

DIAGNOSTIC MEDICAL SONOGRAPHY(AAS)

Concordia University, St. Paul offers an Associate of Applied Science (AAS) in Diagnostic Medical Sonography degree program, which is designed to prepare students to work as health care professionals, to interact with other health care professionals and patients in a professional and ethical manner, to develop the best possible technical skills in sonography, and to demonstrate at all times the utmost respect and concern for the well-being of the patients they serve.

Graduates will be prepared to provide health care services as sonographers. The diagnostic medical sonographer works under the direction of a physician, using ultrasound imaging techniques for purposes of diagnosis.

Degree Requirements

Associate of Applied Science (<http://catalog.csp.edu/undergraduate/academic-information/graduation-requirements/>) degree consists of a minimum of 60 credits, which includes a minimum of 20 general education credits and a minimum of 30 program-related occupational or technical credits.

* Courses count towards general education requirement.

CSP's Associate of Applied Science (AAS) in Diagnostic Medical Sonography (DMS) prepares students to take the ARDMS board examinations (SPI and a specialty board AB or OB). SPI can be completed after successful completion of our Ultrasound Physics course and the specialty boards can be taken 60 days prior to graduation. To see what is required to sit for each ARDMS board examination, please click here (<https://www.ardms.org/get-certified/application-and-exam-resources/>). The ARDMS board examinations (SPI and a specialty board) are required to practice in each state. In addition, currently New Hampshire, New Mexico, North Dakota, and Oregon are the only states with approved legislation mandating the licensure of sonographers within those particular states as an additional requirement. To see the additional requirements for each of those states, please click here (<https://www.sdms.org/advocacy/state-licensure/>).
