers and Functions 3 credits
Mathematics content knowledge for K-6 classrooms presented using methods that deepen students’ understanding of the content and prepare students to present the material in their future classrooms. The course will emphasize problem solving, making connections, communication, reasoning, and using multiple representations. Content focus areas include: functions, graphs, proportions, and number sense. This course can be taken before, after, or at the same time as MAT202.
MAT 202  Elementary Mathematics: Geometry and Statistics 3 credits
Mathematics content knowledge for K-6 classrooms presented using methods that deepen students’ understanding of the content and prepare students to present the material in their future classrooms. The course will emphasize problem solving, making connections, communication, reasoning, and using multiple representations. Content focus areas include: geometry, measurement, probability, statistics. This course can be taken before, after, or at the same time as MAT201.

MAT 220  Discrete Mathematics 3 credits
This course serves as an introduction to formal proofs and is prerequisite for several upper level math courses. Additional topics covered include logic, set theory, function and relations. (Prerequisite: C- or better in MAT 135 or CSC 175)

MAT 255  Calculus III 4 credits
This course is a continuation of MAT 145. Topics covered include analytic geometry in three-dimensional space, vector calculus, partial differentiation, multiple integration, the Fundamental Theorems, and related applications. (Prerequisite: Minimum grade of C- in MAT 145)

MAT 305  Foundations of Geometry 3 credits
This course provides a systematic survey of Euclidean, hyperbolic, transformation, and fractal geometries. Through the use of technology, the students are better enabled to construct, analyze, and prove conjectures. (Corequisite: MAT 220 or previous completion of MAT 220 with a minimum grade of C-)

MAT 330  Advanced Probability and Statistics 4 credits
This course is a Calculus-based look at Probability and Statistics. Assuming students have been exposed to the basics through an introductory course, this course will build upon that experience. Topics include an in depth investigations of probability, discrete and continuous random variables, parameter estimation, hypothesis testing, inference using the normal and binomial distributions, goodness of fit, regression and correlation, and ANOVA. The course will include a statistical software component. (Prerequisites: Minimum grade of C- in MAT 145 and MAT 110)

MAT 375  Differential Equations and Linear Algebra 4 credits
This course is an overview of the concepts of differential equations and linear algebra necessary to solve applied problems. Topics include: Differential equations: separable, first-order linear, higher-order linear, linear systems with constant coefficients. Linear algebra: basis, dimension, matrices, eigenvalues/eigenvectors, and vector spaces. (Prerequisite: Minimum of C- in MAT 145)

MAT 450  Abstract Algebra 4 credits
This course is a rigorous introduction to abstract algebra. Topics include mappings, groups, equivalence relations, isomorphisms, rings, and fields. (Prerequisite: Minimum grade of C- in MAT 220)

MAT 460  Foundations of Analysis 4 credits
This course is a formal treatment of functions of a real variable. It covers the topology of the real line, sequences and series, and classic results in continuity, differentiation, and integration. (Prerequisite: Minimum of C- in MAT 145 and MAT 220)

MAT 478  Mathematics Seminar 3 credits
Students in this seminar will explore a variety of exciting mathematics problems. The course will be offered every spring but the topic will vary depending on the interests of the faculty member and the students. Students will sharpen their mathematical abilities by exploring an assortment of problem-solving strategies and clearly presenting generalized solutions. The opened-ended course number allows for more than one such experience. (Prerequisite: Minimum grade of C- in MAT 220 or consent of instructor)

MAT 488  Independent Study in Mathematics 1-4 credits
There are a plethora of topics in mathematics an advanced student could explore such as Difference Equations, Combinatorics, Graph Theory, Chaos Theory, Optimization, Operations Research, or Cryptography to name a few. The opened ended course number allows for more than one such experience. The student will work with a faculty mentor to choose an appropriate course, number of credits, and assessment scheme.

MAT 498  Mathematics Internship 1-16 credits
An exemplary real-world experience which allows for a deeper understanding of the mathematics used in a student’s field of interest.

MAT 499  Senior Outcomes 0 credits

Music (MUS)

MUS 101  Basic Musicianship 2 credits
Basic Musicianship is designed for the student with little background in music. This course will present concepts needed for an understanding of the basic fundamentals of music theory. Students will also have an introduction to ear training and the keyboard. (Offered every spring. No prerequisite. This course can serve as a prerequisite for MUS 201 and ED 446. Studio course.)

MUS 111  Class Piano I 2 credits
This is the first of two courses in a beginning piano instruction sequence. Through group class instruction students are given a practical knowledge of the keyboard and an understanding of the tonal-rhythmic structure of music. Keyboard skills requisite for handling classroom music situations or for personal enjoyment of music are developed. (Offered every fall and spring. No prerequisite. Players with previous keyboard experience may be exempt by examination. Can serve as a prerequisite to MUS 201 and ED 446. Studio course.)

MUS 112  Class Piano II 2 credits
This is the second of two courses in a beginning piano instruction sequence. Through group class instruction students are given a practical knowledge of the keyboard and an understanding of the tonal-rhythmic structure of music. Keyboard skills requisite for handling classroom music situations or for personal enjoyment of music are developed. (Offered every fall and spring. No prerequisite. Players with previous keyboard experience may be exempt by examination. Can serve as a prerequisite to MUS 201 and ED 446. Studio course.)

MUS 113  Piano Proficiency Lab for Music Majors 1 credit
This studio course supports students in achieving the piano proficiency requirements that are not covered through other music major courses. These include scales, arpeggios, open score reading, and sight-reading a 4-part texture. Remedial course: placement or exemption by keyboard faculty assessment. This course is a prerequisite for MUS 369 Art of Accompanying, MUS 439 Parish Music Internship and ED 472 Music Student Teaching. Passing of this course or the proficiency exam is a graduation requirement for the Music Performance, Music Theory/Composition, Music History/Literature, Church Music and Music Education majors.
MUS 115  Beginning Guitar I 1 credit
This course is designed for those with no knowledge of the instrument. Areas covered include tuning the guitar, strumming techniques, chords-two keys, and transposing. Open to all students. (Offered every fall and spring. No prerequisite. Players with previous guitar experience may be exempt by examination and move on to private guitar if desired or needed for program. Studio course.)

MUS 116  Beginning Guitar II 1 credit
This course is a continuation of Beginning Guitar I with additional chords in several more keys. This course is recommended for students desiring to study private guitar. (Offered every spring. Prerequisite: MUS 115 Beginning Guitar I or consent of instructor. Studio course.)

MUS 120  Listening to Life: Western Classical Music 2 credits
Using music primarily from the classical Western tradition, this course teaches music listening skills, relates music to history and culture, and reveals music as a conveyer of human emotions, thoughts, and ideals. The course also touches briefly on ethnic folk music, global art music, and popular music (American jazz, musical theatre, and pop music.) (This course earns 2 credits towards the 4 credit Fine Arts component of the general education curriculum. Offered every fall and spring, summers to be announced. No prerequisite. Can serve as a prerequisite to Music History.)

MUS 121  Listening to Life: Global & Popular Music 2 credits
Using global folk and art music and contemporary popular idiom music, this course teaches music listening skills, relates music to history and culture, and reveals music as a conveyer of human emotions, thoughts, and ideals. This course contributes to the Fine Arts/Aesthetic component of the General Education curriculum. MUS 121 is required for Music Education students.

MUS 161  Class Voice 1 credit
Students will examine and personally develop the foundations of a healthy, efficient technique of singing. Activities to achieve this goal include vocal exercises practiced in and out of the classroom, solo singing for one's classmates, lectures and demonstrations by the instructor on vocal technique and the vocal mechanism, and related reading assignments. (Offered every semester. No prerequisite. Studio course.)

MUS 201  Musicianship I 4 credits
This course begins with a brief review of music fundamentals (scales, keys, intervals and triads) and continues with four-part harmonic writing, and basic analysis. Exercises in keyboard harmony, sight singing, and dictation are included in the course. (Offered every fall. Prerequisite: MUS 101 or equivalent as determined by music placement test.)

MUS 202  Musicianship II 4 credits
Students continue to learn four-part harmonic writing, including the use of inversions and seventh chords. Exercises in analysis incorporate the study of melody, harmony, rhythm, texture, and form. Dictation, sight singing, and keyboard harmony are continued. (Offered every spring. Prerequisite: MUS 201 or equivalent.)

MUS 261  Beginning Conducting 2 credits
The goal of this introductory course is to begin to develop a clear and expressive conducting technique. Students will conduct in class frequently, videotaping their work and receiving immediate feedback and suggestions for improvement. Students will learn to conduct regular beat patterns, preparatory gestures, cues, cutoffs, deadbeats, fermatas, asymmetrical patterns, and subdivided gestures. Students will learn to make thoughtful decisions in varying their conducting pattern to show changes in dynamics, tempo, and articulation. Activities to strengthen the inner ear while conducting will also be included. Requirement: for Church Music and Music Education majors. (Offered every odd fall. Prerequisites: music reading ability, MUS201 and/or consent of instructor. Studio course.)

MUS 267  Diction for Singers 1 credit
This course is designed for the student who is interested in enhancing his or her vocal training by expanding one's knowledge of Italian and German diction and song repertoire. Emphasis is placed on the understanding and production of pronunciation. Voice students and music majors, particularly those in the choral and church music tracks, will want to register for this course. (Offered odd falls. Prerequisite: 2 semesters of MUS 860 - Private Voice or consent of instructor. Studio course.)

MUS 301  Musicianship III 4 credits
Students learn to write in the contrapuntal style of the 18th century. Chromatic harmonies and a study of classical period forms are also included in the course. Dictation, sight-singing, and keyboard harmony are continued. (Offered every fall. Prerequisite: MUS 202 or equivalent.)

MUS 302  Musicianship IV 4 credits
Students explore the new directions composers have taken in the 20th century and compose their own pieces in various contemporary styles. Keyboard harmony, dictation, and sight-singing are continued. (Offered every spring. Prerequisite: MUS 301.)

MUS 321  Music History I 3 credits
This course explores the Ancient, medieval, Renaissance and early Baroque periods of Western music. (Offered every third semester in sequence with the other two Music History Courses). Prerequisites: MUS 120 or MUS 121, MUS 201.)

MUS 322  Music History II 3 credits
This course explores the 18th and 19th centuries of Western music. (Offered every third semester in sequence with the other two Music History Courses). Prerequisites: MUS 120 or MUS 121, MUS 201. MUS 321 is preferred, but not required.)

MUS 323  Music History III 3 credits
This course explores Western Music from the late 19th century to the present. (Offered every third semester in sequence with the other two Music History Courses). Prerequisites MUS 120 or MUS 121 and MUS 201. MUS 321 and MUS 322 preferred but not required.

MUS 356  K-6 General Music Teaching Methods 2 credits
This course will deal with the planning and implementation of instruction in the non-performance-based music class from kindergarten to the senior high at the elementary school levels. Students will examine curriculum, textbooks and teaching materials available for these classes. The National Standards for Arts Education receive special attention in relation to planning a spiral curriculum. A strong emphasis is placed on unit and lesson planning. The course is required for all Music Teaching Majors. Offered every even fall. Prerequisite: MUS 120 or MUS 121.
MUS 357  7-12 General Music Teaching Methods 2 credits
This course will deal with the planning and implementation of instruction in the non-performance-based music class from kindergarten to the senior high at the secondary school levels. Students will examine curriculum, textbooks and teaching materials available for these classes. The National Standards for Arts Education receive special attention in relation to planning a spiral curriculum. A strong emphasis is placed on unit and lesson planning. The course is required for all Music Teaching Majors. Offered every even fall. Prerequisites: MUS120 or MUS 121, MUS 202.

MUS 360  String Techniques & Pedagogy 1 credit
This course acquaints students with the techniques and challenges of playing and teaching stringed instruments. (Offered even falls. Prerequisite: music reading ability. Studio course.)

MUS 361  Woodwind Techniques & Pedagogy 1 credit
This course acquaints students with the techniques and challenges of playing and teaching woodwind instruments. (Offered odd springs. Prerequisite: music reading ability. Studio course.)

MUS 362  Brass Techniques & Pedagogy 1 credit
This course acquaints students with the techniques and challenges of playing and teaching brass instruments. (Offered odd falls. Prerequisite: music reading ability. Studio course.)

MUS 363  Piano Pedagogy 1 credit
As an introduction to the various techniques related to the teaching of piano, students are exposed to and explore piano instructional materials and methodology. Practical experience is gained through observation, teacher interviews, and evaluation of pedagogical materials. (Offered even springs. Prerequisite: MUS 840 or other previous private piano study.)

MUS 364  Handbell Techniques & Pedagogy 1 credit
Through lecture and hands-on ringing, students are given practical study of handbell techniques, score preparation, and pedagogy. (Offered odd falls. Prerequisite: music reading ability. Studio course.)

MUS 365  Electronic Instruments Techniques & Pedagogy 2 credits
This course introduces students to a range of computer-based music technologies. Extensive work is done with the music notation/MIDI program, Finale. Students will also explore using pre-set patches, sequencing, and creating new synthesized sounds. CD ROM programs for music history, music education, music theory, and ear-training will also be explored. Students will be expected to log lab hours in the music technology studio. This course is an elective in all music majors, minors, and emphases. (Offered every spring. Prerequisites: music reading ability, computer literacy. Studio course.)

MUS 366  Vocal Techniques & Pedagogy 1 credit
This course is designed for advanced singers who wish to gain techniques and practice in teaching vocal technique, both in working with individual voice lessons and with choral groups. This course is required for the vocal tracks of the director of parish music (DPM) program and the music teaching major. Activities include leading warm-ups and teaching peer voice lessons. (Offered even falls. Prerequisites: private voice study and consent of instructor. Studio course.)

MUS 367  Percussion Techniques & Pedagogy 1 credit
This course acquaints students with the techniques and challenges of teaching and playing percussion instruments. (Offered even springs. Prerequisite: music reading ability. Studio course.)

MUS 368  Jazz Improvisation 1 credit
Students will explore concepts used in jazz improvisation. (Offered odd springs. Prerequisites: A workable knowledge of scales, chords, chord progressions, sight-reading, and a familiarity with the musical vocabulary. Studio course.)

MUS 369  Art of Accompanying 1 credit
This course is designed as a practice and provides students with the skills necessary to become artistic and capable accompanists. Areas explored include vocal, instrumental, and choral accompanying. (Offered odd falls. Prerequisite: MUS 840 or other previous private piano study. Studio course.)

MUS 424  Keyboard Literature 2 credits
A survey of keyboard instruments, literature and styles from 1600 to the present, excluding that which relates directly to the organ. (Offered odd springs. Prerequisites: MUS 120 or MUS 121, MUS 840 or other previous private piano study.)

MUS 425  Choral Literature 2 credits
A study of the choral literature from the Renaissance through the present (including global choral music) forms the material for this course. Choral composers and representative compositions from each era are studied. The historical perspective on choral music is discussed and a filing card reference library developed. (Offered odd falls. Prerequisites: MUS 120 or MUS 121, MUS 202 or consent of instructor.)

MUS 426  Instrumental Literature 2 credits
Instrumental literature will emphasize literature for school-aged groups. Instrumental composers and compositions are studied through lecture, listening, reading, and student presentations. Students also develop a level II and III, four-year curriculum for band and orchestra. Teaching strategies based on the National Standards for Arts Education will also be discussed. (Offered even falls. Prerequisites: MUS 120 or MSU 121, MUS 202 or consent of instructor.)

MUS 427  Organ Literature 2 credits
This course surveys organ literature of various historical, national, and stylistic types. Historical organ design, performance practice and aesthetics are emphasized. (Offered even falls.) Prerequisite: MUS 120 or MSU 121.

MUS 430  History of Sacred Music 4 credits
An examination of the practice and theology involved in the music of the church enables students to evaluate music in relationship to worship. (Offered on demand. Prerequisite: MUS 321 or MUS 322.)

MUS 431  Congregational Song 4 credits
Students examine the theology and history of congregational song, including psalms, liturgical chants, canticles, Latin and Greek hymnody, the Lutheran chorale, the English hymn, and contemporary sacred songs. (Offered odd springs. Prerequisite: MUS 120 or 121.)

MUS 439  Parish Music Field Experience 2 credits
This course offers experiences in parish music under the supervision of a cooperating parish musician. Activities include directing choirs, leading and accompanying congregational singing, performing attendant music, working with instrumentalists and cantors, planning worship, and composing practical music. (Offered on demand. Prerequisite: approval of Music Department.)

MUS 440  Church Organist 2 credits
This course examines the role of the organist in Lutheran worship and seeks to prepare organists to provide effective leadership of hymns and liturgy. (Offered on demand. Prerequisite: 4 semesters of MUS 850 - Private Organ Study or consent of instructor. Studio course.)
MUS 441 Organ Improvisation 2 credits  
In this course, students are challenged to introduce a greater degree of creativity into their service playing, to develop keyboard skills necessary for improvisation and to practice basic procedures for improvising choral preludes and intonations. (Offered on demand. Prerequisites: 2 semesters of MUS 850 - Private Organ Study, MUS 202. Studio course.)

MUS 444 Instrumental Arranging 1 credit  
Instrumental arranging focuses on the practical aspects of scoring and is approached in terms of understanding how composers have traditionally written for instrument(s) and ensembles. (Offered even springs. Prerequisites: MUS 201, current or previous enrollment in MUS 202.)

MUS 445 Choral Arranging 1 credit  
This course is designed for the musician wishing to make effective settings for choral groups. (Offered odd springs. Prerequisites: MUS 301, current or previous enrollment in MUS 302.)

MUS 456 Choral Conducting & Methods 2 credits  
This advanced conducting course will apply and develop the skills gained in MUS 261, focusing on leading choirs. Topics will include literature selection/programming for various school and church choirs, choral score study, audition procedures, seating formations, rehearsal planning and execution, working to develop vocal quality and musicianship in rehearsals and administration of church and school choral programs. A major component of the course will be the preparation and conducting of a public choral ensemble performance. Requirement for Vocal Music Education majors and Church Music majors-choral track. (Offered even springs. Prerequisite: MUS 261. Studio course.)

MUS 457 Instrumental Conducting & Methods 2 credits  
Rehearsal techniques, transcriptions, performance practices and score study of standard concert band and jazz ensemble repertoire will be presented. The organization and management of an instrumental program will be covered. A major component of the course will be the preparation and conducting of a public instrumental ensemble performance. Requirement for Instrumental Music Education majors. (Offered odd springs. Prerequisite: MUS 261. Studio course.)

MUS 488 Independent Study in Music 1-4 credits  
Topic and course of study determined in consultation with instructor. (Offered on demand. Prerequisite: consent of instructor.)

MUS 492 Senior Project: Composition Recital 2 credits  
The student is challenged to compose a major piece or group of pieces. Students are challenged to begin to develop a personal language, one that gives evidence of skill, imagination and originality and that communicates effectively to an audience. This project is the capstone experience for the Music Major in the Music Theory/Composition track. As part of this capstone, students will submit a written essay describing how the experience implemented and was supported by the Framework for Learning. (Offered on demand. Prerequisite: MUS 990) Honors lesson fee applies.

MUS 493 Senior Project: Thesis 2 credits  
The student will research a musicological topic, write a documented thesis and present their research in a public lecture/demonstration. This project is the capstone experience for the Music Major in the Music History/Literature track. As part of this capstone, students will submit a written essay describing how the experience implemented and was supported by the Framework for Learning. (Offered on demand. Prerequisites: MUS 321, MUS 322, MUS 323 and consent of instructor.) Honors Lesson fee applies.

MUS 494 Senior Project: Conducting Recital 2 credits  
The student will conduct a public recital of an instrumental and/or vocal ensemble for which they have selected literature, prepared scores, rehearsed the ensemble, and prepared a program. The conducting experience may involve regularly scheduled university ensembles and student organized ensembles. This project is done with the supervision of the appropriate faculty conducting teacher. This is an option for the capstone experience for the Music Major in the Applied Music track. As part of this capstone, students will submit a written essay describing how the experience implemented and was supported by the Framework for Learning. (Offered on demand. Prerequisites: MUS 456 or MUS 457 and consent of instructor.) Honors Lesson fee applies.

MUS 495 Senior Project: Solo Recital 2 credits  
The student will present a public recital on their primary instrument, building on private lesson study over several semesters. This project is done with the supervision of the student's primary applied teacher. This is the capstone experience for the Music Major in the Applied Music track. As part of this capstone, students will submit a written essay describing how the experience implemented and was supported by the Framework for Learning. (Offered on demand. Prerequisites: MUS 9xx and consent of instructor.) Honors Lesson fee applies.

MUS 498 Music Business Internship 2 credits  
This off-campus internship with a music business (usually in the Twin Cities metro area) serves as the capstone for the music business major. Students may take other classes on campus during this part-time internship.

MUS 550 Graduate Organ Lessons 1 credit  
A course of private lessons, practice, and performance designed to develop technique and musicianship in organ performance and church service. (Prerequisite: prior organ study at the undergraduate level and/or consent of the instructor.)

MUS 712 Shades of Harmony Multicultural Gospel Choir 0-1 credits  
The multicultural choir consists of students and staff from varying races, cultures and backgrounds who are interested in learning about, experiencing and singing African-American gospel music and spirituals. Gospel music has an improvisational dimension to it and the choir typically learns new music by rote, although music may be provided for choir members. In addition to the choral rehearsals, there will be periodic discussions of the historical aspects of the music, and the social atmosphere that brought the songs to life. The choir will occasionally sing for chapel, but will also perform at local area churches, and is expected to expand its performance territory. Any student, staff or faculty member can register for the choir. (No auditions are required.)

MUS 713 Jubilate 0-2 credits  
This choir regularly provides music for chapel worship. Special projects include the Fine Arts Christmas Concert and choral worship services throughout the year. While full-year membership is desired, students may audition to enter the choir at semester breaks. Jubilate is an excellent ensemble for students who wish to sing but are involved in other touring ensembles or will be off-campus part of the year as student teachers or interns. (Offered every fall and spring. Prerequisite: choral audition for placement by instructor.)

MUS 714 Christus Chorus 0-2 credits  
This group presents major choral works in a series of concerts, including the Fine Arts Christmas and Concert. Weekend tours/retreats and an extended annual spring tour are part of the schedule. Trips abroad are planned occasionally. Auditions are held at the beginning and end of each academic year. Full-year membership is required. (Offered every fall and spring. Prerequisite: choral audition for placement by instructor.)
MUS 716 Opera Workshop 0-2 credits
Exploration of operatic singing, character development, and basic stage movement through workshop activities, class play, and assigned operatic scenes. Open to sophomores, juniors, and seniors. Must also be enrolled in MUS 860 or MUS 960. First time enrollment must be for 2 credits.

MUS 717 Vox 9 (Vocal Jazz Ensemble) 0-2 credits
This is a small vocal ensemble of 4-16 singers focusing on learning and performing vocal jazz literature. The group meets for one rehearsal 90 minutes/week and performs occasionally on campus. May be taken for 0-2 credits. Repeatable.

MUS 720 Concert Band 0-2 credits
Concert Band performs works drawn from worldwide genres. Performances include chapel services, fall and spring concerts, and Commencement. Occasional off-campus performances are also scheduled. (Offered every fall and spring. Prerequisite: prior instrumental experience and seat audition placement.)

MUS 730 Chamber Ensemble 0-1 credits
Chamber Ensemble performs works drawn from worldwide genres. Performances include chapel services, fall and spring concerts, and Commencement. Occasional off-campus performances are also scheduled. (Offered every fall and spring. Prerequisite: prior instrumental experience and seat audition placement.)

MUS 739 CSP Ringers (Beginning Handbell Ensemble) 0-1 credits
This course is open to any student with limited or no handbell experience. It teaches basic handbell techniques. Members of this class will perform 1-2 times/semester in chapel. May be taken for 0-1 credit. Repeatable.

MUS 740 Handbell Ensemble 0-2 credits
This ensemble is open to any student with handbell experience or sufficient music reading ability. It will perform both on campus for chapel services and the Fine Arts Christmas Concert as well as for area congregations. Members of this ensemble may also belong to other music organizations on campus. (Offered every fall and spring. Prerequisite: music reading ability, audition for placement by instructor.)

MUS 750 Blue Rondo (Jazz Band) 0-2 credits
Jazz Ensemble and Jazz combos from the group perform works from various jazz styles. Performances include fall and spring concerts, chapel service playing, and occasional off campus performances. (Offered every fall and spring.) Prerequisite: previous instrumental experience. May be taken for 0-2 credits. Repeatable.

MUS 760 Percussion Ensemble 0-1 credits
The Percussion Ensemble is open to all students and is designed to develop mastery of various percussion instruments. Students will develop and refine percussion techniques through the rehearsal and performance of standard percussion ensemble repertoire.

MUS 782 Chapel Band 0-1 credits
Open to singers and instrumentalists by audition. The ensemble performs a variety of praise, prayer and ethnic worship music for chapel in contemporary music idioms. Planning and leading a full chapel service is a feature of the group's activities. (Prerequisite: audition by instructor.)

MUS 800 Violin 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 801 Viola 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 802 Cello 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 803 String Bass 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 810 Flute 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 811 Oboe/English Horn 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 812 Clarinet 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)
MUS 810  Saxophone 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 811  Trumpet 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 812  Tuba 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 813  French Horn 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 814  Bassoon 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 815  Recorder 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 816  Handbell Lesson 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 817  Percussion 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 818  Private Jazz Lesson 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 819  Private Jazz Lesson 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 820  French Horn 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 821  French Horn 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 822  French Horn 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)
MUS 841  Harpsichord 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 850  Organ 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 850  Organ 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 860  Voice 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 861  Private Popular/Jazz Voice Lessons 0.5-1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: 4 semesters of MUS860; approval and placement by instructor. Private lesson fee.)

MUS 870  Guitar 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 872  Private Electronic Music Lessons 0.5,1 credits
Private weekly 1/2 hour lesson in using electronic music technology.

MUS 880  Conducting Lessons 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: approval and placement by instructor. Private lesson fee.)

MUS 890  Composition 0.5,1 credits
1 credit each, repeatable. Meets 1/2 hour per week. May not be taken pass/no pass. These courses may be repeated with credit. Individual lessons on the standard orchestral and band instruments and voice stress proper tone production, phrasing and style. Special techniques unique to the instrument are studied. Material covered includes standard works for the instrument. All lessons include studio classes scheduled throughout the term as a lab time. (This course is open to students who have had MUS 201. (Offered every semester. Prerequisites: MUS 201; approval and placement by instructor. Private lesson fee.)

MUS 900  Honors Violin 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 901  Honors Viola 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 902  Honors Cello 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 903  Honors String Bass 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 910  Honors Flute 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)
MUS 911  Honors Oboe/English Horn 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 912  Honors Clarinet 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 913  Honors Saxophone 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 914  Honors Bassoon 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 915  Honors Recorder 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 920  Honors Trumpet 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 921  Honors Trombone 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 922  Honors French Horn 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 923  Honors Tuba 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 924  Honors Euphonium 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 930  Honors Percussion 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor’s approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 931  Honors Handbell Lesson 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructors approval. Honors lessons may be taken in conjunction with recital preparation. Private lessons are also available for composition. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)
MUS 940  Honors Piano 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 941  Honors Harpsichord 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 950  Honors Organ 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 960  Honors Voice 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 961  Honors Private Popular/Jazz Voice Lesson 2 credits
This is a private, one hour weekly lesson for advanced students in singing in jazz, pop, and musical theatre styles. Honors lesson fee applies. (Prerequisite: Four semesters of MUS 860 and instructor approval. At least one semester of MUS 861 recommended.)

MUS 970  Honors Guitar 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructor's approval. Honors lessons may be taken in conjunction with recital preparation. All lessons include studio classes scheduled throughout the term as a lab time. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 980  Honors Conducting Lesson 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructors approval. Honors lessons may be taken in conjunction with recital preparation. Private lessons are also available for composition. (Offered every semester. Prerequisites: music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

MUS 990  Honors Composition Lessons 2 credits
2 credits each, repeatable. Meets 1 hour per week. May not be taken pass/no pass. Each of the above 800 level individual lessons may be taken as weekly one-hour lessons with the instructors approval. Honors lessons may be taken in conjunction with recital preparation. Private lessons are also available for composition. (Offered every semester. Prerequisites: MUS 202 and MUS 890; music reading ability, previous study at the 800 level and/or approval and placement by instructor. Private lesson fee.)

Nursing (NUR)

NUR 230  Foundations of Professional Nursing 5 credits
This course addresses the pathophysiology of illness and disease in adult and geriatric patients. Using active learning strategies, students will identify disease risk factors, clinical manifestations, and explore symptom assessment. (Prerequisites: Admission to Nursing Program)

NUR 231  Foundations of Professional Nursing Lab 3 credits
This lab course focuses on creating a solid foundation for nursing care of the adult with an emphasis on the geriatric patient. Students apply the skills learned in the theory component of this course. Emphasis is placed on holistic basic health assessment, documentation of assessment, evidence based assessment tools, and the introduction of skills necessary to maintain wellness and promote the health of diverse adult and geriatric populations. Basic principles of medication administration are covered. Medication administration content focuses on client rights, safety, and methods of oral and non-parenteral medication administration of adults. Basic nursing concepts of safe patient handling and client assistance with activities of daily living are reviewed and reinforced. (Prerequisites: Admission to Nursing Program)
NUR 241 Pharmacology in Nursing 3 credits
This course examines the role of the nurse in comprehensive care of patients that require pharmacological therapy, including the use of integrative therapies. Content focuses on client rights, safety, and methods of medication administration across the lifespan. Information technology including the electronic health record are utilized to support safe medication administration. This course includes classroom instruction, simulation, and skills lab. (Prerequisites: Admission to Nursing Program)

NUR 242 Nursing Care of the Adult I 5 credits
Utilizing evidence-based practice, students apply theoretical knowledge, scientific principles, and the teaching/learning processes to patient care while working with the interprofessional team to promote health for the adult and geriatric patient. The role of the nurse as provider and coordinator of care in planning, implementing, and evaluating evidence-based care is emphasized. The focus is on principles essential for acquiring and developing technical nursing skills in addition to effective use of resources such as databases, incorporating them into professional practice. This course includes classroom instruction, clinical experiences, simulation, and skills lab. (Prerequisites: Minimum grade of C in NUR 230, NUR 231, NUR 232)

NUR 243 Health Assessment Lab 1 credit
This lab course provides the students with the knowledge and clinical assessment skill necessary to perform and document a comprehensive health assessment utilizing the skills of history taking, inspection, palpation, percussion, and auscultation. Normal assessment findings, variations from normal findings, and cultural assessment differences are reviewed. This lab enables students to practice and refine interprofessional and therapeutic communication as part of acquisition of assessment skills. (Prerequisite: Minimum grade of C in NUR 231, NUR 233)

NUR 330 Ethics & Decision Making in Nursing Practice 4 credits
This course examines the fundamental ethical theories, principles, Christian virtues, and models of decision-making designed, to support the complex issues nurses face today. At the completion of this course students will have a greater understanding of the ethical principles applied to nursing practice and health care delivery settings. Basic ethical principles relating to research with human subjects will be explored. The Christian ethic of social justice is explored with the emphasis upon reducing health disparities. Students will begin to develop a personal model of decision making that is consistent with core personal values, legal and regulatory requirements, standards of care and the ANA Code of Ethics for Nurses.

NUR 331 Evidence Based Practice 3 credits
This course provides tools for understanding how research in nursing improves patient outcomes and the health of populations. Topics include research design and methodologies, ethical guidelines, beginning research writing and the role of the nurse as a collaborator in research. The student acquires the skills needed to utilize databases to search for and identify scientific resources, synthesizing data to determine best practice in the care of individuals, families, and populations. This course includes classroom instruction. (Prerequisites: Minimum grade of C in NUR 240, NUR 241, NUR 242)

NUR 341 Palliative and End of Life Care 3 credits
This course examines complex issues unique to end of life, such as life support and patient self-determination. Emphasis is placed on holistic patient care, focusing on the role of the nurse in advocating and caring for the physical, emotional, cultural and spiritual needs of the patient and their family at the end of life. Additionally the role of the palliative interventions for patients with chronic illness and alterations in comfort is explored. The role of the hospice nurse and care of the dying patient is examined. This course includes classroom instruction, clinical experiences, simulation, and skills lab. (Prerequisites: Minimum grade of C in NUR 240, NUR 241, NUR 242)

NUR 342 Nursing Care of the Adult II 6 credits
This course expands upon Nursing Care in Adult I with a focus on disease etiology, clinical manifestations of illness, and management of holistic nursing care for chronic abnormalities of the adult population. Students synthesize data and prioritize care for multiple complex adult and geriatric patients, making adaptations to plans of care based on the nursing process. Students expand their nursing role as effective communicators and collaborators in interprofessional healthcare teams, emphasizing continuity and quality of care with concepts of case management and health informatics. The course expands upon the role of the nurse as teacher and advocate for patient well-being as well as the legal and ethical professional values of the nurse. Students use self-reflection and self-evaluation processes to enhance their growth in professional roles. This course includes classroom instruction, clinical experiences, simulation, and skills lab. (Prerequisites: Minimum grade of C in NUR 240, NUR 241, NUR 242)

NUR 345 Professional Practice and Role Development in Nursing 4 credits
This course explores the historical, current, and future outlook of nursing practice. Students will critically examine the current and emerging trends for the nurse's role in health care delivery. Professional accountability is emphasized through reinforcement of the profession's Code of Ethics for Nurses and the Nursing Scope and Standards of Practice, and Nursing's Social Policy Statement. Emphasis will be placed on how social policy may influence nursing practice and healthcare delivery. Nursing theory is introduced. Students will draft a personal philosophy of nursing, to include his/her beliefs regarding the four major concepts of nursing (nurse, client, health, and environment) and their interface to the interprofessional team, and the evolving context of healthcare.

NUR 350 Nursing Care of the Childbearing Family 4 credits
Utilizing the nursing process, this course prepares the student to meet the developmental, biological and psychosocial health and illness needs of the childbearing family within the context of family-centered care. Students analyze theories, concepts, research, issues and trends as well as genetic and environmental factors that affect the health of the childbearing family. This course includes classroom instruction, clinical experiences, simulation, and skills lab. (Prerequisites: Minimum grade of C in COM 309, PSY 230, NUR 331, NUR 341, NUR 342)

NUR 351 Nursing Care of the Childrearing Family 4 credits
Utilizing the nursing process, this course prepares the student to meet the developmental, biological and psychosocial health and illness needs of the childrearing family within the context of family-centered care. Students analyze theories, concepts, research, issues and trends as well as genetic and environmental factors that affect the health of the childrearing family. This course includes classroom instruction, clinical experiences, simulation, and skills lab. (Prerequisites: Minimum grade of C in PSY 230, COM 309, NUR 331, NUR 341, NUR 342)
NUR 352 Behavioral Health in Nursing 4 credits
Students apply evidence-based practice in the care and management of individuals experiencing alterations in mental health. Students investigate implications of living with an altered pattern of behavior, thought, or mood. The impact of these alterations on the family and community are also discussed. The professional values of the nurse are explored through study of ethical issues and the therapeutic use of self in establishing nurse-patient relationships. The course emphasizes analysis of coping mechanisms and other treatment modalities along with the nurse’s role in interprofessional collaboration. This course will be explored. Ongoing evaluation methods with measurable outcomes will be identified with discussion of care plan revision based on the patient’s needs and health risks based on their prevention level of risk with contrast to the public health prevention levels. Formulation of a collaborative, personalized, and proactive care plan to address the patient’s needs and health risks based on their prevention level of risk will be explored. Ongoing evaluation methods with measurable outcomes will be identified with discussion of care plan revision based on the outcomes.

NUR 430 Nursing Informatics 4 credits
This course introduces students to healthcare information systems and basic informatics concepts. The impact of technology to safeguard nursing practice and patient outcomes will be examined. Emphasis is placed on the management of information, knowledge, and technology to support efficiency, encourage effective communication, enhance the quality and safety of patient care, and ensure accurate documentation and revenue capture. Efficiency and accuracy of data collection for regulatory purposes will be explored via extracted or abstracted methods. The use of data to influence changes in clinical practice aimed at the improvement of patient outcomes will be examined. Students will explore informatics concepts and continuous improvement models to support improved workflow and efficiency, encourage effective communication, drive decision support, and ensure accurate documentation. Resource stewardship and patient safety considerations will guide students throughout the course.

NUR 445 Introduction to Care Coordination & Case Management 4 credits
This course will compare health reform goals and the role of care coordination and case management in supporting improved quality and safety of care for individuals and populations, and controlling cost through the efficient and effective use of resources that mitigates fragmentation of communication of health information and delivery of services. The nurse’s role in patient-centered care coordination is explored with emphasis on care transitions and care coordination models for the different levels of care. Risk stratification tools will be examined with contrast to the public health prevention levels. Formulation of a collaborative, personalized, and proactive care plan to address the patient’s needs and health risks based on their prevention level of risk will be explored. Ongoing evaluation methods with measurable outcomes will be identified with discussion of care plan revision based on the outcomes.

NUR 460 Community Health Nursing 4 credits
This course focuses on the role of the nurse providing population focused nursing care supporting clinical prevention. The history of community health will be reviewed and contrasted with the current roles in community health nursing. Concepts of health promotion, disease prevention, epidemiology, environmental health and emergency/disaster preparedness are explored. Health policy will be analyzed within and outside the United States and as to its impact on health disparities, health, the healthcare experience, and cultural competence of those delivering the care. The Christian ethic of social justice will be further examined as it relates to populations and reducing health disparities. A practice experience designed to meet the requirements for the Minnesota Board of Nursing Public Health Nursing Registration is included, which involves completion of a community health assessment. In addition, a proposed public health program with population focused nursing interventions will be identified through collaboration with community agencies. Lastly, measurable health-related outcomes for the community/population assessed will be identified.
NUR 461 Leadership and Management in Nursing 5 credits
This synthesis course focuses on nursing leadership and professional role development. Students consider principles of management, leadership, conflict resolution, negotiation, and group process skills as they evaluate the role of the nurse as a designer, manager, and coordinator of interprofessional care. The course addresses methods to evaluate and improve the quality of nursing care and analyze cost-effective healthcare delivery systems. Students are required to complete and present a quality improvement project as part of their clinical experience. This course includes classroom instruction, clinical experiences, simulation, and skills lab. (Prerequisites: Minimum grade of C in NUR 350, NUR 351, NUR 352)

NUR 463 Care of the Complex Patient 3 credits
Students synthesize knowledge and apply evidence-based practice in the care and management of patients with multiple complex health conditions. As accountable decision makers, students correlate patient assessment with pathophysiology and evaluate responses to interventions for patients requiring intensive nursing and medical care. Students further develop the roles of educator, collaborator, leader, and advocate to care for patients and families across the continuum of care. This course includes classroom instruction, simulation, and skills lab. (Prerequisites: Minimum grade of C in NUR 350, NUR 351, NUR 352)

NUR 470 Community and Public Health 4 credits
Concepts of health promotion, disease prevention, epidemiology, environmental health, urban and rural healthcare, health disparities, and community needs assessment, social determinants of health, health theories, and emergency/disaster preparedness are explored and related to the Christian ethic of social justice. Students explore the role of the nurse as a change agent in influencing public health policy, and the nurse’s role in the prevention of disease. The course includes a clinical experience designed to meet the requirements for the Minnesota Board of Nursing Public Health Nursing Registration, which involves completion of a community health assessment. This course includes classroom instruction, clinical experiences, simulation, and skills lab. (Prerequisites: Minimum grade of C in NUR 461, NUR 463)

NUR 471 Transition to Professional Nursing 7 credits
This capstone course prepares students for entry into professional nursing practice as a lifelong learner. Utilizing self-reflection, students will identify goals that demonstrate responsibility for continued personal and professional development. Students complete an internship experience focused on transition to practice. As part of processing the accumulation of baccalaureate nursing knowledge, NCLEX-RN exam preparedness is also a course focus. This course includes classroom instruction and clinical experiences. (Prerequisites: Minimum grade of C in NUR 461, NUR 463)

NUR 475 Nursing Capstone 4 credits
This capstone course emphasizes reflective practice and integration of learning obtained during student’s liberal arts and fundamental nursing course journey. Students will refine their personal philosophy of nursing, to include his/her beliefs regarding the four major concepts of nursing (nurse, client, health and environment) and their interface to the interprofessional team, and the evolving context of healthcare. Short- and long-term professional goals will be identified to include their plan for lifelong learning and contributions for advancement of the profession. An e-professional portfolio will be created and compiled by each student.

NUR 498 Nursing Practicum 1-12 credits
The goal of the Nursing Practicum is to advance student nursing skills and knowledge. This practicum places students in a setting where the student learns to apply entry-level and more advanced competencies, focusing on enhanced preparation for the NCLEX-RN exam.

Orthotics and Prosthetics (OP)

OP 500 Ethics and Compliance in Orthotics and Prosthetics 3 credits
This course explores ethical considerations for orthotics and prosthetics in a healthcare setting. Students will critically analyze ethical concepts, which influence the development of healthcare policies and regulations in the orthotics and prosthetics fields. The course will further examine the relevance of ethical considerations in healthcare compliance.

OP 505 Clinical Considerations of Lower Extremity Orthotic Management 3 credits
This course integrates current principles in human movement, pathology, functional assessment and measurement. Principles are then applied through the formulation and implementation of an orthotic treatment plan. The students will research, design, fabricate, and fit functional and accommodative orthotic devices for the lower limb.

OP 510 Clinical Considerations of Spinal Orthotic Management 3 credits
This course incorporates principles of orthopedic assessment, biomechanics, and growth and development. Principles are then applied through the formulation and implementation of orthotic treatment protocol. Students will design, fabricate, and fit corrective and supportive spinal orthoses for conditions of the spine based on evidence-based standards.

OP 515 Clinical Considerations of Upper Extremity Orthotic Management 3 credits
This course integrates the knowledge gained through rehabilitation, orthopedic and functional assessment and incorporates the information into a treatment plan. Techniques are then applied through the implementation of orthotic treatment protocol. Students will research, design, fabricate, and fit upper extremity orthoses.

OP 520 Clinical Considerations of Trans-Tibial Prosthetic Management 3 credits
This course focuses on the process of patient assessment through the formulation and implementation of a prosthetic treatment plan. It includes trans-tibial shape capturing methods with variations in socket designs and suspension techniques as used in contemporary prosthetic practices. This course utilizes evidence to base clinical decisions and to resolve clinical complications that can affect patients with lower limb amputations.

OP 525 Epidemiological Statistical Analysis 3 credits
Students will examine the concepts, methods, and usage of statistical data within the context of epidemiological research. This course will include statistical analysis including descriptive and inferential statistics in research topics including disease mortality, risk factors, chronic diseases, and cancer and immunity. Statistical computations will form the foundation of this course, with an emphasis placed upon the use of statistics within the epidemiological research context.

OP 530 Research Methods 3 credits
This course examines the various research methodologies used in orthotics and prosthetics. It provides an overview of quantitative and qualitative research methodologies including research design, data collection and analysis, interviewing, case studies, and action science. The philosophy, ethics, and politics of research are introduced.
OP 535  Clinical Considerations of Trans-Femoral Prosthetic Management 3 credits
This course emphasizes the process of patient assessment through the formulation and implementation of a prosthetic treatment plan. It integrates anatomy, biomechanics, prosthetic design principles and material science to analyze clinical challenges that can affect patients with high-level lower limb amputations.

OP 540  Clinical Considerations of Upper Extremity Prosthetic Management 3 credits
This course integrates anatomy, patient assessment, biomechanics, and prosthetic design principles to diagnose clinical problems that can affect patients with upper extremity deficiency. Students will design and implement a prosthetic treatment plan, fabricate and fit the trans-radial and trans-humeral prostheses. This course will also cover innovative technologies in upper limb socket design and identify advanced components to enhance upper-limb function.

OP 545  Orthotic and Prosthetic Practice Management 3 credits
This course will examine the general business practices used in the orthotic and prosthetic industry. Topics include record keeping, time management, regulatory compliance, financial statements, human resources, marketing and legal issues. Professional issues including the certification process, personal goal setting and leadership skills assessment are also discussed. Students will apply these principles along with ethical responsibility and critical thinking skills to management practices of business decision making and strategic planning.

OP 590  Master's Capstone 3 credits
The capstone course provides the orthotic and prosthetic professional with the opportunity to synthesize the learning, which has taken place throughout the program. It further focuses upon the practical application of knowledge within the orthotic and prosthetic industries. The capstone will serve as an assessment of student learning within the Master of Science in Orthotics and Prosthetics program.

Physical Therapy (DPT)

DPT 7000  Independent Study 1-4 credits

DPT 7100  Service Learning I 1 credit
This is the first course of a two course service learning sequence. Christian Service is an important component of the Lutheran tradition, a key element of the Concordia, St. Paul mission statement and the cornerstone of the CSP DPT Program. Service-learning I incorporates cultural competence, meaningful service, and critical reflective thinking to enhance student learning. The students will participate in lectures and discussion, interact with community leaders from different cultures, reflect on cultural and community topics and serve within the community. These activities are designed to reinforce the importance of life-long community and professional engagement, and strengthen the APTA core values of altruism and social responsibility.

DPT 7101  Anatomy 6 credits
This course is a comprehensive study of human anatomy, which includes dissection of a human cadaver. Skeletal, muscular, nervous, digestive, cardiovascular, respiratory, and urogenital systems will be covered, and emphasis will be placed on the relatedness of structure and function.

DPT 7102  Systems Physiology and Pathophysiology I 3 credits
This first course of a two-course sequence begins with a cell structure and function overview. The physiology and pathophysiology of the endocrine, musculoskeletal, cardiovascular, and nervous systems are presented. Fundamentals of pathology for each system are presented from various perspectives: etiology; pathogenesis; signs and symptoms; medical diagnosis, including laboratory tests and diagnostic imaging; and treatment including pharmacological intervention. Emphasis is placed on identifying "red flags" that would indicate to a physical therapist that treatment may be contraindicated or referral to another healthcare provider is appropriate. Class activities include lecture, discussion and problem solving scenarios.

DPT 7103  Applied Neuroscience 3 credits
This course provides an in-depth exploration of human movement, learning, communication, memory, and emotions. Topics include the components and neuroplasticity of the central and peripheral nervous systems. In addition, clinical aspects of neurological conditions most applicable to the physical therapist are presented. Class activities include lecture, laboratory and working through case scenarios.

DPT 7104  Functional Anatomy/Biomechanics 3 credits
Regional functional and articular anatomy is explored and applied in a rehabilitation context. Principles of and instrumentation for motion analysis are utilized to develop a thorough understanding of human movement. Class activities include lecture, observation, and laboratory activities. Two movement analysis projects provide the student experience in analysis and interpretation of functional movement patterns.

DPT 7105  Systems Physiology and Pathophysiology II 3 credits
This is the second course of a two-course sequence. The physiology and pathophysiology of the integumentary, immune, rheumatic, pulmonary, hematologic, genitourinary, hepatic, pancreatic and biliary and gastrointestinal systems are presented. An overview of infectious diseases and oncology is provided. Fundamentals of pathology for each system are presented from various perspectives: etiology; pathogenesis; signs and symptoms; medical diagnosis, including laboratory tests and diagnostic imaging; and treatment including pharmacological intervention. Emphasis is placed on identifying "red flags" that would indicate to a physical therapist that treatment may be contraindicated or referral to another healthcare provider is appropriate. Class activities include lecture, discussion and problem solving scenarios.

DPT 7106  Medical Screening 2 credits
This course is an introduction of medical screening of patients for conditions that may require examination by a physician or a physician-extender across the lifespan. The lecture and laboratory experiences will enhance professional communication between physical therapists, patients, and physicians facilitating patient referral outside physical therapy.

DPT 7111  Clinical Seminar I 2 credits
This is the first course of a three course sequence. The roles of the profession of physical therapy within the healthcare system, the healthcare team, and the Christian tradition are explored. Students begin to develop the professional behaviors and communication skills required to thrive in those roles. Emphasis is on the application of this material to real-world situations through multiple clinic visits that occur throughout the semester. Class activities include lecture, group activities, and clinic visits.
DPT 7112  Clinical Seminar II 2 credits
This is the second course of a three course sequence. Issues related to morals and values, cultural and socioeconomic diversity, and psychosocial aspects of disability are explored within the context of multiple clinical visits. Legal and ethical issues in physical therapy practice are introduced. Class activities include lecture, group activities, and clinic visits.

DPT 7121  Clinical Skills I/Foundations 4 credits
This is the first course of a three course sequence. The fundamental processes involved in physical therapy patient/client examination, evaluation, and intervention are introduced. Bed mobility, transfers, and wheelchair/assistive device management are included. A basic examination framework that can be utilized across diagnoses and throughout the lifespan is developed. Students begin to use medical terminology to document findings, using a variety of structured formats. Class activities include lecture, lab, interaction with community volunteer patients, and case studies.

DPT 7122  Clinical Skills II/Manual Therapy and Exercise 4 credits
This is the second course of a three course sequence. Beginning skills in physical therapy interventions for a variety of impairments and functional limitations across diagnoses and the lifespan are developed. Principles of exercise prescription and progression are presented for a variety of impairments and functional limitations. Beginning manual therapy skills are introduced.

DPT 7123  Clinical Skills III/Modalities 4 credits
This is the third course of a three course sequence. Physical therapy interventions specific to therapeutic modalities and electrotherapy are developed, with emphasis on integrating these interventions into a comprehensive plan of care for patients across diagnoses and across the lifespan.

DPT 7131  Clinical Skills Assessment I 1 credit
This is the first course of a two course sequence. Throughout the semester, students will work with CSP DPT faculty members on developing and implementing evaluation and intervention techniques for commonly seen physical therapy patient presentations. The course culminates with a comprehensive assessment of clinical skills and professional behaviors developed in the first year of the curriculum. This takes place within the context of a benchmark examination and Objective Structured Clinical Examination.

DPT 7141  Health Promotion I 1 credit
This is the first of a four course sequence related to the promotion of health to physical therapy clients and the community. This initial course will introduce DPT students to the determinants of health, a variety of theories related to the components of health and the APTA’s vision for health promotion within the Physical Therapy profession. Students will also explore the role of the physical therapist in promoting health in themselves, their clients and the community, the reduction of health disparities, and the improvement of quality of life across the lifespan. Within the context of this course students will design a Personal Needs Assessment for themselves and develop an analysis of an existing community health promotion program in which they will ultimately participate in under the guidance of a community liaison. Throughout the course, an emphasis will be placed upon evidence-based practice, learning styles, health theories, cultural competence, and tailored health education in order to provide effective patient education. Class activities include readings, lecture, group discussion, projects and presentations.

DPT 7151  Lifespan I 2 credits
This is the first course in a two course sequence. Theories of motor development across the lifespan are presented within the context of physical therapy practice. Normal age related change across childhood, adolescence, adulthood, and later adulthood are explored. Health and motor planning across the lifespan, pediatric development, and normal physiological factors specific to the geriatric population will be reviewed. This will include changes in the cognitive, musculoskeletal and sensory systems. Changes in physical function are presented, compared, and contrasted between pediatric and geriatric patients through lecture, small group projects, and large group discussion. Students will develop pediatric and geriatric patient screening examinations.

DPT 7161  Research Methods/EBP 3 credits
Introduction to evidence based practice and clinical research. The skills learned will enable students to develop an initial, general research question, locate the evidence, review the scientific literature, and conduct critical appraisals of scientific articles. Course assignments require student application of the information. Class activities include lecture, discussion, and small group activities.

DPT 7200  Service Learning I 1 credit
This is the second course of a two course service learning sequence. Christian Service is an important component of the Lutheran tradition, a key element of the Concordia, St. Paul mission statement and the cornerstone of the CSP DPT Program. The students will participate in discussion, plan and participate in service activities. These activities are designed to reinforce the importance of life-long community and professional engagement, and strengthen the APTA core values of altruism and social responsibility.

DPT 7207  Integumentary/Medical 3 credits
Physical therapy examination and interventions for integumentary and medical conditions across the lifespan and continuum of care are addressed. Issues associated with the lymphatic system are included. Class activities include lecture, lab and case studies.

DPT 7208  Biopsychosocial Aspects 2 credits
The purpose of this course is to guide the student in the attainment of attitudes, behaviors, and values appropriate to a healthcare practitioner. This course introduces the student to the biopsychosocial aspects of physical therapy and to the clinical decision-making process, which is utilized by the physical therapist. It also covers managing individual needs during illness and disease as well as ways to successfully educate, interact with, and enhance wellness of patients and families in healthcare settings. A variety of topics will be presented through readings, lectures, discussions, videos, and experiential activities. Topics include a person’s needs during disability, acute and chronic pain and illness, mind-body relationship, complementary and alternative medicine, and death and dying along with communication and interpersonal skills, strategies for therapeutic intervention, and the ability to engage in reflective thinking are stressed.

DPT 7209  Cardiopulmonary/Acute Care/Trauma 3 credits
Physical therapy examination and interventions for cardiovascular and pulmonary conditions across the lifespan and continuum of care including acute care and trauma are addressed. Class activities include lecture, lab, and case studies.
DPT 7210  Women's Health 2 credits
Basic and clinical science elements of evaluation and intervention of
women's health conditions are introduced. Students will be introduced to
treatment of pregnancy related musculoskeletal conditions, continence
assessment and pelvic floor muscle training, and assessment of risk
factors for osteoporosis. Topics covered include anatomy, endocrinology,
and physiology, breast health, disease processes with gender differences,
indec tinence, obstetrics, and osteoporosis.

DPT 7213  Clinical Seminar III 2 credits
This is the final course of a three-course sequence. Issues related to role
 models, ethics, mentoring, appropriateness of PT interventions, practice
supervision, delegation, clinical decision making, and changes in PT
payment systems will be explored. Class activities include lecture and
collaborative learning activities.

DPT 7232  Clinical Skills Assessment II 1 credit
A comprehensive assessment of clinical skills and professional behaviors
developed in the first two years of the curriculum. This assessment takes
place within the context of a clinical environment.

DPT 7242  Health Promotion II 1 credit
This is the third of a four course sequence related to the promotion
of health to physical therapy clients and the community. Within the
context of this course, DPT students will complete and present their
finalized Community Health Promotion Project from Health Promotion
Ib. DPT students will also explore how to design, promote and implement
a successful health promotion event in the community based on the
lifestyle and needs of their audience. Class activities include readings, 
lecture, group discussion, projects and presentations.

DPT 7252  Lifespan II 2 credits
This is the second course of a two course sequence. Students learn best
through active learning and critical thinking strategies. Course material
will be augmented by in-class discussions, written reflections and
interactive opportunities. For example in the first session, function related
to health across the life span will be introduced didactically followed by
small group discussions to reflect on these elements by implementing the
“Circle of Voices” technique (Brookfield, 2011). Students will then be
asked to reflect on function related to health across the life span as it
relates to the deeper perspective gained through course material and
group discussion.

DPT 7262  Capstone I 2 credits
Introduction to the capstone project. Each student will complete one of
two tracks: research or professional development. Each of the tracks
require six credits of student work. Research - Students work with a
faculty member in small groups to further their knowledge of scholarly
methods. Together they will design a research project that is faculty
generated or approved and student implemented. Teaching methods
include discussion, small group activities, and use of computer data
analysis tools. Professional Development - Students work with a faculty
member in small groups to further their knowledge of the PT profession
or health related topic. Together they will design and implement a project
in conjunction with faculty and/or potentially a community partner. Teaching methods
include literature review, discussion, small group learning activities,
community service participation, needs assessments and interviews. The
project must have a service component.

DPT 7263  Capstone II 1 credit
Continuation of the research or professional development project.
Research - Students work with a faculty member in small groups
to further their knowledge of scholarly methods. Together they will
design a research project that is faculty generated or approved and
student implemented. Teaching methods include discussion, small
group activities, and use of computer data analysis tools. Professional
Development - Students work with a faculty member in small groups
to further their knowledge of the PT profession or health related topic.
Together they will design and implement a project in conjunction with
faculty and/or potentially a community partner. Teaching methods
include literature review, discussion, small group learning activities,
community service participation, needs assessments and interviews. The
project must have a service component.

DPT 7264  Capstone III 1 credit
Continuation of the research or professional development project.
Research - Students work with a faculty member in small groups
to further their knowledge of scholarly methods. Together they will
design a research project that is faculty generated or approved and
student implemented. Teaching methods include discussion, small
group activities, and use of computer data analysis tools. Professional
Development - Students work with a faculty member in small groups
to further their knowledge of the PT profession or health related topic.
Together they will design and implement a project in conjunction with
faculty and/or potentially a community partner. Teaching methods
include literature review, discussion, small group learning activities,
community service participation, needs assessments and interviews. The
project must have a service component.

DPT 7271  Musculoskeletal I 3 credits
The role of the physical therapist in examining musculoskeletal
conditions across the lifespan and continuum of care is introduced.
Examination processes are regionally applied and students gain initial
exposure to differential diagnosis and interventions. Class activities
include lecture, lab, and case studies.

DPT 7272  Musculoskeletal II 3 credits
Students further develop concepts of differential diagnosis, prognosis,
and interventions for patients with musculoskeletal conditions across the
lifespan and continuum of care. Class activities include lecture, lab, and
case studies.

DPT 7281  Neuromuscular I 3 credits
The framework for examination and intervention is applied and expanded
to patients with neuromuscular diagnoses across the lifespan and
continuum of care. The course focuses on functional areas of importance
including mobility, transfers, wheelchair skills, balance, gait and upper
extremity function. Class activities include lecture, lab and case studies.

DPT 7282  Neuromuscular II 3 credits
Students build on their examination and intervention framework
and neuroscience foundation to approach patients within the
neuromuscular practice patterns across the lifespan and continuum of
care. Specific examination and intervention techniques, special topics
and prognosticating related to the practice patterns are covered. Class
activities include lecture, lab and case studies.

DPT 7291  Administration Roles 3 credits
The roles of the physical therapist in administration and management
are explored. Health care economics, budgeting, supervision, planning,
marketing, and public relations are specifically addressed.
DPT 7301 Complex Medical 2 credits
This course is designed to further develop DPT students' ability to perform Physical Therapy examination and intervention for critically ill patients, those with multi-organ involvement, and those with complicating psychosocial and environmental issues. Class activities include Grand Round Case presentations, inter-professional collaborations and discussion.

DPT 7365 Capstone IV 1 credit
Continuation of the research or professional development project. Research - Students work with a faculty member in small groups to further their knowledge of scholarly methods. Together they will design a research project that is faculty generated or approved and student implemented. Teaching methods include discussion, small group activities, and use of computer data analysis tools. Professional Development - Students work with a faculty member in small groups to further their knowledge of the PT profession or health related topic. Together they will design and implement a project in conjunction with faculty and/or potentially a community partner. Teaching methods include literature review, discussion, small group learning activities, community service participation, needs assessments and interviews. The project must have a service component.

DPT 7366 Capstone V 1 credit
Students complete their doctoral projects. Activities include an oral defense presented to faculty, peers, the next PT program cohorts, and the community. The capstone project culminates with faculty approval of the final product. Research - Students work with a faculty member in small groups to further their knowledge of scholarly methods. Together they will design a research project that is faculty generated or approved and student implemented. Teaching methods include discussion, small group activities, and use of computer data analysis tools. Professional Development - Students work with a faculty member in small groups to further their knowledge of the PT profession or health related topic. Together they will design and implement a project in conjunction with faculty and/or potentially a community partner. Teaching methods include literature review, discussion, small group learning activities, community service participation, needs assessments and interviews. The project must have a service component.

DPT 7373 Musculoskeletal III 2 credits
Students are exposed to musculoskeletal topics in greater depth to facilitate a global understanding of the role of the musculoskeletal physical therapist across the lifespan and continuum of care. Class activities include lecture, lab, and complex case studies.

DPT 7374 Specialty Seminar 2 credits
Groups of students work with individual faculty members to investigate specialized aspects of physical therapy practice.

DPT 7383 Neuromuscular III 2 credits
Advanced topics related to the examination and intervention of patients with neuromuscular dysfunction across the lifespan and continuum of care are presented. Emphasis is placed on intervention techniques, communication/coordination of care and management of complex patients. Class activities include lecture, lab and case studies.

DPT 7392 Ethics and Professional Issues 1 credit
Ethics and professional issues for physical therapy professionals are explored. Students will critically analyze ethical concepts and major issues facing the profession of physical therapy. These will be presented in discussion and debate format. Students develop a plan for professional development and lifelong learning.

DPT 7501 Clinical Internship I 4 credits
This first 8-week clinical experience will provide the student the opportunity to practice professional communication and therapeutic skills. Active participation and integration of course content begins as professional behaviors and clinical decision-making improves throughout the internship. Close supervision is expected while students work at 25-50% of therapist caseload.

DPT 7502 Clinical Internship II 4 credits
In this second 8-week clinical course the student is assigned specific clinical tasks under the supervision of the CI. The student is expected to function with up to a 50-75% caseload; develop patient-client management skills, professional behaviors and clinic decision-making skills. Students will be exposed to more complex patient cases. Students will be evaluated on all 18 performance criteria of the CPI.

DPT 7503 Clinical Internship III 4 credits
In this third 8-week internship, you will be given the opportunity to apply more advanced theories and treatment procedures to a selected patient caseload with guidance from a CI. You will continue to develop professional behaviors and effectiveness in all aspects of the patient client management model.

DPT 7504 Clinical Internship IV 6 credits
In this final 12-week internship, you will be given the opportunity to focus on development of entry-level patient management skills from examination through intervention, as well as development of other skills related to practice such as consultation and administration. This is the culminating full-time clinical rotation after which you are expected to possess the skills and behaviors required to enter practice as a physical therapist.

Physics (PHS)

PHS 112 Introductory Physics for Biological and Health Sciences I 4 credits
This algebra/trigonometry-based course deals with mechanics and thermodynamics. Concepts are developed mathematically and applied to practical situations with special emphasis on biologically relevant examples. Students make use of a wide variety of laboratory equipment and sensors to procure and analyze data surrounding these concepts. The course meets for three lecture periods and one lab period each week.

PHS 113 Introductory Physics for Biological and Health Sciences II 4 credits
This algebra/trigonometry-based course deals with mechanics and thermodynamics, and wave motion. Physics’ concepts related to these topics are presented, applied to practical situations, and measured and analyzed in the laboratory setting. Students make use of the computer as a tutorial aid, use a great variety of laboratory equipment (including sensors along with the computer) to procure and analyze data, and use selected software to demonstrate physics’ concepts and model practical situations. The Internet and literature are used to obtain current information. The course is applicable to students majoring in pre-medicine, pre-engineering, biology, chemistry, mathematics, and science education. (Prerequisites: One year of high school physics and Calculus I)
PHS 222  General Physics II (Calc Based) 4 credits
This calculus-based course deals with the areas of electricity and magnetism, light and optics and modern physics. Physics' concepts related to these topics are presented, applied to practical situations, and measured and analyzed in the laboratory setting. Students make use of the computer as a tutorial aid, use a great variety of laboratory equipment (including sensors along with the computer) to procure and analyze data, and use selected software to demonstrate physics' concepts and model practical situations. The Internet and literature are used to obtain current information. The course is applicable to students majoring in pre-medicine, pre-engineering, biology, chemistry, mathematics, and science education. (Prerequisite: PHS 221)

PHS 488  Physics Independent Study 1-4 credits

Political Science (POL)

POL 131  Government and Politics 4 credits
This course introduces the student to mechanics, institutions, problem and principles of American national government. It stresses the relationship of constitutional principles to American political practice. Emphasis is placed on change in the political environment and judicial interpretation of constitutional tenants as major factors in a viable and dynamic American political system. Racial and Ethnic minorities are also examined in this course.

POL 242  State and Local Government 4 credits
State and local government is the primary contact a citizen has with government. In a creative learning experience students use Minnesota Legislature as their laboratory for learning and participating in the governmental process.

POL 243  Contemporary Global Problems 4 credits
Survey and examination of the current issues and problems around the world. Course will also discuss themes and approaches in the study of global politics. Students will specifically examine how the current global system is constructed and how nations interact. Topics include contemporary issues like globalization, trade, immigration, war and peace, arms control, terrorism, climate change, and global poverty. This course fulfills the Global Studies General Education requirement.

POL 250  Conventional Politics 2008 1 credit
This course will help participants to understand what is happening during a political convention. Each day of the convention week the class will explore "Conventional Politics" and what it all means. The daily informal sessions will include speakers, presentations, and discussions.

POL 325  U. S. Business History 4 credits
The course will primarily examine the role of business in the American economy from the colonial period to the present. The course will focus on the development of capitalism and the corporation, with an emphasis on the interaction between business firms and other institutions in American life—including labor unions and the government. Students will study business, labor, and other economic institutions starting in the 17th century and ending with the modern global corporation. Topics will include the fur trade, early American industrialization, railroads, the slave economy, the Gilded Age and Progressive Era, labor strife, and the modern corporation.

POL 337  Parties, Campaigns, and Elections 4 credits
Analysis of party organizations, campaigns, and presidential and congressional elections in the United States. Attention will be given to state and local party structures and activities, third-party movements, and historical patterns of voting behavior.

POL 341  The Civil Rights Movement in the U.S. 4 credits
This course will explore the major campaigns, personalities, organizations, and guiding themes of the Civil Rights Movement in the United States. This course will focus on the "long civil rights movement", that portion of the struggle characterized by an organized mass movement(s) from World War II through the 1970s, highlighting the shift from protest to electoral politics. The class will place the civil rights movement within the context of American political, economic, and social institutions. It will also analyze the major historical, sociological, and political debates about the Civil Rights/Black Power movements and place those movements in the broader context of national and international developments.

POL 345  Urban Studies 4 credits
This course will examine a variety of contemporary urban/city issues, problems, and potential solutions. Social, cultural, economic, historical, and political topics will all be covered. The course will be an integral part of the Public Policy program. Specific topics will be listed in the class schedule.

POL 351  Themes in U.S. Politics 4 credits
This class will explore a specific topic or theme selected by the instructor. The course will expand students' understanding and appreciation of Political Science, relevant American political issues, and the U.S. governmental system.

POL 401  Research and Writing in Political Science 4 credits
This serves as research and writing capstone course for all students in the Political Science program. After reading other scholars' ideas and interpretations in various classes, students will now have the opportunity to research, analyze, and write their own original work of scholarship. Students will do original research projects using primary source materials (government documents, policy reports, newspapers, election data, personal correspondence, etc.), rather than scholarly articles or books. Student can select their own topic, but must work with an instructor. Assessment goals include sound research, adequate content and coverage of the subject, strong critical analysis of sources, and writing style.

POL 478  Readings Seminar: Topics in Political Science 2 credits
Readings/Research Seminar in Political Science covering selected topics. This course will emphasize the use of scholarly and primary source materials, individual research, and student participation.

POL 488  Political Science Ind. Study 1-4 credits
Independent Study provides a more flexible educational experience for the student as well as college credit for work done outside the classroom. These courses are designed and supervised by a faculty member.

POL 498  Internship or Service Learning 2-12 credits
Students participate in an internship or perform a Service Learning project. These sites might include: legislature, government agencies, or other related fields of interest.

Psychology (PSY)

PSY 101  Introduction to Psychology 4 credits
This course introduces the scientific study of behavior and mental processes. Psychological, behavioral, cognitive, humanistic, psychodynamic and social-cultural perspectives are explored. Topics such as scientific method, statistical reasoning, neuroscience, learning, cognitive processes, development, psychological adjustment, therapy, social psychology, diversity and community are studied.
PSY 210  Child Psychology and Development 4 credits
A broad sketch of human growth and development is provided from the prenatal stages to the adolescent years. Developmental processes are studied from both a biological and social-cultural perspective to understand physical and perceptual development, cognition and language, personality and social development. Child studies of children at the students projected levels of teacher certification are required. (Prerequisite: PSY 101)

PSY 215  Child and Adolescent Developmental Psychology for K-12 Educators 4 credits
This course will provide K through 12 educators an understanding of human growth and development from the prenatal stages through adolescence. Developmental processes are studied from both a biological and social-cultural perspective to understand physical and perceptual development, cognition and language, personality and social development. Child studies, examining various aspects of child and adolescent development, are required. (Prerequisite: PSY 101)

PSY 220  Adolescent Psychology 4 credits
This course examines developmental phenomena of adolescence, its physiological, emotional, cognitive, parent-child, social, vocational and religious dimensions, with opportunity for personal exposure to youth's needs and interacting societal institutions. (Prerequisite: PSY 101)

PSY 230  Lifespan Developmental Psychology 4 credits
This course is a scientific study of development from prenatal life through late adulthood, with emphasis on the interplay of psychological processes, heredity and environment. This chronological review addresses physical, cognitive, social and emotional changes across the lifespan. Students observe children in the campus Early Childhood Center or in a similar setting off campus. (Prerequisites: PSY 101)

PSY 260  Adverse Childhood Experiences 4 credits
Adverse Childhood Experiences (ACE's) can have a negative impact on children. Research related to adverse childhood experiences is analyzed and a variety of resources and evidence-based interventions are explored.

PSY 300  Cognition, Learning and Memory 4 credits
This course introduces students to important insights and theoretical principles of modern cognitive science. Students study human cognition, perception and attention, memory, knowledge representation, language, reasoning, problem solving, cognitive development, creativity, learning, and individual differences in cognition. (Prerequisite: PSY 101)

PSY 310  Physiological Psychology 4 credits
This course will provide a comprehensive understanding of brain and nervous system physiology. The focus will be on how the nervous system governs behavioral and cognitive processes. Functional and dysfunctional physiology and what this tells us about maladaptive behaviors will also be discussed. (Prerequisite: PSY 101)

PSY 320  Sensation and Perception 4 credits
Sensing and perceiving the world involves an interaction between our bodies and minds. This course explores the neuroscience and psychological principles underlying human perceptual abilities. Students will encounter different theoretical approaches to the study of this question, as well as a variety of methodological techniques. Topics to be covered include the biological basis of vision, the perception of pattern, color, depth, and spatial layout. The senses of hearing, touch, smell, and taste will be similarly addressed. The course will conclude with an exploration of the relationship between perception to knowledge. (Prerequisite: PSY 101)

PSY 330  Introduction to Counseling 4 credits
Basic theory, principles, and techniques of counseling and its application to counseling settings are explored. In addition, students develop counseling skills in the following three theoretical areas: person-centered therapy, behavioral contracting, and reality therapy. The student becomes both teacher and subject in experiential laboratory sessions. (Prerequisite: PSY 101)

PSY 331  Group Counseling & Therapy 4 credits
This course is designed to provide students preparing to enter a helping profession with an understanding of group theory, and understanding of the types of groups used in group counseling or group therapy, and the experience of being a member and co-leader in a counseling group. Emphasis is placed on methods, problems, and leadership skills in working with a group. In addition to group processes this course also focuses on professional and ethical responsibilities, assessment, treatment planning, crisis intervention, and referral.

PSY 333  Cultural Competency in Chemical Dependency 4 credits
This course offers in-depth analysis of cultural issues within the field of chemical dependency. It will explore themes of specific subgroups which Minnesota guidelines have identified as critical for chemical dependency treatment professionals: Native American Issues, Asian American Issues, Deficit and Hard-of-Hearing Issues, Chicano/Latino Issues, Disability Issues, African-American Issues. There will be an overview of alcohol and drug counseling focusing on the transdisciplinary foundations of alcohol and drug counseling and providing an understanding of theories of chemical dependency, the continuum of care, and the process of change. The course will address the pharmacology of substance abuse disorders and the dynamics of addiction. This will include issues among the subgroups as it relates to chemical dependency, including attitudes toward medication, response to medication, and other themes.

PSY 340  Introduction to Industrial/Organizational Psychology 4 credits
Applications of psychology to business and industry: employee selection, performance appraisal, training, leadership, motivation, work environment, job design, safety, and work stress. (Prerequisite: PSY 101)

PSY 350  Forensic Psychology 4 credits
This course will cover a broad range of topics in the field of Forensic Psychology. Psychology of police selection, procedures, and their investigations are examined. The psychology of deception, eyewitness testimony, child victims and witnesses will be covered. Also included in the course is the psychology of jury selection and behavior. Finally, the role of mental illness and psychopathy in deviant behavior is studied. (Prerequisite: PSY 101)

PSY 360  Abnormal Psychology 4 credits
An introduction to the study of abnormal psychology. The course covers a wide range of behaviors that are distressing to a person or society or which are otherwise identified as abnormal. A comprehensive review of the etiologies of psychological disorders, discussion of available treatments and a focus on the effects that mental illness has on the individual, the family system, and society are included. Current controversies in the field are identified. (Prerequisite: PSY 101)

PSY 370  Introduction to Personality Theories 4 credits
This course introduces the student to a variety of personality theories including psychoanalytic, behavioral, cognitive, humanistic and trait theories. Issues in personality measurement and assessment techniques are also presented and discussed. (Prerequisite: PSY 101)
PSY 380 Research Methods with Statistical Applications 4 credits
This course covers a variety of research strategies for studying psychological phenomena. Students will conduct studies using different research methodologies and will gain experience in analyzing data and writing research reports. Descriptive Statistics, measures of central tendency, correlation, multiple regression, inferential statistics, chi-square, t-tests, analysis of variance, hypothesis testing with application to research methodologies will be taught. (Prerequisites: PSY 101, MAT 110)

PSY 381 Psychology Research Seminar 2 credits
This course is designed for advanced psychology students who have designed and implemented research projects as part of PSY 380, Research Methods with Statistical Applications. Through individual faculty mentoring, students will complete projects and prepare them for presentation and/or publication. (Prerequisite: PSY 380)

PSY 451 Social Psychology 4 credits
Students examine how the individual's personality, behavior and attitudes are shaped through interaction with others. The course deals with such issues as conformity, persuasion, aggression, altruism, and attraction. Individual behavior is understood in light of symbolic communication and the social construction of the self. (Prerequisite: SOC 152 or PSY 101)

PSY 488 Independent Study 1-4 credits
With the help of an instructor, students design their own learning activities, which may include readings, independent research, projects, and papers. (Prerequisite: PSY 101)

PSY 490 Seminar on Psychological Topics 4 credits
This course offers in-depth analysis of a selected topic in psychology such as intelligence, creativity, brain chemistry, cross-cultural psychology, group counseling and processes, advanced counseling, history and systems of psychology, psychology of religion, psychology of gender, forensic psychology, psychological testing, behavior modification, cognitive psychology and biofeedback in a seminar setting. Content determined by the needs of students and interest of psychology faculty. (Prerequisite: 25 credits of psychology or consent of instructor)

PSY 498 Psychology Internship 1-12 credits
This internship provides the student with an in-depth field experience in a work setting that provides services that are psychological in nature. The student learns to apply psychological theories and principles. The student in conjunction with the academic advisor selects an appropriate internship site which meets the needs and vocational interests of the student.

PUL 220 Epidemiological Foundations 4 credits
This course is designed to provide students with a historical background in epidemiological studies. The course is also designed to expose students to the principles and concepts necessary for understanding the basics of epidemiological activity and classical epidemiological investigations. By applying knowledge from a range of disciplines, epidemiologists are able to more adequately study disease, wellness and other health-related events in populations. The ultimate goal of this course is to stimulate a desire for further education in epidemiological course work.

PUL 301 Principles of Healthcare Systems 4 credits
The objective of this course is to provide the students with a basic understanding of the healthcare system. As the participants progress through the course they will build their healthcare vocabulary, strengthen their understanding of healthcare concepts and have the opportunity to experience healthcare decision making through the evaluation of case scenarios.

PUL 322 Compliance and Regulatory Requirements 4 credits
The focus of this course is to examine the role law plays in the everyday operation of our health care system from the management perspective. Key topics will include: The Affordable Care Act of 2010, Corporate Compliance and Integrity, Fraud and Abuse, health care laws, and health care regulatory agencies. Laws and bills related to health care in the State of Minnesota will be examined and followed.

PUL 329 Advances in Pharmacology in Critical Care Medicine 4 credits
This course is designed to help broaden the health care professional's knowledge of pharmacology. Topics include types and effects of drugs, including diagnostic imaging contrast media. Pharmacology, pharmacokinetics, and pharmacodynamics of drugs commonly used in ancillary health care are presented. Students taking this course will also study the most recent FDA approved medications and understand the current state of respiratory care practice in today's health care environment.

PUL 330 Multi-Specialties in Respiratory Therapy 4 credits
This course outlines the diverse disciplines in the Respiratory Therapy profession ranging from acute care to chronic management. It gives Respiratory Therapists the opportunity to develop more understanding of professional diversification of other specialties in their field, including Sleep Medicine, neo-Peds, Specialization, Flight Medicine, Home Care, and others. This seven week extensive course will identify the needs, demand and unique requirements for each specific specialization. Respiratory Studies will be implemented based on current guidelines, practices and procedures of accredited professional standards in Respiratory Care.

PUL 331 Advancement in Critical Care Monitoring 4 credits
This course focuses on the advanced medical and respiratory care needed for the critically ill adult patients. Among the topics covered are cardiopulmonary assessment of trauma, postsurgical, cardiac and renal patients. The course will also provide instruction in advanced cardiac life-support.

PUL 332 Advanced Cardiopulmonary Sciences 4 credits
This course provides students with techniques and methods used to analyze and evaluate the health status of critically ill patients. This course has an emphasis on the respiratory, cardiovascular and renal systems and is beneficial for students who work within a critical care facility.

PUL 342 Healthcare Information Systems 4 credits
This course examines the intricate interlocking healthcare technology systems from patient self-service to data entry by the practitioner. Additionally, students will explore security, legal and ethical implications associated with electronic healthcare systems. Finally, students will learn about enterprise healthcare information and management systems that contribute to ensuring quality patient care.
PUL 400  Health Psychology 4 credits
This class is designed to help students learn those skills necessary in forging a bridge between the client-learner’s thoughts, feelings and actions by integrating thought and behavior into a synergistic approach to the delivery of health education that can accommodate the whole person. Cognitive techniques, such as lecture discussion, readings, presentations, collection of data and specific planning combined with the behavioral components of emotion and action will help in bringing about this synergistic process.

PUL 435  Ethics and Decision Making in Health Care Environments 4 credits
This is a foundational course in ethics for individuals pursuing vocations of service in health care. Students will have a greater understanding of the ethical principles that are applied to the delivery of health care services and the processes for making sound ethical decisions. Students will develop models of decision making that are consistent with core personal values as well as the ethical standards of their professions. Motivations for ethical healthcare decisions will be evaluated. The roles and responsibilities of healthcare professionals will be explored on the basis of Christian values as well as assumptions drawn from reason and societal norms and expectations.

PUL 490  Senior Research Capstone 4 credits
This course provides the foundation for the research project. The students will engage in a literature survey of research in the instructor’s area of expertise and develop a research proposal consisting of a research hypothesis, a rationale for the work and experimental design.

Radiologic Sci Leadership (RAD)

RAD 222  Pathological Foundations 4 credits
This course is designed to provide students with a historical background in pathological studies. The course is also designed to expose students to the principles and concepts necessary for understanding the basics of pathological investigations. By applying knowledge from a range of disciplines, pathologists are able to more adequately study disease, wellness, and other health-related events in populations. The ultimate goal of this course is to stimulate a desire for further education in pathological course work. Also includes the study of cell response to radiation and chemotherapy.

RAD 250  Leadership Communication 4 credits
This course emphasizes the communication processes of leadership with particular focus on assessing and researching leadership skills, strategic organizational planning, decision making, problem solving, mentoring employees, collaborative team management skills, cultivating a supportive work environment, change management, facilitation and meeting management skills, presentation skills and interviewing skills.

RAD 300  Strategic Leadership of Resources, People, and Teams 4 credits
The strategy process represents an essential opportunity for health care leaders to establish, implement and guide the organization’s direction in these turbulent waters of changing distribution systems. Students will look at the strategies of health care organizations in an increasingly global and competitive marketplace.

RAD 310  Writing for Healthcare Professionals 4 credits
Healthcare professionals at all levels must demonstrate professionalism as strong communicators not only verbally, but as writers as well. This course will lay the ground work of writing expectations in the program and serve to remediate as needed.

RAD 322  Compliance and Regulatory Requirements 4 credits
The focus of this course is to examine the role law plays in the everyday operation of our health care system from the management perspective. Key topics will include: The Affordable Care Act of 2010, Corporate Compliance and Integrity, Fraud and Abuse, health care laws, and health care regulatory agencies. Laws and bills related to health care in the State of Minnesota will be examined and followed.

RAD 330  Communication Strategies for Conflict Management 4 credits
This course provides an overview of the nature and functions of communication in human conflict. Professionals develop communication skills, such as listening and collaboration, which are necessary for managing conflict productively in interpersonal, organizational and intercultural contexts. Professionals will gain an understanding of patterns, research and processes associated with conflict management styles, and civility. This course will also address how language, perception, gender communication, and generational differences and context influence the conflict process.

RAD 350  Healthcare Diversity and Global Issues 4 credits
Students use literature, interviews and class discussion to explore the values, beliefs, customs and perceptions represented in various kinds of diversity affecting social and economic life. Students explore the obligations and implications of equal opportunity in organizations while they develop organizational strategies to benefit from diversity in the United States and abroad.

RAD 400  Organization Development for HR Professionals 4 credits
This course will help HR leaders understand organization development from a leadership and HR perspective. Students will build their capacity to facilitate complex change initiatives using change theories, models, and concepts. Students will demonstrate an understanding of how a complex organizational environment is driving the need for continuous change. Moreover, students will develop skills in planning for change, communicating change, and holding individuals accountable for results. Students will also demonstrate an understanding of how change impacts individual performance.

RAD 435  Ethics and Decision Making in Health Care Environments 4 credits
This is a foundational course in ethics for individuals pursuing vocations of service in health care. Students will have a greater understanding of the ethical principles that are applied to the delivery of health care services and the processes for making sound ethical decisions. Students will develop models of decision making that are consistent with core personal values as well as the ethical standards of their professions. Motivations for ethical healthcare decisions will be evaluated. The roles and responsibilities of healthcare professionals will be explored on the basis of Christian values as well as assumptions drawn from reason and societal norms and expectations.

RAD 440  Legal Environment for Healthcare Managers 4 credits
This course integrates the treatment of law and management. It helps managers and leaders spot legal issues before they become legal problems and emphasizes developing the legal astuteness to craft solutions that attain core organizational objectives without incurring undue legal risk. Traditional legal concepts are discussed as well as current topics in developing areas of the law. An emphasis on ethical concerns stimulates understanding of how managers must incorporate considerations of ethics and social responsibility into their managerial actions.
RAD 490  Senior Seminar 4 credits
The students will engage in a literature survey of research in the
instructor’s area of expertise and develop a research proposal consisting
of a research hypothesis, a rationale for the work and experimental
design. Students learn professional presentation skills and combine
research and theory to develop individualized synthesis projects which
examine research problems and answer a particular research question
that has specific application in their occupation.

Religion (RLG)

RLG 415  Biblical Christianity for Thoughtful People 4 credits
Students study selected Old and New Testament texts and explore the
historical Biblical perspective of Christianity in the context of grace and
the Gospel of Jesus Christ. Students learn how religious issues have
been addressed and incorporated in different eras of history. Students
learn how Christianity has shaped elements of culture and organizational
life, how Biblical principles can shape individuals for strong leadership
roles, and how to better understand Christians in the workplace within a
Judeo-Christian culture.

Religion and Theology (THL)

THL 100  The Biblical Heritage of Christianity 4 credits
An investigation of the sacred literature and basic theological
expressions of the Christian tradition. The course emphasizes the
covenant dealings of God with His people and the completion of the
old covenant in God’s new covenant in Jesus Christ. Students will
read selected portions from each major division of the Old and New
Testaments and will explore themes taken up by the ecumenical creeds.
This course fulfills the introductory general education requirement for
Theology and counts toward the minor in Religion. (THL100 is not open to
students enrolled in or having taken THL 203, THL 206 or THL 303)

THL 201  Old Testament 3 credits
An introduction to the historical context and literature of the Old
Testament. Special attention is paid to the concepts of promise, law,
covenant, grace, and the presence of God in the narratives of the
Pentateuch and the Former Prophets. The course also examines the
nature of prophecy and the psalm and wisdom resources in the Porphets
and Writings.

THL 205  History and Literature of the Old Testament 4 credits
An introduction to the historical context and literature of the Old
Testament. Special attention is paid to the concepts of promise, law,
covenant, grace, and the presence of God in the narratives of the
Pentateuch and the Former Prophets. The course also examines the
nature of prophecy and the psalm and wisdom resources in the Prophets
and Writings. Students begin to use the tools of Biblical interpretation
and practice reading texts in their historical and literary contexts.

THL 206  New Testament 3 credits
An introduction to the historical context and literature of the New
Testament. Students master the stories and teachings of early
Christianity, and grow in their ability to read texts of the Bible in their
historical and literary contexts.

THL 215  History and Literature of the New Testament 4 credits
An introduction to the historical context and literature of the New
Testament. Students master the stories and teachings of early
Christianity, practice the use of the tools of biblical interpretation, and
grow in their ability to read texts of the Bible in their historical and literary
contexts.

THL 218  The Land of the Bible 1 credit
This course is a study tour which combines travel with lectures and
readings to provide students with a rich, on-site learning experience.
Students will spend at least ten days in Israel visiting sites throughout
the country that formed the stage on which so many biblical events were
played out. The travel portion will move region-by-region, spending time in
the Galilee, the Dead Sea area, and Jerusalem. In each area students will
learn about its geography and archaeology, exploring how the features
of each area shaped the history of its people. Attention will also be given
to the imagery and symbolism connected with each region in both the
Old and New Testaments. (Please be aware that this course is physically
demanding. It will involve significant amounts of walking/hiking at times
in quite rugged environments.) (Prerequisite: THL 100 or THL 206)

THL 219  Principles of Biblical Interpretation 3 credits
As an introduction to principles and methods of Biblical interpretation as
employed by Lutherans with a high view of the Scriptures, students will
focus on learning and practicing methodological models for studying and
interpreting Biblical literature. Special attention will be given to the study
of the historical/cultural context and literary nature of the inspired text.
Prerequisites: THL 201 and THL 206.

THL 241  Church History 3 credits
A panoramic survey of Christian history and thought from the apostolic
time to the present. As such, the course traces the church’s institutional
history, its theology, its worship life, and the history of its missionary
expansion against the larger political, intellectual, and socio-cultural back
drop. This course is required for the minor in Confessional Lutheranism. It
is not a general education course.

THL 270  Our Living Faith 4 credits
A study of the content and effective application of the Christian
understanding of creation, redemption, and sanctification; with an
exploration of the biblical basis, the conceptual framework and the
contemporary significance of the historic doctrines of the church. This
course is required for the minor in Confessional Lutheranism. (Required
Prerequisite: Minimum C- in THL205; Recommended Prerequisite:
THL215)

THL 310  Archaeology and the Bible 4 credits
Archaeology has become an indispensable source for the reconstruction
of past cultures and therefore is of direct importance for Biblical studies.
The course aims at giving students insight into the material culture of
societies in the ancient Levant from the Bronze and Iron ages down to the
material context of Early Christianity in the Roman and Byzantine periods.
Students will be introduced to basic methods of archaeological work and
important archaeological regions, periods and types of material culture
relevant to the world of the Bible and Christianity. Students will use
archaeological data to reconstruct contexts for biblical texts. This course
fulfills the intermediate general education requirement for Theology.
(Prerequisite: TH L100 or THL 206 or THL 215)

THL 320  Global Christianity 4 credits
The question “What is Christianity?” will be explored from a global
perspective. After surveying the state of Christianity, its teachings, and
practices, students will wrestle with basic questions of life and Christian
vocation in the third millennium. A major component of the course will be
study of worship practices of area churches representing diverse cultural
and immigrant groups. This course fulfills the intermediate general
education requirement for Theology. (Prerequisite THL 100 or THL 206 or
THL 215)
THL 325  Christian Ethics 4 credits
In this course, students will examine the ways in which both philosophical and theological frameworks change how we live our individual lives and shape the future of our families, friendships, sports teams, businesses, and political societies. In particular, the course invites students to relate these frameworks to their own thinking about sex and family, war and peace, work and the use of its financial fruits—and more generally, to the moral and political action to which they believe they are called in this life. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 or THL 215)

THL 336  The Problem of Evil 4 credits
The problem of evil has led human beings to ask difficult questions about God. If God is both all-powerful and completely good (as many religious traditions claim), then why does God allow evil? Or, does evil demonstrate that in fact, there is no God? In this course, students will grapple with classic philosophical, Christian, and other religious approaches to these questions. They will examine how these different approaches lead to different practical responses to evil in our personal lives and in our public life together. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 or THL 215)

THL 342  Athens and Jerusalem: Philosophy and Christianity 4 credits
A selective historical survey of the principal areas of inquiry, key figures, major issues, and central themes commonly addressed by western philosophy and Christian theology during the ancient, medieval, modern and contemporary periods. Among the topics that may be considered are the relationship of faith and reason; truth; nature and grace; the classical arguments for the existence of God; evil; the philosophical and theological virtues; and religious language. The course is based on extensive readings from primary sources and is supplemented by lectures and discussions. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 or THL 215)

THL 344  Martin Luther: Saint & Sinner 4 credits
This course examines the life and theology of the Martin Luther, instigator of the Protestant Reformation in the 16th century. A prolific writer and bold thinker, Luther appears today on many top ten lists of most influential people in the last millennium. By studying Luther in his medieval context and by reviewing the influence of his thought since the 16th century, the course will explore the relevance of his theology for the 21st century. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 or THL 215)

THL 351  Jesus and Muhammad 4 credits
This course explores the lives, contributions, teachings, and significance of Jesus and Muhammad through selected reading of the Christian Scriptures, pagan and Jewish sources, the Quran, Ibn Hishan, Al-Waqidi, and some later writers. Students will gain skill and confidence in reading ancient texts and understanding the historical, social, and religious trends that shaped the ancient world. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 or THL 215)

THL 353  Christianity and World Religions 4 credits
From a Christian perspective, this course explores the varieties of human religious beliefs. Major religions are surveyed in terms of artifacts, behaviors, emotions, beliefs, values, world views, and histories. The course will cover Animism, Buddhism, Hinduism, Judaism, Islam, and Christianity, with special attention in the latter case devoted to the Christian denominations of North America. Prerequisites: THL 100 or THL 206 or THL 215

THL 356  One Nation under God? Christianity and Politics in America 4 credits
The claim that the United States is a Christian nation will be examined from the Puritan settlers through the rise of the religious right in the late twentieth century, with particular emphasis on the notion of covenant and the influence of Christian leaders in various reform movements (abolitionist, temperance, women's suffrage, civil rights). The question of "one nation under God" will be tested against the Lutheran doctrine of the two kingdoms. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 or THL 215)

THL 357  Christianity and the Media in Contemporary Culture 4 credits
Christianity has an unmistakable interplay with various forms of the media. This course explores subtle and overt Christian themes in movies, music, magazines/newspapers, theater, the World Wide Web, and television. Students locate, watch, and critically analyze numerous media resources and discuss them in correlation to Christian themes in the Bible. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 THL 215)

THL 359  Theology and Art 4 credits
A study of representative samples of written texts, art, architecture, and worship life in order to understand the relationship among intellectual pursuits, artistic developments, political/societal changes, and the spiritual life of Christians. (Prerequisite: THL 100 or THL 206)

THL 365  Christianity thru Symbol/Ritual 4 credits

THL 371  Mission of God 4 credits
This course traces the mission of God through the Old and New Testaments. It explores God’s intent for his mission people in the past, present and future and discloses that intent in biblical narratives and texts and in Lutheran theology and Lutheran confessions. This course fulfills the intermediate general education requirement for Theology. (Prerequisite: THL 100 or THL 206 or THL 215)

THL 377  Faith and Justice in the City 4 credits
Students will apply the Christian scriptures and Lutheran theology to today’s multicultural, global, urban context with close attention to the Christian concepts of vocation, justice, and service toward one’s neighbor. Through thoughtful evaluation of theology, philosophy, and the humanities, students will evaluate Christian ethics and habits for living in today’s global society as thoughtful men and women of faith and conviction.

THL 409  Studies in Biblical Theology 2 credits
An exploration of sections, books, or major topics of the Old and New Testaments, as determined by the instructor and announced by the division. This course is recommended for the major in theology. It does not fulfill the general education requirement for Theology. (Prerequisite: THL203, Old Testament Narrative; THL206, New Testament)

THL 431  Lutheran Doctrine I 3 credits
A study of the content and effective application of the Christian understanding of doctrine itself, God, creation, theological anthropology, and the person and work of Christ, with an exploration of the biblical basis, conceptual framework, and the contemporary significance of the historic doctrine of the Lutheran church. Particular attention will be given to the contributions of C.F.W. Walther to the Lutheran understanding of Law and Gospel. Prerequisites: THL 201 and (THL 206 or THL 215)
THL 432  Lutheran Doctrine II 3 credits
A study of the content and effective application of the Christian understanding of the person and work of the Holy Spirit, sanctification, the means of grace, the Christian church, public ministry, and eschatology with an exploration of the biblical basis, conceptual framework, and the contemporary significance of the historic doctrine of the Lutheran church. Particular attention will be given to the contributions of C.F.W. Walther to the Lutheran understanding of church and ministry. Prerequisite: THL 431

THL 441  Lutheran Confessional Writings 3 credits
A survey and analysis of the gospel-centered doctrinal content of the Book of Concord in its 16th century historical and theological context. The eleven confessional documents are studied and interpreted as the church’s normative exposition of Holy Scripture, to which exposition the evangelical Lutheran church is committed in terms of both theological method and doctrinal substance.

THL 459  Studies in Religion & Society 2 credits
A study of the interaction between the essential tenets of Lutheran Christianity and the structures of democratic society. Among the topics considered are Christian vocation, the nature of culture and the ways Christianity has historically related to culture (with a special emphasis on the interplay of religion, church and race in North American cultural experience), the functions of Law and Gospel, the Lutheran understanding of the “two governments,” and the role of Christians in society at large. This course is elective for the major in theology. It does not fulfill the general education requirement for Theology.

THL 460  Worship for Lutherans 3 credits
Exploring early church experience and Reformation teaching, the student uncovers the meaning of worship. Critical evaluation of contemporary practice and recent developments in worship make the student better able to provide leadership in congregational worship life.

THL 482  Christian Ministry & Practice 3 credits
The concepts of call, vocation, ministry and team ministry are studied in relation to the worship, witness, teaching, service and fellowship of the church. Students will develop an awareness of the oneness of the church as the body of Christ gathered around Word and Sacrament. The nature of the ministry as servant hood is explored in the context of the life of local churches. Students spend time off campus in local congregations observing and participating in the life of the church.

THL 488  Independent Study 1-4 credits
Independent study offers students an opportunity to do research and complete a major project in an area of religion of their own choosing. This course is elective for the major in theology. It does not fulfill the general education requirement for Theology.

THL 496  Senior Thesis 2 credits
The Senior Thesis is the culminating work of a student majoring in Theology. The purpose of the thesis is to utilize the perspective, understanding, research skills, and writing abilities students have developed in their studies to investigate a substantial topic. The goal is for students to produce a paper of high quality and distinction. The work is normally done in one semester in the senior year under the guidance of a faculty mentor. The paper will be read by a second faculty member and proposed to the annual undergraduate Research Symposium. This course is required for the major in theology. It does not fulfill the general education requirement for Theology.

Sales (SLS)

SLS 300  The Business Aspects of Professional Selling 4 credits
Explore the business side of sales while gaining a broad, strategic view of how selling fits into the business from a revenue and operations perspective. Learn the difference between marketing and sales, the financial aspects of sales related to the business, and strategies related to territory coverage plans and customer relationship management systems. Find out the difference that good sales management makes in a business.

SLS 400  The People Aspects of Professional Selling 4 credits
Learn the human dimensions of a consultative sales process, from how to network with decision-makers and establish rapport to asking the right questions to be viewed as a strategic partner. Learn best practices in supporting and closing based on the unique needs of the prospect. Skill practice and strategy conversations will act as the primary platform for learning reinforcement. (Prerequisite: SLS 300)

SLS 498  Sales Internship 1-6 credits

Science (SCI)

SCI 120  Live Science: How Scientific Issues Impact Your Daily Life 4 credits
Not excited about taking a science general education course? This course will show you how much science affects your day-to-day life. You will learn about current issues and controversies in the areas of biology, chemistry, and environmental science, including global warming, alternative energy, fracking, recycling, vaccination, GMOs, cloning and gene therapy, and stem cells. This course will equip you to think critically, find reliable sources of information, and to make educated decisions when it comes to your health, your environment, and political issues. This course includes a lab, which will help you to learn the theory behind the scientific method and give you exposure to how scientific research is carried out.

SCI 310  Life, Earth, Space, and Physical Science for Educators 3 credits
In a laboratory setting students actively explore concepts and skills taught in the K-6 classroom including life, earth, space, and physical science. The planned explorations will be structured to simultaneously expose students to activities and approaches that are appropriate for the elementary classroom while also understanding the process of scientific inquiry and knowledge acquisition.

SCI 435  Research and Techniques 4 credits
This course provides the students with an opportunity to master a number of research techniques through participation in a collaborative research project. Significant time will be spent reading and analyzing scientific literature related to the research project. Emphasis may be given to molecular biology, cell and bacterial culture, or HP-LC mass spectrometry. This course is intended for students with little to no research experience. Students will meet during regularly scheduled class time to learn techniques and design experiments. Time will be required outside of class to carry out and maintain experiments. (Prerequisites: BIO 130 and CHE 115)
**SOC 436  Advanced Research & Techniques 4 credits**
This course provides the students with an opportunity to master a number of research techniques through participation in a collaborative research project. Significant time will be spent reading and analyzing scientific literature related to the research project. This course is intended for students who have taken SCI 435 and are interested in further pursuing advanced research opportunities. Time will be required outside of class to carry out and maintain experiments. (Prerequisite: SCI 435)

**SCI 450  Literature Review of Special Topics 2 credits**
The topic for this course will vary each semester from a wide range of current scientific research. Students will read background material, participate in discussions and complete writing assignments. (Prerequisite: Minimum grade of C- in BIO 120 and CHE 115)

**SCI 455  Research in Science 4 credits**
This course offers students the opportunity to do original research in science under the direction of university faculty. When applicable, the research will result in a presentation at a research symposium. (Prerequisite: Minimum grade of C- in BIO 120 and instructor approval)

**SCI 456  Advanced Research in Science 1-4 credits**
This course offers students the opportunity to do original research in science under the direction of university faculty. When applicable, the research will result in a presentation at a research symposium. This advanced course is intended for students with prior research experience. (Prerequisite: Minimum grade of C- in SCI 455 and instructor approval)

**SCI 497  Study Abroad 1-4 credits**
International travel course that supports students’ program learning with first-hand experience.

### Sociology (SOC)

**SOC 152  Introduction to Sociology 4 credits**
This course provides an introduction to the systematic study of society and social behavior. Investigation will focus on the values and norms shared by society’s members, the groups and institutions that compose social structure, and the forces that are transforming social reality.

**SOC 203  Correctional Ministry 2 credits**
This course is designed to change the fundamental perceptions which most people commonly hold toward those who are incarcerated and to understand them without fear, prejudice, or personal judgment, to view both crime and correction from a spiritual perspective, and to offer strategies which will aid prisoners with the process of reentry.

**SOC 252  Social Problems 4 credits**
Students identify and analyze social problems that are social-structure in origin and discuss potential responses. Using the concept of sociological imagination, the problems of individual members of society are seen within the broader context of society as a whole. Specific social problems studied include drug abuse, poverty, crime, and aging.

**SOC 253  Marriage and Family 4 credits**
This course considers the family as one of the primary social institutions within the larger social system. It explores the family’s internal structure and functioning, how it serves the needs of both individuals and society, how it is changing in contemporary American society, and the societal challenges of families in crisis. (Prerequisite: SOC 152)

**SOC 256  Introduction to Criminal Justice 4 credits**
The course uses a sociological perspective to analyze the meaning of crime for a society, theories of criminal behavior and crime prevention. Emphasis is placed on understanding the law enforcement, judicial and corrections systems. Current issues such as police discretion, gun control, capital punishment and corporate crime are examined. (Prerequisite: SOC 152)

**SOC 325  Minnesota Criminal Codes and Statutes 2 credits**
The course covers the elements and effects of the Minnesota Criminal Code. Students study basic procedural law; crimes against persons, crimes against property, juvenile law, traffic law, and laws relating to domestic violence. Pertinent court cases are discussed in relation to each topic. (The course is required for students who intend to take the POST exam for Minnesota law enforcement officers.) Prerequisite: SOC 152

**SOC 351  Juvenile Justice 4 credits**
The course examines the nature and extent of juvenile crime in American society. It includes an analysis of the historical and intellectual foundations of the juvenile justice system and the interpretation of Constitutional law as applied to children. Emphasis is placed on the role of the family and community in the prevention and treatment of delinquency. (Prerequisites: SOC 152, SOC 256)

**SOC 352  Police and Community 4 credits**
Though this course addresses the primary purposes and functions of policing, instructional priorities include scientific police management; the dynamics of community policing; theories underlying crime prevention and control; the ability of law enforcement of effectively address cultural diversity, police ethics; emerging technologies; and the application of Constitutional and Minnesota State law and procedures to current practice. (Prerequisites: SOC 152, SOC 256)

**SOC 353  Themes in Adult Development and Aging with a Lifespan Perspective 4 credits**
This course explores a variety of themes in development throughout the lifespan beginning with youth and ending in the last stages of adulthood including aging, death and dying. Lifespan, sociological, psychological, and family science perspectives will be used to examine a variety of themes. (Prerequisite: SOC 152)

**SOC 354  Sociology of Law 4 credits**
This course examines the formal, public responses to crime. It includes a discussion of the nature of criminal law and its purposes and the classification and grading of various criminal wrongs. Case law examples are used to enable students to understand, critique and apply criminal laws to situations in contemporary society. (Prerequisites: SOC 152, SOC 256 or consent of instructor)

**SOC 357  Class and Community 4 credits**
This course analyzes the nature of criminal and its purposes and the classification and grading of various criminal wrongs. Case law examples are used to enable students to understand, critique and apply criminal laws to situations in contemporary society. (Prerequisites: SOC 152, SOC 256 or consent of instructor)

**SOC 358  Minority Groups 4 credits**
Students study various racial, ethnic, and other social groups in the broad context of American society. Attention is given to the concept of minority status as it relates to prejudices, discrimination and segregation in contemporary life. (Prerequisite: SOC 152)
SOC 359  Social Welfare as an Institution 4 credits
This course examines basic social welfare theory and methods in order to understand the structure and function of public and private welfare in American society. Social welfare is examined as part of the larger American social structure, reflecting cultural values as well as political and economic processes. Attention is given to several areas of social welfare in which specialization has occurred, including work with the elderly, the chemically dependent and battered children and adults. (Prerequisite: SOC 152)

SOC 451  Social Psychology 4 credits
Students examine how the individual's personality, behavior and attitudes are shaped through interaction with others. The course deals with such issues as conformity, persuasion, aggression, altruism, and attraction. Individual behavior is understood in light of symbolic communication and the social construction of the self. (Prerequisite: SOC 152 or PSY 101)

SOC 452  Social Organization 4 credits
This course addresses the fundamental question of how and why social organization is possible. Attention is given to major concepts and theories of social structure, forms of social organization (groups, communities, networks, formal organizations), basic social processes (integration, differentiation, regulation, change), the emergence of social organization from individual decision-making, and the sociology of work and occupations. (Prerequisite: SOC 152)

SOC 453  Social Theory 4 credits
This class provides an overview of classic and contemporary theory including a discussion of the works of Karl Marx, Max Webber, Georg Simmel, Emile Durkheim, George Herbert Mead, Talcott Parsons, Ralf Dahrendorf, Anthony Giddens, and others. Social theory is examined as a continually evolving process that both inspires and enlightens sociological research. **This course serves as the capstone experience for the sociology major. (Prerequisite: SOC 152)

SOC 488  Independent Study 1-4 credits
With the help of an instructor, students design their own learning activities, which may include readings, independent research, projects, and papers. (Prerequisite: SOC 152)

SOC 498  Internship 1-15 credits
Students participate in internships in social service agencies, local government, urban studies and related fields of interest under supervision of field professionals and staff members of the sociology department. (Prerequisites: SOC 152; sociology majors only)

Spanish (SPA)

SPA 101  Beginning College Spanish I 4 credits
This course introduces basic vocabulary along with present and past tense verbs. Cultural notes and short readings are included along with the basic grammar. Immediate use of the language is encouraged.

SPA 102  Beginning College Spanish II 4 credits
This course continues vocabulary building through short readings and dialogues in simulated real-life situations. Grammar concentrates on past-tense review, present subjunctive, perfect tenses, the future, commands, and object pronouns. Cultural readings and film are included. (Prerequisite: SPA 101 Beginning Spanish I or equivalent; usually 2 years of high school Spanish)

SPA 201  Intermediate College Spanish I 4 credits
In this course basic grammar is reviewed with increased emphasis on composition and conversation. An accompanying reader is included to expand vocabulary and recognition of familiar structures as well as provide literary and cultural material for discussion. Verb tenses include an introduction to the subjunctive. (Prerequisite: SPA 102 Beginning Spanish I: Second Semester or equivalent; usually 2 years or more of high school Spanish)

SPA 202  Intermediate College Spanish II: Second Semester 4 credits
This course is a continuation of SPA 201 with the same texts. Continued refinement of writing and conversational skills with emphasis on cultural issues is featured. Verb study is expanded to include all tenses. (Prerequisite: SPA 201 Intermediate Spanish II: First Semester or equivalent; usually 2 years or more of high school Spanish)

SPA 301  Advanced College Spanish I 4 credits
An advanced Spanish language course focusing primarily on grammar review and writing with regular conversation sessions. The course includes intensive and detailed work in expository and creative writing, syntax, stylistic and idiomatic usage. There is also some introduction to advanced translation in Spanish. (Prerequisite: SPA 202 Intermediate Spanish II: Second Semester or equivalent; usually 3 years of high school Spanish)

SPA 302  Advanced College Spanish II 4 credits
An advanced Spanish language course focusing primarily on vocabulary expansion and conversation with some writing exercises and structure review. Conversational practice with special emphasis on aural-oral skills. A variety of reading material is assigned as preparation for class discussion. Videos, movies, and audiocassettes may also be assigned. (Prerequisite: SPA 202 Intermediate Spanish II: Second Semester or equivalent; usually 3 years of high school Spanish)

SPA 401  Advanced Spanish IV: Topics in Spanish Linguistics, Writing or Culture 4 credits
This course is designed to provide the student with advanced Spanish language proficiency. The specific topic may vary depending on the year and the instructors. Examples might include Spanish in the Workplace, Spanish Linguistics, or other related topics. (Prerequisite: SPA 302 or equivalent)

SPA 402  Advanced Spanish IV: Readings in Contemporary Spanish Literature 4 credits
A course designed to expose the student to representative writers of current trends in the literature of Spain and Latin America. Some literary movements explored are magic realism, post modernism, feminism, and the testimonial novel. The student will read novels, short stories, theater, poetry, and view occasional films. Authors may vary from year to year. (Prerequisite: SPA 302 or consent of instructor; based on interview and proficiency test)

SPA 403  Advanced Spanish IV: Voices of Latinos in the U.S. 4 credits
A course designed to examine the stories of Latinos in the U.S. as told by them. Authors read are of Puerto Rican, Cuban, Dominican, and Mexican American origin. Special emphasis is placed on practices and values held both here and in the cultures of origin. Such subjects as family, social and economic struggles, individual aspirations, and spiritual needs are covered. Language issues are highlighted and film is used to complement the readings.

SPA 488  Spanish Independent Study 1-4 credits

SPA 498  Spanish Internship 1-12 credits
**Special Education (SPED)**

**SPED 562  Literacy Strategies for Grades K-6: SPED 6 credits**
This course meets the MN Elementary Education Reading Rule requirements and focuses on teaching strategies for special education.

**SPED 573  Fundamentals: Autism Spectrum Disorders 3 credits**
An introduction to the dynamics of autism spectrum disorders, their effect on students' education, legal responsibilities of schools, and collaboration among schools and other agencies who serve these youth.

**SPED 574  Communication and Social Skills Training 3 credits**
A study of strategies and interventions for promoting the development of communication skills and social skills.

**SPED 575  Interventions: Autism Spectrum Disorders 3 credits**
Development of functional skills instruction including applied behavior analysis, sensory integration, and functional and ecological assessment procedures for the instruction of learners with autism spectrum disorder.

**SPED 580  Ethical Issues for Professional Educators of Exceptional Learners 3 credits**
A study of ethics and moral philosophy with application to the field of special education. Current educational issues will be examined in the context of the lives and careers of the PK-12 special educator.

**SPED 581  Instructional Strategies: Mild/Moderate Disabilities 3 credits**
An examination of the knowledge and skills needed to learn about and apply instructional strategies in pre-K-12 classroom settings.

**SPED 582  Teaching Students with Linguistic Differences or Difficulties 3 credits**
A study of the issues and approaches to educating a culturally and linguistically diverse population and those with reading difficulties.

**SPED 583  Collaborative Teaching in Inclusive Settings 3 credits**
A Study and applied practice in collaboration teaching between general educators and special educators and paraprofessionals in both settings.

**SPED 584  Interventions for Students with Emotional and Behavioral Disorders 3 credits**
Application of evidenced-based interventions focused on behavioral, psycho-educational, medical and ecological theories for working with youth with EBD in educational settings.

**SPED 586  Learners with Disabilities: Educational Assessment 3 credits**
Development of competencies in the use and interpretation of instruments to measure educational achievement, learning discrepancies, and inferential thinking and conceptual development.

**SPED 589  Collaborative Consultation in Special Education 3 credits**
An examination of techniques with relation to collaborating with parents, caregivers, community services, and other support services to enhance the learning of the learner with special needs.

**SPED 590  Teaching Students with Math or Language Difficulties 3 credits**
An examination of the mathematical and writing needs of learners in contemporary classrooms and research-based practices for meeting those needs.

**SPED 591  Applied Experience in Learning Disabilities 6 credits**
Students complete supervised practice in teaching learners with special needs. Specialized methods and on going diagnosis are used within a clinical setting. (Prerequisites: All course work within specified licensure program.)

**SPED 593  Applied Experience in Autism Spectrum Disorders 6 credits**
Supervised practice in teaching learners with special needs. Specialized methods and ongoing diagnosis are used within a clinical setting.

**SPED 595  Applied Experience in Emotional Behavioral Disorders 6 credits**
Students complete supervised practice in teaching learners with special needs. Specialized methods and on going diagnosis are used within a clinical setting. Prerequisites: All course work within specified licensure program.

**SPED 596  Behavior Management 3 credits**
An examination of positive behavior teaching and support for promoting acceptable behavior in school and grounded in research based interventions.

**SPED 598  Fundamentals: Emotional and Behavioral Disorders 3 credits**
An introduction to the dynamics of emotional and behavioral disorders, their effects on students' education, legal responsibilities of schools, and collaboration among schools and other agencies who serve these youth.

**SPED 599  Adolescents with Emotional and Behavioral Disorders 3 credits**
An examination of the unique strengths and needs of adolescents with emotional and behavioral disorders.

**Student Support Services (SSS)**

**SSS 110  College Reading 2 credits**
This course prepares students for the complexity and intensity of college-level reading demands. The course focuses on the types of textual material students will encounter in various academic disciplines, e.g., history, psychology, science, literature, and so on. Emphasis is placed on developing the critical thinking required by college professors when they ask students to read a text in their discipline. Students with ACT scores of less than 20 in Reading are required to take this course their first semester on campus.

**SSS 120  College Turning Points 2 credits**
This course is designed to teach students on academic probation successful strategies, learning techniques, practical knowledge, and life management skills to stay on course in their college journey. Students use journals and class discussion to reflect on personal mindsets and decision-making.

**SSS 125  Student Success Strategies 3 credits**
This course will enable students to develop the necessary skills to lead themselves academically, personally and professionally. This course will teach students about the resources and technology available to assist in their academic success. Specific topics of time management and goal setting will lead students to develop and utilize appropriate study techniques. Topics in life skills will lead students to a better understanding of self and others, and encourage the development and utilization of strategies to promote positive relationships, self-management, and professionalism. This course is recommended for students new to CSP or online learning.
SSS 200  Leadership Development 3 credits
As you summit Macchu Piccu, learn about your own leadership potential and build skills in goal-setting, conflict management, boundary-setting, team-building, group facilitation, and morale boosting. Apply concepts in ethics, servant leadership, emotional intelligence, and leadership styles to your own life and roles today while developing strengths for your future. (This class includes a study abroad and service-learning component.) Additional trip fees will apply.

SSS 201  Transfer Transitions 1 credit
The Transfer Transitions course guides and supports transfer students entering the Concordia University community by familiarizing them with campus resources, campus culture, and opportunities for success. The course fosters a smooth, effective, and efficient college to college transition. Designed for transfer students who have completed 20 - 90 college-level credits.

SSS 225  Career Strategies 2 credits
This course will allow students to evaluate how their individual strengths and skills are relevant and related to the need of a potential employer. Students will develop best practices for professional networking, resume writing and interviewing. Using knowledge gained in this course, students will be able to tailor their professional brand to specific employers and job positions.

SSS 497  College Transitions Tchg Asst 1 credit
Assist new students’ successful transition from high school to college through College Transitions course.

Theatre (THR)

THR 101  Introduction to The Theatre 2 credits
This course introduces the student to basic history, theory, production and performance elements of theatre arts. Students learn about theatre from many perspectives. In addition to studying primary and secondary materials, taking quizzes and/or tests, students participate in end of term individual or group projects. Attendance at area theatre productions required.

THR 111  Theatre in Practice 0-2 credits
Concordia’s theatre department, in service to campus and community, offers opportunities for involvement in major theatre productions, workshop dramas, and various experimental undertakings during the school year. Auditions for all productions are open to all Concordia students. This course can include work on theatrical productions as actors and/or crews.

THR 112  Theatre in Practice II 0-2 credits
Credit is given for major involvement in theatre productions, workshops, and other approved situations. Major involvement is defined as activities such as stage managing, assistant directing, designing, and directing projects. (Prerequisite: consent of instructor)

THR 131  Improvisation 2 credits
This course will provide basic instruction in performance improvisational techniques for the theatre.

THR 160  Introduction to Dance 2 credits
This course examines the fundamental principles, practices, and vocabulary of the basic movement skills of dance, introducing it as both an art form and exercise activity. A special emphasis is placed on Cultural Folk Dances from around the world, their origin, purpose, history, function, costume, music, and dance steps. The basics of modern, ballet, tap, and jazz dance movement are incorporated into warm ups to provide a wide overview of dance technique. Through readings, research, and film viewing, students are introduced to basic dance forms and history. Students are introduced to each dance style with a focus on body awareness and alignment. Warm ups and across the floor movement are incorporated to develop strength, flexibility, musicality, and coordination.

THR 201  Dance for Musical Theatre 3 credits
Through the study and practice of the various styles of dance used on the musical theatre stage, such as ballet, modern, jazz, and tap, this course will focus on dance technique, character development through movement, and performance skills. Execution and exploration of choreographed pieces from musical theatre repertoire will be taught and performed in a final Student Showcase. Students will be introduced to a wide dance vocabulary as well as to the major contributors/choreographers of Musical Theatre. Prerequisite: May be repeated once as an elective which may count as a general elective or be credited to a theatre major.

THR 221  Acting I 4 credits
Through improvisation, monologue, and scene work, students learn and develop the basic techniques for approaching the acting process. These include relaxation, imagination, spontaneity, concentration, character analysis, and using the voice, face, and body to assist in creating a complete and complex character.

THR 241  Script Analysis 4 credits
Students will analyze a variety of performance texts from differing perspectives. A traditional approach incorporating literary analysis to understand the internal workings of the text on paper, will be combined with an examination of the text as it may be translated into performance, from the perspectives of the designer, director and actor.

THR 251  Stagecraft 4 credits
The course provides an introduction to the scope, tools, materials and practices of stagecraft and technical management in the theatre today. The course utilizes formal lectures, group discussion, outside projects, attendance at outside theatre productions and practical lab sessions to cover the material presented.

THR 253  Makeup for the Stage 2 credits
Fundamentals of two and three-dimensional stage make-up through character analysis, design and application. Extensive practical experience through laboratory and possible crew work on departmental productions. Each student will be required to purchase his or her own makeup materials.

THR 262  Modern Dance Technique 3 credits
Students will be introduced to the basic movements, concepts, and technique of modern dance with a focus on breath, strength, alignment, and flexibility. Students will learn about the pioneers of modern dance (Loie Fuller, Isadora Duncan, Ruth St. Denis, Doris Humphrey, Martha Graham) as well as the current contributors to the dance form, regarding their stylistic contributions and differences. Reading assignments and quizzes will be given in addition to the technique class. Students will learn and perform a modern dance piece during the semester and perform in a final student showcase.
THR 263  Jazz Dance Technique 3 credits
This course will introduce and practice the basic movement, dance terminology, and style of jazz dance technique, focusing on stretch, strength, body awareness, rhythmic ability, and coordination. An appreciation and study of the origins and evolution of jazz dance, along with its major contributors, will be emphasized. The technique class will focus on jazz dance vocabulary and steps, isolations, center combinations, and across the floor patterns. Students will learn a choreographed jazz dance and perform in a final student showcase.

THR 291  Topics in Theatre 1-4 credits
This course offers in-depth analysis of a selected topic in theatre such as film, children's theatre, drama in worship, stage management, or theatre management in a seminar setting. The needs of students and interest of theatre faculty determine content.

THR 301  New York Theatre Tour 2 credits
Faculty will lead a one-week exploration of contemporary theatre in New York City. Participants will attend several productions and will participate in discussions following each performance. Tour is scheduled during the second week of January even numbered years. Additional fee for housing and transportation. A reaction paper is required at the conclusion of the tour.

THR 302  London Theatre Tour 2 credits
An immersion into London's vibrant theatre scene, this course explores numerous aspects of the English stage, including both the classical and modern theatre traditions. Participants will attend several productions and visit historic literary sites. Students may also participate in a workshops offered by various theatre organizations. In preparation for this work, participants may be asked to prepare a Shakespeare monologue. The tour will include a day trip to Stratford Upon Avon and the Royal Shakespeare Company. Assessment will be based on two play reviews as well as a final paper on a selected topic. Additional Fees Required.

THR 321  Acting II 4 credits
Further principles in developing a character are learned through more monologue and scene work. Advanced techniques of breathing, rhythm, focus and facial mask are taught to help the student explore the field of potential and lead the actor out of the known and into the unknown. (Offered every other year. Prerequisite: THR 221 or consent of instructor)

THR 326  Voice, Diction & Dialects 2 credits
Students learn production and placement of sound through various exercises, leading to character development. Students are also introduced to techniques for learning a foreign dialect.

THR 335  Scenic Design 4 credits
This course is an introduction to the theory and techniques of scenery design. Three subject areas are combined to formulate the scope of the course: literature analysis, aesthetic design techniques and materials, pragmatic design production, and organization. Attendance at area theatre productions is required. Laboratory hours required. (Prerequisite: THR 251 or consent of instructor)

THR 356  Costume Design 4 credits
This course will be an introduction to the art and practice of costume design. Emphasis will be on analysis of the costume design process and organization from script to design concept to the workable costume for the actor. Attendance at area theatre productions is required. Laboratory hours required. (Prerequisite: THR 251 or consent of instructor)

THR 357  Lighting and Sound 4 credits
This course is an introduction to the theory and the techniques of lighting and sound design for the stage. Three subject areas in both aspects of theatre will be discussed in this course: basic understanding and connection of the equipment, basic design, and a basic understanding of the aesthetics of sound and lighting design. Laboratory hours required. (Prerequisite: THR 251 or consent of instructor)

THR 364  Tap Dance Technique 3 credits
This course is an introduction to the fundamental vocabulary and technique of tap dance, its history as an art form, and its major contributors to the style. Students learn a basic technical foundation, with an emphasis on the building block steps (spank, shuffle, flap, cramp roll, Shim Sham, Maxie Ford) while also concentrating on proper articulation and execution of movement. Students work on a choreographed routine and perform in a final student showcase.

THR 365  Dance History 3 credits
A survey of dance history from origins in ancient civilizations up to the twentieth century, this course will examine the function of dance in a social, political, religious, and cultural context. Through text reading, research projects, and viewing, students will analyze the development of dance, its significance and role in history.

THR 366  Choreography/Composition 3 credits
This course will explore the process of dance making, by studying the principles of composition and the thematic development and organization of movement material. Students will work on and study basic choreographic elements and principles (rhythm, space, time, dynamics) using movement exploration, improvisation, and other creative skills to develop compositions, with a concentration on solo or small group dances, which will be performed in a final student showcase.

THR 367  Ballet Technique 3 credits
This course will introduce the basics of classical ballet. Students will learn the basic positions of the feet and arms, fundamental ballet steps, and French terminology, through barre exercises, center floor work, and across the floor patterns. This class will also emphasize ballet vocabulary and style, proper body alignment, strength, flexibility, and musicality. Students will learn a choreographed ballet piece and perform in the final Student Showcase.

THR 445  Theatre History, Theory, and Literature I 4 credits
A survey course covering the history, theory and literature of theatre from the beginnings of performance up to the early Renaissance in the west. Readings of primary sources are combined with secondary sources such as criticism, videos, and attendance at live theatre events to form a theoretical and historical context for specific periods of development and specific dramatic works.

THR 446  Theatre History, Theory, and Literature II 4 credits
A survey course covering the history, theory and literature of theatre starting from the Renaissance in the west up to modern theatre of performance in the variety of contexts we may study today. Readings of primary sources is combined with secondary sources such as criticism, video, and attendance at live theatre events to form a theoretical and historical context for specific periods of development and specific dramatic works.
URB 478 Directing 4 credits
Studio course focusing on the basic fundamentals of stage direction. Script analysis and directorial concepts are executed throughout the semester in preparation for a final prepared performance in the form of a one act play or excerpt from a full-length play. As directing requires knowledge of many aspects of the theatrical art, this course is seen as a culminating activity taken after a solid foundation of other theatre course work. Attendance at area productions is required. (Prerequisite: THR 241)

THR 488 Independent Study in Theatre 1-4 credits
Independent study offers students an opportunity to investigate and study an area of theatre of their own choosing.

THR 498 Theatre Internship 4-16 credits
Students participate in a first-hand theatre experience at a local professional or semi-professional theatre. The student, through observation and/or direct involvement, learns practical application of drama theories and theatrical principles. The student and internship advisor select an appropriate internship site that meets the needs and interests of the student. (Prerequisite: Consent of advisor and department chair)

Urban Studies (URB)

URB 201 Mission Shift Institute I 3 credits
This course introduces students to south Minneapolis, exposing them to the issues and topics they will study in greater detail in other U4C courses.

URB 202 Mission Shift Institute II 3 credits
This course continues the introduction of students to south Minneapolis, exposing them to the issues and topics they will study in greater detail in other U4C courses.

URB 310 Principles of Urban Ministry 3 credits
This course is intended to provide the learner with an introduction to theory and methodology of urban ministry from a Biblical perspective. An overview of the history, theological trends, leadership and future of urban service, with attention to Biblical principles for evaluating the strengths and weaknesses of urban service and designs will be covered to give the students a greater understanding of urban service.

URB 320 History and Contemporary Issues 3 credits
This class is designed to give students a thorough understanding of the history and development of Minneapolis as well as its current trends and challenges. It gives the student and in-depth understanding of the milieu in which he or she will be studying the rest of the urban classes. The course will be taught using various learning methods including reading, lectures, discussions, research, writing, field trips, media presentations and guest speakers. As in integrative approach, the student will engage in a combination of classroom preparations, field experience and post-experience analysis, creating a critical reference point for the student to deepen his or her Christian worldview, cross-cultural engagement, and understanding of diverse social and cultural contexts.

URB 330 Demographics and Research Methods 3 credits
This class instructs students in the methods and procedures on how to conduct and read urban demographics. The class will focus on the consumption of demographic material to make competent, strategic decisions. The class will also require students to conduct mini-research projects to further their understanding of compiling demographic decisions.

URB 340 Significant Urban Service Issues 3 credits
This class is designed to give students a good understanding of several interrelated areas of urban service. The students will learn from practitioners and specialists in each of the following areas: chemical dependency (including detox, intervention strategies, treatment methods, community resources, 12-step programs, etc.), teen pregnancy, prostitution and the sex industry, HIV/AIDS, Homeland Security/INS, domestic violence, narcotics distribution and gangs.

URB 410 Urban Social Psychology 3 credits
This course will cover various phenomena related to social influence - the power of people to affect, persuade, or control the beliefs or behaviors of others. The student will become familiar with fundamental topics in social psychology, such as perception, motivation, attitudes, and attitude change.

URB 420 Intercultural Communication in an Urban Setting 3 credits
This course emphasizes parallels in learning a language and learning a culture in the urban, cross-cultural context. Course assignments and discussions are designed for application in everyday encounters with individuals from other cultures within the city.

URB 430 Urban Economics, Entrepreneurship and Community Development 3 credits
This course is a study of the process of forming and managing a non-profit organization, with a focus on the unique contributions and characteristics of faith-based organizations. Students will spend eight hours on-site at a local ministry non-profit, attending board meeting, interviewing the chief executive and observing programs. Through this field study, students will witness the application of the concepts taught in class and will be asked to assess the various aspects of the non-profit they are studying. In addition, students will develop an overall concept/vision for a non-profit organization they would like to start and will develop a strategic plan and case statement for it.

URB 440 Race and Ethnicity in America 3 credits
In this course students will examine the issues surrounding race relations in the United States. This examination will include some of the history of race relations leading up to the most current racial climate. The class will develop a Biblical grid through which to understand the issues. Students will not only study the issues but also learn to think critically about Christian and secular models currently offered to solve racial problems in our nation. The class will also attempt to recast valuable secular models into Biblical categories. The class will suggest alternative modes of thinking about race relations to those concerned individuals and institutions in our culture.

URB 498 Urban Ministry Fall Internship 3 credits
Supervised experience in a non-profit/ministry in the urban, cross-cultural context. This course requires ministry involvement totaling 50 hours per credit in the area of the student’s emphasis. A weekly internship seminar will guide the student through the entire internship experience.

URB 499 Urban Ministry Spring Internship 3 credits
Supervised experience in a non-profit/ministry in the urban, cross-cultural context. This course requires ministry involvement totaling 50 hours per credit in the area of the student’s emphasis. A weekly internship seminar will guide the student through the entire internship experience.

PhD, St. Louis University

Rachel Krueger, Assistant Professor of Practice, Mathematics
MS, University of Nebraska

Robert Krueger, Professor of Mathematics
PhD, University of Nebraska

Christine Kudelka, Professor of Practice, Business
MA, Concordia University Saint Paul

Lisa Kuffel, Associate Professor of Practice, Nursing
MSN, Herzing University

L

Eric LaMott, Professor of Kinesiology
PhD, University of Minnesota

Heath Lewis, Instructor of Theology and Ministry
MA, Gonzaga University

C. Craig Lien, Professor of Practice, Business
MBA, University of St. Thomas

Jeanne Lojovich, Assistant Professor of Physical Therapy
PhD, University of Minnesota

Miriam Luebke, Professor of Psychology
PsyD, Illinois School of Professional Psychology

David Lump, Professor of Theology and Ministry
ThD, Concordia Seminary St Louis

M

Taylor Mach, Associate Professor of Science
PhD, Virginia Polytechnic Institute and State University

Lonn Maly, Assistant Professor of Education
MSEd, Drake University

Steven Manderscheid, Professor of Business
EdD, University of St Thomas

Renata Mayrhofer, Instructor of Business
MSBA, Boston University

David Mennicke, Professor of Music, Theatre and Dance
DMA, University of Arizona

Stephen Morgan, Professor of Psychology
PhD, University of Wisconsin

Heather Moulzolf, Instructor, Nursing
DNP, St. Catherine University

Monica Murray, Professor of Music, Theatre and Dance
DMA, University of Minnesota; JD, William Mitchell College of Law

Athena Novack, Associate Professor of Practice, Education
EdS, University of St. Thomas; MA, University of St. Thomas

Stephen O’Connor, Assistant Professor of Education
EdD, Saint Mary’s University of Minnesota

Joseph Ostrem, Assistant Professor of Kinesiology
PhD, University of Minnesota

Michele Pickel, Associate Professor of Education
PhD, University of Missouri

Jan Puffer, Assistant Professor of Practice, Theatre and Dance
BFA, Florida State University

Jason Rahn, Instructor of Business
EdS, Concordia University Saint Paul; MA, Concordia University Saint Paul

Marilyn Reineck, Professor of Communication Studies
PhD, University of Minnesota

Thomas Ries, Professor of Business
PhD, University of Minnesota

Jean Rock, Associate Professor of Business
PhD, Capella University

Mark Rosenwinkel, Associate Professor of Music, Theatre and Dance
MFA, Florida State University

Stephen Ross, Associate Professor of Kinesiology
PhD, University of Illinois

Janet Rounsville, Associate Professor of Practice, Nursing
MSN, South Dakota State University

Peter Rundquist, Professor of Physical Therapy
PhD, University of Minnesota

Matthew Ryan, Associate Professor of English
MFA, Spalding University; JD, Thomas M. Cooley Law School

Kendra Saal, Associate Professor of Practice, Nursing
MSN, University of Phoenix

Kelly Sadlovsky, Assistant Professor of Education

Sanjay Sarkar, Assistant Professor of Physical Therapy
PhD, University of Minnesota

Thomas Saylor, Professor of History and Political Science
PhD, University of Rochester

Joel Schuessler, Associate Professor of Business
PhD, Capella University

Mark Schuler, Professor of Theology and Ministry
ThD, Concordia Seminary

Rhoda Schuler, Professor of Practice, Theology and Ministry
ThD, Luther Seminary

Erin Simunds, Instructor of Physical Therapy
MS, University of Wisconsin

Shari Speer, Associate Professor of Practice, Music, Theatre and Dance
MM, Westminster Choir College

Suzanne Starks, Associate Professor of Education
EdD, Argosy University

Cheng Thao, Assistant Professor of Computer Science
PhD, University of Wisconsin

Amy Toonstra, Instructor of Physical Therapy
DPT, St. Scholastica

Lyndsey Vandenberg, Instructor of Physical Therapy
DPT, Mayo School of Health Sciences

Cate Vermeland, Professor of Practice, Art and Design
MFA, University of Minnesota

Michael Walcheski, Professor of Human Services
PhD, Western Michigan University

Laura Wangsness Willemsen, Assistant Professor of Education
PhD, University of Minnesota

Heather Wegwerth, Instructor of Business
MS, Saint Mary’s University of Minnesota

Keith Williams, Professor of Art and Design
MFA, University of Iowa

Barbara Wissink, Assistant Professor of Education
EdD, Hamline University

David Woodard, Professor of Practice, History and Political Science
PhD, University of Minnesota

Lee Pao Xiong, Instructor of History and Political Science
MA, Hamline University
Y
Mary Ann Yang, Associate Professor of Biology
PhD, University of Illinois

Z
Jodi Zastrow, Instructor of Nursing
MSN, Walden University
