

# HEALTH SYSTEMS (HAMX)

---

**HAMX 200 Health Systems of The United States 3 credits**

This course is your introduction to the US healthcare system and the practice of healthcare management. You'll learn how the healthcare industry functions and explore the roles and impacts of its various parts. You'll also have the opportunity to compare and contrast the US healthcare system with those of other nations. By the end of this course, you'll know the ins and outs of the American healthcare system. This course is offered through Rize.
