COMPUTER SCIENCE (CPSX)

CPSX 200   Career Navigation and Exploration in CS 3 credits
This course will help you find a coding job upon graduation. Not just any job; one that excites you and meets your financial needs. In this course, you will explore career paths in Software Engineering and related fields, potential salary outcomes, and the skills you need to understand if these salary outcomes will support you. This exploration will lead you to identify target jobs and opportunities. You will plan the steps you need to take to achieve your goals. This course is offered through Rize.
